5001	Intelligence Analyst II	2 (Huntsville, AL)
	Intelligence Analyst III	1 (Huntsville, AL)
	Program Manager	TBD

INTRODUCTION

1.3 BACKGROUND

(U) The FBI protects US citizens from terrorist attacks and violent crime as well as foreign intelligence operations, espionage, civil rights violations, public corruption, criminal organizations and enterprises, and white-collar crime. The FBI Laboratory Division provides forensic exploitation of evidence collected in support of criminal and national security investigations. The Laboratory Intelligence Unit (LIU) provides analysis of forensic exploitation to address the requirements of the FBI and the United States Intelligence Community (USIC). Additionally, the FBI's Laboratory Division has recovered and seized improvised explosives devices (IEDs) and related materials from the Department of Defense (DoD) for forensic and technical analysis in support of the ongoing war on terrorism. Subsequently, in December 2004 the Terrorist Explosive Device Analytical Center (TEDAC), located in Huntsville, Alabama, was formally established and given the mission of forensically and technically exploiting for evidentiary, investigative and intelligence purposes IEDs used by terrorists.

(U) Intelligence is often a key element in the development of effective strategies for FBI investigations. The FBI LIU has a requirement to provide timely, all-source strategic, tactical, and raw intelligence and investigative leads related to all facets of Laboratory exploitation. This includes analysis of improvised explosive devices, facilitators, and supply chains, to support TEDAC partners, law enforcement, the USIC, and foreign partners, when necessary, in the detection, identification, and assessment of individuals associated with fabricating and placing terrorist explosive devices and providing material support to IED networks around the world.

(U) As such, the FBI has a need for trained intelligence analysts to assist in responding to requests for information from the US Government and partner agencies, producing intelligence products for dissemination to the USIC and foreign partners and helping to identify potential leads for FBI investigations.

(U) The FBI develops a number of raw and tactical analytical products, reports, briefs, and other deliverables to inform, plan, facilitate, and execute operational and investigative strategies in an effort to mitigate threats to the Homeland or US interests overseas.

1.4 OBJECTIVES

(U) The Objective of this requirement is to provide operational intelligence services in direct support of the FBI Laboratory Intelligence Unit by conducting bulk and targeted exploitation, intelligence, and data analyses to be disseminated to FBI and USIC customers as appropriate.

(U) FBI LIU seeks support services to provide raw intelligence, tactical analysis, and operational analysis, as appropriate, to support LIU's intelligence functions and analytical needs, in furtherance of FBI investigations and operations. Analytical functions include data exploitation, tactical analysis, raw intelligence, as well as threat and targeting analysis, as appropriate.

DRAFT

2 SCOPE

(U) This is a non-personal services contract. The Government shall not exercise any supervision or control over Contractor employees performing the services herein. Such contract service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government.

(U) LIU shall ensure that the Contract Intelligence Analysts providing the labor hours possess the knowledge, skills, and ability necessary to address the applicable analytical tradecraft, investigative, and operational standards required by the FBI's Domestic Investigative and Operations Guide (DIOG), the Intelligence Program Policy Guide (IPPG), and applicable Directorate of Intelligence (DI) Standard Operating Procedures (SOPs). Intelligence functions may require enhanced analytical exploitation and analysis and may rely on additional SOPs as needed.

2.1 DESCRIPTION OF SERVICES

2.1.1 INTELLIGENCE PRODUCTION

(U) Contractor support to the FBI LIU includes data exploitation, the production of raw and tactical analysis, and intelligence support, requiring experience in intelligence report writing. Further description of services will be addressed in the Deliverables section of this Requirement.

2.1.2 PROJECT MANAGEMENT

(U) The Contractor shall manage and administer all efforts undertaken in this requirement to include, but not limited to, the following: ensure all work activities are performed in a timely and cost effective manner while maintaining the highest quality of performance; manage, train, and oversee all personnel and resources utilized in the performance of this requirement; identify and maintain a management structure and organization with overall project control and authority for the performance of work under this requirement. The Contractor shall designate one of the Contract Intelligence Analysts as a Program Manager, in addition to the intelligence production requirements, and primary point of contact for the Contracting Officer Representative (COR) and Government Program Manager.

3 REQUIREMENTS

3.1 PERSONNEL

(U) The labor categories that are within scope of this Contract are the following:

Contract Labor Categories
Intelligence Analyst II
Intelligence Analyst III

3.2 SUBSTITUTION OF PERSONNEL

(U) All personnel will be considered key personnel on this Contract. No substitution shall be made without prior notification to and the concurrence of the Contracting Officer.

(U) During the first 90 calendar days of performance, the Contractor shall make no substitutions of key personnel unless the substitution is necessitated by illness, death or termination of employment. The Contractor shall immediately notify the CO in writing if such a situation occurs and warrants a substitution request.

(U) All key personnel are subject to the following:

- (U) Replacement of any key personnel is subject to the prior written approval of the COR and the CO.
- (U) Any personnel that are removed from this contract at the direction of the FBI or Contractor proposed substitution shall be replaced by the Contractor with appropriately qualified personnel within 14 calendar days of removal unless otherwise approved by the CO. The 14 calendar days are exclusive of the security process time. Any changes proposed and approved shall not have a negative impact on ongoing activities under this Contract.
- (U) The Government reserves the right to request the immediate removal of Contractor employees for failure to perform at an acceptable level, being insubordinate, or for other performance or conduct issues. Failure of the Contractor to effect the immediate removal of such employee will be considered as the Contractor's failure to perform.

3.3 PERSONNEL QUALIFICATIONS

(U) Support services performed on-site at Government facilities will require all Contractor personnel to possess and maintain a TOP SECRET clearance and Sensitive Compartmented Information (TS/SCI) clearances.

(U) To maintain TS/SCI access, the Contractor employee may be required to participate and pass a Counterintelligence (CI) focused Polygraph which will be required for the processing of SCI or

entry into FBI Sensitive Compartmented Information Facility (SCIF) areas. If warranted, Contractor personnel will moreover be subject to an FBI full field, background investigation for entry into FBI facilities (SCIF & non-SCIF locations). The FBI will be the final adjudicator for all access authorization.

(U) Proposed Contract Intelligence Analysts must possess an active TS/SCI clearance at the time of the submission of the quotation.

(U) Contract Intelligence Analysts must sign an FBI Non-Disclosure Agreement to access internal investigative networks and databases. On an annual basis, as directed by the government, Contract Intelligence Analysts with TS/SCI clearances shall file a Security Financial Disclosure Form (SFDF) to remain eligible for SCI access.

3.3.1 INTELLIGENCE ANALYSTS

(U) Contract Intelligence Analysts serving in two (2) Intelligence Analyst II Labor Category shall have experience and training demonstrating they have the knowledge, skills, and abilities as outlined in this SOW and must meet the following minimum requirements:

- (U) A Bachelor's degree from a regionally-accredited college or university.
- (U) A minimum of three years of intelligence analysis work experience in the USIC writing raw and/or tactical intelligence products.
- (U) Experience and/or familiarity with intelligence requirements and processes.
- (U) Strong interpersonal ability, demonstrated by at least three years of experience working on a multi-disciplined team or within a team environment.
- (U) Strong editorial and grammar skills, demonstrated by at least two years of experience in copyediting, print-publishing, or other writing-heavy responsibilities.
- (U) At least five years of experience using Microsoft Office Suite products, including MS Word, Excel, PowerPoint.

(U) Contract Intelligence Analysts with previous military, law enforcement, or other federal government/non-USIC experience is also desired. Additionally, Contract Intelligence Analysts with a hard science or technical background are preferred but not required. Any experience having certified release authority to release and/or disseminate intelligence products is also preferred.

3.3.2 PROGRAM MANAGER

(U) Any Contract Intelligence Analyst designated as Program Manager in the one (1) Intelligence Analyst III Labor Category shall have experience and training demonstrating they have the knowledge, skills, and abilities as outlined in this SOW and must meet the following minimum requirements:

- (U) A Bachelor's degree from a regionally-accredited college or university.
- (U) A minimum of five years of intelligence analysis work experience in the USIC.
- (U) Experience and/or familiarity with intelligence requirements and processes.

- (U) A minimum of three years of leadership and/or supervisory experience.
- (U) Strong interpersonal ability, demonstrated by at least three years of experience working on a multi-disciplined team or within a team environment.
- (U) Strong editorial and grammar skills, demonstrated by at least two years of experience in copyediting, print-publishing, or other writing-heavy responsibilities.
- (U) At least five years of experience using Microsoft Office Suite products, including MS Word, Excel, PowerPoint.

(U) Program Manager with previous military, law enforcement, or other federal government/non-USIC experience is also desired. Additionally, a Program Manager with a hard science or technical background is preferred but not required. Any experience having certified release authority to release and/or disseminate intelligence products is also preferred.

3.4 ESTIMATED LEVEL OF EFFORT

(U) The Government may increase the level of effort, contingent upon the availability of fiscal year funding. Thus, the Contractor must be able to provide additional staffing over the life of the contract should the Government require an increase to the initial level of effort. Surge support is up to three (3) additional Intelligence Analyst II or Intelligence Analyst III personnel at Huntsville, Alabama or Quantico, Virginia. If surge support is required in Quantico, Virginia, rates will be negotiated at that time. If surge is required, the Contractor will be given 5 days to submit candidates for the Government's approval.

(U) The Government estimates the following Full-time Equivalents (FTEs) in order to initially meet the requirements at award.

Labor Category	No. of Personnel	Annual Hours
Intelligence Analyst II	2	1912
Intelligence Analyst III	1	1912
Program Manager (Part-time)	1	TBD

3.5 CANDIDATE REVIEW

(U) The Government reserves the right to review a candidate based on the qualification requirements outlined in the SOW to assess the Contractor's ability to demonstrate that its proposed personnel are optimally suited for the effort, including a meet and greet before beginning the FBI on-board process.

3.6 CONTINUITY OF OPERATIONS (COOP)

(U) Contract performance for this Contract may be determined to be mission essential. Contractor personnel assigned to this Contract to be responsive to the FBI's COOP activation.

COOP activation may require the assigned Contractor personnel to report to a designated COOP location located a minimum of 20 and a maximum of 250 miles from the Contractor's routinely assigned location.

(U) The Contractor will be required to develop a contingency plan for performance which will provide reasonable assurance of performance continuation during COOP activation. The Contractor shall make its best effort to ensure the contingency plan is consistent with FBI COOP planning, as provided by the FBI. The FBI's Critical Mission Assurance Unit is responsible for reviewing and approving the contingency plan.

(U) The FBI will notify the Contractor designee, as identified in the Contractor contingency plan, of the COOP activation. Upon notification of the COOP activation, Contractor personnel previously identified as mission essential will have up to 12 hours after initial contact to report to the identified COOP location. Mission essential Contractor personnel will be required to provide support for a maximum of 30 days or until normal operations can resume. During the COOP activation, performance will be, at a minimum, shift work composed of 12-hour shifts per day.

(U) Lodging and Per Diem during a COOP event would only be covered if the position is deemed mission essential, requires Contract Intelligence Analysts to relocate to the COOP location, and is more than 50 miles from the designated place of performance.

3.7 CONTINUING PERFORMANCE DURING EMERGENCY

(U) During a pandemic or other emergency, the FBI understands the Contractor workforce will experience the same high levels of absenteeism as federal employees. Although the Excusable Delays and Termination for Default clauses used in government contracts list epidemics and quarantine restrictions among the reasons to excuse delays in Contract performance, the FBI expects Contractors to make a reasonable effort to keep performance at an acceptable level during emergency periods.

(U) The Office of Personnel Management (OPM) has provided guidance to federal managers and employees on the kinds of actions to be taken to ensure the continuity of operations during emergency periods. This guidance is also applicable to our contract workforce. Contractor personnel are expected to have reasonable policies in place for continuing work performance, particularly those performing mission critical services, during any pandemic, influenza, natural disaster, or other emergency situation.

(U) Contractor personnel should ensure the following:

- (U) Cross-training of all Contractor personnel as backup for all positions performing critical services.
- (U) Implementation of flexible schedules, shift work, or similar to the maximum extent possible in the workgroup so systems are in place to support successful work in an emergency, as deemed necessary by the FBI.
- (U) Communication of expectations to all Contractor personnel regarding their roles and responsibilities in relation to remote work in the event of a pandemic health crisis or other emergency, as deemed necessary by the FBI.

- (U) Establish communication process to notify employees of activation of this plan.

3.8 TRAVEL AND OTHER DIRECT COSTS

(U) Government-funded travel may be required in support of the requirements. All travel shall be requested and approved in advance by the Government COR and coordinated with the Government Program Manager. Travel will be reimbursed at Joint Travel regulation rates or actual costs, whichever is less. Valid original receipts are required for all expenditures regardless of cost.

(U) If travel reimbursement is requested, the Contractor should attach supporting information presenting the detail of expenses, including dates, destinations, and copies of receipts for reimbursement of transportation, lodging, and rental car.

(U) Contractor travel and allowable expenses shall be proposed in accordance with Federal Travel Regulations (FTRs) with prior approval from the COR. The Government will not reimburse travel expenses or travel time for travel to and from the Contractors' assigned locations or within 50 miles of the government site. The Government will reimburse all reasonable travel-related expenses and client-directed travel as an Other Direct Cost (ODC) on a cost-reimbursable basis with no fee.

(U) Video Teleconferences shall be used to the greatest extent possible. Requests for travel on other than "coach" rates and/or lodging in excess of the approved rate shall be submitted to the COR and approved by the CO prior to execution of such travel.

(U) Other Direct Costs (ODCs) are authorized. Prior to purchasing any ODCs, approval must be obtained by submitting a written estimate for the CO's approval via the COR. This request should include what items are ODCs and why they are needed for the performance of duties.

3.9 DELIVERABLES

3.9.1 ADMINISTRATIVE DELIVERABLES

(U) The Contract Program Manager shall produce two reports for the Government on a regular basis: a Monthly Status Report and a Monthly Financial Report.

(U) The Monthly Status Report shall include a narrative section describing the progress achieved during the reporting period, plans for the forthcoming reporting period(s), and any anticipated problems, including any required Government action. The hours expended during the reporting period for each labor category, Other Direct Costs, travel costs, any miscellaneous costs, costs expended to date, and remaining funds on the contract should also be included. The Monthly Status Report shall include details (to include description and cost) of items purchased during the reporting period and details (description, cost, and serial number) of hardware items received

during the reporting period, if applicable. The Monthly Financial Report shall include up-to-date financial information for funds expensed on a monthly basis, as well as a cumulative monthly basis. Deadlines for both the Monthly Status Report and the Monthly Financial Report are depicted below.

Deliverable Description	Format	Due Date
(U) Monthly Status Report	(U) Electronic copies emailed to COR.	(U) Reoccurring monthly, the 15 th day of the following month by COB.
(U) Monthly Financial Report	(U) Electronic copies emailed to the COR.	(U) Reoccurring monthly, the 15 th day of the following month by COB.

(U) All work papers, documentation, presentations, and any written products prepared by the Contractor in fulfillment of this requirement shall be timely and accurate in accordance with the information provided within this SOW and consistent with established FBI policies and procedures. Work papers, documentation, presentations, and written products prepared by the Contractor in fulfillment of this Contract placed as a result of this solicitation are the sole property of the FBI and may not be shared outside the FBI without the prior approval of the CO and COR.

(U) Additionally, the Contract Intelligence Analysts may be required to provide a weekly report, at the discretion of the Government customer, including but not limited to the LIU Program Manager, Supervisory Intelligence Analysts (SIAs), and/or Unit Chief (UC), detailing work performed during that week and to be provided to LIU's executive management as appropriate.

3.9.2 TASK DELIVERABLES

3.9.2.1 INTELLIGENCE ANALYST DELIVERABLES

(U) Contract Intelligence Analysts are expected to produce required deliverables independently or, if directed by their SIA or UC, in collaboration with other intelligence personnel. Contract Intelligence Analysts are expected to leverage their USIC experience and functional expertise to gain and/or deepen their understanding of threats related to their assigned programs and must be able to develop intelligence exploitation, analysis, and production deliverables associated with their program, as assigned by their SIA or UC.

(U) Contract Intelligence Analysts working in LIU require TS/SCI clearances to effectively serve those programs and functions, as a significant portion of national security threat program work is performed on the TOP SECRET enclave.

(U) Contract Intelligence Analysts supporting LIU shall:

- (U) Identify raw intelligence for potential dissemination to IC partners, LE partners, or both and produce raw intelligence reports when appropriate.

- (U) Conduct research, data exploitation, and analysis at the tactical level of the scale of analysis and, as appropriate, communicate key findings or analytic assessments in tactical intelligence products and through oral briefings.
- (U) Conduct research and analysis to support national threat strategies.
- (U) Analyze, assimilate, and evaluate all available intelligence information relating to their assigned program.
- (U) Prepare factual, non-analytic reports, as necessary, to include summaries.
- (U) Provide specialized intelligence and threat analysis and production support.
- (U) Access and perform research on designated automated intelligence databases for the purpose of identifying information of interest to the customer, downloading the identified information to an appropriate medium, and editing the information into format(s) to be specified by the customer.
- (U) Present briefings to personnel designated by the customer.

(U) The LIU IAs, SIAs, and/or UCs may direct Contract Intelligence Analysts to draft ECs or summary reports to document fact-based research findings, receipts of information, or other facts not suitable for an intelligence product. Contract Intelligence Analysts may draft other investigative supporting documents including, but not limited to, the following: Electronic Communications (ECs), Letterhead Memoranda (LHMs), Cables, and Foreign Dissemination Requests (FDRs). LHMs and Cables are mechanisms to share information outside of the FBI with partners, such as other government agencies or state and local law enforcement. FDRs allow for dissemination of information to foreign partners.

(U) Contract Intelligence Analysts will coordinate all analyses and intelligence products, including ECs, LHMs, Cables, and FDRs, with the appropriate intelligence and operational personnel and obtain approval from their assigned SIA, Acting SIA, and/or UC, in addition to any operational approvers designated by their SIA, A/SIA, and/or UC. Contract Intelligence Analysts in LIU will work with their assigned SIA and UC to develop, coordinate, and receive final approval of their analytical work products.

(U) Contract Intelligence Analysts will evaluate, analyze, and synthesize large quantities of data and information from one or multiple sources into tactical intelligence products to identify new threat actors as subjects for investigations, previously unidentified target vulnerabilities, other government agencies or foreign liaison partners for coordination, private sector partners for coordination, and other entities as deemed necessary. Contract Intelligence Analysts will produce Tactical Intelligence Reports used to summarize the results of tactical targeting efforts and/or identify baseline assessments designed to advance a particular investigation. The primary customers of TIRs are Legat and field office investigative personnel, such as special agents, program coordinators, and IAs performing threat analysis.

(U) The LIU SIAs and/or UC will determine any quotas for intelligence reports and other documents required, based on flow of information and operational needs and will communicate this through the Government Program Manager to the Contract Program Manager.

(U) In the event any Contract Intelligence Analyst exceeds in disseminating 50 raw or tactical intelligence reports during any fiscal year quarterly timeframe (90 days), the Government Program Manager will submit documentation to the Contract Program Manager to incentivize the Contract Intelligence Analyst for exceeding performance.

3.9.2.2 PROGRAM MANAGER DELIVERABLES

(U) In addition to performing deliverables required for a Contract Intelligence Analyst, the Contract Program Manager shall:

- (U) Serve as the responsible representative for the technical and administrative performance of all services required in accordance with this RFQ.
- (U) Establish and maintain a technically proficient and professionally capable staff throughout the period of performance.
- (U) Minimize personnel turnover and promptly onboard new personnel to ensure adequate resource levels needed to meet requirements of the contract and motivate individuals to achieve excellent and timely performance.
- (U) Resolve problems with little or no disruption to the activities performed under the SOW.
- (U) Continually monitor the quality and timeliness of products and services provided under this Requirement throughout the life of the Requirement, collaborating with the COR and/or other designated government representatives in obtaining and delivering feedback on deliverables.
- (U) Develop an understanding of work expectations, templates, and deliverables to facilitate and deliver baseline training to onboarding/new contract employees and monitor performance.
- (U) Ensure every Contract Intelligence Analyst identified to perform work under this Requirement has a clearly defined role, understands their performance and reporting expectations, and provides weekly status updates to the Contract Program Manager to ensure inclusion in the deliverables' status reporting.
- (U) Cultivate a pipeline and bench of cleared resources who can be called upon to fulfill urgent, unusual, or gap resource requirements, such that an individual can be identified and available to assume responsibilities, on a temporary basis, within 48 hours of a request for services.
- (U) Ensure a technically proficient and professionally capable staff is established and maintained throughout the life of the contract.
- (U) Address any Contractor personnel issues and has authority to do so.
- (U) Address any issues with deliverables with the Contract Intelligence Analysts and has authority to do so.
- (U) Identify any risks affecting contract performance and develop and implement mitigation strategies.
- (U) Provide Government Program Manager, CO, and COR with the name of the Contract Program Manager's direct supervisor should any issues arise concerning the Contract Program Manager's performance.

(U) If a deliverable is acceptable, but requires changes, the LIU SIA or UC will sign off on the deliverable receipt as tentatively approved and clearly specify the changes required for full

approval. If a deliverable is not approved, the designated LIU SIA or UC will provide a description of why it was rejected and inform the COR of the unapproved deliverable. If requested by either the Contractor or Government, a meeting may be scheduled to discuss the deliverable in detail.

(U) All services performed by the Contractor shall be subject to review by COR. The FBI shall possess sole ownership of all raw data, source codes, databases, tools, and products developed in conjunction with the work performed under this contract.

(U) The LIU SIAs and/or UC will determine any quotas for intelligence reports and other documents required, based on flow of information and operational needs and will communicate this through the Government Program Manager to the Contract Program Manager.

(U) In the event the Contract Program Manager exceeds in disseminating 50 raw or tactical intelligence reports during any fiscal year quarterly timeframe (90 days), the Government Program Manager will submit documentation to the Contract Program Manager's Supervisor to incentivize the Contract Program Manager for exceeding performance.

3.10 KICKOFF MEETING

(U) The Contractor shall participate in a Kickoff Meeting for this effort not later than thirty (30) days after award. The primary focus of the Kickoff Meeting shall be to establish performance expectations and ensure an understanding of all requirements. In addition, the Contractor and Government shall clarify any concerns about lines of communication, administrative procedures, or other items necessary to effectively execute the Contract. The meeting will be held virtually via Skype, Teams, or similar communication method via the Internet or via telephone conference.

3.11 TRANSITION

(U) The award will include two transition periods: an initial transition period at Contract award (phase-in) and a final transition (phase-out) period at contract expiration. The contract base period includes a 30-day initial transition period from date of personnel onboarding and government personnel to get up to speed.

(U) In the event there is a follow-on contract to this effort awarded to other than the awardee, the awardee shall cooperate to the extent required to permit an orderly change over to the follow-on Contractor, known as phase-out. The Contractor shall provide familiarization with all projects currently under development to the follow-on Contractor. All documentation, customer contact information, etc. shall be provided to the follow-on Contractor. During the transition close-out period, the incumbent shall be fully responsible for all operational activities being performed under this Contract.

(U) The 30-day transition will only consist of the onboarding of the selected Contractor, getting acquainted with the Government requirements, and performing services.

6 PERFORMANCE

6.1 PERIOD OF PERFORMANCE

(U) The performance period of this Contract is from the effective date of this Order Award and continuing for one base year, with four option periods. The initial period of performance includes a 30-calendar-day transition period authorized under the Contract to get all contract personnel into the workspace.

(U) The Government anticipates the following Period of Performance:

PERIOD	BEGIN	END
Base Period	October 01, 2025	September 30, 2026
Option Year 1	October 01, 2026	September 30, 2027
Option Year 2	October 01, 2027	September 30, 2028
Option Year 3	October 01, 2028	September 30, 2029
Option Year 4	October 01, 2029	September 30, 2030
Option Year 5	October 01, 2030	April 01, 2031

6.2 PLACE OF PERFORMANCE

(U) Services provided in support of this task shall be performed primarily onsite at Government facilities located at:

FBI Laboratory
4946 Fowler Road
Redstone Arsenal, AL 35898

Services may be required in the future:

FBI Laboratory
2501 Investigations Parkway
Quantico, VA, 22135

(U) Services may be required at any additional FBI Laboratory facilities located on Redstone Arsenal, Alabama or Marine Corps Base Quantico, Virginia.

(U) The FBI will permit the Contractor and its Sub-Contractors to have access to FBI sites, as determined by the FBI, during the performance of work under this contract. When access is permitted, the Contractor shall comply with all FBI regulations governing access to, operation of, and conduct while working on FBI sites. While on FBI sites, the Contractor shall perform all work in a manner that does not disrupt, or otherwise interfere with, ongoing FBI operations.

(U) Due to the requirements primarily including intelligence report writing conducted on classified systems, Contract Intelligence Analysts shall not work remotely or from any non-FBI facility. Exceptions include any such Contract facility that possesses FBI classified computer

systems within its physical location and approved in writing by the Government PM, COR, and CO for use for this requirement

6.3 HOURS OF SERVICE

(U) Contract Intelligence Analysts' normal working hours shall be eight (8) hours per day plus a thirty-minute lunch and 40 hours per week Monday through Friday within the hours of 6:00am and 6:00pm local time and based upon SCIF access. Due to work supporting this Requirement requiring work in a SCIF, whose opening and closing is dependent upon FBI personnel, Contract Intelligence Analysts must adhere to work hours for which the SCIF area is open and available during work hours and must coordinate with Government personnel to ensure their access to the SCIF. Any alternate work schedules required must be approved in writing by the Government PM, COR, and CO.

(U) Planned absences of Contract Intelligence Analysts and/or Program Manager for more than 7 calendar days shall be coordinated with the Government Program Manager at least 14 calendar days in advance of the planned absence.

(U) Exceptions to the normal working hours include annual Federal holidays, additional designated Federal holidays or Federal days off as executed by the FBI Director or the US President, or when the Government facility is closed due to local or national emergencies, administrative closings, hazardous or inclement weather, or similar Government-directed facility closings. When the Federal Government and/or Government facility where this Requirement is to be carried out is closed due to Federal holidays, additional Federal days off as executed by the FBI Director or US President, local or national emergencies, administrative closings, hazardous or inclement weather, or similar Government directed facility closings, Contract Intelligence Analysts cannot come into the office, but the Government may allow them to make up work to be accomplished during the same pay period, if approved, in writing, by the CO and/or COR and coordinated with the Government PM. Should the Government go into furlough status, the Contractor shall not allow their employees to continue working during the Government furlough unless specifically approved by the CO. The Contractor must at all times maintain an adequate workforce for the uninterrupted performance of this Contract when the Government facility is not closed for the above reasons.

(U) In addition, the Contractor may occasionally support FBI investigations as needed outside of the hours identified above. Due to the uncertain nature of mission critical and operationally time-sensitive investigations, support by the already identified FTEs may be required outside of and in addition to the standard work hours. The Government will work closely with the Contractor to determine the best use of time and resources to meet these needs as they arise. If required, shift work for any single individual shall not exceed 12 hours in any 24-hour period. The Contractor shall provide a staffing capability to include 24/7 onsite and remote operations support after a COR request has been approved or in accordance with Government approved schedule. The Government COR will define the period and length of any operational support to include hours, days of week, start date/time and end date/time. Overtime work may be required in response to investigative needs. However, these hours shall be billed as straight time.

(U) The Government will provide Contractor personnel assigned to this contract with a typical working environment, including office furniture and furnishings, secure and unclassified telephone service, storage for classified and unclassified materials, use of the Government's mail and courier services, and access to copiers, fax machines, personal computers (PCs) and related software.

6.4 PASS-THROUGH OF SECURITY REQUIREMENTS TO SUB-CONTRACTORS

(U) The requirements set forth in this Requirement apply to all Sub-Contractors who perform work in connection with this requirement. For each Sub-Contractor, the Contractor must certify that it has required the Sub-Contractor to adhere to all such requirements. Any breach by a Sub-Contractor of any of the provisions set forth in this clause will be attributed to the Contractor.

6.5 SECURITY OF SYSTEMS AND DATA

(U) Information/material shall be handled by the Contractor as follows:

- (U) Maintain controls to prevent information from physically or electronically leaving the Contractor's approved space or becoming known to persons without a need-to-know or an executed non-disclosure agreement.
- (U) Provide appropriate classification and portion marking.
- (U) Provide appropriate safeguarding.
- (U) Handle all information as though it were classified.

(U) The work to be performed under this contract requires the handling of data that originated within the FBI or Department of Justice (DOJ or "Department"), data that the Contractor manages or acquires for the FBI or the Department, and/or data that is acquired in order to perform the contract and concerns FBI or Department programs or personnel.

(U) For all systems handling such data, the Contractor shall comply with all security requirements applicable to Department systems, including, but not limited, to all Executive Branch system security requirements (e.g., requirements imposed by OMB and NIST), DOJ IT Security Standards, and DOJ Order 2640.2E. The Contractor shall provide access to and information regarding the Contractor's systems when requested by the FBI or DOJ in connection with its efforts to ensure compliance with all such security requirements and shall otherwise cooperate with the Department in such efforts. DOJ access shall include independent validation testing of controls, system penetration testing by DOJ, FISMA data reviews, and access by the DOJ Office of the Inspector General for its reviews.

(U) The use of Contractor-owned and/or personal laptops or other media storage devices is prohibited in all FBI-controlled facilities under this Requirement.

(U) Contractor staff are required to agree to, and sign, Rules of Behavior Agreement(s), Authorization for Warrantless Search, and other security agreements, disclosures, and forms required for authorized and official use of FBI technologies and systems.

(U) Portable Electronic Devices (PEDs) are prohibited in SCIFs and must be secured prior to entry. PEDs allowed for use in non-SCIF, FBI-controlled facilities are: Cell phones, Tablets, eReaders, MP3 players, and medical equipment, with the following restrictions:

- (U) Bluetooth® capability must be turned off in FBI-controlled Facilities.
- (U) Wireless (Wi-Fi®) capability must be turned off in FBI-controlled Facilities.
- (U) Audio recording capability is not authorized for use in FBI-controlled Facilities.
- (U) Video recording and image capturing capabilities are not authorized for use in FBI-controlled Facilities.

(U) All PEDs brought into FBI-controlled space are subject to random searches. Searches may include the review for unauthorized information on the PED or unauthorized use of the PED. The FBI or its designated representative shall not be held responsible for the loss of information or damage to the PED resulting from these searches. PEDs with Radio Frequency (RF) capability will be stored and used at least three (3) meters from any IT processing classified national security information (3 meters = 9.8 feet).

(U) All PEDs must be registered in accordance with FBI Security Division requirements prior to use within non-SCIF FBI-controlled facilities.

(U) By acceptance of, or performance on, this contract, the Contractor agrees that, in the event of any actual or suspected breach of data (i.e., loss of control, compromise, unauthorized disclosure, access for an unauthorized purpose, or other unauthorized access, whether physical or electronic), the Contractor will immediately (and in no event later than within one hour of discovery) report the breach to the CO and the COR.

(U) The Contractor further certifies that it has a security policy in place that contains procedures to promptly notify any individual whose personally identifiable information (as defined by OMB) was, or is reasonably believed to have been, breached. Any notification shall be coordinated with the FBI and shall not proceed until the FBI has made a determination that notification would not impede a law enforcement investigation or jeopardize national security. The method and content of any notification by the Contractor shall be coordinated with, and be subject to the approval of, the FBI. The Contractor assumes full responsibility for taking corrective action consistent with the Department's Data Breach Notification Procedures, which may include offering credit monitoring when appropriate.

6.6 CONTRACTOR CERTIFICATION OF COMPLIANCE WITH FEDERAL TAX REQUIREMENTS

(U) By submitting a response to a solicitation or accepting a contract award, the Contractor certifies that, to the best of its knowledge and belief, the Contractor has filed all Federal tax returns required during the three years preceding the certification, has not been convicted of a criminal offense under the Internal Revenue Code of 1986, and has not, more than 90 days prior to certification, been notified of any unpaid Federal tax assessment for which the liability remains unsatisfied, unless the assessment is the subject of an installment agreement or offer in

compromise that has been approved by the Internal Revenue Service and is not in default or the assessment is the subject of a non-frivolous administrative or judicial proceeding.

DRAFT

7 GOVERNMENT REPRESENTATIVES

(U) The functions inherent to this contract shall be performed by the designated CO. The duly assigned COR shall ensure all actions pertaining to this contract are requested via the CO.

7.1 CONTRACTING OFFICER

(U) Information for the CO is provided below.

Name: Stevon Walker, swalker4@fbi.gov
Title: Contracting Officer (CO)
Professional Services Acquisition Unit
4910 Fowler Road
Redstone Arsenal, AL 35898

(U) The Government may designate alternate personnel as the CO at any time during the duration of this Contract, based on staffing needs.

7.2 CONTRACTING OFFICER REPRESENTATIVE

(U) Information for the COR is provided below.

Name: TBD

(U) The Government may designate alternate personnel as the COR at any time during the duration of this Contract, based on staffing needs.

7.3 GOVERNMENT PROGRAM MANAGER

(U) FBI LIU shall designate a Program Manager within LIU to be the Government's primary point of contact for the Contract Program Manager as it relates to tasks and deliverables, administrative and training concerns, and general FBI guidance. LIU may rotate personnel as Program Manager at any time during the duration of this Contract, based on staffing needs.
