C.1 Introduction/Overview

This is a law enforcement procurement. In support of its law enforcement investigative mission the Internal Revenue Service (IRS) Criminal Investigation (CI) Division Center for Science and Design (CSD) Chemistry and Question Document section has a need to purchase FFTA-System- Raman workstation system instrument as detailed in Sections 2 Background and 3 Scope.

C.2 Background

Internal Revenue Service – Criminal Investigation (CI) is the law enforcement arm of the Internal Revenue Service. CI is charged with the enforcement of the federal income tax statutes. CI's top priority is the investigation of violations of the federal income tax law. Additionally, CI special agents lend their financial investigative expertise to money laundering and narcotics investigations conducted in conjunction with other law enforcement agencies at the local, state, and federal levels. Center for Science and Design (CSD) Chemistry and Question Documents section is responsible for the acquisition, processing, and analysis of paper, ink and toner containing evidence related to ongoing criminal investigations.

The purpose of this procurement is to obtain one (1) FFTA-System- Raman workstation system two (8) components (listed in Section 3) for use and evaluation by the Questioned Documents and Chemistry sections at Center for Science and Design to assist in their mission requirements. Our laboratory has the second biggest library of ink in the USA behind USSS. IRS CI CSD is not only working the cases for IRS, but our laboratory work cases for USSS. Our lab has signed Memorandum of Understanding with USSS allowing both laboratories to work together on cases. Our laboratory is accredited and provides the highest quality results to the agents submitting cases. Our sections invest time in research and share the knowledge with USSS and HSI. Procuring the FFTA-System- Raman workstation allow us to increase case work in the field of chemistry and related disciplines.

For IRS CI CSD laboratory to maintain high quality results to IRS agents and USSS laboratory it is crucial to procure FFTA-System- Raman workstation.
