DETERMINATION

For

SINGLE SOURCE SOLICITATION - FAR 13 (≤SAT)

Contracting Agency: Department of Defense Education Activity (DoDEA), Procurement Division

1. **Description of Supplies and Services:** Medical Support Services - DoDEA requires services by medical professionals to evaluate and support requests for reasonable accommodations, transfers, voluntary reassignments, various leave programs, other than economy/coach accommodations (OTECA), employee and dependent medical travel, and emergency medical travel from DoDEA employees worldwide.
2. **Description of Action:** A sole source firm fixed price (FFP) contract is planned to be awarded with a total estimated value of [REDACTED]. The period of performance is one 3-month base period and three 1-month option periods. FAR Clause 52.217-8 (Option to Extend Services) will be included in the contract with a 1-month potential time period at a potential estimated value of [REDACTED]. Base period and all options will be evaluated. FY25 Operating and Maintenance (O&M) funds are available for the 3-month base period in the estimated amount of [REDACTED] and for the three 1-month options in the estimated amount of [REDACTED].
3. **Authority:** [FAR 13.106-1\(b\)\(1\)\(i\)](#) and [10 USC 3204\(a\)\(1\)](#) a sole source acquisition - Only one responsible entity can meet DoDEA’s requirements, and no other supplies or services will satisfy the agency’s requirements.
4. **Market Research:**

Incumbent: International SOS Government Services, LLC; 3600 Horizon Blvd., Suite 190, Trevose, PA 19053-4945. CAGE code 6YF97. Not a small business, per SAM.gov for multiple NACIS codes, including 541618 (Other Management Consulting Services).

Potential Source: ArcSource Group, Inc., 6751 Columbia Gateway Dr., Columbia, MD 21046-3138. Cathryn Perry, POC, 410-707-4115, kperry@arcsourcegroup.com. CAGE code 52RK7. Black American, Woman-Owned, Small Disadvantaged Business, per DSBS for multiple NAICS codes.
5. **Rationale for Single Source:** Changes in personnel and changes in the medical evaluation and support services requirement caused unforeseen delays in preparing the required documentation to recomplete the expiring contract. In order to complete the necessary documentation, DoDEA requires an extension—a 3-month base period and three 1-month option periods—of the current contract with International SOS Government Services, Inc., HE125418D8001. Without a bridge contract, the special transportation required by eligible dependents and employees would be delayed, which might have serious medical consequences for the injured, ill, and/or disabled individuals requiring these services. International SOS Government Services, Inc. is the only company that can provide these services in the required timeframe without significant and potentially life-threatening disruptions. Based on the rationale above, the Contracting Office has made the determination to issue a sole source solicitation to International SOS Government Services, Inc. as the only entity that can provide the required medical evaluation and support services in the required timeframe.

If a bridge is not awarded, we would face service disruption, there would be a gap in services, leading to potential delays in approving employee’s medical requests or needed medical transfers. DoDEA would face resource inefficiencies along with challenges to manage the gap of the contract. If medical services are not rendered timely the employee will suffer from not being able to receive the medical attention to resolve the medical illness.

A new contractor would need time to understand the services and needs in the contract required by DoDEA. Engaging in a new contract may result in higher costs for a short period due to the need for a quick onboarding. If medical services are not rendered timely the employee will suffer from not being able to receive the medical attention to resolve the medical illness. DoDEA may also suffer with the quality and consistency of the work due to the new contractor not being familiar with the needs of DoDEA in this contract.

The market research yields ArcSource Group as a potential source for the follow-on award. The incumbent, International SOS Government Services, LLC, will be solicited for a sole source bridge contract under a Justification and Approval based on the imminent need due to the current contract expiring in less than 30 days, 28 February 2025. A follow-on solicitation for award is being prepared simultaneously for continued services for a base and four option periods.

Using the Federal Procurement Data System (FPDS) and Dynamic Small Business Search (DSBS) for NAICS 541618 (Other Management Consulting Services)—the code used for the current contract—and the keywords, *medical evaluation* and *medical services*, yielded the following results:

FPDS

Under *medical evaluation* were Health Facility Solutions Company, which offers architecture, engineering construction phase services and the Management Advisory Group, Inc., which provides human resources, organization review, and related services for businesses. Neither appears able to meet DoDEA’s requirements. Under *medical services* were 209 entries, which included the incumbent.

DSBS

Under *medical evaluation* were the following five matches:

<u>Company</u>	<u>Capable of Meeting DoDEA’s Requirement</u>
ArcSource Group, Inc.	Yes. See <i>Potential Source</i> (above).
National FIT Testing Services, LLC	No. Provides personalized respirator fit testing services.
Your Safety Department, LLC	No. Primarily conducts OSHA testing and training.
Thuneman Corporation	No. Primarily conducts OSHA testing and training.
Assessments Unlimited, LLC	No. Healthcare consulting and education for individuals and businesses.
