A technical review A, which consisted of searching several Government databases including ITIMP, ERP/ORACLE/FMT, ISEA and NSDER, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/ AMSC, AAC, Criticality Coding, recorded approved source of manufacture, historical sources of supply and past contracts. Based on this market research, the contracting officer has determined that the only known manufacturing source of this item is Cage 1BCK1. If a company other than the one listed believes they have a compatible product, they can submit the item to the Program Office, to include research and development, drawings and test specifications. Also, future requirements will be advertised on the government-wide point of entry. For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
