

Performance Work Statement
Large - Scale Mass Casualty Experience
24 March 2025

I. Background

The 445th Aeromedical Staging Squadron (ASTS) Wright-Patterson Air Force Base will host, in coordination with 911 Luke AFB ASTS, a robust joint readiness training exercise. This training exercise will test the concepts of complex medical care under simulation conditions of Large-Scale Combat Operations (LSCO) in the Indo-Pacific Command (INDOPACOM) region and examine operational readiness in the environments of limited Air Opportunity for all echelons of patient care and movement during high intense enemy contact of a geographical diverse isolated island joint base.

II. Scope of Work

The Contractor shall provide the Government with a large-scale mass casualty training exercise. Included in the simulation shall be use of the facility in its entirety for the (time) period specified below, and the following supplies and equipment, which the Contractor will make available solely for the duration of the training. All listed supplies and equipment shall remain the property of the Contractor and shall stay on the facility grounds upon completion thereof.

- Access to the specified facility for the agreed-upon training from 05 June 2025 through 08 June 2025
- Provision and setup of the listed items within the facility prior to the training commencement
- Warehouse
- Parking lot
- Secure storage and maintenance of all listed items throughout the training period
- Field medical scenarios led by support staff with the 445th
- Four (4) support staff to complete/handle the following:
 - Moulage
 - Facility maintenance and on-site support
 - Grant access to area(s)
 - WiFi support
 - Receive, prepare and disposal of bodies
 - Create injury patterns on cadavers
- Medical equipment and supplies (not an all-inclusive list)
 - Three (3) perfused cadavers
 - Intravenous Therapies (IVs)
 - Gloves
 - Saline
 - Intraosseous infusions (IOs)
 - Fluid pumps
 - Mannequins
 - (Medical) Litters

III. Exclusion

The Contractor is not responsible for the development or design of training
