by FAR 13.106-1(b)(2) for restricting competition on this procurement. **Competition is restricted on this procurement for the reason below:**

- (X) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements
- () Unusual and Compelling Urgency
- () Industrial Mobilization, Engineering, Developmental or Research Capability or Expert Services
- () International Agreement
- () Authorized or Required by Statute
- () National Security
- () Public Interest

5. **Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):** With a required start date of March 1, 2025, the incumbent contractor, CRAssociates is the only source in the position to provide all the requirements of the PWS. CRAssociates has the appropriated staff, systems and facility equipped to provide the continuity of highly specialized services to the Veterans in the area thus avoiding unacceptable delays in fulfilling the agency's requirements.

The services required by this procurement are essential to the continued patient care of the Veterans primarily residing in Daggett, Duchesne and Uintah counties of Utah.

6. **Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:** The long-term requirement is in the final stage of evaluation by the Technical Evaluation Board. This short-term interim contract will ensure continued services until the long-term acquisition is awarded.

The Contracting office conducted market research on Veteran Small Business Certification (VetCert) and Dynamic Small Business Search (DSBS). The VetCert, using North American Industry Classification System (NAICS) 621498; yielded 270 Service Disabled Veteran Owned Small Business (SDVOSB) and Veteran Owned Small Business (VOSB), a search using the state of Utah; yielded 181 SDVOSB and VOSB. Upon review of the VetCert database, no SDVOSB's or VOSB's were identified in Utah with a NAICS Code of 621498. The search performed using Dynamic Small Business Search (DSBS) for counties of Daggett, Duchesne, and Uintah counties, NAICS 621498 yielded no SDVOSB or VOSB vendors in those counties.

A sources sought was not issued as part of market research for the short-term interim contract due to the length of time to outfit an operational CBOC. Personnel familiar with procuring acquisition services, identify a timeframe, to fully standup an operational CBOC, at four (4) months to six (6) months.

CRAssociates, Inc, incumbent contractor, is the only source that can provide existing services in the required time frame. There are no other sources available with existing patient care CBOC capabilities located Daggett, Duchesne and Uintah counties of Utah.

7. **Determination by the CO that the Anticipated Cost to the Government will be Fair and Reasonable:** The Contracting Officer will utilize various methods to determine fair and reasonable pricing such as, comparison of prices from the current contract, comparisons with the proposed Independent

Government Estimate, analysis of other than certified cost or pricing data provided by the contractor and review Bureau Labor Statistics (BLS) - Consumer Price Index (CPI) Escalation rates. The Medical Sharing Office SharePoint site indicates a CPI rate of 1.44% for FY25.

8. Description of the Market Research Conducted and the Results, or a Statement of the Reasons

Market Research Was Not Conducted: The program manager conducted market research over the internet using Google search engine for Family Practice Clinics, which should be able to provide similar services, and through the Care in the Community (CiTC)/Mission Act staff. Potential facilities were contacted by CiTC staff to verify their capabilities to provide Primary Care services within the Mission Act guidelines, and the existing contract requirement(s):

- **Roosevelt Community Clinic at the Uintah Basin Medical Center.**
The Primary Care Clinic within the facility has declined any CiTC Contracts for Primary Care Services, and only provides specialty care, and Emergency Services to our Veterans through the Mission Act – CiTC contracts. Their current staffing model would not meet the terms of the contract in regard to the PACT model of care. In addition, they do not provide same day access.
- **John Wells Family Practice, Roosevelt, Utah.**
The practice does not have the staffing to meet the needs of an additional 810 (estimated) patients. In addition, they do not meet the PACT staffing model and same day access is not guaranteed.
- **US Indian Health Services at Fort Duchesne, Utah**
The clinic is located >30 minutes away from Roosevelt, Utah – making Veteran’s drive time eligible for Mission Act (CiTC) services. However, services are only available for federally recognized American Indian and Alaskan Natives in the US. They are unable to meet the needs of our Veteran population.

As described in Section 6 above, market research, to meet the VA Rule of Two, was conducted through a review the Veteran Small Business Certification (VetCert) database and DSBS to determine if two or more service-disabled veteran-owned businesses (SDVOSBs) and veteran-owned small businesses (VOSBs).

The rule of two could not be met because there are not any Service-Disabled Veteran Owned Small Businesses with capability to stand up a CBOC in the timeframe for required services. A subcontracting plan will apply to this requirement.
