(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

(2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or

(3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR subpart 4.10), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)

(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the

closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101–29, and copies of Federal specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under

☐ (1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror ☐ does ☐ does not certify that-

(a) Definitions:

IPPC Country: Countries of the European Union (EU) or any other country endorsing the International Plant Protection Convention (IPPC) "Guidelines for Regulating Wood Packaging Material in International Trade," approved March 15, 2002. A listing of countries participating in the IPPC is found at

http://www.aphis.usda.gov/import_export/plants/plant_exports/wpm/country/index.shtml.

Non-manufactured wood, is also called solid wood and defined as wood packing other than that comprised wholly of wood-based products such as plywood, particle board, oriented strand board, veneer, wood wool, and similar materials, which has been created using glue, heat and pressure or a combination thereof.

Packaged material, and solid wood packing material (SWPM), for purposes of this clause, is defined as each separate and distinct material that by itself or in combination with other materials forms the container providing a means of protecting and handling a product. This includes, but is not limited to, pallets, dunnage, crating, packing blocks, drums, load boards, pallet collars, and skids.

(b) Non-manufactured wood pallets and other non-manufactured wood packaging material used to pack items for delivery to or through IPPC countries must be marked and properly treated in accordance with IPPC guidelines.

(c) This requirement applies whether the shipment is direct to the end user or through a Government designated consolidation point. Packaging that does not conform to IPPC guidelines will be refused entry, destroyed or treated prior to entry.

(d) For Department of Defense distribution facilities or freight consolidation points, all non-manufactured wood pallets or packaging material with a probability of entering countries endorsing the IPPC Guidelines must be treated and marked in accordance with DLAD 47.305-1 (available at <http://farsite.hill.af.mil/archive/Dlad/Rev5/PART47.htm>), and MIL-STD-2073-1, Standard Practice for Military Packaging (and any future revision).

Any applicable Government expense incurred as a result of the Contractor's failure to provide appropriate pallets or package material shall be reimbursed by the Contractor. Expenses may include the applicable cost for repackaging, handling and return shipping, or the destruction of solid wood packaging material.

552.232-39 UNENFORCEABILITY OF UNAUTHORIZED OBLIGATIONS (FAR DEVIATION) (FEB 2018)

(a) Except as stated in paragraph (b) of this clause, when any supply or service acquired under this contract is subject to any commercial supplier agreement (as defined in 502.101) that includes any language, provision, or clause requiring the Government to pay any future fees, penalties, interest, legal costs or to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(1) Any such language, provision, or clause is unenforceable against the Government.

(2) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such language, provision, or clause by virtue of it appearing in the commercial supplier agreement. If the commercial supplier agreement is invoked through an "I agree" click box or other

comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(3) Any such language, provision, or clause is deemed to be stricken from the commercial supplier agreement.

(b) Paragraph (a) of this clause does not apply to indemnification or any other payment by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(End of Clause)

Evaluation Criteria

The Government will award to the responsible quoter whose quote, conforming to the solicitation, is the lowest price technically acceptable. To be technically acceptable, the item must meet or exceed the Item Purchase Description and meet the required delivery schedule.

1. **TECHNICAL ACCEPTABILITY.** Technical acceptability is based on meeting or exceeding the Product Salient Characteristics for the item quoted in response to this RFQ and compliance with the required delivery schedule.
2. **LOWEST EVALUATED PRICE.** The lowest price "Per Unit" multiplied by "QTY" will be considered for award.

M-FSS-301-D METHOD OF AWARD (APR 1984) Award will be made in the aggregate for all items. The low aggregate offeror will be determined by multiplying the unit price submitted on each item by the quantity specified, and adding the resultant extensions. In order to qualify for an award, prices must be submitted on all items.

Attachment I
(Revised July 2021)

C.I Vendor Portal (VP) and Electronic Data Interchange (EDI) Requirements

The government will allow contractors to choose either VP or EDI for conducting business transactions with GSA. VP requires retrieval of orders and significant manual entries of transactional data via a GSA provided portal. EDI is better suited for higher volume contractors. GSA prefers EDI and suggests contractors expecting to receive greater than 50 orders per month to choose EDI. Additional information and points of contact for business transaction processing requirements can be found at <http://www.gsa.gov/supplyedivp>.

C.1.1 Transactional Business Requirements

Regardless of whether orders are received via VP or EDI, the contractor is required to work with GSA to understand and adhere to GSA business rules and requirements.

All transactions will be submitted to and received by the "prime" contractor ONLY. Any additional electronic transaction communication that is required to fulfill Customer Order(s) between the contractors and its suppliers shall be the responsibility of the "prime" contractor ONLY. No subcontractor submissions accepted, and contractor teaming arrangements must designate a lead contractor.

Each contract may contain specific information regarding information below. The contractor is required to work with their GSA Contracting Officer to understand and adhere to GSA business rules and requirements as they relate to:

- Processing of backorders;
- Purchase order acknowledgements;
- Shipment information;
- Delivery information;
- Delivery documentation;
- Accuracy of data provided to GSA;
- Contractor cancellations;
- Customer cancellations;
- Interpretation of GSA data in order to meet GSA shipping documentation guidelines; and •
- Processing of emergency purchase orders

C.1.1.1 Universal requirements required of all contractors supporting GSA Global Supply orders

- Acknowledge receipt of a purchase order within one business day
- Acknowledge receipt of a purchase order change within one business day
- Process purchase order cancellation requests within one business day
- Provide Requests for: Backorders
- Back Orders MUST have an Estimated Delivery Date included
 - o Changes in delivery dates
 - o Substitutions

*Requests should be communicated to your GSA Contracting Officer prior to execution via the system.

- Provide shipment information
 - Shipment Status within one business day following shipment
 - Valid carrier tracking numbers
- Provide delivery confirmation information including, but not limited to, date of delivery (when requested for specific shipments)
- Invoice for orders only after you have provided shipment information
 - Correct erroneous information provided to GSA on the disposition of a purchase order;
 - Full line accountability is required

C.1.2 Vendor Portal (VP) Transactional Data Requirements

Contractors choosing VP shall be provided with an internet portal address and logon to perform commodity transaction processing with GSA. The contractor is required to retrieve orders and provide the information outlined from C. 1.1.1 via VP.

VP training guides are available at <http://www.gsa.gov/supplyedivp>.

Invoicing cannot be done through the Vendor Portal. All contractors are able to submit invoices via EDI 810 (even if not receiving POs via EDI) or may utilize the FedPay portal at <http://apps.ocfo.zsa.gov/vendoruayment/index.htm>

Note: FedPay portal cannot be used for invoicing if your contract allows for charging convenience

C.1.3 EDI Transactional Data Requirements

Contractors shall be able to reliably perform commodity transaction processing with GSA by utilizing a standardized electronic method of communication, compatible with GSA transactional systems.

GSA utilizes the American National Standards Institute (ANSI) X-12 family of transaction sets to electronically communicate both "Inbound" and "Outbound" transaction sets.

The contractor is required to retrieve orders and provide the information outlined from CJ.I.I via EDI. Additionally, EDI contractors are required to work with GSA to understand and adhere to GSA business rules and requirements as they relate to section C. 1.3.2.

All electronic communications between GSA and its contractors shall be transmitted through the designated GSA EDI gateway.

C.1.3.1 Initiating EDI Communications with GSA

GSA reserves the right to test and validate the contractor's EDI capabilities for all required transaction sets before on-boarding is authorized.

GSA will coordinate the process to on-board awarded contractors to the designated GSA EDI gateway using the ANSI X-12 EDI standards detailed in the sections below and identified in Table 1 of this document.

To initiate the onboard process, GSA will provide contractors with a list of EDI questions which are used to determine specific contractor EDI capabilities. The questions shall be completed by the contractor and returned to GSA within five (5) business days.

Upon completing the EDI-Survey, GSA will coordinate end-to-end process testing with the contractor to assure compliance with EDI specifications. The end-to-end testing is estimated to be completed within 90 days after contract award/modification, excluding any protest periods.

C.1.3.2 EDI Transaction Implementation Conventions

The table below, shows the EDI Implementation Specification for a given transaction set. The most current transaction sets used to support GSA Global Supply orders can be obtained by emailing gsaedi@gsa.gov. A copy of the most recent specifications and versions can also be found on <http://www.gsa.gov/supplyedivp>.

Note: GSA reserves the right to implement additional ANSI X-12 transaction sets and/or update transaction versions as its business operations deem appropriate. Additional EDI changes may be necessary in cases when changes in order data are required by the program. GSA will work with the contractor to establish an agreed upon time frame for implementation of any future transaction updates/upgrades or additional transaction sets needed in support of this requirement.

C.1.3.3 Validation Testing of EDI Transaction Sets

GSA personnel will validate the contractor's EDI Transaction Set communication following contract award or modification. GSA will coordinate end-to-end testing with GSA systems and the contractor's systems. At a minimum, the following transactions will be validated:

EDI 850 Purchase Order

EDI 997 Functional Acknowledgement

EDI 855 Purchase Order Acknowledgement

EDI 856 Advance Ship Notice/Manifest

EDI 860 Purchase Order Cancellation/ Customer Initiated Change •

EDI 810 Invoice

GSA may select up to 20 items from the contractor's catalog for end-to-end testing and conduct testing with live production orders. These items will be tested under a number of different scenarios (cancellation, backorder, multiple shipments, etc.)

C.1.3.4 EDI Business Communications to and from the Government

GSA utilizes the ANSI X-12 family of EDI specifications to electronically communicate both "Inbound" (transactions provided by the vendor to GSA) and "Outbound" (transactions sent by GSA to the vendor) transaction sets for its business operations.

The following Inbound and Outbound EDI transaction sets shall be required for EDI contractors:

- **Inbound EDI types (Transactions sent to GSA from Contractors)**

- 855: Purchase Order Acknowledgement with three possible types of status:
- Accept, Backorder or Cancel (Note: Any backorder must be accompanied by an expected ship date)
- 856: Advance Ship Notice/Manifest with three possible types of status:
- Ship, Backorder or Cancel (Note: Any backorder must be accompanied by an expected delivery date)
- 810: Invoice
- 997: Functional Acknowledgement

- **Outbound EDI types (Transactions sent from GSA to Contractors)**

- 850: Purchase Order (PO)
- 860: Purchase Order Cancellation / Customer Initiated Change
- 997: Functional Acknowledgement

C.2 Customer Order Fulfillment Exceptions

All Purchase Order line item(s) are expected to be shipped or delivered by the due date printed on the purchase order. Any exceptions must be communicated to the GSA Contracting Officer, or a duly authorized GSA representative.

C.3 Contractor Performance

On-time performance will be included in contractor performance evaluations. GSA will review and communicate contractor performance by sharing purchase order detail information, listing all purchase order due dates, and identifying those which are past due and require immediate action. This information will be driven by how accurately the contractor is able to update information via VP or EDI.

Each contract may contain specific information regarding contractor performance, including charging offsets for past due orders. Work with your GSA Contracting Officer to understand and adhere to your contract requirements.
