NAVAL AIR WARFARE CENTER WEAPONS DIVISION
1 ADMINISTRATION CIRCLE 575 I AVENUE SUITE 1
CHINA LAKE, CA 93555-6100 POINT MUGU, CA 93042-5049

J&A Number: 25-0134

LIMITED SOURCE JUSTIFICATION

1. Contracting Activity.

Naval Air Warfare Center Weapons Division (NAWCWD) China Lake, CA

2. Nature and/or Description of Action being Approved.

NAWCWD intends to procure voice communications hardware manufactured by Compunetix Inc. The hardware will be used to expand voice capabilities for the Point Mugu Sea Range (PMSR) and will be a valuable resource for supporting future large-scale exercises.

3. Description of the Supplies or Services Required to Meet the Agency's Needs (including the estimated value).

The items to be purchased are manufactured by Compunetix Inc; with a total estimated cost of \$458,765 which include:

<u>Description</u>	<u>Qty</u>
CONTEX MVP 14-Slot ATCA chassis (MVP-14SLOT)	1
MVP Media Blade – Fully populated (MVP-IFBLADE-FULL)	2
ATCA Front Blank/Baffle (MVP-BLANK-F)	10
ATCA Rear Blank/Baffle (MVP-BLANK-R)	10
2U Rackmount CONTEX MC Red/Black Instrument (MC-2RUII-L)	18
SFP Module RJ45 10/100/1000BASE-T (SFP-GE-T-PRO)	36
6 inch Rackmount VoIP Touchscreen Console (TRI-6GTX-POL)	4
Handset G-Style (13-1501-0010)	12
Headset Top (13-1502-0074)	18
Headset Bottom (13-1502-0073-NL)	18

The CONTEX MVP 14-Slot Chassis is a 13RU rack mount switch that can hold up to 12 media blades. All components of the switch are redundant with no single point of failure.

MVP Media blades support up to 16 T1's or 112 mission instruments. Blades can be configured in pairs as redundant, to increase reliability or as non-redundant in order to have greater port capacity.

The MC-2RU II mission instrument is a 2RU rack mount device capable of both classified and unclassified communications, includes a touchscreen, built-in speaker and LEMO jack for headset connections.

The TRI-6 mission instrument is a 2RU rackmount device with a 6.2-inch touchscreen that can be used for either classified or unclassified communications.

4. Identification of the Justification Rationale (see FAR 8.405-6) and, if applicable, a Demonstration of the Proposed Contractor's Unique Qualifications to Provide the Required Supply or Service.

FAR 8.405-6(a)(1)(i)(B), Only one source is capable of providing the supplies or services required at the level of quality required because the supplies or services are unique or highly specialized.

Supporting Information:

14-Slot Chassis and blades are exclusively compatible with existing Compunetix equipment currently used in the production system at the Point Mugu Sea Range. This compatibility ensures seamless integration into the system. The addition of the chassis and blades will significantly enhance resource availability for mission instruments which are essential for supporting forthcoming large-scale exercises. These large-scale exercises are essential for maintaining the operational readiness and effectiveness of our military forces.

Mission instruments being procured are drop-in replacements for existing hardware. Operators are familiar with the existing equipment and pursuing any alternate solutions would take time and money which would severely impact our readiness to provide operational support to the warfighter.

5. Determination by the Ordering Activity Contracting Officer that the Order Represents the Best Value Consistent with FAR 8.404(d).

In accordance with FAR 8.404(d), by placing an order against a schedule contract, the ordering activity has concluded that the order represents the best value and results in the lowest overall cost alternative to meet the Government's needs. Additionally, if necessary, NAVAIR will seek additional discounts from the schedule holder before placing an order, as the order will exceed the simplified acquisition threshold, in accordance with 8.405-4.

6. A Description of the Market Research Conducted among Schedule Holders and the Results or a Statement of the Reason Market Research was not Conducted.

Market research, in the form of web-based searches was conducted. Compunetix is the only manufacturer of communications equipment that will meet our requirement to provide classified and unclassified communications in a single package, and of having a touchscreen display with

an option for a polarized headset/handset connector. One other manufacturer in the sector includes [Redacted]

The [Redacted] is a comparable 2RU rack mount communications panel. However, the physical keys and single classification connection do not meet our needs of touchscreen capability and classified and unclassified communications in a single package.

7. Any other Facts Supporting the Justification.

In addition to the technical specifications cited above, the hardware shares software compatibility with existing equipment located at PMSR, so the Compunetix hardware will easily integrate to the current system and will greatly expedite the integration efforts and reduce risk.

8. A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers that Preclude the Agency from Meeting the Requirements of FAR 8.405-1 and FAR 8.405-2 before any Subsequent Acquisition for the Supplies or Services is Made.

Currently, Compunetix is the only manufacturer available on the market to provide the unique capability described within this limited justification. With this stated, we will continue doing market research in future procurements as to promote competition and address any changing requirements.
