

Notice of Intent to Sole Source

The United States Army Medical Research Acquisition Activity (USAMRAA) on behalf of the Walter Reed Army Institute of Research (WRAIR), Armed Forces Research Institute of Medical Sciences (AFRIMS) intends to negotiate on a sole source basis in accordance with FAR 13.501 with vendor Nanohmics Inc.

Nanohmics Inc. will provide a two-year study on conjugated aptamers as antimicrobial agents to produce DNA aptamers conjugated with C1q- and Fc-domain proteins to create a biologic therapeutic with immunomodulatory antimicrobial activity against bacterial pathogens for wound infection. This shall include producing DNA aptamers that bind to the bacterial pathogen *Pseudomonas aeruginosa*; conjugating DNA aptamers to recombinant C1q protein and to recombinant IgG Fc domain protein to produce C1q- and Fc-conjugated DNA aptamers; validating that C1q- and Fc-conjugated DNA aptamers bind to *Pseudomonas aeruginosa*; and delivering C1q- and Fc-conjugated DNA aptamers to WRAIR, AFRIMS for testing, located in Bangkok, Thailand.

THIS NOTICE OF INTENT IS NOT A REQUEST FOR COMPETITIVE QUOTATIONS.

Responsible, interested parties may identify their interest by submitting capability information, in writing, by 2:00 p.m. Eastern Time, 17 April 2025 to Ms. Linda Hinson at linda.t.hinson.civ@health.mil. Supporting evidence must be furnished in sufficient detail to demonstrate the firm's ability to provide the stated capability.

Responses will be evaluated; however, a determination by the Government not to compete the proposed procurement based upon responses to this notice is solely within the discretion of the Government. If no responses are received, USAMRAA will proceed with the sole source contract.
