

STATEMENT OF WORK

1. Objective/Requirements

This requirement is for the acquisition of the FY25 Zuken Renewal for NASA Langley Research Center (LaRC) to support space flight and Ground Support Equipment (GSE) harness design, layout, and fabrication.

2. Characteristics, Scope, and Specs

QTY	PART #	DESCRIPTION
5	E3-120_PROF-SF-M	E3.series 120 Professional Maintenance
5	E3-HBX1-SF-M	Harness Builder Extensions + Library Floating maintenance
5	E3-120_FORM-SF-M	E3.formboard 120 Maintenance
5	E3-EXTCON-SF-M	E3.ExtendedConnectorHandling for E3.cable Maintenance floating
5	E3-01-PDF-SF-M	PDF Output 1 user Maintenance floating
5	E3-DNMGR-SF-M	E3.Drawing Notes Manager Floating maintenance
1	E3-3D-PROE-SF-M	E3.3DRoutingBridge ProE XML Interface Maintenance floating
1	E3-3DPE2ST-SF-M	ProE Harness Structure export for E3.3DRoutingBridge Maintenance floating
1	E3-3D-22D-SF-M	E3.3DRoutingBridge Harness Flattening Maintenance floating
1	E3-3D-HSI-SF-M	E3.3DRoutingBridge Harness Structure Import Maintenance floating
5	GXB000A-SF-M	Framework Engine for DS-E3 Maintenance floating
5	ZXB400A-SF-M	Engineering Desktop for DS-E3 Maintenance floating
1	ZXB401A-SF-M	EDT for DS-E3 Option for Document Generation Master Maintenance floating
1	ZXB100A-SF-M	Component Master for DS-E3 Maintenance floating

3. Place of Performance

E-delivery to NASA Langley research Center (LaRC)

4. Period of Performance

06/01/25 – 05/31/26
