

Single Source/Brand Name Justification
United States Department of Agriculture
FAR 13.106-1(b)(1) – Simplified Acquisitions

1. Identification of the agency and the contracting office.

National Science Laboratories (USDA AMS S&T LATD NSL), Seed Regulatory and Testing Division (USDA AMS S&T SRTD), and Technical Services Division (USDA AMS FGIS TSD)

2. Description of supply or service required to meet the agency's needs.

Annual licensing and support for the Labworks Laboratory Information Management System (LIMS) Software.

3. The rationale or circumstances for limiting competition.

Labworks LLC is the developer and sole distributor of the Labworks LIMS Software – there are no distributors or resellers of the product.

4. A description of the market research conducted and the results or a statement of the reason market research was not conducted.

NSL has been using the Labworks LIMS since 2005, SRTD has been using the Labworks LIMS since 2020, and TSD has been using the Labworks LIMS since 2015. As such, each laboratory has highly a configured implementation of the LIMS which includes the array of testing services offered, customer data, laboratory equipment integrations, workflows, and data processing tools. Additionally, the LIMS manages the sample life-cycle, houses customer data, stores analytical results, facilitates results reporting, and adherence to quality assurance requirements. These factors make the LIMS is essential to fulfilling the mission for each laboratory.

No additional market research was conducted for the follow-on order. There are no other vendors who can provide software licensing and support for the Labworks LIMS and Labworks LLC has demonstrated successful past performance in delivering LIMS support. Transitioning to another brand of LIMS would entail a significant resource cost for which there are neither resources nor adequate time available. The potential delay in support or break in service would be detrimental to the daily operations of the laboratories and thereby to laboratories' stakeholders which rely on the testing services provided. The LIMS is essential to efficiently serving customers and fulfilling the mission of each laboratory.

5. Estimated price, including all options, if applicable.

<u>Description</u>	<u>Price</u>
NSL – Software licenses and support (4/1/25 – 3/31/26)	\$19,845.00
NGC – Software licenses and support (4/1/25 – 3/31/26)	\$21,402.00

SRTD – Software licenses and support (4/1/25 – 3/31/26)

\$10,005.00

6. Recommended source(s).

Labworks LLC
