cardiac events. The premium Getinge equipment requires OEM expertise for service needs which are only available through the manufacturer. Due to the critical and life-sustaining nature of the cases treated at the Atlanta VA HCS and the high use and reliance on this existing equipment. The required maintenance and support are proprietary to and the intellectual property of Getinge. They are used on patients who are recovering from heart surgery or other cardiac events. Service and maintenance support is needed to maintain the correct functionality and optimum performance of the three (3) intra-aortic balloon pumps so Cardiology can continue delivering high-quality patient care at the Atlanta VAMC.

The North American Industry Classification System (NAICS) for this requirement is 334510. The Federal Supply Class (FSC/PSC) is J065. The Small Business Administration (SBA) size standard for this sector is 1250 Employees.

This notice of intent is neither a formal solicitation nor a request for competitive proposals. No solicitation document is available and telephone requests will not be honored. No award will be made on the basis of unsolicited quotations or offers received in response to this notice. Any response to this notice must show clear, compelling and convincing evidence that competition will be advantageous to the Government. The intent of this synopsis is for informational purposes only. Information received will normally be considered solely for the purpose of determining whether to conduct a competitive procurement. A determination by the Government not to compete this action based on this notice is solely within the discretion of the Government.
