

Specifications HT Accels

PART NO.	DESCRIPTION	QTY.
357M168	Extreme Temperature, Miniature Accelerometer with Weld Tabs, 10 ft hardline cable terminated in a 10-32 coax jack connector. - Operating Temperature Range: -67 to 1200 °F - Survivable Limit Temperature Range: -67 to 1400 °F - Cable Termination Temperature Range: -67 to 900 °F - Overload Limit (Shock): ± 2000 g pk - Measurement Range: ± 1000 g pk - Insulation Resistance @ 1200°F ≥ 30 kOhm - Frequency Range (± 10 %): 10 kHz - Transverse Sensitivity: ≤ 5 % - Signal isolated from case - Sensing Element: UHT-12 - Sensing Geometry: Shear - Housing Material: Nickel Alloy - Size – Height: .40 in - Size – Length: .55 in - Size – Width: .50 in - Mounting Thread: 5-40 Female	21
