

ANNEX 1 – JUSTIFICATION AND APPROVAL

DEPARTMENT OF THE NAVY
NAVAL FACILITIES ENGINEERING SYSTEMS COMMAND SOUTHWEST
750 PACIFIC HIGHWAY
SAN DIEGO CA 92132-5190

J&A No. 25-02-01

JUSTIFICATION AND APPROVAL FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity.

Department of the Navy, Naval Facilities Engineering Systems Command Southwest (NAVFAC Southwest), San Diego, California

2. Description of the Action Being Approved.

Request approval for the procurement of Dormakaba locking system components, the only brand-name multi-housing access and door locking system that has been evaluated for compliance with Department of Navy cybersecurity and Commander, Navy Installations Command (CNIC) Housing policies. The request will provide a reliable, safe, and secure door locking system for residents residing in Unaccompanied Housing Towers A, B, and C onboard Naval Air Station Lemoore under RM09-3991 Project Work Order Number 1732596. The solicitation number associated with this Justification and Approval (J&A) is N62473-23-D-1012 N6247325RE501.

3. Description of Supplies/Services.

The total cost of all Dormakaba locking system components is approximately [REDACTED]. This amount is a nominal percentage, approximately [REDACTED] of the overall construction cost of RM09-3991 Project Work Order Number 1732596, [REDACTED]. The funds appropriation is Operations and Maintenance, Navy funds. The following specific brand name Dormakaba products are required for the door hardware:

Description	Part Number	Cost/Unit	Qty	Subtotal
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
TOTAL COST ESTIMATE				[REDACTED]

4. Statutory Authority Permitting Other Than Full and Open Competition.

The statutory authority permitting other than full and open competition is Title 10, U.S.C. 3204(a)(1), "Use of procedures other than competitive procedures" as implemented by the Federal Acquisition Regulation (FAR 6.302-1), "Only one responsible source and no other supplies or services will satisfy agency requirements."

5. Rationale Justifying Use of Cited Statutory Authority.

[REDACTED]

The Dormakaba Front Desk Unit (FDU)/Key Card Locking System (self-contained, hand held) does not require a network connection or Windows OS to maintain and upgrade. The Dormakaba Ilco FDU, along with compatible Radio Frequency Identification (RFID) Door Locks, have been approved from the baseline device list from [REDACTED]. This system has been deployed by Navy Region Southwest (NRSW) Housing Program Office throughout the Southwest Region.

The above listed specific brand, make, and model of multi-housing access and door locking system must be purchased in order to be compatible with the current CNIC Unaccompanied Housing Program ATO accreditation [REDACTED]. ATO certification is achieved through a rigorous Risk Management Framework process in accordance with UFC 4-010-06 Cybersecurity of Facility Related Control Systems in order to reduce and mitigate vulnerabilities until the risk is acceptable to the System Owner and Authorizing Official. Similarly, FC 4-721-10N Navy and Marine Corps Unaccompanied Housing requires the use of CNIC-authorized systems without a computer interface.

While there are other manufacturers of comparable products, the specific brand-name equipment listed above are required in order to be in compliance with the ATO accreditations. The brand, makes, and models are the only ones tested and currently accredited for use on Unaccompanied Housing facilities.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

The specific brand name products are required, but the products can be purchased from more than one distributor. These products are commercial-off-the-shelf and should be available for purchase through multiple vendors. In accordance with FAR 6.302-1, the approved J&A will be posted on SAM.GOV at the time of solicitation.

7. Determination of Fair and Reasonable Cost.

Based on historic cost information currently available, the contracting officer has adequate information to ensure that the cost to the Government for this acquisition will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition.

There are currently no other multi-housing access and door locking systems that meet the requirement of the ATO accreditation. Testing of additional brands, makes, and models to increase brand diversity is at the discretion of the NRSW Housing Program Office.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein are complete and accurate to the best of my knowledge and belief.

Technical Cognizance:

LEGAL SUFFICIENCY REVIEW

CONTRACTING OFFICER CERTIFICATION

APPROVAL

Upon the basis of the above justification, I hereby approve, as Planning, Design and Construction Contracting Core Director, the solicitation of the proposed procurement(s) described herein using other than full and open competition, pursuant to the authority of 10 U.S.C. 3204(a)(1)(FAR Part 6.302-1).
