

Synopsis:

NASA/NSSC has a requirement for TEES will model, predict, and report on behavior of the two-phase thermosyphon driven actuating radiator being developed for the PaCeSS EIF project. An actuator will be provided for the purpose of developing a mechanical and fluid interface to the PaCeSS test article. The same actuator and support will be provided for an integrated benchtop test to be performed at JSC no later than September 2025. Actuator will be returned after integrated testing.

NASA/NSSC intends to issue a sole source contract to TEXAS A&M ENGINEERING EXPERIMENT STATION 3124 Tamu College Station, Texas 77843-3124 under the authority of FAR 13.106-1(b)(1)(i). It has been determined that TEXAS A&M ENGINEERING EXPERIMENT STATION is the sole provider of TEES will model, predict, and report on behavior of the two-phase thermosyphon driven actuating radiator being developed for the PaCeSS EIF project. An actuator will be provided for the purpose of developing a mechanical and fluid interface to the PaCeSS test article. The same actuator and support will be provided for an integrated benchtop test to be performed at JSC no later than September 2025. Actuator will be returned after integrated testing.

NASA/NSSC will be the procuring center for this effort. Performance will be located at NASA/ Johnson Space Center (JSC).

The Government intends to acquire commercial items and services using the provisions, clauses and procedures prescribed in FAR Part 12 and FAR Part 13.

The NAICS Code for this procurement is 611310.

Interested organizations may submit their capabilities and qualifications to perform the effort in writing to the identified point of contact not later than 7 a.m. Central Standard Time on 3/13/2025. Such capabilities/qualifications will be evaluated solely for the purpose of determining whether or not to conduct this procurement on a competitive basis. A determination by the Government not to compete this proposed effort on a full and open competition basis, based upon responses to this notice, is solely within the discretion of the government.

Oral communications are not acceptable in response to this notice.

NASA Clause 1852.215-84, Ombudsman, is applicable. The Center Ombudsman for this acquisition can be found at http://prod.nais.nasa.gov/pub/pub_library/Omb.html .
