

STATEMENT OF WORK
for
REFURBISHMENT OF FRICTION PLATES/ANVILS AND FRICTION WHEELS
FOR ABL SLIDING-FRICTION SENSITIVITY TESTER

1.0 PURPOSE

The Contractor shall provide refurbishment of ABL Friction Plates/Anvils (F255-0204-46) & Friction Wheels (F255-0202-34) via machining and/or grinding of the working surfaces to the specifications outlined in the ABL drawings.

2.0 REQUIREMENT

The Government shall provide the Contractor with the ABL Friction Plates/Anvils & Friction Wheels that need refurbishing.

A. Refurbish Friction Plates/Anvils, ABL Drawing F255-0202-46, as follows:

1. Receive Friction Plates/Anvils, ABL Drawing F255-0202-46, from NSW Indian Head Division.

2. Measure the Friction Plates/Anvils per ABL Drawing F255- 0202-46 and ABL Friction Anvil Surfacing Procedures for:

a. Critical refurbishment dimensions

3. Refurbish acceptable Friction Plates/Anvils per ABL Friction Anvil Surfacing Procedures.

4. Provide Certificate of Conformance to ABL Dwg. F255-0202-46 and ABL Friction Anvil Surfacing Procedures for:

a. Post-refurbishment critical dimensions,

b. Mark the ABL Friction Plates/Anvils that measure less than the minimum requirement post refurbishing,

c. Surface-roughness (and how measured, including instrument).

5. Package acceptable Friction Plates/Anvils for shipment to NSW Indian Head Division.

B. Refurbish Friction Wheels, ABL Drawing F255-0202-34, as follows:

1. Receive Friction Wheels, ABL Drawing F255-0202-34, from NSW Indian Head Division.

2. Measure the Friction Wheels per ABL Drawing F255- 0202-34 and ABL Friction Wheel Surfacing Procedures for:

a. Critical refurbishment dimensions,

3. Refurbish acceptable Friction Wheels per ABL Friction Wheel Surfacing Procedure.

4. Provide Certificate of Conformance to ABL Dwg. F255-0202-34 and ABL Friction Wheel Surfacing Procedures for:

a. Post-refurbishment critical dimensions,

b. Mark the ABL Friction Wheels that measure less than the minimum requirement post refurbishing,

c. Surface-roughness (and how measured, including instrument).

5. Package acceptable Friction Wheels for shipment to NSWC Indian Head Division.

3.0 INSPECTION

The Government POCs will perform random inspections and acceptances of the Friction/Anvils & Wheels upon delivery. The Contractor must certify each item and send paperwork to show compliance upon delivery.

4.0 DELIVERY

The Contractor shall return Friction Plates/Anvils & Wheels to NSWC IHD, ATTN.: Andrew Boswell, R31 address 2122 Strauss Ave, Building 888, Indian Head, MD 20640-5114
