

**NAVAL MEDICAL RESEARCH UNIT SAN ANTONIO
PERFORMANCE WORK STATEMENT**

Date: September 30, 2024

Standing delivery for compressed Carbon Dioxide gas.

1. Scope of Work.

Naval Medical Research Unit San Antonio (NAMRU-SA) requires a contract to supply medical grade compressed carbon dioxide (CO2) cylinders. The incubators at NAMRU-SA require a consistent supply of CO2 to maintain cell culture experiments. Medical grade gas is required for experiments to prevent contamination of the cells and/or cell cultures that would alter the results of research being performed. The contract will cover the cost of CO2 cylinders, the rental fees for the cylinders, hazardous material fees, and delivery and/or pick up fees. Due to limited storage space, the vendor needs to be able to deliver the cylinders within two days of an order being placed.

2. Definitions and Terms.

NAMRU-SA: Naval Medical Research Unit San Antonio

CO2: Carbon Dioxide

CGA: Compressed Gas Association

TSRL: Tri-Service Research Laboratory

3. Support Requirements.

The contract requires a vendor to supply medical grade CO2 gas. The cylinder should be 50 pounds and require a CGA 320 connection. The rental fees should cover the cost of six cylinders onsite year-round. The vendor will supply a delivery or pick up receipt including all tank serial numbers, date, and time of delivery or pick up.

4. Additional Requirements/Qualifications.

The vendor selected for the performance of this statement must have access to JBSA Fort Sam Houston and be able to fulfill an order within two days of an order being placed.
