

STATEMENT OF WORK
For
SIRSIDYNIX SYMPHONY SOFTWARE MAINTENANCE
November 20, 2024

1.0 PURPOSE

The Naval Surface Warfare Center, Indian Head Division (NSWC IHD) is seeking a commercial firm fixed price sole source/brand name mandatory contract for Maintenance renewal on our existing SIRSI SYMPHONY software for a period of one year. The Technical Library has a requirement for annual Symphony Software Maintenance. The software is currently in use on both the Secure Internet Protocol Router Network (SIPRNet) system and milCloud Non-Secure Internet Protocol Router Network (NIPR) and is Department of Navy (DON) Application & Database Management System (DADMS) (DADMS ID # 126695) approved.

2.0 SCOPE OF WORK

This is Tech Div's classified library system that supports the EOD 60-series related publications. Sirsi specializes in integrated library systems and in digital collection catalogues or databases. This software is used for the maintenance of the hard copy library collection records, digital file management, and online reference catalog.
