

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 60 CONS-PKB/C

Project/Program Name: Drone Buster Block 4

Purchase Request / Local ID Number: [REDACTED]

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

The 60 SFS has requirement one (1) DroneBuster Block 4. The unit current only has one back up system to defeat sUAS threat, which is restricted. This addition will greatly increase ability of 60 SFS to defeat this emerging threats of the future. The DroneBuster is one of the C-sUAS industry leaders for mobile solutions. The Dronebuster is the Army's program of record (POR) handheld C-UAS system. The Dronebuster® Satellite Navigation Attack [SNA] is a compact, lightweight, cost-effective CUAS tool that can detect and defeat commercial drone threats. The portable jammer used by dismounted troops, security teams, and first responders can be instantly made ready to use during fluid, ambiguous, fast-paced encounters. Even "dark drones" are readily defeated using our state-of-the-art spoofing feature we call SNA. The Dronebuster is the only handheld electronic attack system authorized by the U.S. Department of Defense.

Section C: Justification for Soliciting from a Single Source or Brand Name

The 60th CONS issued a Sole Source Justification and Approval (J&A) to Flex Force Enterprises for the Dronebuster system. This decision stems from DZYNE Technologies, LLC, the sole owner and developer of the Dronebuster's underlying intellectual property, designating Flex Force Enterprises as the exclusive distributor and authorized seller of the system to the Department of Defense. The Joint Counter-small Unmanned Aircraft Systems Office (JCO) and the Army further solidified this selection by naming the Dronebuster as the Program of Record for the Dismounted Electronic Attack category.

Section D: Efforts to Obtain Competition

The Dronebuster and Flex Force Enterprises was selected by the JCO and the Army as program of record for the Dismounted electronic attack category. No other competition is available at this time. In a letter provided by DZYNE on 13 Feb 25 by their Vice President of Contracts, they identified only one other company, a subsidiary named Black Sage Technologies, who is authorized to distribute their products outside of DZYNE themselves.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

In the future, continual market research shall be performed for similar or like products that may be available for procurement or authorized sources for the government. DZYNE will be contacted to see if their distribution list has expanded for any future requirements for Dronebusters.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
