

DEPARTMENT OF THE NAVY
NAVAL SURFACE WARFARE CENTER
INDIAN HEAD DIVISION
3767 STRAUSS AVENUE
SUITE 201
INDIAN HEAD, MD 20640-5150

J&A Number: FY-24-OCT13-25
Code: 026

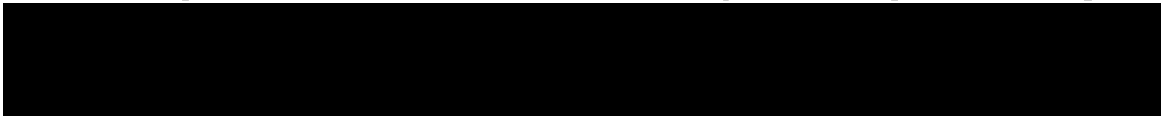

JUSTIFICATION AND APPROVAL
FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity

The Naval Sea Systems Command, Naval Surface Warfare Center Indian Head Division (NSWC IHD), Contracts Department (Code 026).

2. Description of the Action Being Approved

Award of a firm-fixed-price (FFP) contract, on a sole-source basis, for Exploding Bridgewire (EBW) Detonators in support of the Explosive Performance Test Program as sponsored by

The proposed awardee is:

Teledyne RISI, Inc.
32727 W Corral Hollow Rd
Tracy, CA 95376-0001
CAGE Code 3K871

3. Description of Supplies/Services

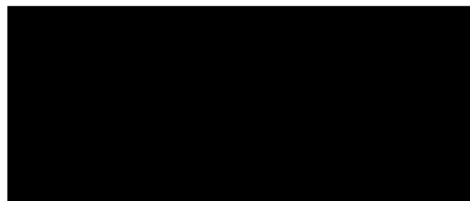

NSWC IHD [REDACTED] requires a variety of RP-type EBW Detonators. An RP detonator is a device used to trigger an explosive device. Detonators are to be used for testing at the detonation technology facilities and explosive test ranges. The EBW is a type of detonator used to initiate a detonation reaction in explosive materials similar to a military blasting cap. EBWs use a different physical mechanism than blasting caps, providing for a much more precise timing and safer initiation.

The following maximum quantity is required to support the Explosive Performance Test Program:

Detonator	Base Contract Year	Option Year 1	Option Year 2	Option Year 3	Option Year 4	Contract Max
RP-1	100	100	100	100	100	500
RP-2	100	100	100	100	100	500
RP-3	100	100	100	100	100	500
RP-4	100	100	100	100	100	500
RP-80	500	500	500	500	500	2500
RP-81	1000	1000	1000	1000	1000	5000
RP-83	2000	2000	2000	2000	2000	10000
RP-85	100	100	100	100	100	500
RP-87	500	500	500	500	500	2500
RP-501	100	100	100	100	100	500
RP-502	500	500	500	500	500	2500
BK-80	100	100	100	100	100	500
BK-87	100	100	100	100	100	500
RP-80 Unsealed	100	100	100	100	100	500
RP-80 Glass Head	100	100	100	100	100	500

The Government's minimum needs have been verified by the certifying technical and requirements personnel.

The total estimated cost of the proposed contract action is [REDACTED]. Research, Development, Test and Evaluation (RDT&E) funding will be utilized for this procurement.

4. Statutory Authority Permitting Other Than Full and Open Competition

This acquisition is being conducted under the authority of 10 U.S.C. 3204(a)(1) as implemented by Federal Acquisition Regulation (FAR) 6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

5. Rationale Justifying Use of Cited Statutory Authority

The RP Detonators are required to provide a safe, reliable, and repeatable shock and detonation performance for standard and unique test program applications within our detonation technology facilities and explosive test ranges. The RP detonators were adopted many years ago to use in place of unsafe blasting caps. The RP detonators have been used extensively over the years for these test programs, resulting in an internal historical test database in which to derive correlative assessments. The RP detonators are used in standard explosive tests and must be identical in each test for continuity. The RP detonators are proprietary to Teledyne RISI which is the sole U.S. manufacturer of these products. The RP detonators from Teledyne conform to

Quality Assurance. The RP Detonators are required for consistency with the historical databases.

No other known manufacturer makes equivalent detonators. A request was made to Teledyne as to their willingness for the Government to purchase the technical data and associated rights of their proprietary design. Based on small quantity buys and relatively low unit costs from year to year, it is not practical for the Government to continue to pursue purchase of the technical data and associated rights to Teledyne's proprietary design to facilitate qualification of a second source to enable competition. The company has not demonstrated their willingness to do so, and any further delay in the acquisition will cause unacceptable delays in fulfilling the requirements of the Government.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable

Extensive market research was conducted and no other U.S. company was found that manufactures EBW Detonators. Market research has consistently shown that Teledyne RISI is the only company that provides this exact type of detonator and there are no other available options for purchase.

A Sources Sought notice was posted on 02 August 2023, to the System for Award Management (SAM.gov) website to satisfy the requirement of Defense Federal Acquisition Regulation

Supplement PGI 206.302-1(d). No responses were received as a result of the sources sought.

A synopsis of the procurement was also posted to SAM.gov on 22 August 2023. No responses were received from the synopsis posting.

No additional market research was conducted because it is not practicable, for the reasons discussed in paragraph 5 above.

7. Determination of Fair and Reasonable Costs

The Contracting Officer has determined the anticipated cost to the Government of the supplies covered by the J&A will be fair and reasonable.

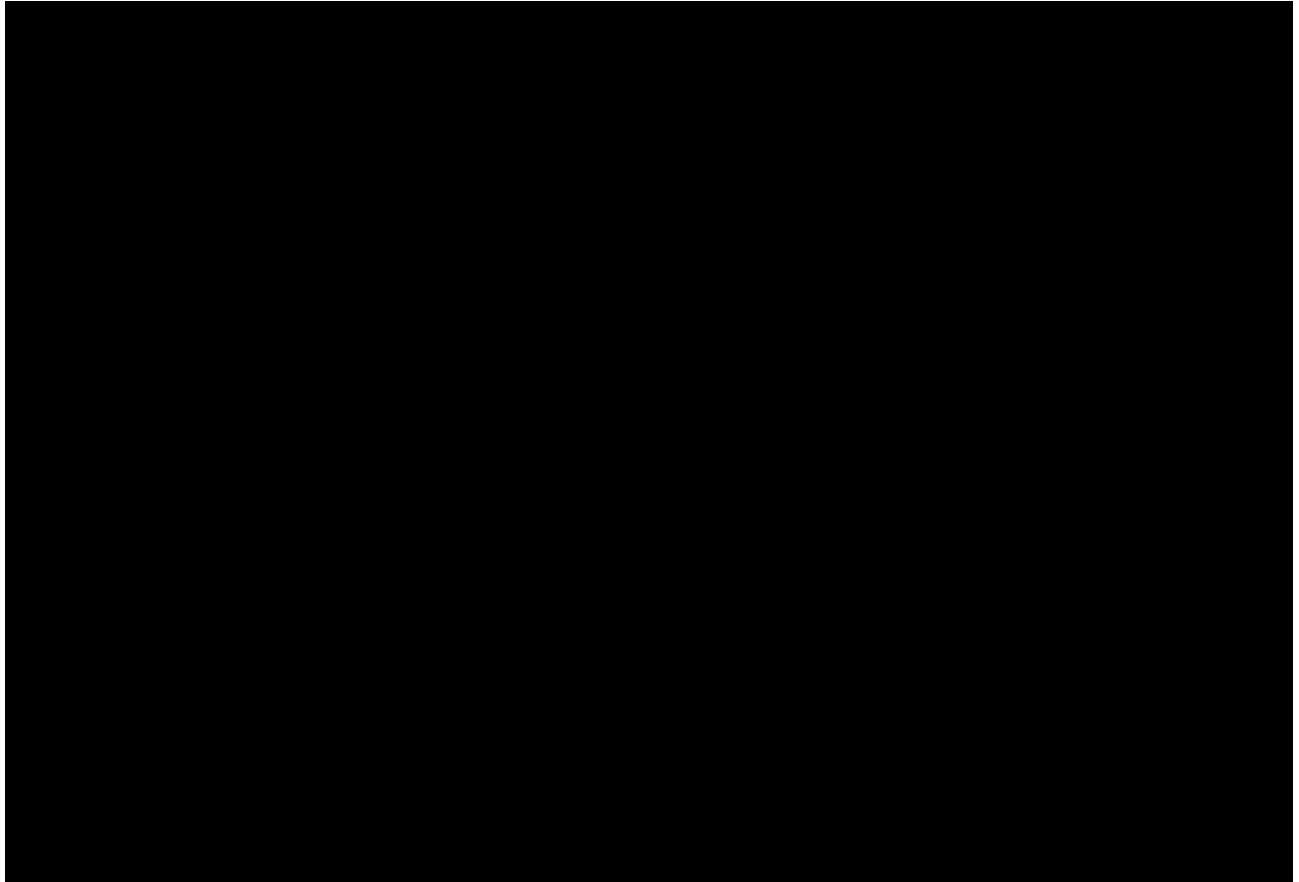

8. Actions to Remove Barriers to Competition

For the reasons set forth in Paragraph 5, NSWC IHD has no plans at this time to compete future contracts for the types of supplies covered by this document.

As this is a follow-on for supplies and services previously awarded on a non-competitive basis, in accordance with DFARS PGI 206.304(a)(S-70)(i), the prior J&A was provided to the approval authority for review. Approval of this J&A signifies the approval authority has made the determination required by DFARS PGI 206.304(a)(S-70)(ii).

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

APPROVAL

Upon the basis of the above justification, I hereby approve, as ***Deputy Chief of the Contracting Office***, the solicitation of the proposed procurement described herein using other than full and open competition, pursuant to the authority of 10 U.S.C. 3204(a)(1).

LUTHER.RACHEL.NEWMAN

Rachel N. Luther
Deputy Chief of the Contracting Office
