

CNRSW N31 Port Operations
PUSHER/WORK BOAT OPERATIONS
PERFORMANCE BASED WORK STATEMENT (PWS)

1.0 INTRODUCTION

Navy Region Southwest (NRSW) Port Operations Program seeks marine services to support operations of a Navy Pusher/Work Boat at Navy Region Southwest Metro installations (Naval Base San Diego, Naval Base Coronado and Naval Base Point Loma) by means of a performance based contract.

2.0 SCOPE

The contractor shall provide all supervision, administrative and technical support, labor, subcontractors, and shall schedule, coordinate, and assure effective completion of all services for Operation and inspection of the government furnished Pusher/Work Boat. Operating boats of similar size and type to:

- a. 39' Pusher Boat - Propulsion: Twin QSM11 Cummins Diesel engines W/prop and rudder.
- b. 30' Work Boat - Propulsion: Twin QSL9 Cummins diesel engines, electronic navigation and communication packages.

3.0 DESCRIPTION OF WORKING HOURS

- a. Regular Hours: A boat crew shift equates to an 8-hour workday, from 0700-1500, Monday - Friday, excluding Federal Holidays.

Note: The Government will publish a harbor movement plan for tasks no later than 1430, barring any unforeseen changes, for the following day's work. Fridays plan will include weekend and holiday requirements, if any. The government will adjust the start times on a daily basis with a minimum twenty-four (24) hour notification, when feasible, or as soon as schedule changes.

- b. Federal Holidays:

- New Year's Day - January 1
- Martin Luther King Jr. Day - Third Monday in January
- Washington's Birthday - Third Monday of February
- Memorial Day - Last Monday in May
- Juneteenth – June 19
- Independence Day - July 4
- Labor Day - First Monday in September
- Columbus Day - Second Monday in October
- Veteran's Day - November 11
- Thanksgiving - Fourth Thursday in November
- Christmas Day - December 25

4.0 REQUIREMENTS

4.1 OPERATIONS: Under the direction of Port Operations Berthing Services Officer and the Berthing Services Assistant, using a government furnished boat, conduct the movement of service craft, camels, barges, ship separators, fenders, paint floats, and other yard craft to predetermined locations while ensuring no interference with security barrier operations, vessel traffic or causing hazards to navigation. The Vessel may be ordered to any berth, dock, anchorage, wharf, place, open roadstead, submarine line, or alongside any vessel, barge, lighter, submarine, craft, hull, derrick, or object of whatsoever nature that the Government may direct, provided the Vessel(s) can always lie safely afloat except in harbors or waters where it is customary and safe in the port to work aground.

4.2 DAILY INSPECTIONS:

The contractor shall:

- a. While not engaged in movements, the crew **will perform inspections** alongside piers and quay walls ensuring there are no obstructions such as loose mooring dunnage logs, stray lines or hoses hanging from the pier to the water or anything that may disrupt a ship's movement in or out of port. The contractor shall inform the Port Operations Berthing Services of any discrepancies. The Government shall assess and define if a repair or other action is necessary; the contractor is not responsible for repair.
- b. Each crew shall inspect the Government provided vessel daily and fuel the vessel. Contractor shall generate daily boat usage logs, monthly fuel usage reports and crew rosters in accordance with Paragraph 8.0 (a), (b), and (c). The Master of the assigned vessel is responsible for reporting all material discrepancies and boat discrepancies to the Port Operations Maintenance Staff and for ensuring the vessel is sea-worthy. Example of material discrepancies would be anything other than a boat issue, i.e. light broke on barrier, parted line or missing equipment. Example of boat discrepancies: engine revving too high or oil light on.
- c. The contractor shall inform the Contracting Officer's Representative (COR) verbally and in writing immediately of any known discrepancies that may impact operations, pose a hazard to navigation or be a potential safety hazard to equipment and or personnel. The contractor shall also inform the COR verbally and in writing immediately of any known accidents or injuries.

5.0 CREW INSURANCE AND QUALIFICATIONS

- a. Crew personnel will meet training standards of the Contractor's insurer, be a U.S. Citizen, and eligible and cleared for base access. It is the contractor's responsibility to maintain their boat licenses and insurance. Insurance documents must be available for review at time of award. Insurance must cover both ashore and afloat operations.
- b. Boat Captain Qualifications:
 1. Must possess U.S. Coast Guard 50 Ton Master License.
 2. Minimum of two years' experience as a 50 Ton Master.
 3. Must possess Transportation Workers Identification Card (TWIC).
 4. Second class swimmer qualification or US Coast Guard approved STCW-95 BST.
 5. Complete NAVEDTRA 43606-A SIM BBC PQS watchstations 302, 305 and 306.

c. Crew Qualifications:

1. Must possess a Transportation Workers Identification Card (TWIC).
2. Normal color vision.
3. Second class swimmer qualification or US Coast Guard approved STCW-95 BST.
4. Complete NAVEDTRA 43606-A SIM BBC PQS watchstations 301 and 305.

6.0 EMPLOYMENT OF NAVY PERSONNEL RESTRICTED

During performance of this contract, the contractor shall not use as a consultant or employee (on either a full or part-time basis) any active duty military or civilian Navy personnel without the prior approval of the Contracting Officer. Such approval may be given only in circumstances where it is clear that no laws and no Department of Defense (DoD) or Navy instructions, regulations, or policies might possibly be contravened, and no conflict of interest or appearance of a conflict of interest will result. There shall be a clear distinction between Government employees and contractor employees. Contractor employees shall identify themselves as contractor personnel by introducing themselves or being introduced as contractor personnel and displaying distinguishing badges or other visible identification for meetings with Government personnel. In addition, contractor personnel shall appropriately identify themselves as contractor employees in telephone conversations and in formal and informal written correspondence.

7.0 DELIVERABLES

The following reports can be provided in a Microsoft office format:

- a. Daily boat inspection and boat usage logs. Logs shall include hours used.
- b. Monthly fuel usage and government furnished equipment inventory.
- c. Crew rosters. Roster shall include full name and contact numbers.
- d. Accident reports. All Accident reports must be submitted to the COR within twenty-four (24) hours of the accident. In case of safety hazard, the contractor shall prepare a written statement about safety hazard.

8.0 QUALITY ASSURANCE

The Contractor shall develop a quality control program to ensure services are performed in accordance with PWS performance objectives and contract requirements.
