Justification and Approval (J&A) for Other Than Full and Open Competition

United States Air Force
AFMC, AFSC OL: H/PZAAA
6050 Gum Lane, Bldg. 1215
Hill AFB UT 84056-5825
Contracting Officer: John (Kenny) Prather

Justification and Approval (J&A) for Other Than Full and Open Competition

D. Statutory authority permitting Other than Full and Open Competition 10 USC 2304 (c) (1), as implemented by FAR 6.302-1 (a) (2) (iii), Only One Responsible Source and No Other Supplies Will Satisfy Agency Requirements.

IV. Demonstration that the contractor's unique qualifications or the nature of the acquisition requires use of the authority cited above.

The JTE Electronic Amplifiers manufactured by Rotating Precision Mechanisms (RPM) have data rated Distribution statement E, which prohibits the government from sharing the data to expand the list of approved repair sources. [REDACTED] they are no longer capable of handling government contracts directly. Instead, RPM has partnered up with Linmarr Associates, Inc., who will act as their new contracting/sales department while RPM will still complete the repair. Due to the uniqueness of the item and inability to provide tech data, the USAF has not yet found other capable repair sources who can meet RQR waiver requirements.

V. Description of efforts made to ensure that offers are solicited from as many potential sources as practicable, including whether a notice was or will be publicized as required by subpart 5.2 and, if not, which exception under FAR 5.202 applies.

The USAF is in continuous efforts to procure data rights to the motor controllers in order to expand its list of potential and approved sources for repair, as well as procurement. At this time, Rotating Precision Mechanisms (RPM) is not willing to sell the data rights to their motor controllers. Continuous efforts are being made in the form of market research to find additional sources capable of repair/procurement of similar items in hopes that they may meet Source Qualification Statement waiver requirements. The USAF does not presently own the necessary data for repair or procurement to provide to other potential contractors.

VI. Determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

The overall cost of this acquisition will be fair and reasonable to the Government. In accordance with FAR 15.404, it is anticipated that negotiations will be conducted using information other than cost and pricing data from the contractor. Thorough price analysis will be conducted using available information and approved pricing techniques that will support the contracting office in making a determination that the price paid to the contractor is fair and reasonable to the Government. Based on the foregoing, the Contracting Officer hereby determines the anticipated cost to the Government will be fair and reasonable.

VII. Description of the market research conducted and the results, or a statement of the reasons market research was not conducted.

A. As described in Section V above, market research was conducted by posting a Combined Request for Information/Synopsis advising industry of the pending acquisition and soliciting inquiries from interested parties.

B. Additionally, the 415th SCMS program team conducted searches of Government databases to include; [REDACTED] These systems were queried to help identify potential sources of supply based on records given of OEMs, past qualified sources, part contracts, and so forth. The results of these searches did not yield any additional qualified sources.

Justification and Approval (J&A) for Other Than Full and Open Competition

C. Based on the market research conducted, there is a high level of confidence that there are no additional sources currently capable of satisfying the agency's need nor are there any other commercial or non-developmental items which could be utilized to meet the Government's needs.

VIII. Any other facts supporting the use of Other Than Full and Open Competition.

No further information

IX. List of any sources that expressed, in writing, an interest in the acquisition.

None

X. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisitions for the supplies or services required.

Qualification requirements are available through the solicitation or upon request to any prospective offeror(s) interested in becoming a qualified source. The System Engineer will assist interested concerns in meeting the standards specified for qualification IAW the MQR.

XI. Certification by the Contracting Officer.

As evidenced by my signature above, I certify that this justification is accurate and complete to the best of my knowledge and belief.

XII. Certification by the technical/requirements personnel.

As evidenced by my (our) signature(s) above, I (we) certify that any supporting data contained herein, which is my (our) responsibility, is both accurate and complete.
