The property or services needed by the agency are available from only one responsible source and no other type of property or services will satisfy the needs of the agency.

The COLTS application is a proprietary software owned and maintained by Avantix,LLC. Avantix is the only company capable of providing the necessary software for continued

operations of the SubHDR inventory configuration management and failure tracking system. The COLTS application database contains over twenty (20) years of configuration and maintenance records that is vital to the operation of the SubHDR NMC and record keeping and configuration management requirements for the SubHDR mast program. Attempting to find an alternative software solution would result in extensive cost and schedule delays and would impact NUWCDIVNPT's ability to meet the emergent needs of the Fleet.
