

STATEMENT OF WORK

1. Objective/Requirements

The objective of this work is for AZ Technology, to fabricate and deliver TESA 2000 Portable Emittance/Solar Absorptance Instrument for the Electrostatics and Surface Physics Lab to support testing for the Lunar Outpost Lunar Terrain Vehicle project.

2. Characteristics, Scope, and Specs

The contractor shall perform the following duties:

- Deliver TESA 2000 Portable Emittance/Solar Absorptance Instrument to the Electrostatics and Surface Physics Laboratory at NASA Kennedy Space Center.

3. Place of Performance

180 West Park Loop, Huntsville, AL 35806

4. Period of Performance

The period of performance is .5 months starting when the payment is made to Az Technology.
