Section A:

EXECUTIVE SUMMARY

Joint Assault Bridge (JAB)

Continued Production; Low-Rate Initial Production (LRIP) for Qualification Testing of Technical Data Package to continue production at Full-Rate Production (FRP)

Contract REQUEST FOR PROPOSAL # W912CH-25-R-0022

A.1 GENERAL OVERVIEW:

The M1110 Joint Assault Bridge (JAB) is an Acquisition Category (ACAT) II program and is currently in the Production and Deployment phase of the Integrated Defense Acquisition, Technology, and Logistics Life Cycle Management System. The JAB system provides the Army Mobility Augmentation Companies and Brigade Engineer Battalions supporting Armored Brigade Combat Teams with a survivable, deployable, and sustainable heavy assault bridging capability. The JAB system consists of an M1A1 Abrams chassis (with A2 heavy suspension) and a hydraulic Bridge Launch Mechanism (BLM) that will launch and retrieve the Heavy Assault Scissor Bridge (HASB) with a current Military Load Classification (MLC) 115 Normal / 124 Caution. The Government will furnish the M1A1 (with A2 heavy suspension) hulls and select chassis sub-assemblies for the contractor to integrate and assemble with the BLM in accordance with the Government provided product-level Technical Data Package (TDP) and Computer Software Package (CSP).

The purpose of this action is to allow the Government to achieve the Army Authorized Acquisition Objective (AAO) of 297 JAB Systems. The Government intends to procure JAB systems from FY26 through the achievement of the AAO of 297, projected to be an estimated quantity of 122 JAB Systems. Additional systems may be procured to support emerging requirements, to include fluctuations in the Army AAO, as well as non-Army customers including Foreign Military Sales (FMS).

A.2 JOINT ASSAULT BRIDGE ACQUISITION STRATEGY:

The end deliverable is anticipated to be a JAB Chassis, consisting of the production of the BLM and integration onto the M1A1 (with A2 heavy suspension). A JAB System includes the HASB, provided separately to fielded units by the Government.

The estimated quantities as broken down by Ordering Year to achieve the AAO are as follows:

Base, (Year 1):	20
Ordering Year 2 (Year 2):	20
Ordering Year 3 (Year 3):	20
Ordering Year 4 (Year 4):	25
Ordering Year 5 (Year 5):	20
Option Year 1 / Ordering Year 6 (Year 6):	11
Option Year 2 / Ordering Year 7 (Year 7):	6

In order to meet fielding requirements, the Government reserves the right to place orders for additional JAB Chassis under the current W56HZV-16-C-0256 with DRS-Sustainment Systems Inc. through 10 May 2026. Upon Government testing approval, all remaining orders will be placed on Delivery Orders under this contract.

A.3 GOVERNMENT FURNISHED PROPERTY

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 3 of 201
----------------------------------	---	-----------------------------

Name of Offeror or Contractor:

A.3.1 M1A1 (with A2 heavy suspension) Chassis

The Government will provide the contractor a repaired Government Furnished M1A1 (with A2 suspension) chassis and select sub-assemblies and components as detailed under Section J, Attachment 0003 (ATPD-2402 P-Spec). The contractor shall assume total responsibility for the chassis assembly and integration of the BLM to meet the requirements of the Government provided product-level TDP, as detailed under Section J, Attachment 0001 (JAB TDP) and Attachment 0002 (CSP).

In accordance with 10 USC 2464, the Department of Defense (DoD) has a requirement, in the interests of national defense, to maintain a core depot-level maintenance and repair capability. In accordance with Title 10 USC Section 2474, offerors may elect to utilize Anniston Army Depot (ANAD) for completion of technical work related to the Abrams chassis. The Government will fund ANAD for chassis work associated with providing the chassis as Government Furnished Equipment.

An offeror may at its sole discretion enter into a separate partnership agreement with ANAD for ANAD to perform other services necessary to produce JABs, in addition to those described above and in Section J, Attachment 0003 (ATPD-2402 P-Spec). Such agreement will be outside the scope of effort funded directly by the Government and the contractor would be responsible to fund ANAD for those services.

A.3.2 HASB Scissor Bridge

The Government will provide the HASB for each system at the fielding site as part of the fielding of the JAB. The contractor is not required to support the production or delivery of the HASB.

A.3.3 Technical Data Package (TDP) and Data Rights

The contractor shall produce the JAB BLM in accordance with the Government provided product-level TDP, Attachment 0001 (JAB-TDP) and integrate onto the Government provided M1A1 (with A2 suspension) chassis.

A.4 ANCILLARY REQUIREMENTS

A.4.1 In conjunction with JAB Chassis, the contractor shall provide Basic Issue Items (BII) (Attachment 0010) and Components of End Items (COEI) (Attachment 0010).

A.4.2 Fielding Requirements: The contractor shall provide the Authorized Stockage List (ASL) (Attachment 0007 and Special Tools and Test Equipment (STTE) (Attachment 0007) as separate deliverables upon award.

A.4.3 Log Product Updates: For any vendor specific changes and/or part numbers, the contractor shall update the TDP and Technical Manuals.

A.4.4 Qualification Test Support: Test support shall be required to qualify a contractors production asset prior to receiving Full-Rate Production (FRP) Approval.

A.4.5 Engineering Changes: Engineering Changes may be required.

A.4.6 Options

A.4.6.1 Optional Retrofit Hardware: Retrofit hardware for the BLM Retrofit Kit, Attachment 0005, may be required beginning in Year 3.

A.4.6.2 Optional Retrofit Support: Retrofit support for the installation of ECP kits, including the BLM Retrofit kit may be required beginning in Year 3 on a Level of Effort (LOE) or Completion basis.

A.5 CONTROLLED UNCLASSIFIED INFORMATION (CUI)

Information pertaining to the Abrams M1A1 chassis and HASB is subject to the Export Control Act and Export Administration Regulations (EAR) export controls and shall be handled in accordance with CUI handling procedures posted on the JAB website at URL: <http://contracting.tacom.army.mil/majorsys/jab/jab.htm>.

Contractors need to be certified under the United States/Canada Joint Certification Program (JCP) at

<https://www.logisticsinformationservice.dla.mil/jcp/> in order to be granted access.

A.6 CLASSIFIED INFORMATION

During this contract, the contractor will be required to handle classified information up to SECRET. Offerors must provide evidence of its facility security clearance (Secret). Reference the National Industrial Security Program Operating Manual (NISPOM) dated Feb 2006 for information on how to obtain a Facility Clearance Letter (FCL) (http://www.dss.mil/isp/fac_clear/download_nispom.html).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 4 of 201
---------------------------	--	----------------------

Name of Offeror or Contractor:

A.7 DELIVERY AND PERIOD OF PERFORMANCE

Delivery of JAB chassis is anticipated to be at the contractors production facility. The Government will provide shipping instructions.

A.8 CLAUSES AND PROVISIONS

Clauses and provisions in this document may not appear in consecutive order. Clauses and provisions from the Federal Acquisition Regulation (FAR) and supplements thereto are incorporated in this document by reference and in full text. Those incorporated by reference have the same force and effect as if given in full text.

Name of Offeror or Contractor:

SECTION B - SUPPLIES OR SERVICES AND PRICES/COSTS

B.1 The number system that is to be used for the four-digit item numbers (CLINs) is as follows:

The first digit signifies the applicable number periods, the second digit signifies the service procuring the item, the third and fourth digits signify the item or service as detailed below:

First CLIN Digit	Second CLIN Digit	Third & Fourth Digit
# - Period	# - Service	# - Scope Element
1 Base Ordering Year	0 Army	00 - Unused
2 Ordering Year 2	1 - Non-Army/Foreign Military Sales (FMS)	01 Joint Assault Bridge (JAB) Chassis
3 Ordering Year 3		02 Authorized Stockage List (ASL)
4 Ordering Year 4		03 Special Tools & Test Equipment (STTE)
5 Ordering Year 5		04 Storage and Maintenance of JAB Chassis
6 Option Year 1 / Ordering Year 6		05 Engineering Change Proposal (ECP) Non-Recurring Costs
7 Option Year 2 / Ordering Year 7		06 Test Support for LRIP Systems
		07 Tech Manual Updates
		08 Retrofit Hardware
		09 CONUS Retrofit Support Level of Effort (LOE)
		10 - Retrofit Completion
		11 - OCONUS/Non-Hazardous Retrofit LOE
		12 - OCONUS/Non-Hazardous Retrofit Completion

Army CLIN Examples:

CLIN 1001 is the Initial Award for Base Ordering Year for Army LRIPs for the JAB Chassis
CLIN 1006 is the Initial Award for Base Ordering Year for Army Test Support to LRIP Systems
CLIN 1007 is the Initial Award for Base Ordering Year for Army Technical Manual Updates
CLIN 1001 is the 2nd Order within Base Ordering Year for Army for the JAB Chassis
CLIN 2001 is the Ordering Year 2 for Army for the JAB Chassis
CLIN 2005 is the Ordering Year 2 for Army for ECP Non-Recurring Costs
CLIN 2002 is the Ordering Year 2 for Army for ASL
CLIN 3003 is the Ordering Year 3 for Army for STTE
CLIN 4008 is the Ordering Year 4 for Army Retrofit Hardware
CLIN 4012 is the Ordering Year 4 for Army CONUS Retrofit LOE Labor
CLIN 6004 is the Option Year 1 / Ordering Year 6 for Army for Storage and Maintenance of Vehicles
CLIN 7001 is the Option Year 2 / Ordering Year 7 for Army for the JAB Chassis

The Government (Army) intends on maintaining a single configuration.

B.1.1 Non-Army/FMS Orders. The Army configuration pricing identified in Attachment 0005 (Price/VATEP Workbook) shall be the base price for all Non-Army/FMS orders. Any Non-Army/FMS systems requiring configuration changes shall be negotiated and incorporated into the individual order associated with the systems ordered; any Non-Army/FMS non-recurring costs shall be incorporated into the individual order associated with the systems ordered as an Engineering Change Proposal (ECP) cost.

Non-Army / FMS CLIN Examples:

CLIN 2101 is the Ordering Year 2 for Non-Army/FMS for the JAB Chassis
CLIN 2105 is the Ordering Year 2 Non-Army/FMS ECP Non-Recurring Costs

B.2 JAB Chassis Ordering: The Government may unilaterally exercise any quantity of JAB chassis at any time during an ordering year IAW Attachment 0005 (Price/VATEP Workbook), which shall include IAW Attachment 0009 (Basic Issue Items - BII) and Attachment 0010 (Component of End Items COEI).

The maximum monthly production rate for any combined order shall not exceed four systems per month.

B.2.1 Firm Fixed-Price (FFP) JAB Chassis Ordering Contract Type: The Government may unilaterally order any quantity of JAB Chassis at any time during the ordering period at the Firm-Fixed Prices identified in Attachment 0005 (Price/VATEP Workbook) for the Ordering Periods identified below:

- Base / Ordering Year 1
- Ordering Year 2
- Ordering Year 3
- Ordering Year 3
- Ordering Year 4

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 6 of 201
--	--	--

Name of Offeror or Contractor:

- Ordering Year 5
- Option Year 6
- Options Year 7

B.3 Ancillary Hardware Ordering (FFP): The Government may unilaterally exercise any quantity of kit hardware, as identified below at any time during an ordering year IAW Attachment 0005 (Price/VATEP Workbook).

- ASL (Attachment 0006 ASL)
- STTE (Attachment 0007 STTE)

B.4 Service Ordering: The Government may unilaterally exercise any quantity of support for service support as identified below at any time during an ordering year.

- Storage and Maintenance of Vehicles

B.4.1 Retrofit Support: The scope of work for retrofit of fielded JAB systems with ECPs will be performed by Technical Instructions under an order (as further defined in section H) and will be Cost-Plus Fixed-Fee (CPFF) Term (Level of Effort (LOE))or completion basis, as negotiated.

Retrofit shall be a composite rate consisting of mechanics, field service representatives and technical support personnel with the ability to install the Retrofit Hardware identified on Attachment 0008 (Retrofit Kit) or other engineering changes onto JAB systems.

The total estimated Retrofit hours by Ordering Period are identified below:

- Ordering Year 2: 13,500
- Ordering Year 3: 14,850
- Ordering Year 4: 16,875
- Ordering Year 5: 18,225
- Option Year 1 / Ordering Year 6: 14850
- Option Year 2: 2,700

B.4.1.1 CPFF Term-Level of Effort (LOE): The Government may bilaterally exercise any quantity of retrofit hourly support to perform any retrofit or developmental improvements as identified in C.23 and H.2.2, at any time during an ordering year.

Retrofit support efforts determined severable shall be in line with the ordering year period in which the hours are performed. The Cost-Plus Fixed Fee (CPFF) Term, LOE detail below applies:

(a) The contractor agrees to provide the LOE as exercised in performance of the effort provided under the ensuing order. The total LOE for the performance of the order shall be in line with the exercised amount under the order.

i.Effort performed in fulfilling the LOE obligations specified above shall only include effort performed in direct support of the ensuing order and shall not include time and effort expended on local travel to and from an employee's usual work location, uncompensated effort while on travel status, truncated lunch periods, work (actual or inferred) performed outside of PWS referenced Places of Performance, or location otherwise authorized under the ensuing order (TO) and ensuing order, or other time and effort which does not have a specific and direct contribution to performance the order.

(b)The LOE for the order shall be expended at the composite hourly rate identified within the ordering period.

(c)The Government may adjust the fixed fee as a result of changes in work to be performed under the order. The calculation of the appropriate fee reduction shall be IAW the following:

i.If the total LOE specified in paragraph (a) above is not provided by the Contractor during the period of stated period in the order, the Contracting Officer, at its sole discretion, shall reduce the fee of the SLIN and order as follows:

Fee Reduction Percentage = (Obligated LOE - Expended LOE)

Obligated LOE

Fee Reduction Example:

Total fee per LOE hour:	\$9.50
Total Hours Obligated (Obligated LOE):	1,000
Total Expended Hours (Expended LOE):	850
Less Total Unexpended Hours:	150

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 7 of 201
---	---	---

Name of Offeror or Contractor:

Total obligated fee: \$9,500 (\$9.50 x 1,000)
 Total fee reduction % calculation: $\frac{(1,000-850)}{1,000} = 15\%$

Total fee reduction: \$1,425 (\$9,500 x 15%)
 Total final fee: \$8,075 (\$9,500 - \$1,425)

ii. Subject to the provisions of the clause of this contract entitled "LIMITATION OF COST" (FAR 52.232-20), as applicable, require the Contractor to continue to perform the work until the total number of retrofit hours of direct labor specified in paragraph (a) above shall have been expended, at no increase in the fee of this contract.

(d) The terms and conditions of this section do not supersede the requirements of either FAR clause 52.232-20 Limitation of Cost or FAR clause 52.232-22 Limitation of Funds.

B.4.1.1.1 CPFF-Term LOE Pricing:

COMPOSITE RATE

PERIOD	Est. Cost	Fixed Fee	CPFF Total
- Ordering Year 2			
- Ordering Year 3			
- Ordering Year 4			
- Ordering Year 5			
- Option Year 1 / Ordering Year 6			
- Option Year 2 / Ordering Year 7			

B.4.1.2 Completion: For completion efforts, the Government may bilaterally exercise any quantity of retrofit hourly support to perform any retrofit or developmental improvements as identified in C.23 and H.2.2, at any time during an ordering year.

The fixed fee for each order shall be calculated based upon the composite rate for the ordering period during which the order was exercised. Performance of the total agreed upon hours may extend beyond the expiration of the ordering period exercised.

B.4.1.2.1 Completion Pricing:

COMPOSITE RATE

PERIOD	Est. Cost	Fixed Fee	CPFF Total
- Ordering Year 2			
- Ordering Year 3			
- Ordering Year 4			
- Ordering Year 5			
- Option Year 1 / Ordering Year 6			
- Option Year 2 / Ordering Year 7			

B.5 Options: The option CLIN DOES NOT Form a part of the basic contractual quantity. Part or all of it may, however, be added to the contract by exercise of the option clause, at the discretion of the Government.

- Option Year 1 / Ordering Year 6
- Option Year 2 / Ordering Year 7

B.5.2 Options for additional ordering periods may be exercised by the Government IAW B.2.2 and Attachment 0005 (Price/VATEP Workbook).

- Option Year 1 / Ordering Year 6; If exercised Option Year 1 shall be referred to as Ordering Year 6
- Option Year 2 / Ordering Year 7; If exercised Option Year 2 shall be referred to as Ordering Year 7

C.27 LIFCYCLE MANAGEMENT PROCESS (LCMP) CONTRACT DATA REQUIREMENTS LIST (CDRL) MODULE

C.1 OVERVIEW OF THE PROGRAM
This Statement of Work (SOW) encompasses the Production and Deployment phase requirements of the Joint Assault Bridge (JAB), specifically the Bridge Launch Mechanism (BLM) and the integration of it onto an M1A1 (with Heavy A2 Suspension) for the period of performance.

This SOW consists of the supplies and services required for production (including vehicles, LRIP systems, Attachment 0006 (Authorized Stockage Lists (ASL)), Attachment 0007 (Special Tools & Test Equipment (STTE)), Program Support (including Program Management, Configuration Management, Integrated Product Support (IPS) and Test Support), retrofit kits and retrofit support, Storage and Maintenance of hardware procured.

The contractor, as an independent contractor and not as an agent or employee of the USG Government, shall furnish all data, supporting labor, supplies, services, facilities and equipment as required under this contract.

C.1.1 GENERAL DESCRIPTION

The JAB System employs a turret-less Army M1A1 Abrams Main Battle Tank, with the M1A2 Heavy suspension, the Total InteGrated Engine Revitalization (TIGER) engine installed and a BLM to launch and retrieve the Heavy Assault Scissoring Bridge (HASB), accomplishing the mission requirements as set forth in Attachment 0001 (JAB Technical Data Package (TDP)), Attachment 0002 Computer Software Package (CSP) and Attachment 0003 (Army Technical Purchase Description (ATPD-2402)) incorporated under Section J.

The JAB Unique Components are defined as the JAB BLM and associated components added to, or modified on, the M1A1 (with heavy A2 suspension) chassis. The HASB is an existing item which is NOT within the scope of this contract. The Government will supply the HASB to units with fielded JAB Chassis. Any HASB in support of this contract will be provided as Government Furnished Property (GFP) and shall not be modified by the contractor. The ATPD-2402 does not include performance requirements for the HASB.

Anniston Army Depot (ANAD) will disassemble, prep, and demilitarize M1A1 chassis, prior to the Government providing chassis to the contractor as GFP. The tasks associated with this effort include those Tasks #1-#9 as shown in Attachment 0004, (ANAD Task List). If the contractor develops any agreements or is interested in having ANAD perform any efforts to the GFP prior to shipment to the contractor facility, the contractor shall establish a Public-Private Partnership (P3) with ANAD within 90 days of contract award. Reference Section C.2 for Depot Involvement.

C.1.1.1 ORDER OF PRECEDENCE FOR TECHNICAL REQUIREMENTS

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 81 of 201 MOD/AMD
Name of Offeror or Contractor:		

In the event of a conflict between the Attachment 0001 (JAB Product-Level TDP) and Attachment 0002 (CSP), the Purchase Description (PD), or any other Attachments or Exhibits related to the JAB Chassis TDP and CSR or PD, the order of precedence for documents in this contract that fall within paragraph (d) of the standard FAR 52.215-8, Order of Precedence clause is as follows:

- (1) JAB Product-Level TDP (Attachment 0001) and CSP (Attachment 0002) as modified by Engineering Change Proposals (ECPs), Value ECPs (VECPs), and Requests for Variance (RFV) that have been approved by the Government through the Configuration Control Board (CCB) and authorized by the Procuring Contracting Officer (PCO)
- (2) JAB Purchase Description, ATAP-2402 (Attachment 0002)
- (3) Other Attachments (Reference Section J); and
- (4) Exhibits (Reference Section J)

In the event of no conflict, all requirements shall apply as written.

C.1.2 HARDWARE AND DELIVERABLES

C.1.2.1 The contractor shall deliver JAB Chassis In Accordance With (IAW) the requirements of the Attachment 0001, (TDP) and Attachment 0003 (ATPD-2402).

C.1.2.1.1 Basic Issue Items (BII)

The contractor shall provide all JAB Chassis BII for each JAB Chassis IAW Attachment 0009 (BII List). The contractor shall over-pack the JAB Chassis BII, to include the JAB Chassis BII List, with each JAB Chassis at delivery. The BII shall be separately packed from the Component of End Item (COEI).

C.1.2.1.2 Component of End Item (COEI)

COEI are components that are part of the JAB Chassis but must be removed and separately packaged for military transportation. The contractor shall provide all JAB Chassis COEI for each JAB Chassis IAW Attachment 0009 (COEI List). The contractor shall over-pack the COEI, to include the JAB Chassis COEI List, with each JAB Chassis. The COEI shall be separately packed from the BII.

C.1.2.2 Technical Data Package (TDP) Updates (Applies to contractor without testing approval at time of award)

The contractor shall update Attachment 0001 (TDP) with vendor specific part numbers, nomenclatures as required and deliver IAW CDRL D001 (TDP Updates) through the ECP process identified in Section C.6.

C.1.3 All contract references to days shall be recognized as calendar days, unless specifically identified as business days.

C.2 DEPOT INVOLVEMENT

IAW 10 U.S.C. 2464 the Department of Defense (DoD) has a necessity in the interests of national security to maintain a core depot-level maintenance and repair capability. The Secretary of the Army designated Anniston Army Depot (ANAD) as the Center of Industrial and Technical Excellence (CITE) for Combat Vehicles (tracked and wheeled) (except Bradley) and assault bridging systems.

ANAD has the capability to support the M1A1 (with Heavy A2 Suspension Upgrade). ANADs support capabilities include a full range of refurbishment related tasks including, but not limited to, complete hull disassembly, inspection and overhaul, engine and transmission overhaul, suspension overhaul, demilitarization of non-essential items for the JAB, and production/re-assembly of the hull related items. ANAD has the capability to order all M1A1 hull components and line replaceable units (LRUs) for use in the JAB program. In addition, ANAD has capabilities for other aspects of JAB chassis production.

Anniston Army Depot (ANAD) will disassemble, prep, and demilitarize M1A1 chassis, prior to the Government providing chassis to the contractor as GFP. The tasks associated with this effort include those Tasks #1-#9 as shown in Attachment 0004, (ANAD Task List). If the contractor develops any agreements or is interested in having ANAD perform any efforts to the GFP prior to shipment to the contractor facility, the contractor shall establish a Public-Private Partnership (P3) with ANAD within 90 days of contract award. Reference Section C.2 for Depot Involvement.

Tasks #10 - #22 in Attachment 0004, (ANAD Task List) represent those tasks required to assemble GFP into a fully functional rolling M1A1 Chassis. The Government will directly fund ANAD depot labor for these efforts. Planned utilization of ANAD labor for these purposes will be documented in Attachment 0004, (ANAD Task List) of the contract. Note that these tasks do not include any effort to integrate the contractor provided JAB launcher mechanism.

The contractor can, at its sole discretion, enter into a separate partnership agreement with ANAD for other services necessary to produce JAB Chassis beyond Tasks #10 - #22. An agreement can include services such as modifying the hull to accommodate launcher hydraulics. Such agreement would be outside the scope of effort funded directly by the Government and the contractor would be responsible to fund ANAD for those services. Title 10 U.S.C. 2474 enables ANAD to establish Public-Private Partnerships (P3) with industry to perform work of benefit to the Government. More information may be found through the ANAD business office and at the link

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 82 of 201 MOD/AMD
---------------------------	--	---

Name of Offeror or Contractor:

below: <http://www.anad.army.mil/pppANAD.shtml>

C.3 TOTAL PRODUCTION MANAGEMENT

The contractor shall assume responsibility for the total production management of each JAB Chassis. This responsibility shall include:

- a) Ensuring on-time delivery by managing production from receipt of GFP to delivery of JAB Chassis that meets the required performance specification.
- b) Working with its partners, subcontractors, ANAD and the Program Office, the contractor shall assess lead time requirements for procurement and production of all JAB Chassis components to include Attachment 0011 (Master Parts List), IAW CDRL A001 (Parts Management), and track delivery of those components to ensure timely production and final delivery of JAB Chassis to the Government.
- c) Ensuring that its partners and sub-contractors (to include ANAD, if ANAD is engaged in a partnership) have adequate quality management plans, procedures and control processes in places as described in C.13.1.1.
- d) Ensuring that quality management processes, work procedures, and initial and in-process inspections are documented and followed throughout the build process.
- e) Performing quality audits on its sub-contractors and partners sufficient to ensure that quality procedures are being followed and documented during production and coordinating corrective action plans with its sub-contractors and partners.

The contractor is not responsible for total production management associated with the following items:

- a) Re-design of M1A1 Chassis components to improve M1A1 Chassis reliability. However, ATPD-2402 references specific applicable M1A1 automotive performance requirements and the contractors design shall not degrade the performance of the chassis relative to these requirements.
- b) Analysis, qualification or selection of new sources of supply for M1A1 chassis components.

The contractor may inspect GFP and shall notify the Contracting Officer, on a timely basis, if GFP is not suitable for its intended use IAW FAR 52.245-1. In addition to its responsibilities under FAR 52.245-1, the contractor is responsible for failures resulting from either improper installation of GFP or JAB integration design deficiencies. GFP will be provided in a condition suitable for its intended use. The Government may transition procurement of certain parts as listed in Attachment 0010 (Master Parts List) as Contractor Furnished Property (CFM) to the Contractor via exercise of orders in periods 3 through 7 (see C.20.12.1.2). Details on GFP can be found in Attachment 0010 (Master Parts List).

C.4 PROGRAM STRUCTURE, DATA, COST REPORTING, and MEETINGS AND REVIEWS

C.4.1 Integrated Product Team (IPT)

Integrated Product Teams (IPTs) shall be established to serve as the primary management tool and key method of communication for this contract. As part of the Start Of Work Meeting (SOWM), the Government and contractor will form IPTs. The Government IPT Points of Contact are detailed in Attachment 0012, (IPT List). IPTs and membership shall be assigned in the areas of contract and program management, engineering, software, Integrated Product Support (IPS), test, cost, and production. The IPT meetings shall be held via teleconferences or electronic means unless specified otherwise in Section C.4.3.

C.4.2 Meetings

C.4.2.1 Contractor Participation

The contractor shall participate in the meetings and reviews as described herein. The Government will determine when meetings shall be held in person or by electronic means (via teleconferences or email).

C.4.2.2 Agendas and Briefing Charts

The contractor shall develop and submit an agenda and read-ahead package including briefing charts in contractor format IAW CDRL A002 (Conference Agenda) for all meetings, conferences and reviews under this contract, not limited to the subsections below: C.4.2.3 C. 4.2.8.

C.4.2.3 Meeting Minutes

The contractor shall prepare and submit Meeting Minutes IAW CDRL A003 (Meeting Minutes) for all meetings, conferences and reviews under this contract.

C.4.2.4 Start of Work Meeting (SOWM)

The contractor shall conduct a SOWM within thirty (30) Days After Contract Award (DACA), at the contractor production facility. The purpose of the SOWM is to ensure the contractor has a clear understanding of all contract requirements and an executable plan for all

Name of Offeror or Contractor:

contract deliverables.

C.4.2.5 Program Management Reviews (PMR)

The contractor shall conduct quarterly PMRs with the Government at the contractor production facility, alternative location, or via teleconference as mutually agreed by both parties. The first PMR shall be concurrent with the SOWM. At each PMR, the contractor shall present the cost, schedule, performance, supportability status and risk assessment and risk mitigation initiatives. These meetings will also include separate discussions for safety, engineering, logistics, production, contracting, test, and product assurance.

C.4.2.6 Integrated Process Team (IPT)

An Integrated Product Team (IPT) shall be established to serve as the primary management tool and key method of communication for this contract. As part of the SOWM, the Government and Contractor will form IPTs. IPTs and membership shall be assigned in the areas of contract and program management, engineering, Integrated Logistics Support (ILS), training, quality assurance, safety, human factors/MANPRINT, test, and production. The Contractor shall be prepared to address all schedule, performance, supportability and risk issues during IPT meetings.

C.4.2.7 Program Management Level IPT Meetings

The Contractor shall conduct Monthly Program Management (PM) Level IPT Meetings. The PM Level IPT Meetings shall commence within 30 days following the Contract SOWM. The meetings shall include Contractor program management personnel and working level IPT personnel to address cost, schedule, performance, risk status, and the Contractor shall be prepared for detailed discussion with the Government. Technical issues shall be presented in terms of performance requirements, design, exit criteria, schedule progress, risk and mitigation, and cost impact. For planning purposes, these meeting are anticipated to be one to two hours per event.

C.4.2.8 Contracting IPT Meetings

The contractor shall conduct contracting specific IPT meetings upon Government request. The meetings shall include Contractor contracting personnel and working level IPT personnel to address contractual requirements, open actions and modifications. The contractor shall be prepared for a detailed discussion with the Government. Issues shall be presented in terms of performance goals, exit criteria, schedule progress, risks and mitigation, and cost impact.

C.4.3 Data

C.4.3.1 Data Requirements

The contractor shall deliver all data in English IAW the requirements.

C.4.3.2 The contractor shall validate all documentation prior to submittal to the Government. Government receipt of data deliverables does not constitute acceptance. Government acceptance of data deliverables hinges on the completeness, accuracy, compatibility of submitted documentation, and the applicable military standards and specifications.

C.4.3.3 Cost and Software Data Reporting (CSDR):

C.4.3.3.1 CSDR are the primary means by which the Department of Defense (DoD) collects data on the costs that contractors incur on DoD programs. Reliable and comprehensive cost data is essential to produce credible cost estimates as required in both statute and regulation. Government goals and use of CSDR data is to improve the quality of cost estimates, ensure proper resource allocation occurs within the DoD, and enable data driven decision making by program and department leadership.

C.4.3.3.2 The Contractor shall systematically collect and report actual contract costs IAW the following Contract Data Requirements Lists (CDRLs) in line with Attachment 0013 (Cost and Software Data Reporting (CSDR) Plan)

<u>Report Title</u>	<u>CDRL</u>
Resource Distribution Table	A004
Cost and Hour Report (FlexFile)	A005
Quantity Data Report	A006
Technical Data Report	A007
Bill of Materials (BOM)	A008
Contractor Business Data Report	A009

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 84 of 201 MOD/AMD
---------------------------	--	---

Name of Offeror or Contractor:

C.4.3.3.3 Application to Subcontractors. The Contractor shall flow-down CSDR requirements referenced in section C.4.3.3 and its sub-paragraphs to subcontractors (regardless of subcontractor tier) when the subcontract value is expected to exceed \$50 million using the maximum allowable contract quantities, hours, or options (as applicable), as required by Department of Defense (DoD) Manual 5000.04 - CSDR Manual. Subcontractors that meet the CSDR flow-down requirement are referred to as direct reporting subcontractors. The Contractor shall require direct reporting subcontractors to electronically submit CSDRs deliverables directly to the Defense Cost and Resource Center (DCARC). The Contractor shall ensure that direct reporting subcontractors collect data in sufficient detail to meet the requirements of Attachment 0013 (CSDR Plan) and DoD Manual 5000.04 - CSDR Manual requirements. The Contractor shall collect and deliver data on all subcontractors to comply with Attachment 0014 (Resource Distribution Table), IAW CDRL A004 (Resource Distribution Table), and Attachment 0013 (CSDR Plan) requirements. A subcontract is any agreement, purchase order, or instrument other than a prime contract calling for work or for the material required for the performance of one or more prime contracts. A subcontract usually covers procurement of major components or subsystems that require the subcontractor to do extensive design, development, engineering, and testing to meet prime contractor procurement specifications or performs work on behalf of the prime contractor in order to complete the prime contractor scope of work requirements.

C.4.3.3.4 Resource Distribution Table (RDT). The Contractor shall prepare and submit the RDT IAW CDRL A004 (Resource Distribution Table) which will be incorporated as Attachment 0014 (Resource Distribution Table) upon acceptance. The Resource Distribution Table identifies the value of work assigned to the Contractor and its subcontractors by for each WBS element listed Attachment 0013 (CSDR Plan) and is the primary means of identifying which subcontractors qualify for CSDR flow-down reporting.

C.4.3.3.5 Cost and Hour Report (FlexFile). The Contractor shall prepare and submit the Cost and Hour Report (FlexFile) IAW (IAW) CDRL A005 (Cost and Hour Report) and Attachment 0013 (CSDR Plan). The Cost and Hour Report (FlexFile) reports incurred and forecasted costs and hours related business data in order to perform this contract.

C.4.3.3.6 Quantity Data Report. The Contractor shall prepare and submit the Quantity Data Report IAW CDRL A006 (Quantity Data Report) and Attachment 0013 (CSDR Plan). The Quantity Data Report reports incurred and forecasted quantities associated with this contract.

C.4.3.3.7 Technical Data Report (TDR). The Contractor shall prepare and submit the TDR IAW CDRL A007 (Technical Data Report) and Attachment 0013 (CSDR Plan). The TDR Report reports technical parameter data to provide context to the data reported in CSDR submissions and to derive parametric cost estimating relationships.

C.4.3.3.8 CSDR Post Award Conference (PAC). The Contractor shall host a CSDR Post Award Conference (PAC) at the Contractors facility where CSDRs are prepared with the Governments Cost Working Group Integrated Product Team (CWIPT) IAW DFARS 242.503-2(b) and DoD Manual 5000.04 (CSDR Manual). The purpose of the Post Award CSDR Conference is to review the contracts CSDR requirements and assess how the Contractors accounting system satisfies the CSDR requirements found in DoD 5000.04 (CSDR Manual) and Attachment 0013 (CSDR Plan). In a briefing presented by the Contractor in its own format, the Contractor shall:

- Demonstrate how it collects cost data in its accounting system and how that data will be utilized to provide actual cost transactions and minimize cost allocations when preparing CSDR data deliverables.
- Describe how recurring vs. nonrecurring costs are segregated in its accounting system and for the purpose of CSDR reporting.
- Demonstrate how the data from its accounting system will be mapped into the CSDR reports required by Attachment 0013 (CSDR Plan) and associated CDRLs.
- Present the methodologies used for mapping internal cost accounts to the WBS, specifically showing how individual WBS elements and functional element codes will be populated.
- Propose any changes to Attachment 0013 (CSDR Plan) in order to tailor the plan to the Contractors accounting system, to include any Contractor recommended changes or additions to the WBS elements. These changes may include adjustments to the submission events and/or submission timelines, particularly in the case of a direct-reporting subcontractor performing against a different delivery schedule than the associated prime contractor.

The Contractor and CWIPT will also review the initial submission of the Resource Distribution Table (RDT) (CDRL A004 - (RDT), in order to finalize which subcontractors will be required to provide CSDR reporting and electronic submission of deliverables directly to the Defense Cost and Resource Center (DCARC) and which subcontractors may qualify for a CSDR direct reporting subcontractor waiver.

The PAC shall be held within 60 days of contract award or the start of work meeting on a date mutually agreed to by the CWIPT and the Contractor. This meeting has an anticipated duration of one business day.

C.4.3.3.9 Bill of Materials (BOM). The Contractor shall prepare and submit the Bill of Materials (BOM) IAW CDRL A008 for the JAB components. The Bill of Materials (BOM) reports a complete list of material (e.g., part numbers, software, fluids) including all levels of assembly required to build, assemble, and sustain a complete Joint Assault Bridge (JAB) end item to include any kits or applique equipment. The first submission of the BOM shall identify the Contractors Joint Assault Bridge (JAB) design as of the date of contract award and the final submission shall identify the Joint Assault Bridge (JAB) design current as of the end of the contract.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 85 of 201 MOD/AMD
---------------------------	--	---

Name of Offeror or Contractor:

C.4.3.3.10 Contractor Business Data Report (CBDR). The Contractor shall prepare and submit the Contractor Business Data Report IAW CDRL A009 (Contractor Business Data Report) and Attachment 0013 (CSDR Plan). The CBDR reports direct and indirect actual cost data on Government contracts and proposed direct and indirect cost data.

C.4.3.4 Integrated Master Schedule

The contractor shall deliver an Integrated Master Schedule (IMS), IAW CDRL A010 (IMS), for the JAB Production phase that incorporates information contained within the Government initial schedule as provided in Attachment 0015, (Integrated Master Schedule (IMS)).

C.4.3.4.1 The Summary Master Schedule shall include all milestones, system design and integration events, design and logistics meetings, Program Management Reviews, CDRL deliverable dates, contractor test, Government test, logistics events, and system production and modification tasks. The contractor shall present the project schedule at each Program Management Review (PMR), explain all program slippages, and provide get-well plans within 30 days of discovery within the IMS IAW CDRL A010 (IMS).

C.4.3.4.2 Intermediate and Detailed Schedules

The contractor shall provide intermediate schedules and detailed schedules reflecting all program events IAW CDRL A010 (IMS). The schedule shall reflect all key tasks and events required to produce production JAB Chassis.

C.5 RISK MANAGEMENT

The contractor shall identify, monitor, manage and mitigate all program risks. The contractor shall develop and deliver a Risk Mitigation Plan IAW CDRL A011 (Risk Mitigation Plan). The contractor shall continue to track and manage risk elements to completion of mitigation. The contractor shall implement risk management and rework procedures with each subcontractor and partners to address component and integration problems early in the production process, before the JAB Chassis are completed and delivered. The contractor shall provide a Risk Management Status Report IAW CDRL A012 (Risk Mitigation Report). The contractor shall incorporate all risks as identified by either the contractor or the Government. Resolved risks shall be archived on the report after Government approval.

C.5.1 Risk Management Planning

The Contractor shall develop a risk management plan IAW the DoD Risk, Issue, and Opportunity Management Guide for Defense Acquisition Programs (January 2017) and best commercial practices. The Contractor shall use the plan for the life of the contract to monitor management, cost, and schedule of the contract efforts and technical risks relative to contract performance. The Contractor shall brief and display risks and mitigation plans in all technical reviews, Program Management Reviews, and Integrated Process Team (IPT) meetings. The Contractor shall make the risk management plan available for Government review.

C.5.2 Risk Tracking Reports

The Contractor shall develop and deliver Risk Tracking Reports. The Contractor shall systematically identify and analyze all risks to the JAB program, develop mitigation plans for all risks scored high (red) and moderate (yellow), and submit the information IAW CDRL A012 (Risk Mitigation Report).

C.6 CONFIGURATION MANAGEMENT

C.6.1 Configuration Management: The contractor shall execute a CM program at contract award for configuration planning and management, identification, change management (control), status accounting, verification, and audit, and apply the CM contract requirements throughout the period of performance. The contractor shall comply with the following CM requirements and the latest version of SAE EIA-649-1, CM Requirements for Defense Contracts, including CM section 3 and Principle CM-1. The contractor shall also comply with the latest revision of SAE EIA-649, Configuration Management Standard, as specified in this contract. The contractor shall have copies of the latest versions of both SAE EIA-649-1 and SAE EIA-649 for review and discussion at the Start of Work Meeting (SOWM).

C.6.2 Configuration Planning and Management: The contractor shall prepare, maintain, and deliver a Configuration Management Plan (CMP). The contractor shall address SAE EIA-649-1 sections 3.1, 3.1.1, 3.1.2, 3.1.3, and 3.1.4 in the CMP, IAW CDRL B001 (Configuration Management Plan).

C.6.3 Policy and Requirement Flow Down: The contractor shall flow down configuration management policies and requirements to its suppliers and subcontractors. The flow down of requirements shall be part of the contractors subcontract or purchase order award. The configuration management required of the supplier or subcontractor shall include configuration identification, configuration control, configuration status accounting, and configuration audits. The contractor shall impose applicable configuration management requirements on its sub-tier suppliers required to support its configuration management system and the production configuration.

C.6.4 Configuration Identification: The contractor shall organize, define, identify, and maintain consistency in BLM?products and their Product Configuration Information (PCI). PCI is defined in SAE EIA-649, Table 2, and in SAE EIA-649-1, section 2.3. The contractor shall also comply with SAE EIA-649 for Configuration Items and Principle CI-14 (paragraph 5.2.8 in Rev C).C.6.5 Baselines: Configuration baselines shall be configuration controlled IAW the requirements of this contract. Configuration baseline status shall be reviewed at program and technical review meetings.

C.6.5.1 Product Baseline: The Product Baseline exists at contract award and shall not be changed or updated without prior Government approval. The contractor shall provide continuous maintenance of the product baseline documentation throughout the production contract performance period.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 86 of 201
Name of Offeror or Contractor:		

C.6.5.2 Indentured Bill of Materials: The contractor shall comply with SAE EIA-649 for Product Structure and Principle CI-9 (paragraph 5.2.4 in Rev C). The contractor shall prepare, maintain, update, and deliver a complete product structure as an Indentured Bill of Materials (IBOM), IAW CDRL B002 (Technical Data Package (TDP) and Engineering Release Record (ERR)), structured from an engineering perspective. The IBOM shall identify products of the BLM in a top-down (parent-child) manner, from the end item, through assemblies and subassemblies, down to each piece part. The contractor shall keep the IBOM in sync with the BLM hardware throughout the period of performance and verify that the IBOM is a complete and identical representation of the BLM baseline configuration at the time of each IBOM delivery, IAW CDRL B002 (TDP and ERR).

C.6.6 Engineering Release: The contractor shall have an engineering release process in place at contract award and include a detailed description of the contractors release process in the CMP, IAW CDRL B001 (Configuration Management Plan).

C.6.6.1 Engineering Release Record: The contractor shall prepare and deliver an ERR Package to formally release PCI for the Attachment 0001 (TDP). The ERR Package is defined as the ERR form delivered concurrently with the new PCI for Product Baseline initial release or revised PCI for Product Baseline change release. The contractor shall prepare and deliver an ERR Package to initially release the BLM Product Baseline TDP and to release all approved updates to the BLM Product Baseline TDP, IAW CDRL B002 (TDP and ERR).

C.6.6.1.1 Engineering Release Record Number: The contractor shall request ERR number(s) prior to finalization of PCI for Attachment 0001 (TDP). The contractor shall use the Government-assigned 3-character prefix and the 5-character alpha-numeric suffix as the authorization number to release TDP documentation. When preceded by an approved engineering change, the ERR number shall be the same as the engineering change number. The contractor shall apply the 8-character ERR number IAW the TDP requirements in Attachment 0001 (TDP), and with CDRL B002 (TDP and ERR).

C.6.6.1.2 Engineering Release Record Delivery/Approval: The contractor shall prevent premature release of PCI related to an approved engineering change until the Government has approved the ERR. Incorporating changes from multiple engineering change actions on one ERR is not allowed. There shall be no missing, unreleased, or erroneous down parts, references, interface data, or other deficiencies in the ERR package. There shall be no references to company documents (e.g., company internal standards, contract CDRLs). The ERR will be approved only after all required PCI for Attachment 0001 (TDP) has been delivered as part of the ERR package and the data is up to date, accurate, and complete for release, IAW CDRL B002 (TDP and ERR).

C.6.7 Product and Enterprise Identifiers: Product identifiers are the Part or Identifying Number (PIN). Enterprise identifiers are the Commercial and Government Entity (CAGE) code. The contractor shall comply with item identification (i.e., PIN-CAGE) and marking requirements, to uniquely identify BLM products and their PCI, IAW CDRL B002 (TDP and ERR), and with the standards identified below. The contractor shall have the standards available at the SOWM for review and discussion:

- (A) SAE EIA-649-1 Configuration Identification and Configuration Identifiers (sections 3.2 through 3.2.1 and 3.2.4 through 3.2.4.2 in the 2020 version).
- (B) SAE EIA-649 Product Identifiers requirements (Section 5.2.3.2 in Revision C).
- (C) ASME Y14.100, Marking for item identification requirements (Appendix B-6 and Section 4.25 in 2017 version).
- (D) ASME Y14.100, Numbering, Coding, and Identification requirements (Appendix D and Section 6 in 2017 version).
- (E) ASME Y14.24, Item Identification and Administrative Control Numbers for Modifying, Control, and Special Application drawings, (Sections 8, 10, and 15, in 2012 version).
- (F) ASME Y14.24, selection of types of drawings (Appendix A, Table A-1, and Fig A-1 in 2012 version).
- (G) MIL-STD-31000B and TDP requirements in Attachment 0001 (TDP).
- (H) Identifier requirements specified below and elsewhere in the contract.

C.6.7.1 Government Original Design Activity Products: The contractor shall utilize Government identifiers when the Government is the ODA, IAW CDRL B002 (TDP and ERR).

(A) The Government is the ODA for all BLM-JAB products developed or modified under this contract or any previous BLM-JAB Government contract.

(B) Army Ordnance Part Numbers (AOPNs) are the same as Government PINs for Army products.

(C) BLM-JAB Unique Products - Government PIN-CAGE: The contractor shall assign a Government PIN-CAGE as unique identifiers to products newly designed or modified under this contract to meet the Governments BLM-JAB requirements. The Government PIN-CAGE shall also be assigned to PCI documenting products on altered item, vendor item control, or source control drawings and 3D models. For joint programs, the contractor shall segregate the products by Government design activity and request a unique range of PINs, for each Government CAGE code. The contractor shall request Government-issued PINs by e-mail to the Engineering lead based on the following:

(1) TACOM design activity products shall use the following PIN format: The BLM-JAB end item (e.g., top level assembly) shall utilize a 7-character TACOM PIN (e.g., 87Txxxx). Kits (e.g., repair, accessory, conversion kits) shall utilize a 7-character TACOM PIN (e.g., 57Kxxxxx). All other details, assemblies, instructions, installations, etc., shall utilize an 8-digit TACOM PIN (e.g., 12xxxxxx). The CAGE code for TACOM PINs shall be 19207.

(2) Non-TACOM design activity products shall use the PIN format and CAGE of the respective Government design activity.

(D) Existing Government ODA Products. Existing products with Government-issued CAGE Codes and PINs that are used as-is shall retain the Government PIN-CAGE and shall not be re-identified. Any existing Government ODA product modified for the BLM-JAB shall conform to the Government PIN-CAGE requirements above for BLM-JAB Unique Products and shall be documented as new designs in lieu of altered items.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 87 of 201 MOD/AMD
Name of Offeror or Contractor:		

C.6.7.2 Other Design Activity Products: The contractor shall utilize the PIN-CAGE IAW contract requirements for product and enterprise identifiers, IAW CDRL B002 (TDP and ERR) and the following:

(A) Products Defined by Standardization Documents:

(1) The contractor shall comply with MIL-STD-31000 (5.5.1 and 5.5.1.1 in Revision B) and ASME Y14.100 (Appendix D in 2017 version) to identify products defined by standardization documents.

(2) The contractor shall investigate and convert any contractor, Supplier, Vendor, or other PINs to the above required PIN format and use the CAGE of the corresponding standardization document. The contractor can download the Public Logistics Data (PUB LOG) Federal Logistics Information Services (FLIS) Search at:
<http://www.dla.mil/HQ/InformationOperations/LogisticsInformationServices/FOIARReading.aspx> , for researching part numbers, or contact the Defense Logistics Agency (DLA) customer service at: <http://www.dla.mil/CustomerSupport.aspx> , for assistance with web access, accounts, or assistance in finding part numbers for products defined by standardization documents.

(B) Commercial and Noncommercial Products: Commercial and noncommercial products (not otherwise defined by standardization documents) includes the contractors purchased items controlled by vendor documentation as well as the contractor proprietary products that were privately developed 100% with the contractors funds. The Government requires that all purchased items, including any proprietary products for which the contractor has not granted the Government additional rights, shall be documented on control drawings and 3D models (per decision diagram in ASME Y14.24, Fig. A-1). The contractor shall document these products IAW ASME Y14.24, Section 10 and Appendix A, using a Government PIN-CAGE. The contractor shall deliver Vendor Item Control Drawings (VICDs) or, if applicable, Source Control Drawings (SCDs), for these unaltered commercial and or noncommercial products. These control type of drawings and models provide form, fit and function requirements without divulging contractor proprietary information, therefore, the Government shall have Unlimited Rights to these drawings and models IAW, DFARS 252.227-7013 and 252.227-7015, and there shall be no contractor-imposed restrictive markings on the PCI for these products. Procurement control drawings are not allowed.

C.6.7.3 Altered Items Non-Government Products: When the physical alteration of any existing non-Government product (procured to the original PIN-CAGE and then modified for the BLM-JAB is required, the contractor shall prepare and deliver Altered Item drawings and models with conforming identifiers (including original item identification) IAW Section 8.1 through 8.1.3 of ASME Y14.24. Physical alteration of one or more of these products results in a BLM-JAB -unique product, and the Government is the ODA for the modified design. These altered item type of drawings and models provide form, fit and function requirements without divulging contractor proprietary information, therefore, there shall be no contractor-imposed restrictive markings on the PCI for these products. For alteration of products that can be defined by standardization documents, the original item identification shall be the standardization document PIN with CAGE, IAW CDRL B002 (TDP and ERR).

C.6.7.4 Altered Items Government Products: Altered Items are not authorized for existing Government products (see Existing Government ODA Products).

C.6.7.5 Timing of PIN Assignment: The contractor shall apply product and enterprise identifiers in the above required formats prior to any effort (e.g., logistics, engineering) that utilizes a BLM-JAB PIN. The PIN with CAGE shall be the BLM-JAB unique identifiers used for all BLM-JAB PCI, IAW CDRL B002 (TDP and ERR).

C.6.7.6 National Stock Numbers (NSNs): National Stock Numbers (NSNs) do not establish unique product and enterprise identification and shall not be used as identifiers in lieu of a PIN-CAGE.

C.6.7.7 Tracking: The contractor shall track all product and enterprise identifiers and their status and include this information in the IBOM, IAW CDRL B002 (TDP and ERR) and Configuration Status Accounting Information, IAW CDRL B003 (Configuration Status Accounting).

C.6.7.8 Interface Control and Management: The contractor shall comply with SAE EIA-649-1, Interface Management requirements to identify and document interfaces and maintain interface integrity. The contractor shall deliver interface 3D models, 2D drawings, and related interface control documents IAW TDP requirements in Attachment 0001 (TDP) IAW CDRL B002 (TDP and ERR).

C.6.8 Configuration Control Change Management

C.6.8.1 Configuration Control: The Government has configuration control of the BLM-JAB baseline at contract award for both Major (Class I) and Minor (Class II) changes, and the contractor shall not incorporate any change or variance without prior Government approval. The contractor shall document and deliver all engineering changes as Engineering Change Proposals (ECPs). Changes shall be identified to affected assembly serial number(s), or if not part of an assembly, to the affected equipment serial number. ECPs shall be supported by drawings, sketches, specifications, manufacturers data sheets, contractor-conducted test and/or modeling and simulation data, technical analysis, detailed cost data, logistic analysis data and other data necessary to describe and justify the change and to determine its total impact. Value Engineering Change Proposals (VECPs) shall be delivered as a Major (Class I) ECP and shall comply with the VE clause of this contract. Throughout the contract performance period, the contractor shall deliver all variances IAW the Variances section of the contract, IAW CDRLs B002 (TDP and ERR) and B004 (Request for Variance).

C.6.8.2 Change Management

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 88 of 201
--	--	---

Name of Offeror or Contractor:

C.6.8.2.1 Engineering Changes: The contractor shall deliver changes by Engineering Change Proposal (ECP). The contractor shall deliver a Notice of Revision (NOR), IAW CDRL B005 (Engineering Change Proposal), for each document affected by a change. Preference is for red-line drawings to be delivered. Specification changes shall also be described on a NOR or red-line. A NOR form is not necessary if the documentation (all sheets or pages) is delivered and electronically red-lined or otherwise marked-up to clearly show original information and proposed changes, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.1.1 Change Classification Major (Class I): Major ECPs have any combination of the following:

(A) A change that affects specified and approved requirements including safety, reliability, supportability, and quantitative requirements that result in product attributes that would be outside specified limits or specified tolerances.

(B) A change that affects any approved acquisition baseline (i.e., Functional, Allocated, or Product Baselines).

(C) A change that affects compatibility with interfacing products including such products as test equipment, support equipment, software, firmware, and products furnished by an Acquirer or that affects one or more of the following:

- (1) Delivered operation or servicing instructions.
 - (2) Required calibration to the extent that product identification should be changed.
 - (3) Interchangeability or substitutability of replaceable products, assemblies, or components.
 - (4) User skills or user physical attributes.
 - (5) Operator or maintenance training.
 - (6) Requires retrofit of delivered products (e.g., by product recall, modification kit installation, attrition, replacement during maintenance using modified spares).
 - (7) Performance.
 - (8) Maintainability, durability, or survivability.
 - (9) Weight, balance, or moment of inertia.
 - (10) Electromagnetic characteristics.
 - (11) Impact to logistical support requirements such as training, technical or operational manuals, spares, maintenance procedures or equipment, etc.
 - (12) Re-qualification of the item.
 - (13) Domain certification (e.g., airworthiness, seaworthiness).
 - (14) Source (supplier of an item) listed on a Source Control Drawing (SCD).
 - (15) Biomedical factors or human factors engineering.
 - (16) Personnel manning.
 - (17) Corrects deficiencies.
 - (18) Adds or modifies interface or interoperability requirements.
 - (19) Changes the operational capabilities or logistics supportability of the system or item and the change is significant and measurably changes the effectiveness.
 - (20) Life cycle costs/savings.
 - (21) Prevents slippage in an approved production schedule.
- (D) A change that does not meet the above criteria but does impact cost/price/delivery to customer(s), including incentives and fees, guarantees, warranties, and contracted deliveries or milestones, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.1.2 Change Classification Minor (Class II): Minor ECPs do not impact the criteria above for Major (Class I) changes. The Government delegates concurrence in classification of Minor ECPs to the Administrative Contracting Officer (ACO) or Government representative at the contractors site. Evidence of concurrence from the Government rep shall be included in the ECP delivered to the Government for final disposition, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.1.3 Engineering Change Proposal Number: The contractor shall request and apply the Government assigned ECP number(s) to all ECPs requiring Government approval. The contractor shall use the Government-assigned 3-character prefix and the 5-character alpha-numeric suffix as the ECP number, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.1.4 Government Directed Engineering Change Proposals: In the event the Government directs an engineering change, the PCO will notify the contractor by a request for technical and price proposal which the contractor shall furnish at no cost. The contractor shall deliver an ECP to allow the Government to clearly understand all areas of impact. The contractor's ECP delivery shall include sufficient supporting information, together with certified cost and pricing data, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.1.5 Responsibility for Changes: The contractor shall be responsible for additional costs to the BLM, testing, or software associated with any changes due to deficiencies or non-compliance to the contract. Costs for contractor proposed changes to enhance BLM systems or performance, will be handled through the ECP process and contract modification. Approved changes do not relieve the contractor from its responsibility to furnish all products in conformance with the contract requirements.

C.6.8.2.1.6 Value Engineering Change Proposals: When a change results in reduced costs to the contractor, the Government reserves the right to obtain an equitable reduction in contract price, IAW FAR 52.248-1. VECPs shall also include analysis of cost savings and any collateral savings resulting from the VECP. The contractor shall certify cost impacts and the Government may conduct post-changes

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 89 of 201
---	--	---

Name of Offeror or Contractor:

approval audits. VECPS shall be supported by drawings, sketches, specifications, manufacturer's data sheets, contractor-conducted test and/or modeling and simulation data, technical analysis, detailed cost data, logistic analysis data and other data necessary to describe and justify the change and to determine its total impact. Changes shall be identified to the affected assembly serial number and/or part number, or if not part of an assembly, to the affected equipment serial number. The contractor shall prepare VECPS IAW EIA-649 and EIA-649-1 and deliver, IAW CDRL B005 (Engineering Change Proposal).

C.6.8.2.2 Variances: Beginning at contract award, if the contractor finds it necessary to temporarily deviate from the approved BLM-JAB requirements for a specific number of products and or for a specified period of time, the contractor shall seek written authorization from the Government by preparing and delivering a properly classified and documented Request for Variance (RFV), IAW CDRL B004 (Request for Variance). The contractor shall apply a unique RFV number to each variance. RFVs classified as minor will be dispositioned by the ACO or designated Government representative. Major RFVs can only be dispositioned by the PCO or the PCOs designated Government representative, IAW with CDRL B004 (Request for Variance).

- C.6.8.2.2.1 Variance Classification:
- (A) Critical: Critical variances are not allowed. A critical variance is a departure from requirements affecting one or more of the following:
- (1) Safety.
 - (2) Human health.
 - (3) Environment, and
 - (4) Security (local program or national).
- (B) Major: A major variance is a departure from requirements affecting one or more of the following:
- (1) Performance or operational limits.
 - (2) Interchangeability, reliability, survivability, maintainability, or durability of the item or its repair parts.
 - (3) Structural strength.
 - (4) Effective use or operation.
 - (5) Weight, moment, center of gravity.
 - (6) Appearance.
 - (7) Limits on product use or operation.
 - (8) Temporary use of alternate items, or
 - (9) When the configuration documentation defining the requirements for the item classifies the departure from the requirement as major.
- (C) Minor: A minor variance is a departure which does not involve any of the factors listed for critical or major or when the configuration documentation defining the requirements for the item classifies the departure from the requirement as minor. Note: Departures from the requirements that do not meet the definition of critical or major and are not classified in any configuration documentation (i.e., unlisted characteristic) are treated as minor, IAW CDRL B004 (Request for Variance).

C.6.8.2.2.2 Cost: Variances are for the benefit of the contractor and consideration offered for acceptance of the proposed RFV shall be attached as part of the RFV. Under no circumstances shall submission or approval of an RFV be the basis for a contract price increase, IAW CDRL B004 (Request for Variance).

C.6.8.2.2.3 Recurring Variances: IAW 3.3.2.1 of SAE EIA-649-1, submission of recurring deviations is discouraged and may be rejected. Where it is determined that a change would be permanent, the contractor shall prepare an Engineering Change Proposal (ECP), IAW CDRLs B005 (Engineering Change Proposal) and CDRL B004 Request for Variance).

C.6.8.2.3 Supporting Data: ECPs and RFVs shall contain marked up copies of affected drawings and 3D models as well as impact statements and any other supporting data necessary to fully understand and disposition the ECP or RFV, IAW CDRLs B005 (Engineering Change Proposal) and CDRL B004 Request for Variance).

C.6.8.2.4 Effectivity Certification: Approved changes incorporated into the BLM-JAB shall be applied to the line at a single end item cut-in point in their entirety. The change shall be annotated by the contractor to reflect the anticipated effectivity point by product serial/registration number and date. The contractor shall maintain the original effectivity point certification on file. This information shall be maintained in the contractors Configuration Status Accounting (CSA) system and shall be reported on the CSA report and be readily available to the Government, IAW CDRL B003 (Configuration Status Accounting).

C.6.8.2.5 Assertions of Restriction for Engineering Change Proposals, Notice of Revisions, and Value Engineering Change Proposals: If an ECP results in the generation of any new data or any changes to the rights proposed at contract award, the contractor must deliver a complete Assertion of Restrictions, IAW DFARS 252.227-7017, 7013, 7014, 7015, 7028, and Section H.7 of this contract. The contractor shall not deliver or otherwise provide to the Government any technical data or computer software with restrictive markings (or otherwise subject to restrictions on access, use, modification, reproduction, release, performance, display, or disclosure) unless the technical data or computer software has been identified in the Assertion of Restrictions. Assertions of Restrictions for ECPs shall note both commercial and non-commercial items.

C.6.9 Configuration Status Accounting

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 90 of 201
---	--	---

Name of Offeror or Contractor:

C.6.9.1 Configuration Status Accounting Report: The contractor shall deliver CSA information in a CSA report that includes product serial/registration number effectivity cut-in point and date and includes SAE EIA-649-1, paragraphs 3.3.2(4), and 3.4.1(3) e, f, h, and j. The contractor shall verify that PCI is updated incrementally, as changes are approved, and reported in sync with the time period covered by each CSA delivery. The contractor shall also present updated CSA information at program meetings and technical reviews, IAW CDRL B003 (Configuration Status Accounting).

C.6.9.2 Government Access to Contractors System(s): The contractor shall allow a minimum of five (5) Government personnel (identified at the SOWM) access to the contractors data repository and CSA systems with read and download privileges for collaboration on all BLM-JAB PCI. The contractor shall allow government personnel access for read and download privileges throughout the contract performance period, as changes to the Government team are identified. The contractor shall thoroughly explain this process in the CMP IAW CDRL B001 (Configuration Management Plan).

C.6.9.3 Enterprise Product Data Management: Enterprise Product Data Management (ePDM) is the Governments Enterprise Product Data Management (ePDM) System for CSA (e.g., PCI, TDPs). Only unclassified data shall be created and maintained in ePDM. The contractor shall adhere to these ePDM requirements, which are in effect at contract award, IAW CDRLs B002 (TDP and ERR), B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.6.9.3.1 Enterprise Product Data Management Access: The contractor shall obtain a login and password to ePDM for all contractor personnel responsible for either creating objects or submitting ECPs, VECPs, RFVs and ERRs to the Government using the automated workflow. Contractor personnel who may have a need to search, view, and print in ePDM, should also obtain a login and password for read-only permissions. Contractor personnel who require access to ePDM shall first coordinate with the BLM-JAB CM representative, who will determine the applicable access permission level based on the role(s) of each individual. The ACE Support Team Representative will assist you in completing the forms to access the ePDM System. Forms can be found at: <https://plm.epdm.army.mil/>. Complete the ACE Access Request Form. A copy of Section C of the current awarded contract shall accompany each ePDM request form, IAW CDRLs IAW CDRLs B002 (TDP and ERR), B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.6.9.3.2 Enterprise Product Data Management Training: The contractor shall adhere to the Government-provided Standard Operating Procedures (SOPs), User Guides, Policies, and Procedures for Windchill ePDM. The contractor shall attend ePDM training and comply with requirements of Windchill ePDM. The contractor shall also request training, as needed, via a formal e-mail request to the primary or alternate BLM-JAB CM representative. The type and location of training will be at the Governments discretion. Training may be by written instructions, formal classroom session(s) at the contractor, Government, or off-site location, on-line classes, or informal desktop instructions at the individual contractors workstation.

C.6.9.3.3 Enterprise Product Data Management Workflow: The ePDM workflow is the automation of a business process in whole or in part, during which documents, information, or tasks are passed from one participant to another for action, according to a set of procedural rules. A workflow instance coordinates user and system participants, together with appropriate data resources, to achieve defined objectives by set deadlines.

C.6.9.3.4 Enterprise Product Data Management Data Creation and Management: The contractor shall create, manage, update, revise, and submit objects (e.g., Change Requests (ECPs), Variances (RFVs), and Change Notices (ERR packages)) in ePDM. The contractor shall create and manage objects within ePDM using the applicable contexts (products, libraries, folders, and sub-folders) and perform actions (e.g., create, submit). The contractor shall create ECPs, RFVs, and ERRs in ePDM, attaching supporting files to the applicable ECP, RFV or ERR prior to submitting to the ePDM workflow. When an ERR is preceded by an approved ECP, the contractor shall create the ERR from the ECP that preceded it, to link the ERR to the ECP, IAW CDRLs IAW CDRLs B002 (TDP and ERR), B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.6.9.3.5 Enterprise Product Data Management Submittal: The contractor shall use the ePDM workflow to submit ECPs and VECPs (with NORs), RFVs, and ERR Packages to the Government. The contractor shall notify the BLM-JAB Configuration Management (CM) representative by e-mail that the ECP, VECP, RFV, or ERR has been submitted to the ePDM workflow. For any deliverable that is classified SECRET, the contractor shall only submit an Unclassified-FOUO cover sheet report that contains the date the SECRET deliverable was submitted via registered mail to the BLM-JAB classified mailing address, IAW CDRLs IAW CDRLs B002 (TDP and ERR), B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.6.9.3.6 Enterprise Product Data Management Software Issues: The contractor shall notify the Helpdesk via e-mail message to: "mailto:usarmy.detroit.devcom-gvsc.mbx.ace-support@army.mil" when ePDM work cannot be accomplished by the contractor due to access or permission issues, software deficiencies or bugs. The contractor shall courtesy copy the JAB CM representative on all helpdesk requests. The contractor shall notify the JAB CM representative by email or phone when ePDM or the data in ePDM is not accessible, IAW CDRLs IAW CDRLs B002 (TDP and ERR), B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.6.10 Configuration Verification and Audits (Applies to contractor without testing approval at time of award)

C.6.10.1 Physical Configuration Audit: The contractor shall implement internal verification and audit activities to verify product compliance with requirements and consistency between the product, its PCI, and support assets/kits. The contractor shall host and the Government will conduct a Physical Configuration Audit (PCA) at the contractors facility after or near completion of test, to verify that the BLM-JAB hardware matches the design documentation. The contractor shall deliver a deliverable LRIP unit for the audit. The contractor shall verify that all audit products utilized during the PCA are to the latest configuration and that all changes approved

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 91 of 201
---	--	--

Name of Offeror or Contractor:

prior to the PCA shall be incorporated in both hardware and technical documentation covered in this section that will be used during the PCA. Any differences between the contractors audit parts, documentation, and or the deliverable unit will result in audit discrepancies and deficiencies and shall require corrective action. Any findings that require corrective action resulting from the PCA shall be the responsibility of the contractor. The Government reserves the right to conduct one or more audits to verify the PCI reflects the validated BLM-JAB product. A successful PCA will result in a verified product baseline that accurately reflects the validated BLM-JAB system and supports a favorable Full-Rate Production Decision Review.

C.6.10.1.1 Physical Configuration Audit Plan: The contractor shall deliver a PCA Plan, IAW CDRL B006 (Configuration Audit Plan (CAP)). The Government will review the IBOM and provide the contractor with an outline of which items will be audited during the PCA.

C.6.10.1.2 Contractor Support: The contractor shall deliver support for pre-audit, PCA, and post-audit activities. The Government estimates approximately five Government personnel will perform the PCA at the contractors facility. The contractor shall have all necessary resources and materials in place for the Government to perform the PCA on the scheduled PCA start date and time. The contractor shall comply with the PCA responsibilities in SAE EIA-649-1, sections 3.5.3.1(1) through (2)e, and shall also:

- (A) Identify support personnel and establish teams.
- (B) Have the latest validated, deliverable LRIP unit accessible to the audit team for verification throughout the PCA.
- (C) Participate with the Government in kick-off, audit activities, and close-out meetings, adhere to ground rules, daily schedule, audit and close-out actions.
- (D) Provide a safe, indoor physical location at the production facility for the Government to conduct the PCA, as agreed upon between the Government and the contractor. The audit location shall not interfere with production or other shop floor activities.
- (E) Provide access to a copy machine for USG and contractor support personnel to utilize during the PCA.
- (F) Provide access to Computer-aided Design (CAD) files, CAD software and CAD viewers to open, review, and manipulate CAD files.
- (G) Obtain and have readily available in the audit location:
 - (1) Each part to be audited, at the latest version (i.e., revision), and identical to the part installed on the delivered LRIP unit provided for the audit. Parts shall be disassembled and mated with legible hard copies of the corresponding latest approved version of 2D drawing, pre-printed and set up in the audit room in advance of audit team arrival.
 - (2) All engineering changes and variances applicable to each part being audited.
 - (3) Company manuals and other internal documents applicable to each part being audited.
 - (4) Sufficient outlets for plugging in laptops.
 - (5) Appropriate, calibrated tools for use in verifying part dimensions.
 - (6) Appropriate safety equipment.
- H. Return parts to their proper location after audit completion.

C.6.10.1.3 Post-Audit Action: The contractor shall resolve all audit discrepancies and deficiencies within 15 days after PCA end date. The contractor shall verify that all audit requirements have been satisfied to enable close-out of each action item.

C.6.10.1.4 Configuration Audit Summary Report: The contractor shall comply with SAE EIA-649-1, section 3.5.5, and deliver a Configuration Audit Summary Report (PCA Summary Report) after the PCA to identify discrepancies, deficiencies, and action items. The contractor shall address each issue to include the verification activity that was accomplished to successfully resolve discrepancies and deficiencies and close-out each action item. PCA approval will occur when the Government is satisfied that the PCA is complete and issues have been resolved, IAW CDRL B007 (Configuration Audit Summary Report).

C.7 PUBLICATIONS / TECHNICAL MANUAL UPDATES

C.7.1 Technical Manual Updates (Applies to contractor without testing approval at time of award)

The contractor shall update the attachments below for JAB unique components requiring contractor part number updates and changes required for Government authentication (e.g. minor administrative updates to include front and rear matters). Any other changes will be covered under C.7.2-C.7.4.

- Update Attachment 0016 (TM 5-5420-286-10 Operator Manual) and deliver IAW CDRL C001 (TM 5-5420-286-10).
- Update Attachment 0017 (TM 5-5420-286-10-HR Operator Hand-Receipt Manual) and deliver IAW CDRL C002 (TM 5-5420-286-10-HR).
- Update Attachment 0018 (TM 5-5420-286-23 Field Maintenance Manual) and deliver IAW CDRL C003 (TM 5-5420-286-20). The numbering scheme of -23 has changed to -20.
- Update Attachment 0019 (TM 5-5420-286-23P Field Maintenance Repair Parts and Special Tools List (RPSTL)) IAW CDRL C004 (TM 5-5420-286-20P Field Maintenance Repair Parts and Special Tools List (RPSTL) Updates). The number scheme of -23 has changed to -20.
- Update Attachment 0020a (NMWR 5-5420-286 National Maintenance Work Requirement including Repair Parts and Special Tools List) and deliver IAW CDRL C006 (NMWR 5-5420-286) for NMWR including Repair Parts and Special Tools List updates.
- Update Attachment 0020b (LO 5-5420-286-13 Operator and Field Maintenance Lubrication Order) and deliver IAW CDRL C005 (LO 5-5420-286-12) for Operator and Field Maintenance Lubrication Order updates. The number scheme of -13 has changed to -12.

	PIIN/SIIN	MOD/AMD	

Name of Offeror or Contractor:

C.7.2 Publication Meetings (Applies to ECPs)

C.7.2.1 Publications Start-of-Work Meeting (PSOWM). Within 30 calendar days after contract award, the contractor shall hold a PSOWM meeting with Government personnel or as otherwise designated by the Government. This meeting may be a sub-meeting of an overall contract SOW meeting or a stand-alone meeting. The purpose of this meeting is to review publications contract requirements, establish lines of communications, answer all questions, and review the contractors Technical Manual Schedule and Status Report IAW CDRL C008 (Technical Manual Schedule and Status Report). The Government may include additional topics of discussion to the PSOWM agenda. The contractor shall submit an Agenda IAW CDRLs A002 (Conference Agenda) and A003 (Meeting Minutes). The Government may request the PSOWM be held at the contractors facility and/or through Microsoft Teams.

C.7.2.2 Publications In-Process Reviews (IPRs). The contractor shall support Government Publications IPRs IAW CDRL C009 (Publication IPR) by providing samples of work accomplished to date IAW CDRL C010 (TM Work Package Sample), answering questions about publications work processes, providing records of QA reviews, and responding to Government comments regarding publications processes or work samples. The Government will specify IPR locations. If scheduled at a contractors site, the contractor shall make available adequate space, facilities, and personnel for Government-scheduled IPRs at no additional cost to the Government. The first IPR will be held within 60 calendar days after PSOWM. IPRs will be held monthly, unless otherwise specified by the Government, until Government acceptance of Final Reproducible Copy.

C.7.3 Technical Publications (Applies to ECPs)

The contractor shall develop and/or update and deliver Department of the Army page-based Technical Manuals (DATMs) for the Joint Assault Bridge (JAB) IAW the respective content/form/functionality matrix for the publication type from the latest MIL-STD-40051-2 (Preparation of Digital Technical Information for Page-Based Technical Manuals [TMs]) at the time of contract award and the attachments below:

- Attachment 0024 (National Maintenance Work Requirement (NMWR) Special Instructions)
- Attachment 0025 (General Publications Requirements)
- Attachment 0026 (Technical Manual (TM) Requirements Matrix)
- Attachment 0027 (Equipment Publications Defects List (EPDL))
- Attachment 0028 (Technical Manual Crosswalk)
- Attachment 0029 (Publications Style Guide)
- Attachment 0030 (Army DTD-SS Issue Tracker)
- Attachment 0031 (Master Task Data List (MTDL) Template)
- Attachment 0032 (TOC.xml Example)
- Attachment 0033 (Dataset.xml Example)
- Attachment 0034 (Source Verify Error Report Template)
- Attachment 0035 (SABR Query Error Report Template)

The CDRLs identified below are applicable:

- C001 (TM 5-5420-286-10)
- C002 (TM 5-5420-286-10-HR)
- C003 (TM 5-5420-286-20)
- C004 (TM 5-5420-286-20P)
- C005 (LO 5-5420-286-12)
- C006 (NMWR 5-5420-286)
- C007 (TM 5-5420-286-BD)
- C008 (Technical Manual Schedule and Status Report)
- C009 (Publication IPR)
- C010 (TM Work Package Sample)
- C011 (MWO 5-5420-286-50)
- C012 (MTDL)
- C013 (Source Data)
- C014 (TMQA Program)
- C015 (TM Crosswalk)
- C016 (TM Validation Plan)
- C017 (TM Validation Report)
- C018 (TM Validation Certificate)

The Armys Document Type Definition (DTD) and stylesheets, along with guidance found in the current version of MIL-HDBK-1222 (Guide to the General Style and Format of U.S. Army Work Package Technical Manuals) and MIL-HDBK-2361 (Army Digital Publications Development Implementation Guide), shall be used.

C.7.3.1 The following manuals shall be updated:

Attachment 0016 (TM 5-5420-286-10 Operator Manual)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIINMOD/AMD	Page 93 of 201
--------------------	---	----------------

Name of Offeror or Contractor:

Attachment 0017 (TM 5-5420-286-10-HR Operator Hand Receipt Manual)
Attachment 0018 (TM 5-5420-286-23 Field Maintenance Manual)
Attachment 0019 (TM 5-5420-286-23P Field Maintenance Repair Parts and Special Tools List)
Attachment 0020 (NMWR 5-5420-286 National Maintenance Work Requirement including Repair Parts and Special Tools List)
Attachment 0021 RESERVED
Attachment 0022 RESERVED
Attachment 0023 (LO 5-5420-286-13 Operator and Field Maintenance Lubrication Order)

C.7.3.1.1 The sections entitled How to use this Manual shall clearly state the need to reference M1A1 and M1A2 technical manuals, as necessary, to complete various tasks and order parts.

C.7.3.1.2 The sections/work package(s) entitled Theory of Operations shall clearly define the JAB chassis and its usage.

C.7.3.1.3 Attachment 0029 (Publications Style Guide) is for reference purposes only to provide guidance and examples. Deviations between the Style Guide and latest military standards may exist. The latest Military Standards (MIL STDs) at RFP release shall be followed.

C.7.3.2 The contractor shall prepare and deliver an Operator Manual for the JAB Chassis IAW MIL-STD-40051-2 and CDRL C001 (TM 5-5420-286-10) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide).

C.7.3.3 The contractor shall prepare and deliver an Operator Hand Receipt Manual for the JAB Chassis IAW MIL-STD-40051-2 and CDRL C002 (TM 5-5420-286-10-HR) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), and 0020 (Publications Style Guide).

C.7.3.4 The contractor shall prepare and deliver a Field Maintenance Manual for the JAB Unique Components that includes JAB unique Preventative Maintenance Checks and Services (PMCS) and JAB unique troubleshooting procedures for the JAB Chassis IAW MIL-STD-40051-2 and CDRL C003 (TM 5-5420-286-20) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). For areas of the chassis that have not been modified, Field Maintenance Manual, CDRL C003 (TM 5-5420-286-20) will reference out to those work packages within the existing chassis manuals to avoid duplication of data, unless agreed to in advance by the Government.

C.7.3.5 The contractor shall prepare and deliver a Field Maintenance Repair Parts and Special Tools List for the JAB Unique Components IAW MIL-STD-40051-2 and CDRL C004 (TM 5-5420-286-20P) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). The RPSTL TM shall be created from the Army Provisioning Master Record (PMR). The contractor shall combine the RPSTL illustrations with the PMR RPSTL download. The RPSTL shall contain all parts and special tools necessary to support the JAB unique maintenance tasks. The contractor shall prepare front matter, introduction, and illustrations for the Repair Parts and Special Tools List (RPSTL) IAW MIL-STD-40051-2. The contractor shall use data from the Logistic Support Analysis-036 (LSA-036, Provisioning Requirements) and Logistic Support Analysis-030 (LSA-030, Repair Parts and Special Tools List) reports to develop the RPSTL. Each RPSTL work package shall have one figure and one parts list for each breakdown of a repairable assembly. The figure may have multiple sheets. Exploded view illustrations that appear in RPSTL work packages shall be in Scalable Vector Graphics (SVG) or Computer Graphics Metafile (CGM) intelligent vector format.

C.7.3.6 The contractor shall prepare and deliver a National Maintenance Work Requirement including Repair Parts and Special Tools List (NMWR) Manual for the JAB Unique Components IAW MIL-STD-40051-2, CDRL C006 (NMWR 5-5420-286) and Attachments 0015 (NMWR Special Instructions), 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide).

C.7.3.7 The contractor shall prepare and deliver Modification Work Orders (MWOs), when applicable, IAW MIL-PRF-63002, CDRL C011 (MWO 5-5420-286-50) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide).

C.7.3.8 The contractor shall prepare and deliver a Field Maintenance Battle Damage Assessment and Repair (BDAR) Manual for the JAB Chassis IAW MIL-STD-40051-2, CDRL C007 (TM 5-5420-286-BD) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), and 0020 (Publications Style Guide).

C.7.3.9 The contractor shall prepare and deliver an Operator and Field Maintenance Lubrication Order (LO) for the JAB Chassis IAW MIL-PRF-63004, CDRL C005 (LO 5-5420-286-12) and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide).

C.7.3.10 Source Data. The contractor shall use the U.S. Army Logistics Data Analysis Center (LDAC) Government Furnished Information (GFI) Extensible Mark-up Language (XML) Document Type Definition (DTD) for MIL-STD-40051-2 to deliver compliant, valid, and well-formed XML. See MIL-HDBK-2361 for official definition of valid and well-formed XML. The contractor shall be required to develop an XML-tagged instance for the below specified equipment publications:

- TM 5-5420-286-10 - Delivery of the XML-tagged instance shall be IAW CDRL C001 (TM 5-5420-286-10)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIINMOD/AMD	Page 94 of 201
--------------------	---	----------------

Name of Offeror or Contractor:

- TM 5-5420-286-10-HR - Delivery of the Microsoft Word document shall be IAW CDRL C002 (TM 5-5420-286-10-HR)
- TM 5-5420-286-20 - Delivery of the XML-tagged instance shall be IAW CDRL C003 (TM 5-5420-286-20)
- TM 5-5420-286-20P - Delivery of the XML-tagged instance shall be IAW CDRL C004 (TM 5-5420-286-20P)
- LO 5-5420-286-12 - Delivery of the Microsoft Word document shall be IAW CDRL C005 (LO 5-5420-286-12)
- NMWR 5-5420-286 - Delivery of the XML-tagged instance shall be IAW CDRL C006 (NMWR 5-5420-286)
- TM 5-5420-286-BD - Delivery of the XML-tagged instance shall be IAW CDRL C007 (TM 5-5420-286-BD)
- MWO 5-5420-286-50 - Delivery of the XML-tagged instance shall be IAW CDRL C011 (MWO 5-5420-286-50)

To ensure MIL-STD and DTD compliant and valid XML, per AR 25-30, the contractor shall deliver both Interactive Authoring and Display System (IADS) configuration Table of Contents (TOC) and Dataset control files along with all XML-tagged data files using the Army Document Type Definition (DTD). The contractor shall scan all applicable XML files that make up the dataset with quality assurance (QA) tools built into the IADS viewer (i.e., Source Verify and Standards and Business Rules [SABR] Query). The contractor shall correct any MIL-STD and/or DTD errors found prior to delivery of all requested XML data file packages to the Government, excluding known DTD and Stylesheet errors.

The contractor shall perform the following actions for each applicable publication:

(1) Develop IADS configuration TOC.xml file.

1. Develop IADS configuration Dataset.xml file.
2. Validate XML in the dataset.
3. Correct any MIL-STD and/or DTD errors found by IADS QA assurance tools (i.e., Source Verify and SABR Query), excluding known DTD and Stylesheet errors. See Attachments 0018 (Equipment Publications Defects List) and 0021 (Army DTD-SS Issue Tracker). The Government will provide error spreadsheet updates throughout publication development, if available.
4. Develop figure and graphic XML code and files to make partnered graphics display in a multi-sheet illustration configuration. An automated approach shall be used for this task, optimizing graphic size for viewing. Vector art should be no larger than 2MB per illustration.
5. Deliver PDF files, source data, IADS configuration files (i.e., TOC.xml and Dataset.xml), and IADS-generated error reports (i.e., Source Verify and SABR Query) for each applicable publication with CDRLs C001 (TM 5-5420-286-10), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C006 (NMWR 5-5420-286), C011 (MWO 5-5420-286-50), C013 (Source Data).

The contractor shall package and deliver to the Government each XML instance for each developed manual along with all source data developed under this contract concurrent with the Final Reproducible Copy (FRC) submission and IAW all applicable CDRLs: C001 (TM 5-5420-286-10), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD). The source data will be organized IAW CDRL C013 (Source Data). Examples of source data are as follows:

1. All Extensible Markup Language (XML) tagged data files using Document Type Definitions (DTDs) and stylesheets IAW the current MIL-STD-40051-2.
2. All digital graphics/illustrations (figures, graphics, drawings, diagrams, artwork) to include line drawings, photographs, engineering drawings, diagrams, charts, graphs, sketches, schematics, and tools and test equipment illustrations.
3. All digital electronic files (PDF) in searchable, editable, linkable, and intelligent format with 100-percent embedded or embedded subset fonts and no Unicode mapping issues.
4. All Validation/Verification records, reports, and certifications per CDRLs C016(TM Validation Plan), C017 (TM Validation Report), and C018 (TM Validation Certificate).
5. All Original Equipment Manufacturer (OEM) or other vendor technical data and graphics used in the TM development and FRC purchased under this contract as a full or partial Technical Data Package (TDP) and/or for NSN assignment and Engineering Drawings for Provisioning (EDFP). Contractor will obtain and provide all copyright releases, as applicable.
6. TOC.xml - The Table of Contents (l) file consists of a root <toc> element, multiple nested <tocEntry> elements, and a combination of attributes to control display of the TM data to the user. For an example and file entry definitions, see Attachment 0032 (TOC.xml Example).
7. Dataset.xml - Configuration selection options are determined by the .xml tagging in the Dataset XML file. The dataset.xml file defines properties that apply to the entire dataset and specifies which Table of Contents XML to use. For an example and file entry definitions, see Attachment 0033 (Dataset.xml Example).
8. Source Verify - IADS-generated error report to parse and validate XML to ensure source data is MIL-STD and DTD compliant. For an example template, see Attachment 0034 (Source Verify Error Report Template).
9. SABR Query - IADS-generated error report used with SABR.xml tool to ensure source data is MIL-STD and DTD compliant. For an example template, see Attachment 0035 (SABR Query Error Report Template).

C.7.4 Technical Manual Development (Applies to ECPs)

The contractor shall use product support analysis (PSA) activities, particularly maintenance task analysis (MTA), to determine the operational, maintenance, and support functions of the system. The contractor shall ensure there is consistency and agreement among all logistics documents and products created under this effort. The contractor shall use the Maintenance Allocation Chart (MAC) Attachment 0037, as the baseline for creation of the updated technical manual(s). ETMs shall also be usable on the Army Maintenance Support Device (MSD).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 95 of 201 MOD/AMD
---------------------------	--	---

Name of Offeror or Contractor:

C.7.4.1 Two samples of TM work packages or content shall be provided to the Government for Government approval no later than 60 calendar days after the PSOWM to ensure accuracy of style and format IAW CDRL C010 (TM Work Package Sample).

C.7.4.1.1 Issues and Constraints. The contractor shall deliver, maintain, and update action items and an issue tracker with each TM delivery IAW CDRL A003 (Meeting Minutes). The contractor shall conduct a bi-weekly Publication IPT meeting to discuss action items, issues tracker, productivity, and schedules, unless otherwise directed by the Government. The contractor shall submit meeting minutes updated issue tracker, and any additional updates to the Government within five (5) calendar days of IPT meeting.

C.7.4.2 Maintenance Allocation Chart. The contractor shall update Attachment 0037 (Maintenance Allocation Chart) IAW MIL-STD-40051-2. The MAC updates shall derive from CDRL C019 (Logistic Support Analysis (LSA)-004, MAC) report. The contractor shall structure the MAC in either Functional Group Code (FGC) sequence as described in TB 750-93-1 for tactical ground vehicles or top-down, pyramidal breakdown sequence of the end items maintenance-significant assemblies, subassemblies, and modules. The contractor shall ensure the MAC lists all repair, replace, and related maintenance functional tasks that are contained within maintenance work packages. The contractor shall ensure the MAC contains entries for all levels of maintenance from Operator through Depot for both hardware and software maintenance tasks. For each repairable assembly or subassembly, the contractor shall ensure the MAC identifies the maintenance function to be performed, the level of responsibility for the function, the active repair time, and the tools and test equipment necessary to perform the function. The contractor shall ensure the MAC contains all items unless the Government authorizes deletion.

C.7.4.2.1 TM Crosswalk. The contractor shall provide a TM Crosswalk IAW CDRL C015 (TM Crosswalk) and Attachment 0028 (TM Crosswalk). Attachment 0037 (MAC) is the framework for development of both the Repair Parts and Special Tools List (RPSTL) and the Maintenance instructions, and the contractor shall ensure all three are coordinated and consistent in nomenclature and sequence. The contractor shall ensure all maintenance functions listed in the MAC for a component have an associated maintenance work package(s) at the appropriate level of maintenance containing tasks supporting the maintenance function. The contractor shall ensure a complete listing of spare parts supporting the required maintenance appears in the RPSTL work packages. The sequence of the Maintenance work packages and the RPSTL work packages shall strictly follow the Functional Group Code (FGC) or top-down breakdown sequence in the MAC.

C.7.4.2.2 Master Task Data List (MTDL). The contractor shall fill out the MTDL in work package sequence by order of tasks performed based on pre-conditions IAW CDRL C012 (MTDL). For example, if a power pack removal task has 15 pre-conditions, then all 15 pre-conditions work packages should be evaluated/verified prior to the power pack removal work package. The MTDL will be used as the baseline for verifying work package sequence during the Government Verification. The contractor shall also annotate any work package changes that occurred since the previous authenticated TM or PTM delivery during TM development in the MTDL IAW Attachment 0031 (MTDL Template). The MTDL shall also serve as a method to track changes that occur between each delivery and shall build off any previous MTDL(s) to show all change iterations for each TM (e.g., changes in WP titles and numbers, incorporation of Engineering Change Proposals (ECPs) and DA Form 2028s, WP impacts, and added or deleted WPs, etc.). The MTDL shall be delivered with each PTM and FRC delivery and must be submitted within 30 calendar days of any changes made to the MTDL for Government review. The Government shall have 30 calendar days to review the contractor provided MTDL(s) and request any omitted or incomplete entries or files from the contractor. Deliverables shall be editable and searchable.

C.7.4.3 Work Package Structure. The contractor shall develop work packages that contain information functionally divided into individual tasks in the logical order of work sequence. The contractor shall develop maintenance tasks IAW the logistics product data (LPD); the Maintenance Allocation Chart (MAC); and Source, Maintenance, and Recoverability (SMR) codes developed for the weapon system/equipment and components. The contractor shall develop and arrange maintenance work packages to coincide with the Functional Group Code (FGC) or top-down breakdown sequence followed in the MAC and Repair Parts and Special Tools List (RPSTL).

C.7.4.4 Effectivity-Specific Work Packages. The contractor shall develop separate effectivity-specific work packages for configuration and/or modification differences on the JAB Chassis IAW MIL-STD-40051-2. The effectivity-specific work packages shall be used to denote production and retrofitted configurations as different effectivities for each applicable configuration and/or modification.

C.7.4.5 Illustrations. The contractor shall use Scalable Vector Graphics (SVG) or Computer Graphics Metafile (CGM) intelligent vector format for drawings created for technical publications. The contractor shall develop line drawings, including exploded views, locator views, and detailed views, to support operation, troubleshooting, and maintenance instructions; Repair Parts and Special Tools List (RPSTL); and supporting information. If the contractor creates an Encapsulated PostScript (EPS) graphics file for use in the TM, the contractor shall convert it to SVG before inclusion in the Preliminary Technical Manual (PTM) and eventual Final Reproducible Copy (FRC). The contractor shall deliver SVG files to the Government as part of the source data. The SVG image format has a much smaller footprint than EPS.

Digital photographs may be used for illustrations when a photograph provides for better clarity than a line drawing, but digital photographs may not be used in RPSTLs, which contain exploded views exclusively. If the intention is to use photographs in lieu of line art, the contractor shall use a digital camera to produce the required photographs.

All graphics, regardless of file format, shall be a minimum of 150 dpi (for grayscale images) and a maximum of 300 dpi (for color images) resolution.

C.7.4.5.1 File Compression. The contractor shall compress/reduce all embedded graphic files used to produce the smallest possible technical manuals file sizes. The contractor shall ensure the overall file size of all volumes of the technical manuals submitted as the

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 96 of 201 MOD/AMD
Name of Offeror or Contractor:		

PDF FRC are less than 100MB each.

C.7.4.6 Quality Assurance (QA). The contractor shall be responsible for the quality of the TM deliverables and for developing effective processes to develop, test, and inspect the deliverables, ensuring technical accuracy, usability, completeness, consistency, and adherence to contract requirements prior to delivery. The contractor shall develop and implement a Technical Manual Quality Assurance (TMQA) Program Plan IAW ISO 9001 and CDRL C014 (TMQA Program) for the manuals to ensure compliance with the contract and to ensure the accuracy and adequacy of the data and data products. Government representatives reserve the right to review and comment on the contractors TMQA Program Plan, records, and processes throughout the duration of the programs efforts. The TMQA Program Plan shall describe the development process the contractor will use to plan, gather data, author, illustrate, produce, review, and deliver the required equipment publications under this contract. The TMQA Program Plan shall describe the process by which equipment configuration changes are identified, managed, and accurately integrated into the equipment publications on a timely basis. Any differences in methodology to be used for the different types of TM content (such as: Operation, Preventive Maintenance Checks and Services [PMCS], Troubleshooting, Maintenance procedures, Maintenance Allocation Chart (MAC), Front and Rear Matter) shall be described. The TMQA Program Plan shall identify significant contractor personnel, their roles and responsibilities, and contact information.

C.7.4.7 Technical Manual Schedule and Status Report. The contractor shall deliver Technical Manual Schedule and Status Report to the Government IAW CDRL C008 (TM Schedule and Status Report). This document shall include critical tasks involved with all publications development as identified in CDRL C008 (TM Schedule and Status Report). Delivery of this report shall also be included on the JAB IMS. Action Items shall be addressed and resolutions presented during the subsequent Publications Program Management Reviews (PMR). Comment and action items from TM reviews shall be summarized in the Technical Manual Schedule and Status Report.

C.7.4.8 Equipment Publications Defects List. The contractor shall review and utilize the Equipment Publications Defects List, Attachment 0027 (Equipment Publications Defects List), which the Government uses to guide review of all publication deliverables, based on guidance in AMC-R 25-76 (The U.S. Army Materiel Command [AMC] Technical/Equipment Publications Program). The contractor shall ensure all publication deliverables developed under this contract do not contain any defects listed on the Equipment Publications Defects List.

C.7.4.9 Acceptable Quality Level (AQL). The Governments goal is to ensure that the contractor has performed sufficient Quality Assurance to eliminate from the TM all defects as defined in the Equipment Publications Defects List, Attachment 0027 (Equipment Publications Defects List). The PTM shall meet AQLs before the Government will accept the PTM and move forward to plan Government Verification. For each manual, the Government plans to review 100 percent of the PTM; however, if any PTM submission fails to meet either AQL criterionPercentage of Critical Errors or Percentage of Major Errorsthe PTM will immediately be rejected through official notice to the Procuring Contracting Officer (PCO) or Contracting Officers Representative (COR). Critical and Major errors are defined in the Equipment Publications Defects List. For PTM deliveries where both a page-based .pdf file and IADS-generated QA file (i.e., Source Verify and SABR Query) are required, both file types will be counted as a single PTM delivery and shall be subject to AQL rejection, even if only one file type fails to meet AQLs.

AQLs for Publication Review

TM Size	Sample Review Size	Percent of Critical Error*	Percent of Major Errors*	Rejected
Less than 50 WPs	All WPs	10%	25%	Yes
50 or More WPs	25% of total WPs	10%	25%	Yes

*Refers to the percentage of Sample Review Size that contains that particular type of error.

C.7.4.10 Contractor Technical Manual (TM) Validation(s). The contractor shall validate the technical accuracy, completeness, clarity, usability, safety, and adequacy of all content in each TM prior to its delivery to the Government IAW CDRL C016 (TM Validation Plan). The contractor shall maintain records showing dates of Validation reviews, material reviewed by task or action, findings with applicable remarks, and corrective action taken IAW ISO 9001. The records shall be signed and certified by two separate contractor representatives who had no part in authoring any part of the TM. The contractor shall give the Government a 30-day notice of the time and place in order to witness the contractors Validation effort. Government representatives have the right to witness entire or selected portions of the contractors Validation effort.

C.7.4.10.1 TM Validation Process. The contractor shall validate 100 percent of all new, revised, or changed?Operation, Preventive Maintenance Checks and Services (PMCS), Troubleshooting, Software, Diagnostic, and Maintenance procedures, as well as Repair Parts and Special Tools List (RPSTL) data, through hands-on performance to ensure accuracy, compatibility, and completeness. Validation by desktop review and/or simulation shall only be used for Front and Rear Matter, Descriptive Information, Parts Information, Supporting Information, Equipment Condition changes, and Graphic changes that do not impact procedure. Desktop validation may be used for procedural information that was previously verified hands-on and that will not be changed during revision or reuse. Any software for diagnostic troubleshooting and any equipment instructions displayed in or on the equipment or system shall meet the same military standard as the Electronic Technical Manual (ETM) and are subject to Government verification. All performance validation shall be done using contractor provided tools of the same type issued by the Government to the Soldier at the designated level of maintenance as referenced in Attachment 0036 (Tool Kit Listing). Troubleshooting procedures shall be validated to the extent possible without damage to equipment. The contractor shall ensure the technical publication data accurately reflects and supports Joint Assault Bridge (JAB)

Name of Offeror or Contractor:

configuration(s), including all changes to configuration(s) resulting from testing, vendor parts supply, design, and production-line changes. The contractor shall validate other content--such as Controls and Indicators, Front Matter, Rear Matter, Torque Tables, Theory of Operation, Glossary, and Index information--by review against engineering data, TM data, and/or Government-procured production configuration hardware.

C.7.4.10.2 TM Validation Plan(s). The contractor shall develop, submit, and use a Validation Plan to validate content. The Validation Plan shall specify how, where, and when the contractor shall validate TM content. The Validation Plan shall describe the Validation method used for each type of TM content. The contractor shall deliver the Validation Plan to the Government for review and approval 30 calendar days prior to the start of Validation IAW CDRL C016 (TM Validation Plan). If the Government determines the Validation Plan will not ensure technical accuracy and adequacy of the TM deliverables, the contractor shall change the Validation Plan accordingly.

C.7.4.10.3 TM Validation Report(s). The contractor shall develop and deliver to the Government a Validation Report after Validation completion IAW CDRL C017 (TM Validation Report). The Validation Report shall certify that Validation has been completed, shall list in detail the effort undertaken during Validation (processes, corrections, etc.), and show the TM deliverable has had QA applied IAW CDRL C014 (TMQA Program) with use of the Equipment Publications Defects List, Attachment 0027 (Equipment Publications Defects List). The Validation Report(s) shall include a signature of an individual authorized to represent the contractor. The contractor shall make available its complete Validation Records to the Government upon request, including all Validation Redlines.

C.7.4.10.4 TM Validation Certificate(s). The contractor shall develop and deliver to the Government a Validation Certificate after Validation completion IAW CDRL C018 (TM Validation Certificate).

C.7.4.11 Government Verification. The Government will conduct Verification of TMs to ensure completeness, accuracy, clarity, adequacy, and usability, at a mutually agreed upon location (contractor or Government facility). Government representatives will review the Preliminary Technical Manual (PTM) to determine that proper QA has been used during preparation and that the PTM is complete and adequate for Verification, ensuring that all previous comments have been addressed, changes have been applied, and that the TM conforms to military standards. US Army Soldiers and/or Government representatives will verify the TM to ensure accuracy and usability. Per AR 25-30 and DA PAM 25-40, verification may consist of hands-on performance of up to 100 percent of all Operator and Maintenance procedures. All Preventative, Maintenance, and Troubleshooting Procedures shall be 100 percent verified unless otherwise directed by the User. The Government has the right to choose to verify the TM by desktop review, review on equipment (simulation), hands-on performance, or any combination of these methods. To ensure the contractor has properly prepared and validated TM content, the Government intends to verify by performance to the extent required, except when a procedure could be hazardous to personnel or equipment. If requested by the Government, the contractor shall apply fault insertions for troubleshooting tasks. The Government will develop and provide an approved Verification Plan to the contractor NLT 30 calendar days prior to each Verification event.

C.7.4.11.1 The contractor shall provide support to the Government Verification process. This support shall include facilities; tables; chairs; contractor personnel to assist with record keeping, equipment preparation and maintenance; mandatory replacement parts supply; consumables (i.e., rags, lubricants, sealants, etc.), Government-issued tools; and contractor-provided special tools.

C.7.4.11.2 The contractor shall also provide personnel to take notes of all corrections, answer questions, review Verification issues, make corrective changes on-site during Verification, and advise the Government of changes or recommendations that arise the duration of all Verification events. The contractor shall provide a photographer to document problem areas and changes required to correct errors or omissions in the TM procedures being verified.

C.7.4.11.3 The contractor shall provide the following personnel to support TM verification(s): one Logistics Engineer(s) per system; one Field Service Engineer to cover all systems; one ILSM to cover all systems; one Technical Writer per system; and one Illustrator on-site to cover all systems.

C.7.4.11.3.1 Scoring Criteria. The following scoring criteria shall be used to evaluate the WPs during this event: There shall be a strict GO/NO GO criteria during the event, where all mark-ups shall be corrected. Any NO GO WPs found shall be corrected prior to concurrence. All procedural (maintenance steps) NO GO WPs shall be returned to the floor to be re-verified by the Government team within 48 hours. All administrative (i.e., grammar, minor MIL-STD issues, missing minor content, writing, etc.) NO GO WPs shall be returned to the floor within 5 calendar days. All WPs shall be verified and classified as a GO by the end of the event. If NO GO WPs are reported on the last day of the event, those WPs shall be returned that day for re-verification and completed before end of workday.

C.7.4.11.3.2 Event Duration. If the event is extended in duration, the contractor shall support the extended event at no additional cost to the Government.

C.7.4.11.3.3 The contractor shall provide all mandatory replacement parts, special tools, expendable/durable items, and tools of the same type issued by the Government to the Soldier at the designated level of maintenance, as specified in the most current version of the JAB TMs at the time of the TM event(s). The contractor shall consolidate, package, and mark all mandatory replacement parts by task, for ready access during the Verification event(s). If a task requires Class III package items such as petroleum, oil, lubricants, etc., these items shall be made available but are not required to be separately packaged and marked per task.

C.7.4.12 TM Corrections. The contractor shall correct all errors found in the TM, ETM, and electronic source files resulting from contractor and Government reviews, tests, Validation, Maintainability Demonstration/Evaluation, and Verification at no additional cost

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIINMOD/AMD	Page 98 of 201
Name of Offeror or Contractor:		

to the Government.

C.7.4.14 The contractor shall deliver a Preliminary Technical Manual (PTM1) after completion of contractor Validation (including any ECPs and 2028s, as applicable), IAW CDRLs C001 (TM 5-5420-286-10), C002 (TM 5-5420-286-10-HR), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C005 (LO 5-5420-286-12), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD), and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide) as applicable. The validated PTM shall be a complete publication in the same format as the final publication. The validated PTM shall conform to the governing content and format Military Specifications and Standards. An updated Master Task Data List (MTDL) IAW CDRL C012 (MTDL) and TM Crosswalk IAW CDRL C015 (TM Crosswalk) utilizing Attachments 0031 (MTDL Template) and 0019 (TM Crosswalk) shall be provided with this delivery.

C.7.4.15 The contractor shall deliver a Preliminary Technical Manual (PTM2) of the TM IAW CDRLs C001 (TM 5-5420-286-10), C002 (TM 5-5420-286-10-HR), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C005 (LO 5-5420-286-12), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD), and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). This PTM shall have all Validation, Maintainability Demonstration/Evaluation, PTM review, changes, and additions incorporated. The PTM2 shall be a complete publication in the same format as the final publication. An updated Master Task Data List (MTDL) IAW C012 (MTDL) and TM Crosswalk CDRL IAW C015 (TM Crosswalk) utilizing Attachments 0031 (MTDL Template) and 0019 (TM Crosswalk) shall be provided with this delivery.

C.7.4.16 The contractor shall deliver a Preliminary Technical Manual (PTM3) of the TM IAW CDRLs C001 (TM 5-5420-286-10), C002 (TM 5-5420-286-10-HR), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C005 (LO 5-5420-286-12), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD), and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). This PTM shall have all Validation, Maintainability Demonstration/Evaluation, PTM review, changes, and additions incorporated. The PTM3 shall be a complete publication in the same format as the final publication. An updated Master Task Data List (MTDL) IAW C012 (MTDL) and TM Crosswalk IAW CDRL C015 (TM Crosswalk) utilizing Attachments 0031 (MTDL Template) and 0019 (TM Crosswalk) shall be provided with this delivery.

C.7.4.17 The contractor shall deliver a Preliminary Technical Manual 4-X (PTM4-X) of the TM IAW CDRLs C001 (TM 5-5420-286-10), C002 (TM 5-5420-286-10-HR), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C005 (LO 5-5420-286-12), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD), and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). This PTM shall have all Validation, Maintainability Demonstration/Evaluation, PTM review, and Verification corrections, changes, and additions incorporated. The PTM4-X shall be a complete publication in the same format as the final publication. An updated Master Task Data List (MTDL) IAW C012 (MTDL) and TM Crosswalk IAW CDRL C015 (TM Crosswalk) utilizing Attachments 0031 (MTDL Template) and 0019 (TM Crosswalk) shall be provided with this delivery.

C.7.4.18 The contractor shall deliver a Final Reproducible Copy (FRC) of the TM IAW CDRLs C001 (TM 5-5420-286-10), C002 (TM 5-5420-286-10-HR), C003 (TM 5-5420-286-20), C004 (TM 5-5420-286-20P), C005 (LO 5-5420-286-12), C006 (NMWR 5-5420-286), and C007 (TM 5-5420-286-BD), and Attachments 0016 (General Publications Requirements), 0017 (TM Requirements Matrix), 0018 (Equipment Publications Defects List), 0019 (TM Crosswalk), and 0020 (Publications Style Guide). An updated Master Task Data List (MTDL) IAW C012 (MTDL) and TM Crosswalk IAW CDRL C015 (TM Crosswalk) utilizing Attachments 0031 (MTDL Template) and 0019 (TM Crosswalk) shall be provided with this delivery.

C.7.4.19 Technical Manual (TM) Data Rights and Copyrights. The contractor shall deliver the TM content and all source material to the Government with unlimited rights per DFARS 252.227-7013, 252.227-7014, or 252.227-7015. If any content includes copyrighted material, the contractor shall acquire and deliver the copyright release in writing and the copyright release shall be written for the Government's use. The contractor shall furnish to the Government full copyright release for that data stating that the Government has unlimited rights - free from restrictions - to edit, reproduce, and distribute these publications as required. Per DoDI 5230.24, any TM containing proprietary information will be marked with Distribution Statement B.

C.7.4.20 Warranty of Data. The contractor shall ensure all technical data delivered under this contract conforms to all specifications and requirements listed in the contract, as stipulated in DFARS 252.246-7001 Warranty of Data.

C.7.4.21 The contractor shall overpack one set of Government Authenticated TMs in hard copy as well as a set on CD or DVD with each JAB Chassis delivered at time of final inspection/acceptance.

C.8 PROVISIONING PROGRAM (Applies to contractor without testing approval at time of award and ECPs)

C.8.1 The contractor shall establish and maintain a Parts Master File (PMF) Product Support Analyses (PSA) for all provisioning data. The ?le shall re?ect the vehicle con?guration in a top-down Work Breakdown Structure (WBS), including engineering design changes, historical data and changes to speci?c data ?elds.

The Contractor shall provision the entire Joint Assault Bridge (JAB) system within the IDEE. The Contractor shall ensure data sourced to complete provisioning deliverables is traceable to the allocated and product baselines documented in Attachment 0001 (TDP).

C.8.2 LSAR-30 Indentured Parts List/RPSTL

The contractor shall prepare and deliver the Indentured Parts List (LSAR-030) IAW TA-HB-007-1 and CDRL C020 (LSA 30 Repair Parts and

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 99 of 201
--	--	---

Name of Offeror or Contractor:

Special Tools List), 30 days prior to each provisioning conference. The LSAR-030 is the parts list view as represented in the RPSTL for a given component, assembly, or configuration. RPSTL Cards J and K shall be included as part of the LSA-036 report within CDRL C021 (Provisioning Parts List (PPL)) for all items identified as part of the RPSTL.

C.8.3 Logistics Support Analysis (LSA) Reports

The Contractor shall deliver a Logistics Product Data and Logistics Product Data Summaries CDRL C021 (PPL))and Attachment 0037 (Data Element Selection Worksheet), and Attachment 0038 (Attribute Selection Worksheet), which includes the following:

- a. Provisioning Requirements (LSA-036)
 - i. The Contractor shall correct all errors created when the LSA-036 is loaded into the USG's Logistics Modernization Program (LMP) database throughout each LMP stage.
 - ii. The Contractor shall provide prime part numbers and Commercial and Government Entity (CAGE) codes that reflect the original equipment manufacturers' information unless that part is modified changing form, fit, and function.
 - iii. The Contractor shall ensure all deliveries are full installations; Type of Change Codes (TOCCs) are not acceptable.
 - iv. The Contractor shall deliver a separate provisioning file correlated with the parent End Item file for the Special Tool Kit.
 - i. The Special Tool kit and tools contained within are Supply Class II and will require an NSN.
 - ii. Tool and Tool Kit spares (repair parts/hardware) are Supply Class IX. High usage Tool Kit Spares require an NSN. Low usage Tool Kit spares, when a NSN does not already exist, shall be provisioned with CAGE/Part Number and coded with a SMR "XD"
- b. Provisioning Parts List Index Report (LSA-151)
- c. Basic Issue Items (BII), Component of End Item (COEI), and Additional Authorization Lists (AAL)(LSA-040), using AR-700-18, Chapter 8 as a guide.

C.8.4 LSAR-032 Defense Logistics Agency Logistics Information Screening Report

The contractor shall conduct pre-procurement screening utilizing the LSAR-032 (Defense Logistics Agency Logistics Information Screening Report). Requests for pre-procurement screening shall be sent to DLIS Mailbox: "mailto:prvsngscrng@dla.mil". (If a contractor is not currently approved, they will have to submit to DLA for approval in order run screening.) The contractor shall standardize any commercial items selected as repair parts. The contractor shall use Government or industry association, specifications, drawings, or standard numbers as the preferred reference number (e.g., Federal (FED), Military (MIL), Joint Army and Navy (JAN) National Electrical Manufacturers Association (NEMA) Society of Automotive Engineers (SAE)). The contractor shall identify the standard Commercial and Government Entity (CAGE) and Part Number for all fasteners, or any other part that can be identified with a standard, in lieu of the Original Equipment Manufacturer (OEM) or distributor. All CAGE and Part Number combinations, that cannot be identified with a standard, shall be a combination from the OEM or identified with an Army Ordnance Part Number (AOPN) drawing. Distributer CAGE and Part Number combinations are unacceptable and cannot be used to provision nor catalog items for supply. The contractor shall submit EDPF IAW with this CAGE and Part Number guidance and selected NSNs shall contain Army User Data.

Provisioning screening results shall be used to select valid part numbers, National Stock Numbers, and current unit of measure/issue prices for provisioning purposes. Common hardware items (nuts, bolts, screws, washers, lock washers) shall be screened by technical characteristics to find like items (form/fit/function as well as materiel characteristics) currently within the Army supply system. The LSA-032 shall be made available for review with the pre-provisioning conference delivery of CDRL C024 (Provisioning Plan). The LSA-036 shall be updated to reflect the current part numbers, that have a National Stock Number (NSN) resulting from the screening process. In cases of multiple NSNs, matching active NSNs which list Army MOE Rules and active Acquisition Advice Codes are the preferred selection. NSNs with terminal acquisition advice codes shall not be accepted.

C.8.5 LSAR-036 Provisioning Requirements List

The contractor shall develop and provide the Provisioning Requirements (LSA-036) a minimum of thirty days prior to provisioning conferences IAW CDRL C021 (PPL), Government Electronics and Information Technology Association (GEIA) and TA-HB-007-1 LSAR 036 data requirements. LSA-036 submissions shall contain a minimum of 800 Provisioning Line-Item Sequence Numbers (PLISNs), but no more than 1500 PLISNs. The contractor shall continually update the LSA-036 and based on Government feedback and deliver IAW CDRL C021 (PPL). The contractor shall ensure that LSA-036 data is submitted in 1388-2B format IAW GEIA Standards, TA-HB-007-1 LSAR-036 Provisioning Requirements List and compatible with Logistics Modernization Program (LMP) and can be electronically transferred to the Government for successful creation of PBOM/updating of PBOM in LMP.LSA-032, LSA-050 Bill of Materiel and LSA-0151 Provisioning Parts List Index shall be developed from the LSA-036 Provisioning Requirements list and delivered IAW CDRL C021 (PPL).

LSA-036 data shall be in full top down, break down structure, all installations with sub-assemblies and piece parts listed. Type of Change Codes (TOCC) unacceptable and incompatible in LMP. The contractor shall utilize a 10 (count) gap between PLISNs. The contractor shall provide fair and reasonable prices. RPSTL Cards J and K shall be included as part of the LSA-036 report for all items identified as part of the RPSTL. RPSTL Cards shall have complete RPSTL Data, RPSTL Cards delivered blank, will be criteria for LSA-036 rejection. The contractor shall use the following PLISN Blocks: UXXX for SPECIAL TOOLS, VXXX for COEI, WXXX for BII, XXXX for AAL, YXXX for EDIL, and ZXXX for BULK items.

Bulk PLISNs shall include the M-coded (make from/manufactured) PLISNs on the remarks card for traceability. The M-coded PLISNs shall include the Bulk PLISN on the remarks cards for traceability.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 100 of 201
----------------------------------	---	-------------------------------

Name of Offeror or Contractor:

Change Authority Numbers (CANS) shall be listed in the remarks (H-CARD) not on the F-CARD or G-CARD as listed on the LSA 036 FORMAT 1388-2B document. CANS on any other card is not LMP compliant and will be rejected.

For NSN Assignment: USG requests that Federal Supply Class (FCSs) be provided. Ensure FCSs align with Item Name Codes (INCs), accurate Maintenance Replacement Rates (MRRs) applied, do not use the defaults listed on the Log Management Info sheet.

Army Ordinance Part Numbers (AOPNs), Original Equipment Manufacturer (OEMs), and/ or Government Standards are to be listed on the 01A card of the LSA-036. Suggested and Approved sources of supply listed on a Vendor Item Control Drawing (VICD) or Source Control Drawing (SCD) must be listed on the 02A card of the LSA 036. The AOPNs associated with the VICD and SCD must be on the 01A card.

C.8.6 LSAR 80 Bill of Materials Report
The contractor shall deliver the Bill of Materials Report (LSAR 80) identifying parts and their associated assemblies 30 days prior to each provisioning conference. Each assembly listed will show parts one indenture lower. For example, if the assembly is a B indenture than the assembly will only show all associated C indentured components. The LSAR 080 shall be delivered IAW CDRL C021 (PPL).

C.8.7 LSAR 151 Provisioning Parts List Index
The contractor shall deliver the Provisioning Parts List Index (LSAR 151) 30 days prior to each provisioning conference. The LSAR 151 shall be delivered IAW TA-HB-0007-1 and CDRL C021 (PPL).

C.8.8 LSAR-040 Authorized Items List
The contractor shall identify the Basic Issue Items (BII), Components of End Item (COEI) and Additional Authorized List (AAL) required to support the DRS configuration IAW CDRL C022, (Authorized List Items Report). The Authorized Items List (LSA-040 Report) shall be delivered shall be delivered 30 days prior to provisioning conferences and PTM 1 submissions IAW C.7, when applicable.

C.8.9 Engineering Data for Provisioning
The contractor shall develop/provide Engineering Data for Provisioning (EDFP) using 3Di format for each provisioning conference 30 days prior to conference IAW CDRL C023 (EDFP). EDPF is technical data used to describe parts/equipment to assign type I National Stock Numbers (NSN). EDPF shall be provided in in PLISN sequence for all parts, special tools, BII, (COEI, and Additional Authorized List (AAL) items. The EDPF shall provide item identification/descriptions necessary to support updates to the LSA-036 and Provisioning Bill of Materials (PBOM). The contractor shall deliver drawings IAW CDRL C023 (EDFP). EDPF is required for all installation drawings, assembly and repairable components and all components/assemblies requiring a National Stock Number. The contractor shall submit EDPF IAW with the CAGE and Part Number guidance provided for the LSA-032 (C.8.1.4). EDPF shall include the PCCN, PLISN, UOC, AMC, AMSC. ARMY Ordinance Part Number drawings shall have approved source of supply or OEM CAGE and part numbers listed.

EDFP shall be created for each item provisioned within the End Item IAW Title 10 (USC), Section 2320 (subparagraph C.i, C.ii, C.iii, and C.iv), ASME Y14.24, ASME Y14.34, ASME Y14.35, ASME Y14.41, ASME Y14.100, EIA-649CEDFP is not required when an accepted Government or Industry Standard is used.

- Drawing Types to are not limited to:
- Assembly drawings - shall be created for all assemblies and sub-assemblies having a repair maintenance function for Product X, IAW ASME Y14.24, paragraph 6.1 and sub-paragraphs.
 - Altered Item drawings - shall not exist for P SRC Coded items. Anytime an item is physically altered, and that item is under the control of another design activity or defined by a nationally recognized standard. Items with the same design authority CANNOT be altered nor used for provisioning and cataloging purposes. IAW ASME Y14.24, paragraph 8.1 and sub-paragraphs.
 - Installation drawings- shall provide a drawing anytime information for properly positioning and installing items relative to their supporting structure and adjacent items are required, IAW ASME Y14.24, paragraph 7 and sub-paragraphs.
 - Modification drawings - shall be prepared to add, remove, or rework items to satisfy the users requirements or to incorporate mandatory changes in delivered equipment, for example, those that affect safety, reliability, or application extension.?A new drawing is required to identify the new item within the configuration. Modification drawing are instructions and are not to be used to represent the new item for supply.
 - Kit drawings- shall be provided when it is desired to identify all items required to perform a specific operation (e.g., maintenance, overhaul, modification, installation, conversion, or similar operations) in kit form IAW ASME Y14.24, paragraph 15.6 and sub-paragraphs.

Other Factors to Include

- Quantity and Measurement?- where practicable, concurrence of the quantity or measurement of material shall be included on the drawing.
- Drawing Notes - ensure all notes on Drawings are IAW ASME Y14.100, paragraph 4.27 and sub paragraphs?
- Numbering, Coding, and Identification - there shall use an established numbering, coding, and identification system for all

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page101 of 201
--------------------	--	----------------

Name of Offeror or Contractor:

provided engineering drawings and associated lists IAW ASME Y14.100, paragraph 6 and sub paragraphs and ASME Y14.100, appendix D.

-Markings on Drawings - shall ensure all markings on provided engineering drawings and associated lists are IAW ASME Y14.100, paragraph 7 and sub paragraphs ASME Y14.100, appendix E.

-Additional drawing Information - to support Provisioning BOM creations and configuration control there should be concurrence on the Next Higher Assembly Drawing Number and the Usable on Code is annotate within the drawings

-Application Block IAW ASME Y14.24, ASME Y14.100 and below examples.

-Modification kits are not provisioned items nor items of supply.

-Supplemental, ancillary, add-on, items grouped within a container, or items required for special purpose are not true kits and cannot be developed nor provisioned as kits.

C.8.10 Provisioning Plan

The Contractor shall plan and execute Provisioning IAW AR 700-18. The contractor shall prepare a provisioning plan 30 days after the provisioning guidance conference IAW CDRL C024 (Provisioning Plan). The contractor shall identify as part of the maintenance task analysis all support items required to support the system. The contractor shall update the provisioning plan IAW CDRL C024 (Provisioning Plan) for those items that are not currently available through the DoD supply system. For those support items that are currently available through the D0D supply system, the contractor shall update and deliver to the Government, information that identifies the application and anticipated usage of the item.

The Government will provide rejection or approval of each delivery within 30 calendar days after receipt. The contractor shall have 20 calendar days to resubmit with all Government comments addressed.

C.8.11 Provisioning Guidance Conference

The contractor shall lead a Provisioning Guidance Conference at its facility no later than 90 days after contract award. The purpose of this conference is to communicate provisioning guidance to the contractor for compliance in completing CDRL C021 (PPL). Attendees shall include contractor provisioning data developers, contractor engineers and contractor logistics personnel as well as Government representatives. The contractor shall provide an agenda IAW CDRL A002 (Conference Agenda) and capture all meeting minutes IAW A003 (Meeting Minutes). All IPDT meeting minutes The IPDT meeting minutes shall be made available to the Government and discussed at subsequent IPT meetings.

C.8.12 Provisioning Conferences (PC)

The Contractor shall host virtual PCs quarterly, starting 120 days after CDR and occurring every 90 days thereafter.

Each PC will be coordinated in advance through the PSM-IPT. The Contractor shall provision NATO parts at the earliest provisioning conferences. The Contractor shall correct TDP discrepancies that have been identified by the USG during the Provisioning Conferences. The following shall be delivered by the Contractor:

- a. Provisioning Technical Data (PTD) CDRL C023 (EDFP) and CDRL C025 (Pre-Provisioning Screening).
 - b. Have available installation and assembly drawings that show the relationship between the end item or repairable component and the provisioned parts. The Contractor shall not create new drawings for this e?ort but shall provide the best available drawing(s) and documentation for each part.
- Each conference shall review a minimum of 800 Provisioning Line-Item Sequence Numbers (PLISNs), but no more than 1500 PLISN, IAW Logistics Product Data and Logistics Product Data Summaries CDRL C021 (PPL) and Attachment 0037 (Data Element Selection Worksheet). Each incremental submission shall include at least one major assembly.

C.9 LOGISTICS REPORTS AND TASKS

C.9.1 The contractor shall conduct Logistics Support Analysis Record (LSAR) Reviews with the Government and shall develop/maintain and deliver an updated or new as required electronic (PDF) and two paper copies, LSA-036 IAW CDRL C021 (LSAR), and the Logistics Management Information (LMI) Data Products Worksheet not later than 30 calendar days before the provisioning conference. LSAR shall adhere to the required data elements in Attachment 0037 (Attribute Selection Worksheet) LMI Data Products worksheet (see below) and shall include the following reports:

- LSA 004, Maintenance Allocation Chart
- LSA-019, Maintenance Task Analysis Summary
- LSA-024, Maintenance Plan
- LSA-050, Reliability Centered Maintenance Summary
- LSA-056, FMECA (Failure Mode Effects and Criticality Analysis)

C.9.2 Maintenance Task Analysis (MTA) and Maintenance Plan (Applies to ECP)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 102 of 201
--	---	---

Name of Offeror or Contractor:

The contractor shall conduct Maintenance Planning and Supportability Analyses to maintain Maintenance Task Analysis (MTA) LSAR-019 data based on the Armys two-level Maintenance policies in accordance with AR 750-1 (chapter 3, section 2) and AR 700-127 (chapter 5, section 3). The contractor shall use GEIA-STD-007B, GEIA-HB-007B, and TA-HB-007-1, LSAR-019 Task Analysis Report. The contractor shall update Attachment 0040 (Maintenance Task Analysis (MTA)) and Attachment 0041 (JAB Maintenance Plan) and deliver IAW with CDRL A013 (Maintenance Task Analysis) and CDRL A014 (Maintenance Plan).

C. 9.3 Level of Repair Analysis (LORA)

The contractor shall update Attachment 0042 (Level of Repair Analysis (LORA)) and deliver in a format compatible with Computerized Optimization Model for Predicting and Analyzing Support Structures (COMPASS). The contractor may obtain the COMPASS software, free of charge from LOGSA by registering for the software at the following link . The contractor shall provide the LORA data as part of the LORA Report in accordance with CDRL A015 (LORA). The LORA shall be updated every 5 years and start from previous LORA. The contractor shall update the LORA prior to the pre-provisioning conference and every five years after Government acceptance.

C. 9.4 Failure Modes Effects and Criticality Analysis (FMECA) LSA-056

The contractor shall review, maintain, and update Attachment 0043 (Failure Modes Effects and Criticality Analysis (FMECA)) and deliver IAW CDRL A013 (FMECA).

C. 9.5 Maintenance Allocation Chart (MAC) LSAR-004

The contractor shall review, maintain, and update Attachment 0037 (Maintenance Allocation Chart (MAC)) and deliver IAW CDRL C019 (MAC).

C.10 ENVIRONMENTAL, SAFETY AND OCCUPATIONAL HEALTH (ESOH)

C.10.1 ESOH Engineering Principles

The contractor shall prepare a System Safety Program Plan (SSPP) IAW CDRL A013 (SSPP) and MIL-STD-882 Task 102. The contractor shall apply MIL-STD-882 standard safety practices to changes to the TDP and variances from the TDP.

C.10.1.1 ESOH analyses shall be conducted for each change to the TDP and variance from the TDP to identify hazards, their causal factors, and mitigations. The contractor shall provide a description of each hazard and causal factor; the safety, health, and/or environmental impacts of each hazard; and categorize the risk of each hazard before and after mitigation IAW MIL-STD-882. The analyses shall identify logical, practical, and cost-effective mitigation techniques and requirements to eliminate, control or minimize the risks of each causal factor. Mitigation actions include redesign, engineering controls, safety features or devices, warning devices and procedures and training. All identified hazards must be successfully mitigated by the contractor. These analyses shall consider all hardware, software, environmental, and human factor interfaces as potential contributors in all phases of operation and maintenance. The ESOH analyses shall be included with each ECP, VECP, and RFV IAW C.6 and CDRLS B004 (Request for Variance) and B005 (Engineering Change Proposal).

C.10.1.3 Access to equipment, components and controls during operation and maintenance shall not expose personnel to uncontrolled hazards. Moving parts, mechanical power transmission devices, exhaust system components, pneumatic components and hydraulic components of such a nature or location posing a hazard to operating or maintenance personnel shall be either enclosed or guarded. Protective devices shall not impair operational functions.

C.10.1.4 The contractor shall ensure warnings, cautions, and notes are included in instructions for operation, maintenance, and troubleshooting/repairs. The contractor shall ensure distinct markings/labels/decals are placed on hazardous components.

C.10.2 System Safety Program Progress Report (SSPPR)

The contractor shall prepare a System Safety Program Progress Report (SSPPR) IAW MIL-STD-882 Task 107 and CDRL A014 (SSPPR). The SSPPR shall detail and document any hazard analysis performed since the last delivery of the SSPPR as well as changes incorporated into the system design to enhance ESOH and to mitigate hazards identified. The SSPPR shall include updates from the HTS, to include new hazards and work accomplished on previously identified hazards since the submission of the last report.

C.10.2.1 Hazard Tracking System (HTS)

The contractor shall develop and maintain a process to identify, document and track ESOH hazards until they are eliminated, or the associated risk is reduced to a level acceptable to the Government. The HTS shall contain the fields identified in MIL-STD-882 Task 106 for each potential or actual ESOH hazard of the system and when the hazard may be expected to occur under both usual and unusual operating and maintenance conditions. The contractor shall categorize the risk before and after mitigation IAW MIL-STD-882. The contractor shall identify if the hazard is hardware, software or environmental related. Mitigation actions include redesign, recommended engineering controls, safety features or devices, warning devices and procedures and training. Hazards to be identified in the HTS include, but are not limited to sharp edges/moving parts hazards, physical hazards (e.g. extreme temperatures, acoustical energy, ionizing and non-ionizing radiation), chemical hazards (e.g. flammables, corrosives, carcinogens), toxic fumes (exhaust emissions), electrical hazards, whole-body vibration, compliance issues with regulatory organizations, generation of hazardous wastes, biological hazards, fire prevention issues, and ergonomic hazards. The HTS shall also include findings from the Environmental Hazards Analysis (MIL-STD-882, Task 210). The HTS shall be delivered as part of CDRL A014 (System Safety Program Progress Report).

C.10.2.2 Disposition and Closeout

All identified hazards must be successfully mitigated by the contractor. The contractors proposed mitigation and resulting residual risk

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page103 of 201
--	--	---

Name of Offeror or Contractor:

must receive final approval by the Government prior to closure of the hazard in the Hazard Tracking System. The contractor shall perform any redesign required due to a hazard and the adequacy of the design change shall remain the responsibility of the contractor.

C.10.3 Safety Assessment Report (SAR)

The contractor shall develop and document an ESOH assessment based on results of system safety analyses, hazard evaluations, and Government or independent testing. The ESOH hazard assessment shall identify all known ESOH features of the hardware, software, system design, and inherent hazards and shall establish operational/maintenance procedures and/or precautions to be followed by Government testers and all system users. The contractor shall prepare the SAR IAW MIL-STD-882 Task 301 and CDRL A015 (Safety Assessment Report), including the information contained in the HTS. The contractor shall identify environmental, safety and occupational health hazards associated with the system to include any modifications as described in C.8.4.2 and

C.10.3.3. The contractor shall provide certifications to safety related requirements from the ATPD2402 as part of the SAR.

C.10.3.1 SAR Updates

In the event any modifications or operational/maintenance procedural changes are made as a result of testing, the contractor shall update the SAR to reflect those modifications or changes. The contractor shall submit an updated SAR IAW CDRL A015 (SAR). In addition, the contractor shall immediately notify the PCO and Contracting Officer Representative (COR) (within 24 hours) via phone and email if new hazards or increased risk/hazard probability levels are identified while Government testing of the JAB System is ongoing.

C.10.4 Hazardous Materials

For the purposes of this contract, the definition of hazardous materials is included in Section 3.15.13 of Attachment 0002 (ATPD 2402). Specific hazardous materials requirements for the JAB are included in sections 3.15.13 and 3.15.14 of Attachment 0002 (ATPD 2402).

As stated in Section 3.15.12 of Attachment 0002 (ATPD 2402), Hazardous Material requirements shall apply to all components except for GFP.

C.10.4.1 GFP Hazardous Materials

Some GFP contains asbestos, lead, beryllium, cadmium, hexavalent chromium, radioactive materials and other hazardous materials. The following is an incomplete list of hazardous materials assumed to be present on GFP:

- Beryllium copper, cadmium and hexavalent chromium on some electrical connectors
- Cadmium and/or hexavalent chromium on some fasteners, pins, cables, wiring harnesses, and automatic fire suppression system
- Lead in bearings, solder, batteries and lubricant fittings
- Chemical Agent Resistant Coating (CARC) on surfaces
- Hexavalent Chromium in CARC pretreatment and in gas particulate filters - Radioactive material in the M1A1 engine combustion liner and engine igniters - Sulfuric acid in batteries - Halon 1301 in the crew compartment fire suppression system

Additional hazardous materials may be present on additional components.

Attachment 0044 (GFP Hazardous Material Warnings) contains additional hazardous materials warnings for some specific hazardous materials present on or generated by GFP. The Contractor shall review the attached warnings and follow the associated guidelines when working with or modifying GFP. The Contractor shall incorporate GFP hazardous material warnings on JAB System labels, in training materials, and in technical manuals as appropriate to ensure JAB operators and maintainers are aware of these GFP related hazards.

The Contractor shall ensure appropriate Personnel Protection Equipment (PPE) and other hazard mitigations are used when handling, painting, abrasive blasting, grinding, cutting, welding, sanding or otherwise modifying GFP during JAB production. The contractor shall comply with all applicable Federal, State or local ESOH laws, regulations and procedures. Waste materials from GFP shall be handled, stored and disposed of IAW local laws, regulations and procedures. The Government is not responsible for injury or harm to individuals, damage to equipment, or liability resulting from failure to use PPE or comply with all applicable Federal, State or local ESOH laws, regulations and procedures.

C.10.4.2 Radioactive Materials

Radioactive materials shall not be used without PCO approval unless provided by the Government as GFP. Titles 10 and 49 of the Code of Federal Regulations apply to the use of radioactive material. The request for PCO approval shall include:

- a. justification as to why these materials are the only means of meeting military operational requirements;
- b. data as required to obtain a Nuclear Regulatory Commission (NRC) license for the radioactive material IAW 10 CFR;
- c. a description of the design and manufacturing procedures that will be used to minimize hazards to personnel during manufacture, use, transportation, and disposal;
- d. the following information and procedural controls for each item containing radioactive material: marking of the item(s) to include radioactive symbol, radioactive source and activity, date of source, NSN/PN/Serial Number and manufacturer; ultimate disposal method; NSN, part nomenclature and serial number for each radioactive item; NSN for all end articles containing the radioactive item; total number of radioactive items per end article; the total number of radioactive items to be procured per JAB System (including initial spares); leak test requirement, and a Safety Data Sheet (SDS).

CONTINUATION SHEET	Reference No. of Document Being Continued		Page104 of 201
	PIIN/SIIN	MOD/AMD	

Name of Offeror or Contractor:

If the use of radioactive material is approved the contractor is responsible for obtaining a Nuclear Regulatory Commission (NRC) license for the manufacture and distribution of radioactive item, and to obtain a Sealed Source Device Registration (SSDR).

C.10.4.3. Hazardous Materials Exceptions and Wavier Requests

In addition to the requirements of Section 3.15.13.3 of Attachment 0002 (ATPD 2402) the Contractor shall submit a Hazardous Material Waiver Request using Attachment 0045 (Hazardous Material Waiver Request) with any RFVs from the hazardous material requirements. RFVs/waivers for hexavalent chromium, if approved, will only be granted for up to 5 years.

C.10.5 Hazardous Materials Management Report (HMMR)

For the life of the contract, the contractor shall prepare an update to the Hazardous Management Report (HMMR) IAW with CDRL A016 (Update to Hazardous Materials Management Report - HMMR) and (Update to HMMR Format Example). A baseline HMMR is provided as Attachment 0046 (HMMR Baseline). The Contractor shall review the baseline HMMR and provide an update to capture any changes (additions, removals, and other changes) in hazardous materials including, but not limited to, changes in production materials and changes from incorporation of ECPs, Kits, or other design changes IAW CDRL A016 (Update to Hazardous Materials Management Report - HMMR) using Attachment 0047 (HMMR Format Example).

The update to the HMMR shall include changes to hazardous materials:

- Delivered on or embedded in the system, specifying the part number and quantity of parts
- Used in final system manufacture and assembly, specifying the process (es) using the hazardous materials
- Produced by the system
- Required for maintenance of the system
- Used for operation of the system, including quantities or fluid volumes required

For each hazardous material identified:

- Indicate if the hazardous material is an addition, removal, or other change from the baseline HMMR, Attachment 0046 (HMMR Baseline)
- Deliver the information and format specified in Attachment 0047 (HMMR Format Example).
- Deliver Safety Data Sheets (SDSs) either by embedding in Attachment 0031 or attaching separately.

The contractor shall discuss status, changes or issues with the Update to HMMR as part of each Program Management Review IAW CDRL A016 (Update to Hazardous Materials Management Report - HMMR).

GFP need not be addressed within the report.

C.11 CORROSION CONTROL

C.11.1 Corrosion Prevention and Control Plan (CPCP)

The contractor shall develop, maintain and implement a Corrosion Prevention and Control Plan (CPCP) for the JAB System, except for GFP IAW CDRL A017(CPCP). The contractor shall identify corrosion risks, recommend mitigation measures and implement mitigation measures related to system design and production. The contractor shall inform the Government COR via e-mail of issues that have the potential to degrade performance as they arise during the execution of this contract.

C.11.2 Corrosion Prevention Advisory Team (CPAT)

The contractor shall support the Government Corrosion Prevention Advisory Team (CPAT) for the JAB System. The contractor shall remotely participate in meetings, complete assigned action items, identify and inform the CPAT of new corrosion risks or issues, review and discuss the CPCP, and analyze ECPs for impacts on corrosion prevention and control. Meetings will be held on an annual basis but may convene more frequently as needed to address corrosion prevention and control concerns if they arise over the life of this contract.

C.12 Welding

C.12.1 Welding Documentation

C.12.1.1 Welding Standards

Welds shall be free from defects indicative of poor workmanship. All welding shall be in accordance with (IAW) the documents listed in ATPD-2402 Annex F: Welding Standards, Table 1. The revision or edition (year) to be used shall be the year in effect at the time of the solicitation release date.

C.12.1.2 Alternate Welding Standards

Subject to Procuring Contract Office (PCO) written engineering approval, the Contractor may utilize alternate standards or codes once the Contractor or Contractor's suppliers have demonstrated that the equivalent or better quality and performance can be obtained by their use. It is the Contractor's responsibility to demonstrate such equivalence to the Government. If the Contractor's component supplier shall not release specific proprietary information, the Government reserves the right to conduct an on-site review of the Contractor's supplier(s) quality system and welding operations to verify the capability of producing acceptable welds. The Government reserves the right to approve/disapprove the use of any and all such alternative welding standards and specifications. The demonstrated equivalent shall be verified prior to fabrication of any deliverable item under contract.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page105 of 201
Name of Offeror or Contractor:		

C.12.1.3 Welding Procedure Qualification

The Contractor shall develop

- a)CDRL, Procedure Qualification Records (PQRs); CDRL A018
- b)CDRL, Welding Procedure Specifications (WPS); CDRL A019

-that shall be uniquely identified with a traceable identifier IAW the welding standard(s) as specified in Attachment Number, Welding Standards. The Contractor shall follow the appropriate welding standard(s) scope to qualify the welding procedures. The Contractor and Supplier(s) shall document and prepare welded test assemblies and section subsequent test specimens out of the procedure qualification test as to then test, write, qualify, and obtain the procedure qualification record IAW the appropriate standard(s). The use of prequalified weld joints and prequalified welding procedures as specified in American Welding Society (AWS) D1.1 does not preclude the submittal of said written prequalified welding procedures. The use of prequalified joint designs and prequalified base materials and extent thereof must also be properly specified within a qualified WPS.

C.12.1.3.1 Revised Welding Procedures

If applicable, the Contractor shall deliver revised welding procedures to the Government for approval as part of the CDRL A018 (Procedure Qualification Records (PQR)) and CDRL A019 (Welding Procedure Specifications). The Government reserves the right to apply a disposition to all revised weld procedures. The Contractor shall obtain Government approval of all revised procedures prior to their use to fabricate production weldments. If a Contractor will not release proprietary information, the Government reserves the right to conduct an on-site review of the Contractors quality system and weld processes to verify capability to produce acceptable welds.

C.12.1.4 Previous Procedure Qualifications

Welding procedures that have been previously qualified by a Contractor to meet the requirements of other standards, specifications, codes, or earlier revisions of the standard(s) listed in ATPD-2402 Annex F: Welding Standards, Table 1 for which records are available and qualifications have been maintained, are acceptable for use with the approval from the PCO and may be used by the Contractor to satisfy a WPS under this contract CDRL A018 (Procedure Qualification Records) and CDRL A019 (Welding Procedure Specifications). The Contractor shall submit a written request containing all previously approved welding procedures and their supporting documentation to use the previously qualified welding procedure to satisfy contract requirements. For procedures that involve armor grade materials, the welding specification and weld classification cross reference table from MIL-STD-3040A, Qualification, Fabrication, Welding, and Inspection of Armor and Non-Armor Steel Weldments or MIL-STD-3057A, Arc Welding of Armor Grade Aluminum shall be used to determine the new weld classification from the earlier revisions of those standards or canceled standards. The Contractor shall address all essential variables specified in the applicable welding standard(s) and include the information on the PQRs. The PCO may require requalification on a case-by-case basis where any of the following apply:

- a. There are specific concerns about the adequacy or accuracy of the welding procedures, the ability of the personnel to produce acceptable works, or those procedures which do not meet the requirements of the applicable fabrication document.
- b.The existing qualification does not meet the requirements of the earlier revision of the document originally qualified to.
- c.Any exceptions made to a previous procedure that does not meet the requirements of the earlier revision of the document originally qualified to.
- d.A non-favorable quality history regarding weld quality on a previous contract where the procedures were used.

C.12.1.5 Welding Repair Procedures

The Contractor shall provide a written weld repair procedure (WRP) identifying proper technique and approach to correct defective products IAW CDRL A020 (Welding Repair Procedure). The Welding procedures for the repairs shall be IAW the applicable welding standard(s) in ATPD-2402 Annex F: Welding Standards, Table 1.

C.12.1.6 Welding Equipment

The government reserves the right to review welding equipment calibration program documents, calibration records and/or process documents upon request.

C.12.1.7 Welder & Welding Operator Qualification

Before assigning any welder or welding operator to perform welding covered by this contract the Contractor shall obtain certification that the welder or welding operator has passed qualification tests as prescribed by the standards listed in ATPD-2402 Annex F: Welding Standards, Table 1. The Contractor shall submit these qualifications in the CDRL A021 (Welder Qualification Records (WQR)). A qualified WPS shall be used for each welder or welding operator qualification plate. Qualifying as a welder shall not qualify the individual as a welding operator or vice versa. A welders performance qualification is measured in their ability to create a test plate which meets the acceptance criteria of the welding document. A welding operators performance qualification is measured in their ability to successfully operate the welding equipment and produce a test plate which meets the acceptance criteria of the welding document. The results of testing this plate in accordance with the welding standard requirements shall be documented in a WQR and shall be uniquely identified with a traceable identifier. A person tending a robotic work cell loading and unloading parts shall not require qualification. Robotic

CONTINUATION SHEET	Reference No. of Document Being Continued		Page106 of 201
	PIIN/SIIN	MOD/AMD	

Name of Offeror or Contractor:

qualification is required for the Programmer (operator) who has set up and input the arc motion, work motion devices, torch path, and all associated welding parameters into the robot controller teach pendant and specific weldment part program. If the duties of the robot tender include additional responsibilities such as visual inspection and process monitoring, the robot tender shall have appropriate training for that task.

C.12.2 Welding Design

C.12.2.1 Materials

C.12.2.1.1 Armor Base Materials

All accepted armor grade steel shall be limited to materials qualified under the latest revision of

- a. MIL-A-11356, Armor, Steel, Cast, Homogeneous, Combat Vehicle Type (CST),
- b. MIL-DTL-12560, Armor Plate Steel, Wrought, Homogeneous (RHA), or
- c. MIL-DTL-46100, Armor Plate, Steel, Wrought, High Hardness (HHA).

Fabrication using

- d. MIL-DTL-46186, Armor Plate, Steel, Wrought, Very High Hardness (VHA) or
- e. MIL-DTL-32332, Armor Plate, Steel, Wrought, Ultra High Hardness (UHA)

shall require use of special techniques (see MIL-STD-3040A or latest revision) and shall require approval by the PCO and the technical authority prior to use. Any other steel utilized as armor shall be approved by the PCO prior to use and shall be subject to the guidelines of armor materials for procedure qualification (see Welding Procedure Qualification section). Unless otherwise specified, armor base steel material shall be welded in the fully quenched and tempered condition.

Accepted, weldable, armor grade aluminum shall be restricted to the thicknesses, alloys, and armor classes qualified in the latest revisions of:

- f. MIL-DTL-32262 Armor Plate, Aluminum Alloy 6055 Weldable and Alloy 6061, Unweldable Applique
- g. MIL-DTL-32341 Armor Plate, Aluminum, Alloy 2139 Weldable and Alloy 2195 and 2060 Unweldable Applique,
- h. MIL-DTL-32505 Armor Plate, Aluminum, Alloy 7017 Weldable and 7020 Applique,
- i. MIL-DTL-45225 Aluminum Alloy Armor, Forged,
- j. MIL-DTL-46027 Armor Plate, Aluminum Alloy, Weldable 5083, 5456, and 5059,
- k. MIL-DTL-46083 Aluminum Alloy Armor, Extruded, Weldable,
- l. MIL-DTL-46118 Aluminum Alloy Armor, 2219, Rolled Plate and Die Forged Shapes or
- m. MIL-DTL-46192 Aluminum Alloy Armor Rolled Plate (1/2 to 4 Inches Thick), Weldable (Alloy 2519).

Any other aluminum utilized as armor shall be approved by the PCO prior to use and shall be subject to the guidelines of armor materials for procedure qualification (see Welding Procedure Qualification section).

C.12.2.1.2 High Strength Steel

High strength steel is defined as any S-3, S-4, S-5, or S-11 steel with a yield strength greater than 90ksi (620MPa). This includes some grades of high strength low alloy (HSLA) steels, high yield strength (HY) steels, as well as many quenched and tempered steels.

C.12.2.1.3 Non-Armor Grade Steel

Steel not manufactured and qualified to a specification for armor grade steel (see Armor Base Material), covered by a base material group number per tables of the following: MIL-STD-3040, NAVSEA S9074-AQ-GIB-010/248 Requirements for Welding and Brazing Procedure and Performance Qualification, or the Welding Procedures Qualified by Employer section of AWS B2.1/B2.1M Specification for Welding Procedure and Performance Qualification and Annex C thereof, or the Ferrous and Nonferrous P-Numbers Grouping of Base Metals Table of ASME BPVC Section IX. Procedures involving materials assigned to S-1 or quench and tempered carbon steels (S-2) may also be qualified providing qualification includes toughness testing.

C.12.2.2 Weld Joint Design

All weld joint designs shall be IAW engineering best practices and shall be the responsibility of the entitys design engineering activity.

C.12.2.2.1 Armor Welding Design

Joint designs for Class I welds IAW MIL-STD-3040 or MIL-STD-3057 shall require the approval of the PCO upon request. For specific joint design recommendations and calculations, see the latest version of MIL-STD-22, Welded Joint Design and NAVSEA S9074-A1-GIB-010/1628, Fillet weld and partial penetration groove tee weld size, strength and efficiency determination, as applicable. All joint designs and joint design calculations, including finite element analysis (FEA) results, shall be delivered to the PCO for review upon request. Square groove, plug, or slot welds shall not be used for Class I joint designs without adequate supporting data, including a test plan for demonstrating weld soundness, which shall be submitted to the PCO for approval prior to use.

C.12.2.2.2 High Strength Steel Welding Design

Joint designs for Class II welds IAW MIL-STD-3040 shall require the approval of the PCO upon request. For specific joint design

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page107 of 201
---	--	--

Name of Offeror or Contractor:

recommendations and calculations, see the latest version of MIL-STD-22 and NAVSEA S9074-A1-GIB-010/1628, as applicable. All joint designs and joint design calculations, including finite element analysis (FEA) results, shall be delivered to the PCO for review upon request. Square groove, plug, or slot welds shall not be used for Class II joint designs without adequate supporting data, including a test plan for demonstrating weld soundness, which shall be submitted to the PCO for approval prior to use.

C.12.2.2.3 Non-Armor Welding Design
Joint designs for non-armor welds shall meet the design and fabrication requirements in the prescribed standards listed in Attachment 0048 (ATPD-2402 Annex F: Welding Standards). All joint designs and joint design calculations, including finite element analysis (FEA) results, shall be delivered to the PCO for review upon request.

C.13 QUALITY ASSURANCE

C.13.1 Quality Plan
The contractor shall have a documented Quality Control Program (QCP) prepared IAW International for Standardization (ISO) 10005 Quality Management Systems Guidelines for Quality Plans (adopted by DOD 1 DEC 95) and FAR clause at 52.246-11, Higher-Level Contract Quality Requirement (DEC 2014). The contractor shall submit the QCP to the Government for approval IAW CDRL A022 (Quality Control Plan). All work to be performed shall be conducted by qualified personnel IAW the approved Quality Control Plan (QCP). If work cannot be accomplished as described by the QCP, or would result in defective product, all work shall be stopped until the QCP is amended to reflect the appropriate work practice and approved by the Government, however, the contractor is still responsible for meeting the overall schedule.

C.13.1.1 Supplier/ Quality Assurance Program
The contractor shall have a supplier quality assurance program that requires all suppliers, including subcontractors and partners, to be compliant with ASME/ISO/ASQ Q9001-2015, as a minimum. The contractor supplier quality assurance program shall ensure each supplier has a documented quality system which includes development, implementation, and maintenance of control plans for all JAB Chassis products. The contractor's documentation and acceptance of the supplier quality assurance system and control plans shall be made available for review upon Government request. The Government reserves the right to perform quality audits at the contractor and subcontractor facilities, as deemed necessary.

C.13.2 Manufacturing Plan
The contractor shall develop and submit a Manufacturing Plan describing its manufacturing process IAW CDRL A023 (Manufacturing Plan).

C.13.3 Audits
Internal quality audits for this contract shall be IAW paragraph 8.2.2 of ISO 9001-2015. Contractor records shall provide documentation IAW CDRL A024 (Audits/Quality Records), that fully describes the root cause of deficiencies in products or processes and corrective actions taken.

C.13.4 Quality Records
The contractor shall establish and maintain records that are legible and identifiable to this contract. Such records shall be filed and indexed in a logical fashion that will allow for easy and timely retrieval. QA records shall include:

- a. Quality work plans and revisions
- b. Qualification and training
- c. Analysis records
- d. Review documentation
- e. Inspection documentation to include records of inspection, test, and examinations
- f. Final deliverable reports
- g. Results of internal and supplier audits to include Production Parts Approval Process (PPAP)
- h. Certifications
- i. Purchase Orders

These documents shall be retained by the contractor for a minimum period of four years after contract close out and shall be made available to the Government upon request. In addition, where product or process deficiencies have occurred during performance of work, the contractor's records shall provide documentation that fully describes the root cause of deficiencies and corrective actions taken.

C.14 INSPECTIONS

C.14.1 Inspection & Test Equipment
The contractor shall make inspection equipment available to the Government Inspector during Government in-process or end item inspection. The contractor is responsible for the supply and maintenance of all inspection and test equipment necessary to assure that end items and components conform to contract requirements. Upon completion of the inspection by the Government Inspector, all inspection equipment shall be returned to the contractor. The provisions of this paragraph shall also apply to suppliers and subcontractors.

C.14.2 JAB System Inspection Overview
Prior to delivery to the Government, the contractor shall conduct inspections and tests for the JAB Chassis IAW Attachment 0001 (TDP) and Attachment 0002 (ATPD-2402).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIINMOD/AMD	Page108 of 201
Name of Offeror or Contractor:		

C.14.2.1 In-Process Inspections
During fabrication of the JAB Chassis, the Government shall have access to the contractors and supplier/subcontractor facilities to perform in-process inspections.

C.14.2.2 Post-Production Inspection and Functional Test
Prior to delivery of the JAB Chassis, the contractor shall conduct quality inspections and functional testing of each JAB System IAW Attachment 0001 (TDP) and Attachment 0002 (ATPD-2402).

C.14.2.3 Final Inspection Record (FIR)
The contractor shall prepare a FIR in contractor format, IAW CDRL A029 (Final Inspection Report) and Attachment 0001 (JAB TDP) and Attachment 0002 (ATPD-2402). The FIR shall list each characteristic or function inspected or tested, and the relationship to the contract requirement. The approved FIR will be used during Quality Conformance Inspection (QCI). Deficiencies disclosed and corrective action taken during inspection by the contractor or the Government shall be described in writing on the Deficiency Sheet attached to the FIR. The contractor shall perform 100% final inspection of the end item IAW the requirements of Attachment 0001 (TDP) and Attachment 0002 (ATPD-2402) utilizing the Government approved FIR. The government reserves the right to witness performance of final inspection.

C.14.2.4 Test and Inspection Schedules
The contractor shall provide a test schedule and notification in advance of all tests at the contractor facility prior to delivery of JAB Chassis to the Government. The contractor shall provide access to the test facility during the test so Government officials may monitor test activities. After completion of each test, the contractor shall deliver to the Government a Test Report IAW CDRL A030 (Contractor Test Report) documenting the results.

C.15 SOFTWARE UPDATES FOR ECPs
The Software Updates section shall only be applicable for approved ECPs.

C.15.1 The contractor shall perform at least at a Capability Maturity Model Integration (CMMI) Level III for all business units and subcontractors performing software modification work. The contractor shall deliver all software, including Non-Developmental Item (NDI) and Commercial Off-The-Shelf (COTS) software in each JAB Chassis (excluding Government Furnished Software, herein referred to as GFS) with appropriate licenses and without restrictions for usage in its intended application.

C.15.2 Software License Package
The contractor shall develop a Software License Package IAW CDRL C026 (Software License Package) to identify and deliver all commercial software licenses for all software and updates utilized on the JAB Chassis (excluding GFS).

C.15.3 Software Maintenance
The contractor shall develop and maintain embedded software packages and diagnostics software as defined in section C.15.12 for the software reloading and diagnostics capability of the JAB Chassis or for an individual LRU (excluding GFS). The contractor shall also develop the capability to update vehicle software using the Maintenance Support Device (MSD) version 4 and future versions of the MSD for the GFX listed in Attachment 0049 (GFI). The procedures for updating software into the system shall be documented in the technical manuals and electronic technical manuals.

C.15.4 Software Metric Report
The contractor shall provide documentation on the software development effort IAW CDRL C027 (Software Metrics Reports) to provide details on the number of Source Lines of Code (SLOC) by Software Configuration Item, software defects and software size. The contractor shall provide problem reporting metrics to track the number, type and severity of open software problem reports against the total number of closed reports quarterly in conjunction with the PMR.

C.15.5 Interface Control Document (ICD)
The contractor shall provide initial Interface Control Documents (ICDs) IAW CDRL C028 (ICD) for LRUs. The ICD shall define the protocol, word formats, and data types for the data packets listing all released interface information (such as drawings, tables, and diagrams); a revision record, a cross-reference listing, a description of the physical and function relationships between all released interface information. Any changes to system design that affect the ICD shall require the contractor to submit an ECP IAW CDRL B005 (ECP) which shall include an updated ICD and a summary of the changes to that ICD IAW CDRL C028 (ICD).

C.15.6 Software Development Plan (SDP)
The contractor shall deliver a SDP for all JAB Chassis software (excluding GFS) IAW CDRL C029 (SDP). The contractor shall use its own corporate software standards in developing the SDP. The SDP shall include the following content: scope, referenced documents, overview of required work, schedules and activity network, project organization and resources.

C.15.7 Software Test Plan (STP)
The contractor shall provide a Software Test Plan (STP) IAW CDRL C030 (STP) which provides details of the software test environment, test identification, test schedules, requirements traceability, and notes in advance of all tests at the contractor facility prior to delivery of JAB Chassis to the Government.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 109 of 201
----------------------------------	---	-------------------------------

Name of Offeror or Contractor:

C.15.8 Software Test Report
The contractor shall provide a Software Test Report (STR) IAW CDRL C031 (STR) which provides an overview of the test and detailed test results including successful and unsuccessful test events.

C.15.9 Software Release Notes
The contractor shall provide Software Release Notes IAW CDRL C032 (Software Release Notes) for each delivered software version which provides details of the following:

- a. Configuration Management (CM) released software version and drop number
- b. The third-party configuration items and Computer Software Configuration Item (CSCI) version numbers
- c. LRUs version numbers, description of the release, known problems and limitations with the release.
- d. Baseline version of the software, new functions and change requests, requirements definition document, system trouble report fixes, and enhancement issues. The contractor shall deliver a version description document for each new release of JAB Chassis software (excluding GFS) providing Computer System Configuration Item (CSCI) version information IAW CDRL C033 (Version Instructions).

C.15.10 Systems Integration Lab (SIL)
The contractor shall use a SIL to integrate and test the JAB Chassis electronics, LRUs, and Configuration Items (CIs) prior to full vehicle integration. This lab shall be used to test, improve, and re-test the hardware and software sub-components as well as the complete electrical/electronic architecture as interfaced together during the overall development. The SIL shall remain fully functional throughout the performance of the contract. Proposed corrective actions and ECPs shall be validated in the SIL prior to implementation on the vehicles. The SIL shall be kept current using the Change Management process defined in section C.6.8 for configuration changes in order to reflect the current state of the vehicles until the end of the contract.

C.15.11 Software Installation and Update
The contractor shall install up to date and approved software releases on each JAB Chassis during production and document on the Final Inspection Report (FIR) the version of software installed on each JAB Chassis as it was delivered. The contractor shall deliver to the Government CD-ROMs of each new release and installation and reinstallation procedures of JAB Chassis software. The contractor shall also develop and maintain procedures for uninstalling a new software version and reinstalling a previous version IAW CDRL C034 (Software Installation Updates).

C.15.12 Computer Software
For ECPs, the contractor shall deliver, IAW CDRL C035 (Component Computer Software) a copy of all JAB Unique Component computer software, including source code, developed by the contractor or any subcontractor. Computer software is defined in accordance DFARS 252.227-7014(a)(4).

C.15.13 Embedded Diagnostics Software Development
C.15.13.1 Scope of Work:

- 1. The Contractor shall develop fully functioning embedded diagnostics software as an integral part of the vehicle production project outlined in this contract.
- 2. The embedded diagnostics software shall encompass comprehensive diagnostic functionalities to facilitate efficient troubleshooting, maintenance, and performance monitoring of the vehicle systems.
- 3. The developed software shall adhere to industry standards and best practices for embedded systems and military vehicles diagnostics.

C.15.13.2 Deliverables:

- 1. The Contractor shall deliver fully functional embedded diagnostics software, along with all associated source code, documentation, and necessary files, as specified herein.
- 2. The source code shall be well-documented, organized, and commented to ensure readability, maintainability, and future modifications.
- 3. Alongside the source code, the Contractor shall provide all relevant configuration files, build scripts, libraries, and dependencies required for compilation, deployment, and integration with the vehicle's electronic control units (ECUs).
- 4. The Contractor shall deliver comprehensive user manuals, technical documentation, and guidelines for the integration, configuration, and utilization of the embedded diagnostics software by authorized personnel.

C.15.13.3 Functional Requirements:

- 1. The embedded diagnostics software shall encompass a wide range of diagnostic capabilities, including but not limited to:
- 2. Real-time monitoring of vehicle parameters and sensor data.
- 3. Detection and reporting of faults, errors, and malfunctions within the vehicle systems.
- 4. Diagnostic trouble code (DTC) retrieval, interpretation, and presentation in a user-friendly format.
- 5. Interactive diagnostic routines and tests to verify system functionality and identify root causes of issues.
- 6. The software shall support both passive and active diagnostic modes, allowing for continuous monitoring as well as on-

Name of Offeror or Contractor:

- demand diagnostic scans and tests.
7. It shall feature a robust error handling mechanism to ensure reliability and stability under various operating conditions and environmental factors.
8. The software interface shall be intuitive, ergonomic, and easily navigable, catering to the needs of technicians and service personnel.

C.15.13.4 Compliance and Standards:

1. The Contractor shall ensure that the embedded diagnostics software complies with all relevant industry standards, protocols, and regulations governing military vehicles diagnostics, including but not limited to ISO 14229 (Unified Diagnostic Services) and ISO 15765 (On-board Diagnostics).
2. Any third-party libraries, tools, or components utilized in the development of the software shall be duly licensed and compliant with applicable open-source or proprietary licenses.

C.15.13.5 Ownership and Intellectual Property:

1. The Contractor acknowledges that all intellectual property rights, including but not limited to copyrights, patents, and trade secrets, associated with the embedded diagnostics software developed under this contract shall belong exclusively to the Government.
2. Upon completion and acceptance of the deliverables, the Contractor shall transfer ownership of the source code, documentation, and related materials to the Government, granting the Government unrestricted usage rights for internal purposes and future enhancements.

C.15.13.6 Quality Assurance and Testing:

1. The Contractor shall conduct rigorous testing and validation procedures to ensure the reliability, accuracy, and performance of the embedded diagnostics software across various vehicle platforms and configurations.
2. Test cases shall be designed to simulate real-world scenarios and stress conditions, verifying the software's functionality, robustness, and compatibility with different hardware setups.
3. The Contractor shall rectify any defects, bugs, or deficiencies identified during testing promptly and shall provide ongoing support and maintenance as necessary to address post-deployment issues.

C.15.13.7 Confidentiality and Non-Disclosure:

1. The Contractor shall maintain strict confidentiality regarding all proprietary information, trade secrets, and sensitive data disclosed by the Government in connection with the embedded diagnostics software development.
2. Confidential information shall not be disclosed to any third party without prior written consent from the Government, and the Contractor shall implement appropriate security measures to safeguard such information against unauthorized access, disclosure, or misuse.

C.15.13.8 Acceptance Criteria:

1. The Government reserves the right to evaluate and accept or reject the embedded diagnostics software deliverables based on predefined acceptance criteria, which shall include compliance with functional requirements, performance benchmarks, and usability standards.
2. Acceptance testing shall be conducted in collaboration with the Contractor, and any discrepancies or deviations from the specified requirements shall be addressed through remedial actions or modifications as deemed necessary.

C.16 PACKAGING

C.16.1 Packaging Data Development

The contractor shall develop and provide packaging data for all newly provisioned Components identified during the provisioning process with a Source, Maintenance & Recoverability (SMR) code beginning with P excluding PR and PZ. Packaging data development priority shall be given to Long Lead Time Items (LLTI), repairable items, and any item classified as a Special Group Item. Packaging data shall be developed IAW MIL-STD-2073-1 and classified IAW C.16.2. Contractor shall provide facilities, equipment, materials, and each P-coded item for packaging development. The Contractor shall complete validation and provide support data with each data submittal. Validation support data shall include copies of any applicable Material Safety Data Sheets for Hazardous Material items. The packaging data generated shall reflect one increment of the provisioned Unit of Issue. For packaging data development purposes, the Quantity per Unit Pack (QUP) shall equal 001.

C.16.2 Item Classification

The contractor shall classify each provisioned P-coded item as a Selective group item or a Special group item IAW MIL-STD-2073-1D and paragraphs C.16.9.2.1 and C.16.9.2.2.

C.16.2.1 Selective group

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 111 of 201
--	---	---

Name of Offeror or Contractor:

Items classified as Selective group items shall not have a unit pack weight exceeding 40 pounds or a dimension greater than 40 inches. A Selective group item must not require disassembly for packaging. Reconfiguration for packaging of Selective group items is limited to folding or coiling. Items shall not be classified as Selective if they are repairable, recoverable, contain hazardous material, or if assigned a shelf life. Packaging data output for Selective group items shall be in the form of Logistic Product Data - Packaging (see C.16.9.3).

C.16.2.2 Special group

Items classified as Special group items often require sketches, figures, or narrative instructions to describe packaging requirements. Items excluded from the Selective group shall be classified as Special group items. This includes kits, sets and items of separate parts, items requiring disassembly, repairable items, items requiring special handling or condemnation procedures, items classified as hazardous material or hazardous goods in transport, , fragile, sensitive, critical items, and NMWR candidate items. Packaging data output for Special group items consists of Special Packaging Instructions (C.16.9.4) and Logistic Product Data - Packaging (C.16.9.3).

C.16.3 Logistic Product Data Packaging

The contractor shall develop Logistic Product Data for each Selective and Special group item. At the contractor request, the Government may provide a MS ACCESS application that provides data formatting and edit features for coding of packaging Logistic Product Data. The contractor shall develop, maintain and update packaging data IAW MIL-STD-2073-1, CDRL A031 (LPD Coded Data Products Packaging) Attachment 0050 (Packaging Data Products), and Attachment 0035 (Incoming Transaction Format).

C.16.4 Special Packaging Instructions (SPI) (Applies to contractor without testing approval at time of award and ECPs)

The contractor shall develop SPI for each item classified as a Special group item. Figures and narrative data shall be developed to describe the form, fit, and function of packaging in sufficient detail for production. SPI format shall be IAW MIL-STD-2073-1 and CDRL A032 (Special Packaging Instructions). The SPI for the Hydraulic Power Unit shall include preservation procedures and validation with coordination from TACOM-LCMC Packaging Office in Warren, MI. ATPD 2232, Engines: Preparation for Shipment and Storage, should be used as a guide.

C.16.5 Validation Testing of Packaging

The contractor shall conduct packaging validation testing for each item classified as a Special group item. Validation testing of Special group items shall be IAW ASTM D 4169 (Standard Practice for Performance Testing of Shipping Containers and Systems) Distribution Cycle 18, Assurance Level I, with Acceptance Criterion 3 (product is damage free and packaging is intact). Validation testing is limited to Handling and Loose Load Vibration Test Schedules. Replicate testing and climatic conditioning are not required. Each SPI submitted shall have a packaging test report with photographs showing the packaged item before and after testing as well as the undamaged item after testing. Packaging test reports shall be submitted concurrently with SPI submittal. The contractor shall provide a Packaging Test Report IAW CDRL A033 (Packaging Test Report).

C.17 STORAGE REQUIREMENTS

C.17.1 Storage

The contractor shall comply with Attachment 0052 (Storage Plan) and Attachment 0053 (DD254-JAB Security Classification Guide) for storage of GFP as identified in Attachment 0054 (Requisitioned Government Furnished Property) and JAB Chassis.

The contractor shall store up to 20 JAB Chassis for up to 90 days after conditional (if authorized) or final acceptance. If storage is necessary beyond 90 days or for more than 20 JAB Chassis, the Government may exercise additional storage and maintenance IAW B.4. Maintenance of systems shall be performed IAW Attachment 0055 (Storage Maintenance Requirements)

C.17.1.1 Accelerated Delivery

The contractor is permitted to accelerate the delivery of systems at no additional cost. Any additional care and storage costs resulting from an accelerated delivery shall be the contractor's responsibility. Storage IAW C.17.1 will begin following the contractual delivery date.

C.18 SUPPLY SUPPORT

C.18.1 The Government will deliver Government Furnished Property (GFP) described in Attachment 0054 (Requisitioned Government Property). The attachment provides clarification on those parts that the Government intends to provide as GFP for the duration of the contract.

C.18.1.1 GFP Availability. The contractor shall request GFP from ANAD on a per JAB Chassis basis and the Government will deliver all the requested GFP at ANAD within 90 days of the request. The contractor shall arrange for shipment of the materials to the contractor production facility and storage after delivery.

C.18.1.1.1 GFP/GFM Quantity, Condition, and Reports.

After Government delivery of GFP/GFM defined in Attachment 0054 (Requisitioned Government Property), the contractor shall inspect for damage and identify model and serial numbers. The contractor shall report all missing, damaged, destroyed, or non-standard components IAW CDRL A034 (GFP/GFM Discrepancies). For defective material, the COR may request the contractor to also submit DA Form 2404 to the PCO, COR, Q/A, and ANAD POC for resolution. The Contractor shall prepare a GFP/GFM Consumption Report IAW CDRL A035 (GFP/GFM Consumption Report).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 112 of 201 MOD/AMD
Name of Offeror or Contractor:		

For GFP/GFM furnished with the system as part of Attachment 0054 (Requisitioned Government Property), the contractor shall coordinate with ANAD to correct the deficiencies or have replacement parts provided. The contractor shall document any issues identified IAW CDRL A034 (GFP/GFM Discrepancies). Such action shall not remove the Governments liability and responsibility of the damaged GFP/GFM IAW FAR Clause 52.245-1. The contractor is not required to await PCO disposition instructions IAW FAR Clause 52.245-1.

C.18.1.1.2 GFP IPT
The contractor shall establish a GFP Integrated Planning Team with the US Government personnel at the Start of Work Meeting. The purpose of this team will be to coordinate the transition of GFP from the Government to the contractor, resolve any supply issues related to GFP, and to ensure adequate supply availability of GFP for JAB Chassis production. Once established, the IPT shall meet every two weeks for the first contract year and monthly for the remaining contract years. The contractor shall prepare and submit Meeting Agendas and Meeting Minutes IAW CDRL A002 (Conference Agenda) and A003 (Meeting Minutes).

C.18.2 Government Furnished Information (GFI). The Government will furnish related data and information needed for the intended use of the material, Attachment 0049 (GFI List). As noted, all GFI shall be returned to the Government at the conclusion of the contract period of performance. The contractor shall abide by all document distribution and control markings and instructions. GFI is defined as technical information or data furnished to the contractor by the Government.

C.19 TESTING (Applies to contractor without testing approval at time of award)

C.19.1 Test Readiness

C.19.1.1 Pre-Test Readiness Review (TRR)
The contractor shall conduct a Pre-TRR at the contractor production facility with Government attendance no later than 30 days before delivery of the first LRIP JAB Chassis. The purpose of the Pre-TRR is to provide the Government validation that the test requirements can be performed within the stated schedule in Attachment 0015, (IMS) and provide supporting information as detailed in Attachment 0056 (Pre-TRR Entry and Exit Criteria).

C.19.1.2 TRR
The contractor shall attend, participate, and provide supporting information related to Attachment 0056 (Pre-TRR Entry and Exit criteria) for the Government conducted, one-day TRR at Aberdeen Proving Grounds, MD, to be held no more than 30 days after delivery of the first LRIP JAB Chassis. The purpose of the TRR is to verify that all required resources and plans are ready so that the Government can commence test activities.

C.19.1.3 Production Readiness Review (PRR)
The contractor shall conduct two PRRs at its production facility with Government attendance to determine if the design is ready for production and if the contractor and subcontractors have accomplished production planning without incurring unacceptable residual risks that negatively impact schedule, performance, supportability, or cost. The PRRs shall be conducted, first is in conjunction with CDR, second is no later than 60 days after the end of testing IAW Attachment 0056 (Pre-TRR Entry and Exit Criteria). The contractor shall deliver PRR documentation as specified by Attachment 0056 (Pre-TRR Entry and Exit Criteria).

C.19.2 Test Support Requirements / System Support Package (SSP)
The contractor shall assemble, furnish and ship (to include packing, packaging, and transportation) the SSP to the test site upon delivery of the first test vehicle to Aberdeen Proving Grounds (APG) or signature of the DD250 for the first JAB Chassis, whichever is earlier.

The contractor shall be responsible for controlling the on-site SSP during all testing events. The contractor shall replenish the SSP, as needed, throughout the duration of the contract to ensure test continuity. Should any testing event be interrupted because a particular support item is unavailable or the SSP is deficient, the contractor shall resupply or remedy the deficiencies within forty-eight (48) hours of usage to ensure test continuity.

C.19.3 Contractor Test Support
In order to qualify a new production line for the JAB Chassis, the Government will perform the subtests identified below. The contractor shall provide two Technical Subject Matter Expert (SME) qualified to troubleshoot any issues at the test site and conduct repairs as necessary, anticipated to be a single test site for the duration of the testing events. Testing is anticipated to be a total combined 180 days in duration but may be more or less. The contractor shall ensure the proper amount of personnel are available to support the Government tests. The contractor shall be responsible for any retesting. The Government will provide FSRs for the M1A1 chassis and HASB. The Government will provide secure storage facilities for contractor SSP at the test sites.

C.19.3.1 Subtests to be conducted

C.19.3.1.1 Initial Inspection
The Government will inspect the JAB Chassis to determine whether the test items are complete, undamaged, and ready for testing.

C.19.3.1.2 Physical Characteristics and Ground Clearance

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page113 of 201
--	---	--

Name of Offeror or Contractor:

The Government will test the JAB Chassis to determine whether the system meets the Attachment 0002 (ATPD-2402) requirements for physical, weight, and ground clearance.

C.19.3.1.3 Road Shock and Vibration

The Government will test the JAB System to determine whether the system meets the requirements for ride quality, and whether critical components are able to withstand the effects of vibration without incurring damage or performance degradation.

C.19.3.1.4 Blowing Rain

The Government will test the JAB Chassis to determine whether the system can withstand the effects of blowing rain without incurring damage or performance degradation, and without requiring enhanced preparation or installation of special kids or equipment.

C.19.3.1.5 Blowing Sand and Dust

The Government will test the JAB Chassis to determine whether the system can withstand the effects of blowing sand and dust without incurring damage or performance degradation, and without requiring enhanced preparation or installation of special kids or equipment.

C.19.3.1.6 System Performance

The Government will test the JAB System to determine whether the performance characteristics of the system meet the Attachment 0002 (ATPD-2402) requirements IAW.

C.19.3.1.7 Reliability and Maintainability (R&M)

The Government will test the JAB System to determine whether the system is able to meet the Attachment 0002 (ATPD-2402) requirements.

C.19.3.1.8 Final Inspection

The Government will inspect and test the JAB Chassis to determine the test items are fully operational and in good condition upon completion of testing.

C.19.4 TEST DEFICIENCIES

C.19.4.1 Failure Analysis and Corrective Action Reporting System (FACARs)

The contractor shall be responsible for accessing the Artmys Information Management and Software Support (IMSS) database at Aberdeen Test Center (ATC) to obtain the Test Incident Reports (TIRs) generated on the JAB Chassis during the Government tests. TIRs are the means by which data collected during Government testing will be reported. Information on access to IMSS, and points of contact at ATC are available on the web at: <https://imss-portal.atc.army.mil/>. The contractor shall apply for access to the IMSS database for the corrective action reporting via the website. The contractor's date of receipt of the TIR shall be defined as the day the TIR is posted to the database. Upon acquiring a TIR, the contractor shall assess the failure and shall deliver a Failure Analysis and Corrective Action Report (FACAR) IAW CDRL D002 (FACAR) with the proposed corrective action to prevent or minimize the probability of incident recurrence. The contractor shall upload the FACAR to IMSS. In addition, the contractor shall upload any supporting documentation (photos, analysis, diagrams, etc.) for the FACAR to a corresponding folder in IMSS. The FACAR review board will review the corrective action and approve or reject the FACAR. If a FACAR is rejected, the contractor shall modify and re-submit the FACAR for final approval. Upon approval of the FACAR the contractor shall implement the repairs or changes required to correct the fault.

C.19.4.1.1 FACARs are not required for TIRs that are charged to the following (in data block 43): Crew, Maintenance Personnel, or Government Furnished Equipment, unless failure is attributed to JAB component integration.

C.19.4.2 TIR Closeout and FACAR Review Meetings

During and after Government testing, the Government will schedule TIR closeout meetings bi-weekly to review the functional/performance failure data and corrective action status of TIRs which require a contractor response. Meetings will be held primarily via teleconference or, if necessary, at the Governments facility in Warren, MI or APG. The contractor shall present information, evidence, or opinions that the Government may consider when assessing corrective actions.

C.19.4.2.1 Scoring Conference

During and after Government testing, the Government will hold Scoring Conferences and unilaterally score Test Incident Reports (TIRs). The contractor shall support Government Scoring Conference and Assessment meetings by providing information, evidence, or opinions that the Government will consider when scoring the TIRs. The contractor will not attend the meetings for actual scoring of the TIRs.

C.19.4.2.2 Assessment Conference

After the Scoring Conference is complete, the Government will conduct a final Assessment Conference to review all corrective actions. The contractor shall prepare and present all information on the corrective actions resulting from TIRs to support the assessment conference. The contractor shall not participate in the Government only portion of the Assessment Conference.

C.19.4.3 Retest

In the event of a JAB System test defect/failure, the Government reserves the right to retest the JAB System IAW FAR 52.209-4. The contractor shall be responsible for delays, including payment for all costs associated with retest, required hardware/components and test support (C.19.4) resulting from all JAB System (as defined under C.1.1) defects/failures except those referenced in C.19.4.3.1.1. As a result, the Government shall have the right to extend the specified program test period accordingly.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 114 of 201 MOD/AMD
Name of Offeror or Contractor:		

- C.20 TRANSPORTABILITY (Applies to contractor without testing approval at time of award)
The contractor shall conduct a transportability analysis to ensure the transportability requirements of Attachment 0001 (TDP), and Attachment 0002 (ATPD-2402) are satisfied and deliver IAW CDRL D003 (Transportability Report). If, after Government acceptance, configuration changes are made which impact the data contained in this report, the contractor shall provide change pages for insertion in the report.
- C.21 INTEGRATED PRODUCT SUPPORT (IPS) (Applies to contractor without testing approval at time of award)
- C.21.1 Supportability Planning
The contractor shall conduct the supportability planning on JAB unique components. The contractor shall assess the supportability of all JAB unique components against the 12 integrated product support elements (Product Support Management; Design Interface; Sustaining Engineering; Supply Support; Maintenance Planning & Management; Packaging, Handling, Storage and Transportation; Technical Data; Support Equipment; Training and Training Support; Manpower and Personnel; Facilities and Infrastructure; and Computer Resources Support) as described in the following references:
- a) Integrated Product Support Procedures, Department of Army Pamphlet (DA PAM) 700-127
 - b) DoD Logistics Assessment Guidebook
 - c) Integrated Product Support, Army Regulation AR 700-127
 - d) Defense Acquisition University (DAU) Integrated Product Support Element Guidebook
 - e) Unified Facilities Criteria (UFC) 4-214-02 Army Tactical Equipment Maintenance Facilities
 - f) UFC 4-214-03, Design: Central Vehicle Wash Facilities
 - g) Engineer Regulation (ER) 1110-3-113, Department of the Army Facilities Standardization Program
 - h) Type Classification, Materiel Release, Fielding, and Transfer, AR 700-142
 - i. Instructions for Materiel Release, Fielding, and Transfer, DA PAM 700-142
- C.22 ITEM UNIQUE IDENTIFICATION (IUID) MARKING REQUIREMENT (Applies to contractor without testing approval at time of award)
- C.22.1 In accordance with DFARS clause 252.211-7003, Item Unique Identification and Valuation, the contractor shall conduct Item Unique Identification planning. The criteria to identify material for IUID is stipulated in Army Regulation 710-3, DFARS 211.274-2, Policy for Item Unique Identification, and Army Regulation 700-145. MIL-STD 130N w/Change 1 is the technical document for Item Unique Identification.
- C.22.2 IUID Marking Plan: The Contractor shall submit an IUID Marking Plan to include a picture of the proposed data plate for the JAB Chassis, specify the marking methodology, the validation and verification process, and identify where the data plate with IUID tag will be located IAW CDRL D004 (Item Unique Identification (IUID) Marking Plan).
- C.22.3 Proof Data Plate with IUID for End Items: The Contractor shall use MIL-STD-130N w/Change 1 requirements and Department of Defense Guide to Uniquely Identifying Items Assuring Valuation, Accountability and Control of Government Property Version 3.0 when developing the JAB Chassis data plate, label, or Direct Part Marked (DPM) using chem-etch, ink or laser IUID Marking technologies. The JAB Chassis data plate shall include the following required data entries for PEO/TACOM and delivered IAW CDRL D005 (Technical ReportStudy/Services).
- a. Nomenclature
 - b. National Stock Number (NSN)
 - c. Design Activity: (MFR Enterprise Identifier (EID) CAGE Code)
 - d. Government Ownership Designation: U.S. Government Property
 - e. Contract Number
 - f. Error Correction Code (ECC) 200 Compliant 2-Dimensional (2-D) Data Matrix
 - g. Encoded UII
 - h. Material Original Part Number
 - i. Manufacturer Serial Number
 - j. Contractor Free Text, as applicable
 - k. Human-readable interpretation. Human-readable information provided adjacent to a machine-readable medium representing the encoded data within the medium.
- C.22.4 Data Plates for Subassemblies, Components, or Other Parts: The Contractor shall mark all IUID Marking Plan candidates described in DFARS clause 252.211-7003, Item Unique Identification and Valuation, with the IUID prior to delivery to the Government. The Contractor shall use MIL-STD-130N w/Change 1 as a guide when developing the IUID marking for subassembly, components, or parts. The child End Item 2D matrix mark shall contain human and machine-readable markings, as defined in MIL-STD-130N w/Change 1 and ISO/IEC 15415. If the item has a data plate, the IUID marking must be embedded on the data plate. The data plate shall include the following data entries for PEO/TACOM:
- a. Nomenclature
 - b. National Stock Number (NSN)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 115 of 201
--------------------	--	-----------------

Name of Offeror or Contractor:

- c. Design Activity: (MFR Enterprise Identifier (EID) CAGE Code)
- d. Government Ownership Designation: U.S. Government Property
- e. Contract Number
- f. Error Correction Code (ECC) 200 Compliant 2-Dimensional (2-D) Data Matrix
- g. Encoded UII
- h. Material Original Part Number
- i. Manufacturer Serial Number
- j. Contractor Free Text, as applicable
- k. Human-readable interpretation. Human-readable information provided adjacent to a machine-readable medium representing the encoded data within the medium.

C.22.5 IUID Construct and Method: The JAB Chassis IUID marking shall be embedded on the system data plate, label, or Direct Part Marked (DPM) using chem-etch, ink, or laser IUID marking technologies. The JAB Chassis data plate, label, chem-etch, ink, or laser applied 2-D Data Matrix encoded Unique Item Identifier (UII) shall be Construct 2, Format Indicator 06, including Data Identifiers <17V> + <1P> + <S>. The 2-D Data Matrix marking shall be no less than 1 centimeter (cm) wide and no less than the quality grade contrast defined in MIL-STD-130N w/Change 1.

C.22.6 Data Plate with IUID Location and Marking: The Contractor shall place the JAB Chassis data plate with IUID in an easily accessible location and bear no impact on the performance of the part and require minimal configuration change to the part. The Contractor shall avoid applying IUID markings on curved or rounded surfaces. The 2-D Data Matrix shall be permanently affixed and have the ability to withstand and perform within the same environmental conditions as the JAB Chassis performance specifications. The Contractor shall document the location and marking method on the engineering technical documentation (drawings/models and associated lists). The Contractor Quality Assurance/Control Technician shall inspect, document, and visually verify that all required IUID marking elements have been complied with prior to acceptance by the Government.

C.22.7 Item Unique Identification (IUID) Marking Activity, Validation and Verification Report including Raw Scan: The Contractor shall develop the Validation and Verification Report to include the raw scan of all UIIs created under this contract IAW CDRL D006 (Item Unique Identification (IUID) Marking Activity, Validation and Verification Report). The report shall contain the following data elements:

- a. Unique Item Identifier (UII) (derived) (para 4.1 in DI-MGMT81804A)
- b. UII Type (Construct) (para 4.2)
- c. Enterprise Identifier (EID) (para 4.3)
- d. EID Type (CAGE/NCAGE, DUNS, etc.) 4.4
- e. Original Equipment Manufacturer (OEM) Part Number 4.5
- f. Service Assigned Serial Number (if assigned) 4.6
- g. Manufacturer Serial Number 4.7
- h. Equipment Nomenclature (name and type) 4.8
- i. National Stock Number 4.9
- j. Validation Date 4.10
- k. Validation Result (Pass/Fail) 4.11
- l. Verification Date 4.12
- m. Verification Result (Pass/Fail) 4.13
- n. IUID 2-D Data Matrix Raw Scan (under other Event/Activity Date) (para 4.14)
- o. Parent (major end item) Unique Item Identifier, Column A of Excel Template (under other Event/Activity) (para 4.15)

C.22.8 IUID Registration: The Contractor shall use Wide Area WorkFlow (WAWF) to register all new Unique Item Identifiers created under this contract IAW DFARS Clause 252.211-7003. WAWF is located within the Procurement Integrated Enterprise Environment (PIEE) at the following URL: <https://piee.eb.mil>. During the creation of the IUID Record, the contractor shall enter the Pedigree Data, Acquisition Data, National Stock Number, and Mark Data with any relevant information pertaining to this acquisition. The Contractor shall accurately record configuration of the item parent and child relationships in the DoD IUID Registry. At time of acceptance, the UII flows into the IUID Registry. The Contractor shall verify IUID records entered into the DoD IUID Registry are 100% accurate. The data elements entered into WAWF, must match the exact data elements that were used to create the UII and are encoded in the 2-D Matrix. The Val/Ver Report can provide this information.

C.22.9. Replacement Data Plates: The Contractor shall replace non-compliant data plates within 7 days if they are found to be non-compliant during fielding. Non-compliant is identified as the 2-D matrix not passing validation / verification. This applies to data plates made or acquired by the Contractor during the production and/or repair of equipment under this contract. Once all equipment is fielded, the equipment is properly accounted for on the Units property book, and all 2-D Matrices scanned are MIL-STD 130 compliant and match the equipment, the Contractors responsibility will end.

C.22.10 Process Quality: IUID Quality Assurance (QA). The goal of IUID quality assurance is the repeated delivery of Data Matrix marks and UII data that is MIL-STD 130N w/Change 1 compliant in all ways with U.S. Government requirements as addressed in this contract. IUID Quality Assurance (QA) is three-fold in nature, consisting of: 1) process quality, 2) physical marking quality, and 3) data quality.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 116 of 201 MOD/AMD
---------------------------	--	--

Name of Offeror or Contractor:

C.22.10.1 Process Quality: The Contractor shall confirm it has an acceptable process IAW agreed to Quality Control Plan, including measurements and criteria for quality, that will be implemented and adhered to meet the U.S. Government's IUID Requirements. The contractor shall make records available for review upon Government request.

C.22.10.2 Physical Marking Quality: The Contractor shall ensure all 2-D Matrices created under this contract can pass validation and verification resulting in MIL-STD-130N Identification Marking of U.S. Military Property compliance.

C.23 Retrofit Support

C.23.1 Retrofit support provides for service support to update, modify, or install ECP kits for BLM unique components associated with the JAB chassis.

C.23.2 Work Directives: All specific Statements of Work for the STS services will be initiated under Work Directive (WD). For purposes of application of the Order of Precedence Clause (FAR 52.215-8), WDs shall be considered Government instructions under the contract.

C.23.2.1 Task Order Directive Specifics

All WDs shall include the following:

- Referenced CLIN
- WD Type (LOE or Completion)
- Location
- Period of Performance
- Specific work to be performed or completed
- Specific ECPs to be installed (if applicable)
- Hours exercised under a specific CLIN/SLIN
- Total breakdown of hours, estimated cost, total fee and CPFF

C.23.3 Retrofit Management: The contractor, as an independent contractor and not an agent of the USG, shall furnish all the labor, services, personnel, travel, equipment, property management, data management, and materials required to accomplish the work efforts as set forth in the TO. All requests for deviation from the requirements or performance standards shall be submitted by the contractor to the Contracting Officer prior to execution by the contractor.

C.23.4 Retrofit Support Detail: The contract shall provide requisite personnel to update, modify, or install ECP kits hardware for BLM unique components associated with the JAB.

C.23.5 OCONUS Retrofit Support: The Government will provide a forty-five-calendar day notice for any FSR support requested. The contractor shall ensure any applicable mandatory country specific clearances and training are completed prior to the commencement of performance. The contractor shall promptly initiate OCONUS FSR support processing within three working days from receipt of the COR request. The contractor shall inform the COR of the dates started and completed for all OCONUS processing steps. All FSR support shall be IAW the individual TO and associated WD for each customer.

C.24 JAB CYBERSECURITY STRATEGY

The contractor shall develop and implement a Cybersecurity Strategy and deliver IAW CDRL A036 (JAB Cybersecurity Strategy) that addresses the contractors Software Development, Software Assurance, Hardware Validation, Supply Chain Risk Management, Testing (Architecture and Configuration), Vulnerability Management, Patch Management, Release Management and Configuration Management efforts for the JAB System. This strategy will be used to validate the systems cybersecurity posture throughout contract period of performance.

The contractor shall provide a copy of their Cybersecurity Strategy IAW CDRL A036 (JAB Cybersecurity Strategy) which will be incorporated into the program's Cybersecurity Strategy. The contractor shall execute the Cybersecurity Strategy which includes: analyzing system security requirements derived from the requirements of this contract; designing a system and the security architecture; developing detailed system security design; developing security test strategy; and developing a report that outlines the system risk for the proposed architecture IAW CDRL A037 (System Security Design and Risk Assessment), System Security Design and Risk Assessment. The contractor shall support Information Assurance (IA)/cyber certification and accreditation of the system by providing Cybersecurity Accreditation Artifacts Package IAW CDRL A038 (Cybersecurity Accreditations). This information shall be available to the Government and discussed at IPT meetings and technical reviews.

The contractor shall comply with the latest version, as of the time of solicitation, of Army and DoD Information Assurance / Cybersecurity policies to include Army Regulation 25-2, Information Assurance (IA), associated Best Business Practices, Security Technical Implementation Guides, Department of Defense (DoD) policy to include DoD Instruction (DoDI) 8500.01 Cybersecurity, National Institute of Standards and Technology (NIST) standards, including Federal Information Processing Standards (FIPS) publications. The contractor shall provide the IA documentation needed for accreditation as outlined in DODI 8510.01 and conform to IA controls outlined in NIST SP 800-53 Rev 4, Recommended Security Controls for Federal Information Systems and Organizations. The contractor shall conform to DoDI 8551.1, Ports, Protocols and Services (PPS) Management (PPSM). In addition to, the contractor shall list all PPS being used in JAB System software and associate those PPS to the modules and functions where they are used IAW CDRL A038 (Cybersecurity

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page117 of 201
Name of Offeror or Contractor:		

Accreditations).

The contractor shall demonstrate how software quality will be assured during the Software Life Cycle. The contractor will document the means (documented tools, techniques, processes, measures, and any other factors) to ensure software quality, security, reliability and maintainability attributes. The contractor shall also document plans on how it will meet government and industry requirements and guidance such as DoDI 8510.01 RMF, NIST SP 800-53 Control SA-11, and the Defense Information Systems Agency (DISA) Application Security and Development Security Technical Implementation Guide, Version 4. The contractor shall tailor in software assurance controls to include all SA-11 enhancements.

The contractor shall document how they address areas such as configuration management, security, maintainability, and Licensing/Intellectual Property (IP) for any COTS and Open Source are included in the software deliverables.

The contractor will support government software quality assessments. The contractor will provide software, source code, and related documentation to the government (including the governments support contractors) to support an independent review of the contractors software in areas such as error detection, memory leaks, performance tuning, test coverage, and possibly other areas as well. The government will decide if and when to conduct such a review and if multiple reviews are desirable. Results of the governments review of the software and/or artifacts are actionable to the contractor.

C.24.1 Cybersecurity Risk Assessments

The contractor shall evaluate the systems security posture, both physical and logical, identifying weaknesses and potential exposures, and providing countermeasures and controls available to mitigate risk. This assessment shall be conducted and reported IAW the NIST 800-30 framework using the Common Vulnerabilities and Exposures (CVE) dictionary identifiers, and shall identify assets that need additional security, protection, or have vulnerabilities. The contractor shall also evaluate the security of the JAB against the Common Attack Pattern Enumeration and Classification (CAPEC) catalog of common attack patterns and identify assets that need additional security protection against these common attack patterns. The contractor shall develop a set of recommendations to eliminate or mitigate those threats and submit it to the Government per CDRL A037 (System Security Design and Risk Assessment). This information shall be made available to the Government and discussed at IPT meetings and technical reviews.

C.24.2 Cybersecurity Accreditation Artifact Package

The contractor shall provide a Cybersecurity Accreditation Artifact Package IAW CDRL A038 (Cybersecurity Accreditations). The information used to create CDRL A038 (Cybersecurity Accreditations) shall be available to the Government and discussed at IPT meetings and technical reviews. The contractor shall provide the following security related documents as part of the Artifact Package:

- a) Systems Security Plan provides an overview of the security requirements of the system and describe the controls in place or planned for meeting those requirements. Also, delineates responsibilities and expected behavior of all individuals who access the system.
- b) Evidence of applied Best Business Practices (BBPs) and Security Technical Implementation Guides (STIGs) as applicable based on architecture and software.
- c) Data Flow Diagram
- d) Architecture (topology) Diagram
- e) Hardware and Software List (included vendors, versions)
- f) Ports Protocols and Services List and how each PPS impacts the function of the system
- g) System backup and restoration procedures
- h) Account management procedures
- i) Roles based access permission description
- j) Products undergoing cryptographic certification, status and evaluating organization
- k) Products undergoing IA and IA enabled product certification, status and evaluating organization
- l) Other artifacts as needed to meet risk management framework documentation requirements

C.24.3 Cybersecurity and Software Scans

C.24.3.1 The contractor shall provide the Government access to the software source code repositories for all JAB software (excluding closed source COTS and unmodified GFS) for Software Code Scans. The contractor shall allow the Government to conduct software assurance scans on the contractor's software to determine if there are any vulnerabilities in the system software code. The contractor shall resolve any vulnerabilities discovered in CAT I or CAT II critical functions as defined in the DISA Application Security and Development STIG as a result of the baseline software analysis and Government scans. Mitigation information, as delivered IAW CDRL A037 (System Security Design and Risk Assessment), shall be discussed at IPT meetings. The contractor shall ensure each source code repository can accept the Government's Hewlett Packard (HP) Fortify 360 Suite Static Code Analyzer scanning software tool.

C.24.3.2 The contractor shall conduct Cybersecurity vulnerability scans on the JAB System architecture utilizing an approved Security Content Automation Protocol (SCAP) scanner to determine if there are any vulnerabilities or nonconformance to the STIGs in the system.

The contractor shall provide the Government a report of the Cybersecurity Vulnerability Scans completed on the JAB System IAW CDRL A039 (Cybersecurity Vulnerability Scanning Report). The contractor shall conduct an Initial Baseline Cybersecurity Scan to be completed 90 days after CDR. A second scan will be conducted at TRR on final configuration managed software build that has gone through a pre-

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 118 of 201
---	---	---

Name of Offeror or Contractor:

software qualification test by the contractor. The report shall address root cause determination, corrective action development and implementation, process control improvement, and scan results. Scan schedule and plans (and results, when available), shall be available to the Government and discussed at IPT meetings and at technical reviews.

C.24.4 Cybersecurity Testing

Contractor Cybersecurity personnel shall attend Government Cybersecurity readiness (Red Team) testing execution. The contractor shall provide security information and answer any questions prior to and during Red Team analysis. Cybersecurity readiness testing will be conducted during Operational Test events.

C.24.5 Cybersecurity Vulnerability Management

The contractor shall establish an Information Assurance Vulnerability Management (IAVM) Program that is consistent with the DoD guidelines specified in C.24 for patch application. The contractor shall monitor Government, vendor, and industry releases by subscribing to vulnerability notification services and reviewing other data available to identify vulnerabilities in software and hardware used in the JAB Systems. The contractor shall subscribe to the Government email notifications from the Information Assurance Vulnerability Management notification system, currently hosted at <https://iavm.csd.disa.mil/>. The contractor shall ensure all applicable software patches are blocked in a release. Each release shall have the most current Information Assurance Vulnerability Alert (IAVA) release. The blocking window for applying any applicable IAVA is every six months. The contractor shall provide installation software and instruction for Government installation of these applicable security patches to previously delivered JAB Chassis IAW CDRL A040 (Cybersecurity Vulnerability Installation Instructions). If a patch to an applicable IAVA cannot be applied, the contractor shall document the risk assessment and justification and deliver IAW CDRL A037 (System Security Design and Risk Assessment).

C.25 SECURITY REQUIREMENTS

The Contractor shall reference AR 25-2, AR 380-67, DoD 5200.2-R and Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12. All Contractors and consultants that access government owned or operated automated information systems, networks, or databases and to safeguard controlled unclassified information shall have a favorable background investigation as required above references positions designated as IT-I, IT-II or IT-III to perform functions stipulated in contract scope of work. The minimum investigative requirements are as follows: IT-I (Privileged Access) = Single Scope Background Investigation (SSBI); IT-II (Limited Privileged Access) = National Agency Check with Law and Credit Check (NACLC); IT-III (Non-Privileged Access) = National Agency Check with Inquiries (NACI). An investigation in-process is acceptable if the 7th Signal Command Designated Approval Authority (DAA) has granted an IT Waiver. Investigations will be coordinated with the G2, TACOM LCMC (AMSTA-CSS / 586-282- 6262) and investigations will be through the Personnel Security Investigations Portal Center of Excellence (PSIP COE). All personnel shall receive and certify to an Information Systems Security Briefing.

C.26 ANTI-TERORRISM, OPERATIONAL SECURITY AND INFORMATION AWARENESS & SECURITY

C.26.1 THREAT AWARENESS AND REPORTING PROGRAM (TARP). All contractor employees with security clearances working on any Army contract must receive annual TARP training by a Counter Intelligence (CI) agent, or other authorized designated training method, per Army Regulation 381-12, para. 2-4b, Threat Awareness and Reporting Program (TARP). The in-person training is the preferred method and is available by contacting the local CI Office to arrange for the conduct of training. The Contractor shall contact the CI Office within (30) days of contract award to schedule TARP training. Once training is complete Contractor shall provide certificates/proof of completion of training to the Contracting Officer's Representative (COR), if assigned to the contract, or to the Procurement Contracting Officer (PCO) within (10) days of completion. The Contractor shall contact the CI Office to schedule training for any new employee whose performance commences after award, and who did not attend the initial TARP training session. Upon completion of the TARP training, certification/proof of completion shall be provided as required in paragraph b. above. In special circumstances (on deployments or in remote locations) when in-person training is not available, TARP computer-based training (CBT), which has been approved by Deputy Chief of Staff (DCS), G-2, is the only authorized online training method permitted.

This alternate CBT training is only authorized in special circumstances with written approval obtained from the PCO. Upon receipt of the necessary written approval, contractor employees possessing an Army Knowledge Online (AKO) account and password or a Common Access Card can register and complete the online TARP training course by utilizing the Army Learning Management System (ALMS) at: www.lms.army.mil

C.26.2 ARMY INFORMATION SYSTEM (IS) SECURITY REQUIREMENT CONTRACTOR INVESTIGATION/CLEARANCE. Reference AR25-2, AR 380-67, DoD 5200.2-R and Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12 (31 Jul 2008). All contractors and consultants that access government owned or operated automated information systems, networks, or databases and to safeguard controlled unclassified information shall have a favorable background investigation as required above references positions designated as IT-I, IT-II or IT-III to perform functions stipulated in contract scope of work. The minimum investigative requirements are as follows: IT-I (Privileged Access) = Single Scope Background Investigation (SSBI); IT-II (Limited Privileged Access) = National Agency Check with Law and Credit Check (NACLC); IT-III (Non-Privileged Access) = National Agency Check with Inquiries (NACI). An investigation in-process is acceptable if the 7th Signal Command Designated Approval Authority (DAA) has granted an IT Waiver. Investigations will be coordinated with the G2, TACOM LCMC (AMSTA-CSS / 586-282-6262) and investigations will be through the Personnel Security Investigations Portal Center of Excellence (PSIP 7 COE). Non-U.S. citizens shall be Permanent Resident Aliens with requisite investigation. All personnel shall receive and certify to an Information Systems Security Briefing.

C.26.3 ANTI-TERRORISM (AT) AWARENESS TRAINING REQUIREMENT FOR CONTRACTOR PERSONNEL TRAVELING OVERSEAS. Contractor employees and

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 119 of 201
---	--	---

Name of Offeror or Contractor:

associated subcontractor employees shall receive government provided Anti-Terrorism (AT) awareness training specific to the area of responsibility (AOR) as directed by AR 525-13. Specific AOR training content is to be directed by the combatant commander, with the unit Anti-Terrorism Officer (ATO) being the local point of contact.

C.26.4 ACCESS TO THE DETROIT ARSENAL; IDENTIFYING CONTRACTOR EMPLOYEES; NON-DISCLOSURE STATEMENT

(a) **APPLICABILITY.** This requirement is only applicable to contractor employees working at, or visiting, Detroit Arsenal. The term contractor employee includes employees, agents, or representatives and all employees, agents, or representatives and all employees, agents or representatives of all subcontractors, suppliers and consultants.

(1) DETROIT ARSENAL ACCESS.

The Detroit Arsenal is a designated Controlled Restricted Area. All personnel must have an official purpose to enter the installation and must establish their identify with an acceptable credential (identity card). All personnel with a DoD Common Access Card (CAC) or other DoD Uniformed Services Identification Card (USID) are deemed to have an inherent official purpose during official duty hours. Such personnel must still be identity vetted (matching CAC to person presenting) and verification of purpose of visit. All non-CAC/USID holder contractors must be sponsored by a government employee (civilian or military). The government employee sponsor must submit a Visitor Notification/Temporary Security Identification Badge Application (Garrison STA Form 17) to the installation Visitor Control Center (VCC) prior to accessing the installation. Prior to granting unescorted installation access to non-CAC/USID contractors, a check of records must be conducted through the National Crime Information Center (NCIC) Interstate Identification Index (III). This is the Army minimum baseline background check to for all contractors. This suitability screening through NCIC-III has been approved by the U.S. DOJ for vetting visitors to ensure the security of military installations. At the discretion of the Senior Commander, U.S. Army Garrison Detroit Arsenal, any individual known to have a criminal background involving violence or meets the disqualifying standards in the Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12 (31 Jul 2008), may be denied access to the Detroit Arsenal. Fingerprinting of employees and any other security procedures deemed necessary for the security of Detroit Arsenal (vehicle searches or x-raying packages, bags, briefcases) may be required based on the Force Protection Condition level at the time of access and whether the installation or building location is identified as a Restricted Area or Mission Essential Vulnerable Area (MEVA).

(2) BADGES/PASSES.

(a) Contractor employees entering the Detroit Arsenal are responsible for obtaining approval to access Detroit Arsenal, either by provided a DoD CAC or being issued a Temporary Security Identification Badge, and then returning the Temporary Security Identification Badge. These temporary badges are valid only for the date spans indicated, by the government, on each badge application form (STA Form 17).

(i) **Obtaining Badges.** Government sponsor must prepare and submit a properly completed Garrison STA Form 17 to the Detroit Arsenal VCC not less than 96 hours prior to scheduled visit. Contractor requests must include a copy of the first page of the current contract showing the period of performance.

(ii) **Returning Badges.** The government sponsor is responsible to ensure the security identification badge is returned to the Visitor Control Center, Bldg 232, upon expiration or termination of the contract relationship with the contract employee. Failure to comply with the requirements in this paragraph may be grounds for withholding any funds due the contractor until completion of the requirement, notwithstanding any other clause or requirements in the contract. Failure to comply may also be taken into account by the government in evaluating the contractors past performance on future acquisitions. Badge Guidance.

(b) When issued, the security identification badge must be displayed while on the installation. Badges are to be displayed on the front of the outer garment between the shoulder and the waist. Anyone may challenge another individual if the badge is not visible. Uncooperative personnel will be reported to their supervisory/management personnel or the Arsenal Police Department. Escorts will ensure un-badged personnel remain under their control (direct observation) at all times. Security badges are sensitive government property and must be properly safeguarded and accounted for at all times. Badges will be secured from public view when off post and will not be left in privately owned or contractor vehicles unattended. Stolen or lost badges will be promptly reported to DES, USAG Detroit. A replacement security badge will not be issued until the police report is processed.

(c) The security identification badge or pass issued to contractor employee(s) is for their own use only. Misuse of badge or pass, such as permitting others to use it can result in criminal charges under Title 18 USC 499 and 701 and barring the employee from the Detroit Arsenal property.

(d) If the contractor obtains a new or follow-on contract that again requires physical access to the Detroit Arsenal property, he shall obtain new badges for his employees, indicating the new or follow-on contract number. The security policies described in this clause apply to any contractor employee on base in connection with any contract with TACOM Detroit Arsenal.

(3) MEETING ATTENDANCE. Any contractor employee attending meetings with Government employees within or outside the Detroit Arsenal boundaries, shall, at the beginning of the meeting, announce that he/she is a contractor employee. He/she must state the Contractor's name and address, and state the name of all other companies or persons that (a) currently employ him, or (b) that he currently represents

(4) CLASSIFIED ACCESS. If a visiting contractor is working on a classified contract, his/her visit request, with security clearance information, must be sent to the Program Security Manager or G-2, U.S. Army TACOM (SMO Code W4GGAA* or W4GGAA5, AMTA-INS, Office Phone

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page120 of 201
---	--	--

Name of Offeror or Contractor:

586-282-6262, Fax 586-282-6362) and their sponsoring activity. Government employees hosting meetings will verify contractor employee security clearance information with their supporting Security Manager, Security Coordinator or G-2, U.S. Army TACOM using DISS prior to providing contractor access to classified information based on the approved DD254.

(5) REGULATORY COMPLIANCE. All contractor employees working on the U.S. Army installation, Detroit Arsenal, in the State of Michigan, in connection with this contract, shall conform to all applicable federal or state laws, and published rules and regulations of the Departments of Defense and Army. Also, they must comply with any existing applicable regulations promulgated by Detroit Arsenal, U.S. Army TACOM, or the Senior Commander. Additionally, all contractor employees working on classified contracts shall comply with the requirements of the National Industrial Security Program (NISPOM) and Army Regulation 380-5, Department of the Army Information Security Program and their approved DD254.

(6) NON-DISCLOSURE AGREEMENT. Each contractor employee working at the Detroit Arsenal property under this contract shall sign a Non-disclosure Agreement on their company's letterhead prior to commencing work under the contract or obtaining the badges permitting access to the property. There will be one Non-disclosure Agreement for each employee. The Non-disclosure Agreement shall be in the format indicated below. A copy of the agreement will be made a part of the contract file.

FORMAT FOR
NON-DISCLOSURE AGREEMENT

I, _____, an employee of _____, a Contractor providing support services/supplies to Detroit Arsenal, U.S. Army TACOM, or other tenant organizations (hereinafter Detroit Arsenal), and likely to have access to nonpublic information (hereinafter RECIPIENT), under contract number _____, agree to and promise the following:
WHEREAS RECIPIENT is engaged in delivery support services to Detroit Arsenal under contract; and
WHEREAS, It is the intention of Detroit Arsenal to protect and prevent unauthorized access to and disclosure of nonpublic information to anyone other than employees of the United States Government who have a need to know; and, WHEREAS, Detroit Arsenal acknowledges that RECIPIENT will from time to time have or require access to such nonpublic information in the course of delivering the contract services; and, WHEREAS, RECIPIENT may be given or other have access to nonpublic information while providing such services; and, WHEREAS, "nonpublic information" includes, but is not limited to such information as:

Proprietary information (e.g., information submitted by a contractor marked as proprietary. However please note: THIS NON-DISCLOSURE STATEMENT IS NOT SUFFICIENT TO ALLOW CONTRACTORS ACCESS TO ANOTHER CONTRACTORS PROPRIETARY INFORMATION. FOR THAT, A SEPARATE CONTRACTOR TO CONTRACTOR AGREEMENT IS REQUIRED.); Advanced procurement information (e.g., future requirements, statements of work, and acquisition strategies); Source selection information (SSI) (e.g., bids before made public, source selection plans, and rankings of proposals) (PLEASE NOTE: THIS AGREEMENT ALONE DOES NOT AUTHORIZE ACCESS TO SSI--ONLY PCO OR SOURCE SELECTION AUTHORITY CAN AUTHORIZE SUCH ACCESS.); Trade secrets and other confidential business information (e.g., confidential business information submitted by the contractor); Attorney work product; Information protected by the Privacy Act (e.g., social security numbers, home addresses and telephone numbers); and Other sensitive information that would not be released by Detroit Arsenal under the Freedom of Information Act (e.g., program, planning and budgeting system information); NOW THEREFORE, RECIPIENT agrees to and promises as follows:
RECIPIENT shall not seek access to nonpublic information beyond what is required for the performance of the support services contract; RECIPIENT will ensure that his or her status as a contractor employee is known when seeking access to and receiving such nonpublic information of Government employees;

As to any nonpublic information to which RECIPIENT has or is given access, RECIPIENT shall not use or disclose such information for any purpose other than providing the contract support services, and will not use or disclose the information to any unauthorized person or entity for personal, commercial, or any unauthorized purposes; and

If RECIPIENT becomes aware of any improper release or disclosure of such nonpublic information, RECIPIENT will advise the contracting officer verbally within two business days, followed up in writing within five business days.

The RECIPIENT agrees to return any nonpublic information given to him or her pursuant to this agreement, including any transcriptions by RECIPIENT of nonpublic information to which RECIPIENT was given access, if not already destroyed, when RECIPIENT no longer performs work under the contract. RECIPIENT understands that any unauthorized use, release or disclosure of nonpublic information in violation of this Agreement will subject the RECIPIENT and the RECIPIENT's employer to administrative, civil or criminal remedies as may be authorized by law.

C.27 LIFECYCLE MANAGEMENT PROCESS (LCMP) CONTRACT DATA REQUIREMENTS LIST (CDRL) MODULE

C.27.1 Contract Data Requirements List (CDRL) Module

C.27.2 The primary Contract Data Requirements List (CDRL) data storage and delivery application shall be the Lifecycle Management

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page121 of 201
--------------------	--	----------------

Name of Offeror or Contractor:

Process (LCMP) Integrated Development Environment (IDE) CDRL Module (CDRL Module).

C.27.3 The CDRL Module provides a secure mechanism for submitting, receiving, reviewing, and accepting CDRL deliverables. The system provides dashboards, metrics, automated workflow messages, process status indicators, and a complete tracking solution from delivery to acceptance of contract deliverables.

C.27.4 System Access

C.27.4.1 Contractor's require a Government sponsor to access the system. The contractor shall request access within 3 days of contract award. Requests shall be submitted to the Contracting Officer Representative (COR) and include the name, Contractor Permission Level, and email for each designated employee requiring access to the system. The contractor is limited to a maximum number of 10 personnel for access to the system. The COR will submit a request, on the contractor's behalf to initiate the onboarding process. Once the request is submitted, the contractor will receive additional access requirements. This includes a DD 2875, System Authorization Access Request, the individual's Army Cyber Security Training Certificate, and a digitally signed Acceptable Use Policy.

C.27.4.1.1 The definition of Contractor Permission levels are as follows:

Permission Description: Allow Contractor Instance Creation Allows members of this group to create CDRL deliverable instances from the contractor module as needed (Gives Ctr Writer).

- Ctr Writer Grants access to the Contractor portal.
- Allows user to submit CDRLs and modify their POC (Gives Ctr Reader).
- Ctr Reader Grants access to the Contractor portal.
- Allows user to view CDRLs.
- Contractor Contracting Office Makes members of this group recipients of daily overdue submission/rework emails, contractor due date extension requests, submission coming due in 3 days emails and new instance creation notifications (if option is chosen when creating instances).

C.27.4.2 The CDRL Module is a web-based application that is accessible using a standard web browser. The CDRL Module URL is: <https://members.lcmp.af.mil/peocscss/Data/Default.aspx>

C.27.4.3 Contractors may access the system and authenticate using DoD approved Common Access Cards (CACs), External Certificate Authorities (ECAs) and Federal Bridge Certificates Authorities (FBCAs). For more information on ECAs visit the following website <https://public.cyber.mil/eca/> ; for more information on FBCAs visit the following website <https://www.identrust.com/us-federal-bridgecross-certification> . The Government will not reimburse the contractor for additional cost born by obtaining an ECA or FBCA.

C.27.4.4 If the contractor experiences technical difficulties with the CDRL Module, the contractor shall obtain approval from the COR prior to utilizing an alternate delivery method. Alternate delivery methods include DoD SAFE (URL: <https://safe.apps.mil>) or emailing the Government personnel listed in the contract for the specific CDRL. The COR will determine the appropriate delivery method.

C.27.4.5 All system questions shall be directed to the LCMP-IDE Support, "mailto:usarmy.detroit.peo-cs-css.list.lcmp-team@army.mil ".

C.27.4.6 Additional Training for the system is available upon contractor request.

Name of Offeror or Contractor:

SECTION D - PACKAGING AND MARKING
D.1 PRESERVATION AND PACKAGING

D.1.1 Delivery of Hardware:

The contractor shall preserve and package the JAB including any attachments, special purpose kits, and BII In Accordance With (IAW) ASTM D3951, Standard Practice for Commercial Packaging.

D.1.2 Delivery of Initial Spare Parts and Special Tool Kit:

The contractor shall preserve and package each initial spare part IAW Attachment 0057 (Packaging Data). Consolidate the initial spare parts IAW ASTM D3951, Standard Practice for Commercial Packaging. The contractor shall preserve and package the Special Tool Kit IAW the Attachment 0058 (Special Packaging Instructions - AK17077923).

D.1.3 Data Deliverables:

The contractor shall preserve and package required software, technical data, reports, etc. delivered under this contract to deter theft and assure safe arrival to the destination without damage to contents. All software, tech data, reports, etc. shall be identified by the prime contract number, name and address of the prime contractor, and where applicable, the name and address of the subcontractor generating the data.

D.1.4 Physical and mechanical protection:

The contractor shall provide physical and mechanical protection, provide for multiple handling, allow for shipment by any mode, and enable storage for a period of one (1) year in an enclosed environmentally controlled facility while suitable for redistribution without additional repackaging for consumable items, Training Aids, System Support Packages(SSP) and Special Tools scheduled for shipment D.1.5 Authorized Stockage Level (ASL): If ASL is procured under this contract it shall be packed for storage for not less than 180 days. ASL parts shall be marked as such so they can be kept segregated from normal stock. As a minimum the parts shall be marked identifying it as ASL stock, part number, CAGE and nomenclature. Include a packing list in each ASL shipping container.

D.1.6 HAZMAT:

For each hazardous material item shipped under this contract, a copy of the Material Safety Data Sheet (MSDS) shall be placed into a sealed pouch and attached to the outside surface area of the Unit Container and Intermediate Container containing the prescribed hazardous material item. The contractor shall comply with the applicable codes and standards listed here: (1) Code of Federal Regulation Titles 29, 40 and 49, (2) International Maritime Dangerous Goods Code, for vessel transport, and (3) AFMAN 24-204, Preparing Hazardous Materials for Military Air Shipments.

D.2 MARKING

D.2.1

The JAB processed IAW Paragraph D.1.1 through D.1.6 shall be marked by the contractor IAW MIL-STD-129P (4).

D.2.2

The contractor shall identify all software, technical data, reports, and documents. referenced in Paragraph D.1.3 by the prime contract number, name and address of the prime contractor, and where applicable, the name and address of the subcontractor generating the data.

D.3 Heat Treatment of Wood

D.3.1 HEAT TREATMENT AND MARKING OF WOOD PACKAGING MATERIALS

- (a) IAW DOD 4140.65-M and the requirements of the International Standards for Phytosanitary Measures 15 (ISPM), Regulation of Wood Packaging Material in International Trade, current edition, (hereinafter ISPM 15), the following commercial heat treatment and marking process has been approved by the American Lumber Standards Committee (ALSC) and is required for all Wood Packaging Material (WPM). Foreign manufacturers shall comply with ISPM 15, and have the WPM heat treatment and marking verified IAW their National Plant Protection Organizations compliance program.
- (b) Boxes/pallets and any wood used as inner packaging made of non-manufactured wood shall be heat-treated. All WPM using a conventional steam or dry kiln heat chamber (treatment code for the mark: HT) shall be heat treated to a minimum core temperature of 56 degrees Celsius for a minimum of 30 minutes, and certified by an agency accredited by the ALSC IAW Wood Packaging Material Policy and Wood Packaging Material Enforcement Regulations (see URL: [://www.alsc.org](http://www.alsc.org)). WPM heat treated wood using dielectric heating (treatment code for the mark: DH) shall follow the requirements in ISPM 15, and shall be certified by an agency accredited by the ALSC IAW Wood Packaging Material Policy and Wood Packaging Material Enforcement Regulations (see URL: [://www.alsc.org](http://www.alsc.org)). The box/pallet manufacturer and the manufacturer of wood used as inner packaging shall ensure the materials used in manufacture can be traced to the original source of heat treatment, and that the original source of the heat treatment obtained the necessary certifications.
- (c) Marking. Each box/pallet shall be marked to show the conformance to the International Plant Protection Convention Standard. The ALSC approved quality mark shall be placed on both ends of the outer packaging, between the end cleats or end battens. Pallet markings shall be applied to the side of the stringer or end of the block on diagonally opposite sides and ends of the pallet and be contrasting and clearly visible. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an ALSC approved DUNNAGE stamp.

*** END OF NARRATIVE D0001 ***

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page124 of 201
--	--	--

Name of Offeror or Contractor:

SECTION E - INSPECTION AND ACCEPTANCE

E.1 RESPONSIBILITY FOR INSPECTION

Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified in ATPD 2402. Except as otherwise specified in the contract, the contractor may use its own or any other facilities suitable for the performance of the inspection requirements specified in ATPD 2402, unless disapproved by the Government. The Government reserves the right to perform any inspection set forth in ATPD 2402 where such inspections are deemed necessary to assure supplies and services conform to the prescribed requirements.

E.2 RESPONSIBILITY OF COMPLIANCE

All items shall meet all requirements of Section 3 of ATPD 2402. The inspections set forth in ATPD 2402 shall become part of the contractor's overall inspection or quality program. The absence of any inspection requirements in ATPD 2402 shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in Quality Conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material.

E.3 JAB ACCEPTANCE

E.3.1 Conditional Acceptance prior to First Article Test (FAT) Approval

E.3.1.1 Prior to the successful completion of the FAT requirements, acceptance of the JAB shall be conditional. At the time of conditional acceptance, prior to FAT approval, the contractor may invoice for 100% of the JAB unit price less any prior Government financing payments and the ACO will withhold 10% (ten percent) of the total JAB price from the payment.

E.3.1.2 Final Acceptance of FAT JABs shall not occur until: (1) all First Article Test requirements for the JAB have been successfully completed and the Contractor so notified by a PCO letter and (2) all deficiencies are corrected to the satisfaction of the Government.

E.4 EQUIPMENT VERIFICATION

E.4.1 Except as otherwise expressly provided for under this contract, the contractor is responsible for the supply and maintenance of all inspection and test equipment necessary to ensure the end items conform to contract requirements. All contractor furnished inspection equipment shall be available for use on or before the start of Product Unit Inspection (PUI). The Government will not furnish any verification equipment for this contract.

E.4.2 The contractor shall make inspection equipment available to the Government Inspector during Government in-process or end item inspection. All quality documentation shall be provided with the inspection equipment, to include equipment calibration records. Upon completion of the inspection by the Government Inspector, all inspection equipment and documentation shall be returned to the contractor.

E.5 TECHNICAL PUBLICATIONS QUALITY ASSURANCE

E.5.1 Quality Assurance (QA) of equipment publications. The contractor shall be responsible for the quality of the equipment publications deliverables. All delivered TM information shall be complete, technically accurate and useable by US Army Soldiers. The contractor shall develop and use a quality assurance plan In Accordance With (IAW) the following:

E.5.1.1 The quality assurance plan shall include periodic QA reviews by persons different than those preparing the TMs, maintenance of QA records, TM development process improvement, and data controls to ensure that current, accurate engineering data and parts information is available to TM preparers.

E.5.1.1.2 The publications QA operation shall include QA personnel that are not the writers or editors of the publications being prepared. Validation records showing those publications corrections, deletions, and additions that were identified during publications validation process shall be maintained. Other QA records shall be identification of changes, corrections, deletions and additions to publications that result from QA edit reviews.

E.5.1.1.3 Government representatives have the right to review and comment on the contractors QA plan, records, and processes.

E.6.1 Welding Inspection & Testing Requirements

The Contractor shall clearly identify all joints on the weld drawings that require nondestructive testing (NDT) IAW AWS A2.4 Standard Symbols for Welding Brazing and Nondestructive Examination. The certified inspector shall determine compliance of the weld to the requirements of the welding standard(s) listed in ATPD-2402 Annex F: Welding Standards.

E.6.1.1 Frequency of NDT Examination

All welds shall require some form of NDT to be performed IAW the applicable welding standards listed in ATPD-2402 Annex F: Welding Standards. Welds to be covered shall be inspected prior to being made inaccessible. A sampling plan shall be developed for all NDT activities IAW MIL-STD-1916, DoD Preferred Methods for Acceptance of Product. If an alternate acceptance method is requested, the

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 125 of 201 MOD/AMD
Name of Offeror or Contractor:		

requirements and procedure shall be IAW MIL-STD-1916.

- a.For welding done IAW MIL-STD-3040, the verification level (VL) for Class I and Class II welds shall be VL-VI, Class III welds shall be VL-V and Class IV shall be VL-II.
- b.For welding done IAW MIL-STD-3057A (or latest version as of the solicitation due date), the verification level (VL) for Class I welds shall be VL-VI, Class II welds shall be VL-V and Class III shall be VL-II.

E.6.1.2 Visual Testing (VT)
All welds shall be visually inspected IAW the applicable welding standards listed in ATPD-2402 Annex F: Welding Standards. For the purpose of this contract, weld quality and workmanship shall be verified by Certified or Authorized Visual Inspectors trained to perform the specific functions they are assigned (see CVI and AVI sections). Certified Visual Weld Inspectors shall have the authority to sign as a visual weld inspector. Authorized Visual Inspectors may visually inspect welds but shall not have the authority to sign off as a visual weld inspector. Regardless of qualifications, the welder or welding operator shall not have the ability to approve the final inspection on their own work.

E.6.1.3 Hold Time Prior to NDT.
For all non-austenitic high strength steels, CST (MIL-A-11356), RHA (MIL-DTL-12560), and HHA (MIL-DTL-46100) armor grade steels greater than 0.3 (8mm) in thickness, the final NDT examination for acceptance shall be conducted no less than the following, after the weld has cooled to ambient temperature. For all VHA or UHA, the final NDT examination for acceptance shall be conducted no less than the following, after the weld has cooled to ambient temperature, regardless of thickness.

- a. 24 hours when performing UT,
- b. 36 hours when performing RT, or
- c. 48 hours when performing VT, PT, or MT.

The required visual inspection should be completed in a manner that suits production. Therefore, preliminary VT and post 48-hour hold VT are advisable prior to UT or RT. Preliminary NDT examinations are advisable to avoid production related delays, by identifying defects not related to delayed hydrogen cracking. Any defects found during the preliminary NDT may be addressed before the hold period is complete. Restarting the hold period is necessary if thermal repair processing is used. Any defects identified and addressed following the first hold period shall be subject to an additional hold period. Alternative strategies to mitigate delayed hydrogen cracking must be supported by data and shall be submitted to the PCO for review for acceptability prior to amending the length of this hold time.

E.6.1.4 NDT Acceptance Criteria for Armor.
When NDT is required for armor grade materials, the acceptance criteria shall be IAW MIL-STD-3040 for steel armor and MIL-STD-3057 for aluminum armor. When the results of an inspection process or indications are inconclusive, the weld shall be inspected by another NDT method.

E.6.1.5 NDT Acceptance Criteria for High Strength Steel.
When NDT is required for high strength steel, the procedures and acceptance criteria shall be IAW MIL-STD-3040.

E.6.1.6 NDT Acceptance Criteria for Non-Armor.
When NDT is required for non-armor material(s) the acceptance criteria shall be as stated in the applicable standard of ATPD-2402 Annex F: Welding Standards. The acceptance criteria can differ based on the design loads and types of forces. The Contractor shall state what joints are critical load bearing members and clearly identify these weldments for inspection purposes. In the case of critical structures, the acceptance criteria for cyclic loads will be as stated in the applicable welding standard from ATPD-2402 Annex F: Welding Standards.

E.6.1.7 Non-Destructive Testing (NDT) Personnel Qualification.
Individuals performing any method of NDT shall meet the qualification requirements for the applicable NDT level of certification IAW the American Society for Nondestructive Testing (ASNT) Standard for Qualification and Certification of Nondestructive Testing Personnel ANSI/ASNT CP-189 or Aerospace Industries Association (AIA)/National Aerospace Standard (NAS) Standard Practice NAS410, except as listed in the sections for Certified Visual Inspector Qualification and Authorized Visual Inspector Qualification. The required NDT level shall be determined by the contractors NDT written practice. Alternately, any certification through ASNT Central Certification Program (ACCP) shall be recognized as certified at the NDT level of examination. The Contractor shall make available all NDT personnel qualification records upon request by the Government.

In-house certification programs developed for the qualification and certification of NDT personnel IAW ASNT Recommended Practice No. SNT-TC-1A: Personnel Qualification and Certification in Nondestructive Testing shall require government review and approval prior to NDT personnel performing any NDT on contract deliverable items.

For NDT methods not covered by ASNT SNT-TC-1A, ANSI/ASNT CP-189 or NAS410, personnel shall qualify to comparable levels of competency by the administration of examinations for the particular method involved. A certified NDT Level III shall be responsible for the validity of the examinations and overall personnel qualification and certification (PQ&C) program.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 126 of 201
---------------------------	---	------------------------

Name of Offeror or Contractor:

E.6.1.8 Certified Visual Inspector Qualification.

Certified Visual Inspector (CVI) shall be based on:

- a. Current certification in IAW AWS QC1, Standard for AWS Certified Welding Inspectors as a Certified Welding Inspector (CWI) or Senior Certified Welding Inspector (SCWI).
- b. Current certified welding inspectors qualified by the Canadian Welding Bureau (CWB) to Level II or the Level III requirements IAW with Canadian Standards Association (CSA) W178.2, Certification of Welding Inspectors.
- c. Current Level II Visual Inspection (VT) certification or greater IAW the American Society of Nondestructive Testing (ASNT) CP-189, ASNT Standard for Qualification and Certification of Nondestructive Personnel.

Items (a)-(c) shall be verified through A041 (Visual Weld Inspector Training Program).

E.6.1.9 Authorized Visual Inspector Qualification.

Authorized Visual Inspector (AVI) shall be based on:

- a. An entity's internal or in-house AWS B5.1 or B5.2 qualified welding Inspector shall not be qualified to sign off on welds that would require a CVI or equivalent signature. An Associate Welding Inspector or a Welding Inspector Specialist who meets the minimum requirements of AWS B5.1 or AWS B5.2, respectively, shall be competent to perform visual inspection with the approval of the Government. A Welding Inspector Assistant, qualified under AWS B5.2 shall only perform inspection duties while under the supervision of a Government approved Welding Inspector Specialist, an ASNT SNT-TC-1A level II or greater, or any certified visual weld Inspector IAW above requirements of Certified Visual Inspector Qualification section a)-(c).
- b. Welding Inspectors that are only qualified to ASNT SNT-TC-1A shall not be qualified to sign off on welds that would require a CVI or equivalent signature. An Inspector who is qualified as an ASNT VT level II IAW the requirements of ASNT SNT-TC-1A, shall be competent to perform visual inspection with the approval of the Government. An ASNT VT Level I Inspector qualified IAW ASNT SNT-TC-1A, shall only perform inspection duties while under the supervision of a Government approved Associate Welding Inspector, Specialist, an ASNT SNT-TC-1A level II or greater, or any certified visual weld Inspector IAW the requirements of the section for Certified Visual Inspector Qualification (a)-(c).
- c. Previous certification IAW with the section for Certified Visual Inspector Qualification precludes the need for the additional training specified and allows for immediate qualification as an AVI. Those qualified in this manner shall be restricted to within two years following the expiration of their certificates. In cases where the external qualification has lapsed, then the vision test must be passed before being able to perform as an AVI.

Items (a)-(c) of this section shall be verified through CDRL A041 (Visual Weld Inspector Training Program).

E.7 Quality Assurance for Data Quality, Item Unique Identification is Based on the U.S. Government's intended purpose to use the UII throughout the equipment's Life Cycle. The Contractor shall confirm the data quality is deemed fit by the U.S. Government to fulfill its intended purpose (e.g., UII matches IUID registry record based on data elements entered during WAWF input).

E.8 JAB ACCEPTANCE

E.8.1 Conditional Acceptance prior to Full-Rate Production Approval

E.8.1.1 Prior to the successful completion of the Test Requirements IAW C.19.3, acceptance of the JAB shall be conditional. At the time of conditional acceptance, prior to Full-Rate Production approval, the contractor may invoice for 100% of the JAB unit price less any prior Government financing payments and the ACO will withhold 10% (ten percent) of the total JAB price from the payment.

E.8.1.2 Final Acceptance of conditionally accepted JAB Chassis shall not occur until: (1) all Test requirements IAW C.19.3 for the JAB Chassis have been successfully completed and the Contractor has been notified by a PCO letter and (2) all deficiencies are corrected to the satisfaction of the Government.

F-14	52.211-8	TIME OF DELIVERY	JUN/1997

(a) The Government requires delivery to be made according to the following schedule:

REQUIRED DELIVERY SCHEDULE

ITEM NO.	QUANTITY	WITHIN DAYS AFTER CONTRACT AWARD
CLIN 0001AA	5 EA	180 DAYS WITHOUT FAT; 210 DAYS WITH FAT
CLIN 0001AB	3 EA	180 DAYS WITHOUT FAT; 210 DAYS WITH FAT
CLIN 0002AA	5 EA	150 DAYS WITHOUT FAT; 180 DAYS WITH FAT

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

OFFERORS PROPOSED DELIVERY SCHEDULE

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT
----------	----------	--

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractors date of receipt of the contract or notice of award by adding

- (1) five calendar days for delivery of the award through the ordinary mails, or
- (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term working day excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

(End of Clause)

F-15252.211-7003ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)JAN/2023

(a) Definitions. As used in this clause--

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html> .

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

"Enterprise" means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

"Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Governments unit acquisition cost" means

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page130 of 201
Name of Offeror or Contractor:		

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractors estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractors estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459 .

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

"Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html> .

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

- (1) The Contractor shall provide a unique item identifier for the following:
 - (i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
---	------------------

Name of Offeror or Contractor:

__-1-_____	-2-_____
__-1-_____	-2-_____
__-1-_____	-2-_____

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
__-3-_____	-4-_____
__-3-_____	-4-_____
__-3-_____	-4-_____

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number -5-.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number -6-.

(v) Any item not included in paragraphs (c)(1)(i), (ii), (iii), or (iv) of this clause for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology--International symbology specification--Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that--

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology-Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall--

(A) Determine whether to--

Name of Offeror or Contractor:

- (1) Serialize within the enterprise identifier;
- (2) Serialize within the part, lot, or batch number; or
- (3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: Original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

- (ii) The issuing agency code--
 - (A) Shall not be placed on the item; and
 - (B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

- (1) Unique item identifier.
- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Governments unit acquisition cost.
- (11) Unit of measure.
- (12) Type designation of the item as specified in the contract schedule, if any.
- (13) Whether the item is an item of Special Tooling or Special Test Equipment.
- (14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

- (1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.
- (2) Unique item identifier of the embedded subassembly, component, or part.

Name of Offeror or Contractor:		

- (3) Unique item identifier type.**
- (4) Issuing agency code (if concatenated unique item identifier is used).**
- (5) Enterprise identifier (if concatenated unique item identifier is used).**
- (6) Original part number (if there is serialization within the original part number).**
- (7) Lot or batch number (if there is serialization within the lot or batch number).**
- (8) Current part number (optional and only if not the same as the original part number).**
- (9) Current part number effective date (optional and only if current part number is used).**
- (10) Serial number (if concatenated unique item identifier is used).**
- (11) Description.

** Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/> .

(2) Embedded items shall be reported by one of the following methods--

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/> ; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number -7-, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

Name of Offeror or Contractor:

SECTION G - CONTRACT ADMINISTRATION DATA

Regulatory Cite	Title	Date
G-1 252.232-7006	WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)	JAN/2023

(a) Definitions. As used in this clause

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

Payment request and receiving report are defined in the clause at 252.232-7003 , Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003 , Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov> ; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the Web Based Training link on the WAWF home page at <https://wawf.eb.mil/>

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

-1-

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

-2-

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF combo document type to create some combinations of invoice and receiving report in one step.]

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 135 of 201 MOD/AMD

(**Contracting Officer: If the contract provides for progress payments or performance-based payments, insert the DoDAAC for the contract administration office assigned the functions under FAR 42.302(a)(13).)

(4) Payment request. The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) Receiving report. The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activitys WAWF point of contact.

-16-

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 136 of 201 MOD/AMD
---------------------------	--	--

Name of Offeror or Contractor:

SECTION H - SPECIAL CONTRACT REQUIREMENTS

H.1 GOVERNMENT PROPERTY: Pursuant to FAR 16.503(c), all efforts requiring the contractor to perform work on existing items of Government property, failure of the Government to furnish such items in the amounts or quantities described in the Schedule as "estimate" or "maximum", will not entitle the contractor to any equitable adjustment in price under the Government Property clause of this contract.

H.2 ORDERS

H.2.1 Delivery Order (DO) or Task Order (TO)

Efforts required to be performed shall be in accordance with the scope of work set forth on the order. The Government will issue orders that specify applicable Section C scope, description of work, man-hours authorized, costs (labor, material and travel), period of performance or required delivery, and any required deliverables as authorized by the Procuring Contracting Officer (PCO).

H.2.2 Retrofit Hours

Prior to the issuance of an order, the Government will establish the labor hours needed to perform the effort utilizing the appropriate established labor rates, materials, and travel in Section B. The rates established in section B will be utilized when establishing either a LOE or Completion effort. If an order is issued bilaterally, the Government will provide a scope of work and request a proposal and negotiate the amount of labor, material and travel necessary for the identified effort. For each order, the labor rate shall be based on the year the order is issued.

H.2.2.1 Retrofit Term - LOE: LOE CLINS for retrofit may be issued unilaterally or bilaterally. Each LOE TO will be covered on an LOE CLIN and will be executed in accordance with FAR 16.306(d)(2).

The PCO may authorize by modification a reallocation of labor hours, material, or travel amount, required within the retrofit requirement. The contractor is not authorized to expend more hours, material, or travel dollars on the CLINS associated with the retrofit effort (by CLIN) than the PCO has authorized. Scope changes to the orders will be done via a modification to the order.

H.2.2.2 Retrofit Completion: For retrofit completion efforts, each completion retrofit support CLIN will be executed in accordance with FAR 16.306(d)(1). Each retrofit support CLIN will have a funding breakdown of the amount of labor hours, material, and travel dollars that can be expended for that retrofit support CLIN and Order. Scope and funding changes to the individual CLINS will be done through a modification to the order. The Government will request a proposal and Completion tasks will be awarded bilaterally on an order against the retrofit support CLIN. The contractor is not authorized to expend more hours, material, or travel dollars on the CLINS associated with the retrofit support effort (by CLIN) than the PCO has authorized.

Retrofit completion hours may be awarded under one ordering period and performance may extend beyond the expiration of that ordering period.

For example, if an order is issued during the Base year/year 1, Base year labor rates will be applied even if the period of performance is in year 2 or crosses into subsequent years.

H.2.2.3 Labor hours for Retrofit efforts shall be established using the following categories and associated weighting. Professional Services consist of engineering, logistics, program managers and for completion form and level of effort (LOE) and CONUS and OCONUS for the following labor categories:

- Certified Steel Armor Welder, Level 2; 27%
- Certified Weld Inspector (CWI), Level 3; 9%
- Quality Assurance (QA) Specialist, Level 2; 9%
- Field Service Representative, Level 3; 37%
- Program FSR, Level 2; 9%
- Mechanical Engineer, Level 3; 9%

H.2.2.3.1 Qualifications. All Retrofit personnel shall possess the following qualifications. On a case-by-case basis, the contractor may request approval from the Procuring Contracting Officer of filling a vacancy with an individual who does not possess the qualifications identified below.

Certified Steel Armor Welder, Level 2:

Associates degree in welding technology or equivalent welding training from a vocational school, community college or US Armed Forces and 10 years of experience and registered as a Certified Welding Inspector (CWI). Able to maneuver in small spaces and lift up to 50 lbs. Must speak English.

Certified Weld Inspector (CWI), Level 3:

Associates degree in welding technology or equivalent welding training from a vocational school, community college or US Armed Forces and 15 years of experience or 12 years of experience with 3 years of welding inspection experience and registered as a Certified Welding Inspector (CWI). Able to maneuver in small spaces and lift up to 50 lbs. Must speak English.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page137 of 201
Name of Offeror or Contractor:		

Quality Assurance (QA) Specialist, Level 2
Associates degree in welding technology or equivalent welding training from a vocational school, community college or US Armed Forces and 15 years of experience or 12 years of experience with 3 years of Quality Inspection of manufacturing processes and ISO 9001:2015 certified or a Certified Quality Auditor (CQA). Able to maneuver in small spaces and lift up to 50 lbs.

Field Service Representative, Level 3
Associates degree in welding technology or equivalent welding training from a vocational school, community college or US Armed Forces and 10 years of experience. Able to maneuver in small spaces and lift up to 50 lbs. Must speak English.

Program FSR, Level 2
Bachelors degree and 10 years of experience managing a manufacturing program.

Mechanical Engineer, Level 3
Bachelors degree in mechanical engineering with 10 years of experience; 4 years of experience on a major vehicle program. Must speak English.

H.2.3 Task Order Directive: All retrofit hours will be exercised under Task Order Directives, which shall be considered Government instructions under the contract and include the following:

- Referenced CLIN
- WD Type (LOE or Completion)
- Location
- Period of Performance
- Specific work to be performed or completed
- Specific ECPs to be installed (if applicable)
- Hours exercised under a specific CLIN/SLIN
- Total breakdown of hours, estimated cost, total fee and CPFF

H.2.4 Material and Travel: An estimated amount for material and travel will be provided at the established material and travel rates associated with each Completion or LOE effort. Materials are defined as items necessary for completing the scope, other than labor. Retrofit kits will be provided.

H.3 BASE ORDERING
The total estimated Government requirement for Base Year (Year 1) is 20 systems. In order to meet fielding requirements, the Government reserves the right to place orders for additional JAB Chassis under the current W56HZV-16-C-0256 with DRS-Sustainment Systems Inc. through 10 May 2026. Upon Government testing approval, all remaining orders will be placed on Delivery Orders under this contract.

H.4 OPTIONS

H.4.1 General

- The Government will not exercise any option later than seven years after the contract award date. Deliveries under these options can continue beyond the ordering period; but must be completed no later than 24 months after the end of the final option period.
- The Government reserves the right to exercise options unilaterally, on a Firm-Fixed Price basis, and up to the quantities specified in the periods described below.
- A lack of option exercise during one period does not prevent the Government from exercising an option in a subsequent period.
- The following is a summary of the option requirements available under this contract (all prices are contained in Section B and Attachment 0005, (Price/VATEP Workbook) and Attachment 0008 (Retrofit Kit):

H.4.2 Options

H.4.2.4 Option Year 1 / Ordering Year 6: From 1,830 DAC through 2,195 DAC, the Government may exercise options for the CLINs identified below IAW Attachment 0005 (Price/VATEP Workbook), Attachment 0005 (ASL Kit), Attachment 0007 (STTE Kit) and Attachment A0007 (Retrofit Kit)and retrofit Labor IAW H.2.

- CLIN 6X01 - JAB Chassis
- CLIN 6X02 - Authorized Stockage List (ASL)
- CLIN 6X03 - Special Tools & Test Equipment
- CLIN 6X04 Storage and Maintenance of Vehicles
- CLIN 6X08 - Retrofit Hardware
- CLIN 6X09 - CONUS retrofit - LOE
- CLIN 6X10 CONUS retrofit Completion
- CLIN 6X11 OCONUS/Non-Hazardous retrofit LOE
- CLIN 6X12 OCONUS/Non-Hazardous retrofit - Completion

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page138 of 201 MOD/AMD
Name of Offeror or Contractor:		

H.4.2.5 Option Year 2 / Ordering Year 7: From 2,196 DAC through 2,561 DAC, the Government may exercise options for the CLINs identified below IAW Attachment 0005 (Price/VATEP Workbook), Attachment 0005 (ASL Kit), Attachment 0007 (STTE Kit) and Attachment A0007 (Retrofit Kit)and retrofit Labor IAW H.2.

- CLIN 7X01 - JAB Chassis
- CLIN 7X02 - Authorized Stockage List (ASL)
- CLIN 7X04 - Special Tools & Test Equipment
- CLIN 7X08 - Retrofit Hardware
- CLIN 7X09 - CONUS retrofit - LOE
- CLIN 7X10 CONUS retrofit Completion
- CLIN 7X11 OCONUS/Non-Hazardous retrofit LOE
- CLIN 7X12 OCONUS/Non-Hazardous retrofit - Completion

H.5 RANGE PRICING

H.5.1 Quantity Price Selection for Ordering Periods shall be done IAW Attachment 0005 (Price/VATEP Workbook).

- 1) The applicable CLIN for purposes of pricing is determined by the date the order is placed.
- 2) The quantity of JABs used to price the order shall be the sum of
 - a) the JAB quantity for the order, plus
 - b) JAB quantities ordered within the previous 120 days under the same ordering period, regardless of customer.

H.5.2 Total Quantity for JAB Price Example: Total-Quantity price breaks or Range Pricing as identified in Attachment 0005 (Price/VATEP Workbook)

- 1-5
- 6-10
- 11-15
- 16-20
- 21-25
- 26-30
- 30+

The order to be placed in ordering year one is for 24 JABs. The JABs would be priced in the first ordering period 21-25 JAB price range. T90 days later, an additional order is to be placed in ordering year one for 5 JABs. The 5 JABs would be priced at the first ordering period 26-30 JAB price range.

H.5.2.1 A downward price adjustment shall apply to any JABs ordered under any ordering period. In the event the Government exercises additional JABs Chassis under an ordering period which would increase the total quantity of ordered JAB Chassis within the same ordering period, limited to within 120 days, a downward price adjustment shall be made to all previously ordered JAB Chassis within the ordering period (regardless of customer Army, Non-Army / FMS) to reflect the reduced higher range price.

This downward price adjustment may be applied no more than two (2) consecutive times within an ordering period, where the third order within an ordering period occurs no later than 60 days after the second order within an ordering period, should three orders be placed within an ordering period.

H.5.2.1.1 Downward Price Adjustment Example: As identified in the example in H.4.2, the initial order of 24 JABs initially placed at the first ordering period 21-25 JAB price range would be downward adjusted to the 26-30 JAB price range based upon the additional 5 JABs placed 90 days later (within the 120 subsequent day downward price adjustment period identified in H.4.2.1).

H.6 RIGHTS IN TECHNICAL DATA

Rights are defined in accordance with 10 U.S.C. 2320 and DFARS, including clauses 252.227-7013, 252.227-7014, 252.227-7015, and 252.227-7017. The Government reserves the right to challenge any assertions in accordance with DFARS 252.227-7027.

H.7 Full Rate-Approval Notification

H.7.1 Within 30 calendar days after receipt by the contracting officer of a report of test results from the test activity, the contracting officer shall provide the contractor with written notice of approval or disapproval of test events outlined in C.19.4.2.1-C.19.4.2.8.

H.7.1.1 Test Approval shall constitute authorization for the contractor to begin full-rate production of items conforming to the approved test sample(s).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 139 of 201
Name of Offeror or Contractor:		

H.7.1.2 Notice of test disapproval shall be accompanied by identification of the special nature of the item failure(s). A failure to pass any testing shall be deemed a failure of the contractor to make delivery within the meaning of the DEFAULT clause in section I of this contract. At its option, the Government may order the contractor to provide one or more additional sample items, with previous deficiencies corrected, for follow-on testing. All costs for such additional test items, to include costs of transportation to the test site, and all costs of retesting, shall be borne by the contractor, who shall not be entitled to any equitable adjustment on account of such costs. The contractor shall provide the quantity of additional sample items within the time period directed by the Government, and shall not be entitled to an equitable adjustment in price, or to an extension in delivery schedule, on account of any retesting occasioned by a failure to pass testing.

H.7.2.1 Any retesting costs to be borne by the contractor shall be considered a debt IAW 32.603. IAW FAR 32.604, the contracting officer will request a demand for payment in the amount of the debt determined, limited to retesting costs, which may be satisfied through consideration under this contract or a credit invoice against an existing unpaid bill(s) due IAW FAR 32.604(c)(1).

		ALLOWABLE COST AND PAYMENT	

(a) Invoicing.

(1) The Government will make payments to the Contractor when requested as work progresses, but (except for small business concerns) not more often than once every 2 weeks, in amounts determined to be allowable by the Contracting Officer in accordance with Federal Acquisition Regulation (FAR) Subpart 31.2 in effect on the date of this contract and the terms of this contract. The Contractor may submit to an authorized representative of the Contracting Officer, in such form and reasonable detail as the representative may require, an invoice or voucher supported by a statement of the claimed allowable cost for performing this contract.

(2) Contract financing payments are not subject to the interest penalty provisions of the Prompt Payment Act. Interim payments made prior to the final payment under the contract are contract financing payments, except interim payments if this contract contains Alternate I to the clause at 52.232-25.

(3) The designated payment office will make interim payments for contract financing on the -1- day after the designated billing office receives a proper payment request. In the event that the Government requires an audit or other review of a specific payment

Name of Offeror or Contractor:

request to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the specified due date.

(b) Reimbursing costs.

(1) For the purpose of reimbursing allowable costs (except as provided in subparagraph (b)(2) of this clause, with respect to pension, deferred profit sharing, and employee stock ownership plan contributions), the term costs includes only --

(i) Those recorded costs that, at the time of the request for reimbursement, the Contractor has paid by cash, check, or other form of actual payment for items or services purchased directly for the contract;

(ii) When the Contractor is not delinquent in paying costs of contract performance in the ordinary course of business, costs incurred, but not necessarily paid, for --

(A) Supplies and services purchased directly for the contract and associated financing payments to subcontractors, provided payments determined due will be made

(1) In accordance with the terms and conditions of a subcontract or invoice; and

(2) Ordinarily within 30 days of the submission of the Contractors payment request to the Government;

(B) Materials issued from the Contractors inventory and placed in the production process for use on the contract;

(C) Direct labor;

(D) Direct travel;

(E) Other direct in-house costs; and

(F) Properly allocable and allowable indirect costs, as shown in the records maintained by the Contractor for purposes of obtaining reimbursement under Government contracts; and

(iii) The amount of financing payments that have been paid by cash, check or other form of payment to subcontractors.

(2) Accrued costs of Contractor contributions under employee pension plans shall be excluded until actually paid unless--

(i) The Contractors practice is to make contributions to the retirement fund quarterly or more frequently; and

(ii) The contribution does not remain unpaid 30 days after the end of the applicable quarter or shorter payment period (any contribution remaining unpaid shall be excluded from the Contractors indirect costs for payment purposes).

(3) Notwithstanding the audit and adjustment of invoices or vouchers under paragraph (g) of this clause, allowable indirect costs under this contract shall be obtained by applying indirect cost rates established in accordance with paragraph (d) of this clause.

(4) Any statements in specifications or other documents incorporated in this contract by reference designating performance of services or furnishing of materials at the Contractors expense or at no cost to the Government shall be disregarded for purposes of cost-reimbursement under this clause.

(c) Small business concerns. A small business concern may receive more frequent payments than every 2 weeks.

(d) Final indirect cost rates.

(1) Final annual indirect cost rates and the appropriate bases shall be established in accordance with Subpart 42.7 of the Federal Acquisition Regulation (FAR) in effect for the period covered by the indirect cost rate proposal.

(2)(i) The Contractor shall submit an adequate final indirect cost rate proposal to the Contracting Officer (or cognizant Federal agency official) and auditor within the 6-month period following the expiration of each of its fiscal years. Reasonable extensions, for exceptional circumstances only, may be requested in writing by the Contractor and granted in writing by the Contracting Officer. The Contractor shall support its proposal with adequate supporting data.

(ii) The proposed rates shall be based on the Contractors actual cost experience for that period. The appropriate Government representative and the Contractor shall establish the final indirect cost rates as promptly as practical after receipt of the Contractors proposal.

(iii) An adequate indirect cost rate proposal shall include the following data unless otherwise specified by the cognizant Federal

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 145 of 201

Name of Offeror or Contractor:

agency official:

- (A) Summary of all claimed indirect expense rates, including pool, base, and calculated indirect rate.
- (B) General and Administrative expenses (final indirect cost pool). Schedule of claimed expenses by element of cost as identified in accounting records (Chart of Accounts).
- (C) Overhead expenses (final indirect cost pool). Schedule of claimed expenses by element of cost as identified in accounting records (Chart of Accounts) for each final indirect cost pool.
- (D) Occupancy expenses (intermediate indirect cost pool). Schedule of claimed expenses by element of cost as identified in accounting records (Chart of Accounts) and expense reallocation to final indirect cost pools.
- (E) Claimed allocation bases, by element of cost, used to distribute indirect costs.
- (F) Facilities capital cost of money factors computation.
- (G) Reconciliation of books of account (i.e., General Ledger) and claimed direct costs by major cost element.
- (H) Schedule of direct costs by contract and subcontract and indirect expense applied at claimed rates, as well as a subsidiary schedule of Government participation percentages in each of the allocation base amounts.
- (I) Schedule of cumulative direct and indirect costs claimed and billed by contract and subcontract.
- (J) Subcontract information. Listing of subcontracts awarded to companies for which the contractor is the prime or upper-tier contractor (include prime and subcontract numbers; subcontract value and award type; amount claimed during the fiscal year; and the subcontractor name, address, and point of contact information).
- (K) Summary of each time-and-materials and labor-hour contract information, including labor categories, labor rates, hours, and amounts; direct materials; other direct costs; and, indirect expense applied at claimed rates.
- (L) Reconciliation of total payroll per IRS form 941 to total labor costs distribution.
- (M) Listing of decisions/agreements/approvals and description of accounting/organizational changes.
- (N) Certificate of final indirect costs (see 52.242-4, Certification of Final Indirect Costs).
- (O) Contract closing information for contracts physically completed in this fiscal year (include contract number, period of performance, contract ceiling amounts, contract fee computations, level of effort, and indicate if the contract is ready to close).
- (iv) The following supplemental information is not required to determine if a proposal is adequate, but may be required during the audit process:
 - (A) Comparative analysis of indirect expense pools detailed by account to prior fiscal year and budgetary data.
 - (B) General Organizational information and limitation on allowability of compensation for certain contractor personnel. See 31.205-6(p). Additional salary reference information is available at:
<https://www.whitehouse.gov/wp-content/uploads/2017/11/ContractorCompensationCapContractsAwardedBeforeJune24.pdf> and
<https://www.whitehouse.gov/wp-content/uploads/2017/11/ContractorCompensationCapContractsAwardedafterJune24.pdf>
 - (C) Identification of prime contracts under which the contractor performs as a subcontractor.
 - (D) Description of accounting system (excludes contractors required to submit a CAS Disclosure Statement or contractors where the description of the accounting system has not changed from the previous year's submission).
 - (E) Procedures for identifying and excluding unallowable costs from the costs claimed and billed (excludes contractors where the procedures have not changed from the previous year's submission).
 - (F) Certified financial statements and other financial data (e.g., trial balance, compilation, review, etc.).
 - (G) Management letter from outside CPAs concerning any internal control weaknesses.
 - (H) Actions that have been and/or will be implemented to correct the weaknesses described in the management letter from subparagraph (G) of this section.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page146 of 201
Name of Offeror or Contractor:		

- (I) List of all internal audit reports issued since the last disclosure of internal audit reports to the Government.
- (J) Annual internal audit plan of scheduled audits to be performed in the fiscal year when the final indirect cost rate submission is made.
- (K) Federal and State income tax returns.
- (L) Securities and Exchange Commission 10-K annual report.
- (M) Minutes from board of directors meetings.
- (N) Listing of delay claims and termination claims submitted which contain costs relating to the subject fiscal year.
- (O) Contract briefings, which generally include a synopsis of all pertinent contract provisions, such as: Contract type, contract amount, product or service(s) to be provided, contract performance period, rate ceilings, advance approval requirements, pre-contract cost allowability limitations, and billing limitations.
- (v) The Contractor shall update the billings on all contracts to reflect the final settled rates and update the schedule of cumulative direct and indirect costs claimed and billed, as required in paragraph (d)(2)(iii)(I) of this section, within 60 days after settlement of final indirect cost rates.
- (3) The Contractor and the appropriate Government representative shall execute a written understanding setting forth the final indirect cost rates. The understanding shall specify
 - (i) the agreed-upon final annual indirect cost rates,
 - (ii) the bases to which the rates apply,
 - (iii) the periods for which the rates apply,
 - (iv) any specific indirect cost items treated as direct costs in the settlement, and
 - (v) the affected contract and/or subcontract, identifying any with advance agreements or special terms and the applicable rates.

The understanding shall not change any monetary ceiling, contract obligation, or specific cost allowance or disallowance provided for in this contract. The understanding is incorporated into this contract upon execution.
- (4) Failure by the parties to agree on a final annual indirect cost rate shall be a dispute within the meaning of the Disputes clause.
- (5) Within 120 days (or longer period if approved in writing by the Contracting Officer) after settlement of the final annual indirect cost rates for all years of a physically complete contract, Contractor shall submit a completion invoice or voucher to reflect the settled amounts and rates. The completion invoice or voucher shall include settled subcontract amounts and rates. The prime contractor is responsible for settling subcontractor amounts and rates included in the completion invoice or voucher and providing status of subcontractor audits to the contracting officer upon request.
- (6)(i) If the Contractor fails to submit a completion invoice or voucher within the time specified in paragraph (d)(5) of this clause, the Contracting Officer may--
 - (A) Determine the amounts due to the Contractor under the contract; and
 - (B) Record this determination in a unilateral modification to the contract.
- (ii) This determination constitutes the final decision of the Contracting Officer in accordance with the Disputes clause.
- (e) Billing rates. Until final annual indirect cost rates are established for any period, the Government shall reimburse the Contractor at billing rates established by the Contracting Officer or by an authorized representative (the cognizant auditor), subject to adjustment when the final rates are established. These billing rates --
 - (1) Shall be the anticipated final rates; and
 - (2) May be prospectively or retroactively revised by mutual agreement, at either partys request, to prevent substantial overpayment or underpayment.

---------------------------	--	---

Name of Offeror or Contractor:

(f) Quick-closeout procedures. Quick-closeout procedures are applicable when the conditions in FAR 42.708(a) are satisfied.

(g) Audit. At any time or times before final payment, the Contracting Officer may have the Contractors invoices or vouchers and statements of cost audited. Any payment may be --

(1) Reduced by amounts found by the Contracting Officer not to constitute allowable costs; or

(2) Adjusted for prior overpayments or underpayments.

(h) Final payment.

(1) Upon approval of a completion invoice or voucher submitted by the Contractor in accordance with paragraph (d)(5) of this clause, and upon the Contractors compliance with all terms of this contract, the Government shall promptly pay any balance of allowable costs and that part of the fee (if any) not previously paid.

(2) The Contractor shall pay to the Government any refunds, rebates, credits, or other amounts (including interest, if any) accruing to or received by the Contractor or any assignee under this contract, to the extent that those amounts are properly allocable to costs for which the Contractor has been reimbursed by the Government. Reasonable expenses incurred by the Contractor for securing refunds, rebates, credits, or other amounts shall be allowable costs if approved by the Contracting Officer. Before final payment under this contract, the Contractor and each assignee whose assignment is in effect at the time of final payment shall execute and deliver --

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including interest, if any) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, except --

(A) Specified claims stated in exact amounts, or in estimated amounts when the exact amounts are not known;

(B) Claims (including reasonable incidental expenses) based upon liabilities of the Contractor to third parties arising out of the performance of this contract; provided, that the claims are not known to the Contractor on the date of the execution of the release, and that the Contractor gives notice of the claims in writing to the Contracting Officer within 6 years following the release date or notice of final payment date, whichever is earlier; and

(C) Claims for reimbursement of costs, including reasonable incidental expenses, incurred by the Contractor under the patent clauses of this contract, excluding, however, any expenses arising from the Contractors indemnification of the Government against patent liability.

(End of Clause)

I-179 52.216-18 ORDERING

AUG/2020

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from -1- through -2-.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when--

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either--

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

Name of Offeror or Contractor:		

(End of clause)

I-180 52.216-19 ORDER LIMITATIONS OCT/1995

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than -1-, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor --

(1) Any order for a single item in excess of -2-;

(2) Any order for a combination of items in excess of -3-; or

(3) A series of orders from the same ordering office within -4- days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within -5- days after issuance, with written notice stating the Contractors intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of Clause)

I-181 52.216-21 REQUIREMENTS OCT/1995

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after -1-.

(End of Clause)

I-182 52.217-6 OPTION FOR INCREASED QUANTITY MAR/1989

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 149 of 201
---------------------------	---	-------------------------------

Name of Offeror or Contractor:

The Government may increase the quantity of supplies called for in the Schedule at the unit price specified. The Contracting Officer may exercise the option by written notice to the Contractor within -1-. Delivery of the added items shall continue at the same rate as the like items called for under the contract, unless the parties otherwise agree.

(End of Clause)

I-183 52.217-7 OPTION FOR INCREASED QUANTITY--SEPARATELY PRICED LINE ITEM MAR/1989

The Government may require the delivery of the numbered line item, identified in the Schedule as an option item, in the quantity and at the price stated in the Schedule. The Contracting Officer may exercise the option by written notice to the Contractor within -1-. Delivery of added items shall continue at the same rate that like items are called for under the contract, unless the parties otherwise agree.

(End of Clause)

I-184 52.217-8 OPTION TO EXTEND SERVICES NOV/1999

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within -1-.

(End of Clause)

I-185 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT MAR/2000

(a) The Government may extend the term of this contract by written notice to the Contractor within-1-; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least -2- days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed -3-.

(End of Clause)

I-186 52.222-36 EQUAL OPPORTUNITY FOR WORKERS WITH DISABILITIES (JUN 2020) -- JUL/2014
ALTERNATE I (JUL 2014)

Notice: The following term(s) of this clause are waived for this contract: -1-

(a) Equal opportunity clause. The Contractor shall abide by the requirements of the equal opportunity clause at 41 CFR 60-741.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified individuals on the basis of disability, and requires affirmative action by the Contractor to employ and advance in employment qualified individuals with disabilities.

(b) Subcontracts. The Contractor shall include the terms of this clause in every subcontract or purchase order in excess of the threshold specified in Federal Acquisition Regulation

(FAR) 22.1408(a) on the date of subcontract award, unless exempted by rules, regulations, or orders of the Secretary, so that such provisions will be binding upon each subcontractor or vendor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate to identify properly the parties and their undertakings.

(End of clause)

I-187 52.222-42 STATEMENT OF EQUIVALENT RATES FOR FEDERAL HIRES MAY/2014

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR part 4), this

Name of Offeror or Contractor:

clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

This Statement is for Information Only:
It is not a Wage Determination

Employee Class	Monetary Wage -- Fringe Benefits

(End of Clause)

I-188 52.223-9 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA DESIGNATED ITEMS MAY/2008

(a) Definitions. As used in this clause

Postconsumer material means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of recovered material.

Recovered material means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall

(1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of postconsumer material content; and

(2) Submit this estimate to -1-.

(End of clause)

I-189 52.232-16 PROGRESS PAYMENTS (NOV 2021)--ALTERNATE III (JUN 2020) (DEVIATION 2020-00010) JUN/2020

The Government will make progress payments to the Contractor when requested as work progresses, but not more frequently than monthly, in amounts of \$2,500 or more approved by the Contracting Officer, under the following conditions:

(a) Computation of amounts.

(1) Unless the Contractor requests a smaller amount, the Government will compute each progress payment as 80 percent of the Contractor's total costs incurred under this contract whether or not actually paid, plus financing payments to subcontractors (see paragraph (j) of this clause), less the sum of all previous progress payments made by the Government under this contract. The Contracting Officer will consider cost of money that would be allowable under Federal Acquisition Regulation (FAR) 31.205-10 as an incurred cost for progress payment purposes.

(2) The amount of financing and other payments for supplies and services purchased directly for the contract are limited to the amounts that have been paid by cash, check, or other forms of payment, or that are determined due and will be paid to subcontractors--

(i) In accordance with the terms and conditions of a subcontract or invoice; and

(ii) Ordinarily within 30 days of the submission of the Contractor's payment request to the Government.

(3) The Government will exclude accrued costs of Contractor contributions under employee pension plans until actually paid unless--

(i) The Contractor's practice is to make contributions to the retirement fund quarterly or more frequently; and

(ii) The contribution does not remain unpaid 30 days after the end of the applicable quarter or shorter payment period (any contribution remaining unpaid shall be excluded from the Contractor's total costs for progress payments until paid).

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 151 of 201 MOD/AMD
Name of Offeror or Contractor:		

(4) The Contractor shall not include the following in total costs for progress payment purposes in paragraph (a)(1) of this clause:

(i) Costs that are not reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices.

(ii) Costs incurred by subcontractors or suppliers.

(iii) Costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(iv) Payments made or amounts payable to subcontractors or suppliers, except for--

(A) Completed work, including partial deliveries, to which the Contractor has acquired title; and

(B) Work under cost-reimbursement or time-and-material subcontracts to which the Contractor has acquired title.

(5) The amount of unliquidated progress payments may exceed neither (i) the progress payments made against incomplete work (including allowable unliquidated progress payments to subcontractors) nor (ii) the value, for progress payment purposes, of the incomplete work. Incomplete work shall be considered to be the supplies and services required by this contract, for which delivery and invoicing by the Contractor and acceptance by the Government are incomplete.

(6) The total amount of progress payments shall not exceed 80 percent of the total contract price.

(7) If a progress payment or the unliquidated progress payments exceed the amounts permitted by subparagraphs (a)(4) or (a)(5) above, the Contractor shall repay the amount of such excess to the Government on demand.

(8) Notwithstanding any other terms of the contract, the Contractor agrees not to request progress payments in dollar amounts of less than \$2,500. The Contracting Officer may make exceptions.

(9) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(b) Liquidation. Except as provided in the Termination for Convenience of the Government clause, all progress payments shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or 80 percent of the amount invoiced, whichever is less. The Contractor shall repay to the Government any amounts required by a retroactive price reduction, after computing liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly. The Government reserves the right to unilaterally change from the ordinary liquidation rate to an alternate rate when deemed appropriate for proper contract financing.

(c) Reduction or suspension. The Contracting Officer may reduce or suspend progress payments, increase the rate of liquidation, or take a combination of these actions, after finding on substantial evidence any of the following conditions:

(1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (f) and (g) below).

(2) Performance of this contract is endangered by the Contractor's (i) failure to make progress or (ii) unsatisfactory financial condition.

(3) Inventory allocated to this contract substantially exceeds reasonable requirements.

(4) The Contractor is delinquent in payment of the costs of performing this contract in the ordinary course of business.

(5) The fair value of the undelivered work is less than the amount of unliquidated progress payments for that work.

(6) The Contractor is realizing less profit than that reflected in the establishment of any alternate liquidation rate in paragraph (b) above, and that rate is less than the progress payment rate stated in subparagraph (a)(1) above.

(d) Title.

(1) Title to the property described in this paragraph (d) shall vest in the Government. Vestiture shall be immediately upon the date of this contract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this contract.

(2) Property, as used in this clause, includes all of the below-described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page152 of 201
----------------------------------	--	------------------------------

Name of Offeror or Contractor:

- (i) Parts, materials, inventories, and work in process;
 - (ii) Special tooling and special test equipment to which the Government is to acquire title;
 - (iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, and other similar manufacturing aids, title to which would not be obtained as special tooling under subparagraph (ii) above; and
 - (iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.
- (3) Although title to property is in the Government under this clause, other applicable clauses of this contract, e.g., the termination clauses, shall determine the handling and disposition of the property.
- (4) The Contractor may sell any scrap resulting from production under this contract without requesting the Contracting Officer's approval, but the proceeds shall be credited against the costs of performance.
- (5) To acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor must obtain the Contracting Officer's advance approval of the action and the terms. The Contractor shall (i) exclude the allocable costs of the property from the costs of contract performance, and (ii) repay to the Government any amount of unliquidated progress payments allocable to the property. Repayment may be by cash or credit memorandum.
- (6) When the Contractor completes all of the obligations under this contract, including liquidation of all progress payments, title shall vest in the Contractor for all property (or the proceeds thereof) not--
- (i) Delivered to, and accepted by, the Government under this contract; or
 - (ii) Incorporated in supplies delivered to, and accepted by, the Government under this contract and to which title is vested in the Government under this clause.
- (7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.
- (e) Risk of loss. Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. The Contractor shall repay the Government an amount equal to the unliquidated progress payments that are based on costs allocable to property that is lost (see 45.101).
- (f) Control of costs and property. The Contractor shall maintain an accounting system and controls adequate for the proper administration of this clause.
- (g) Reports, forms, and access to records.
- (1) The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information (including estimates to complete) reasonably requested by the Contracting Officer for the administration of this clause. Also, the Contractor shall give the Government reasonable opportunity to examine and verify the Contractor's books, records, and accounts.
- (2) The Contractor shall furnish estimates to complete that have been developed or updated within six months of the date of the progress payment request. The estimates to complete shall represent the Contractor's best estimate of total costs to complete all remaining contract work required under the contract. The estimates shall include sufficient detail to permit Government verification.
- (3) Each Contractor request for progress payment shall:
- (i) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment, or the electronic equivalent as required by agency regulations, in accordance with the form instructions and the contract terms; and
 - (ii) Include any additional supporting documentation requested by the Contracting Officer.
- (h) Special terms regarding default. If this contract is terminated under the Default clause, (i) the Contractor shall, on demand, repay to the Government the amount of unliquidated progress payments, and (ii) title shall vest in the Contractor, on full liquidation of progress payments, for all property for which the Government elects not to require delivery under the Default clause. The Government shall be liable for no payment except as provided by the Default clause.
- (i) Reservations of rights.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page153 of 201
----------------------------------	---	------------------------------

Name of Offeror or Contractor:

(1) No payment or vesting of title under this clause shall (i) excuse the Contractor from performance of obligations under this contract or (ii) constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause (i) shall not be exclusive but rather shall be in addition to any other rights and remedies provided by law or this contract and (ii) shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(j) Financing payments to subcontractors. The financing payments to subcontractors mentioned in paragraphs (a)(1) and (a)(2) of this clause shall be all financing payments to subcontractors or divisions, if the following conditions are met:

- (1) The amounts included are limited to--
 - (i) The unliquidated remainder of financing payments made; plus
 - (ii) Any unpaid subcontractor requests for financing payments.
- (2) The subcontract or interdivisional order is expected to involve a minimum of approximately 6 months between the beginning of work and the first delivery; or, if the subcontractor is a small business concern, 4 months.
- (3) If the financing payments are in the form of progress payments, the terms of the subcontract or interdivisional order concerning progress payments--
 - (i) Are substantially similar to the terms of this clause for any subcontractor that is a large business concern, or this clause with its Alternate I for any subcontractor that is a small business concern;
 - (ii) Are at least as favorable to the Government as the terms of this clause;
 - (iii) Are not more favorable to the subcontractor or division than the terms of this clause are to the Contractor;
 - (iv) Are in conformance with the requirements of FAR 32.504(e); and
 - (v) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--
 - (A) The Contractor defaults; or
 - (B) The subcontractor becomes bankrupt or insolvent.
- (4) If the financing payments are in the form of performance-based payments, the terms of the subcontract or interdivisional order concerning payments--
 - (i) Are substantially similar to the Performance-Based Payments clause at FAR 52.232-32 and meet the criteria for, and definition of, performance-based payments in FAR Part 32;
 - (ii) Are in conformance with the requirements of FAR 32.504(f); and
 - (iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--
 - (A) The Contractor defaults; or
 - (B) The subcontractor becomes bankrupt or insolvent.
- (5) If the financing payments are in the form of commercial product or commercial service financing payments, the terms of the subcontract or interdivisional order concerning payments--
 - (i) Are constructed in accordance with FAR 32.206(c) and included in a subcontract for a commercial product or commercial service purchase that meets the definition and standards for acquisition of commercial products and commercial services in FAR parts 2 and 12;
 - (ii) Are in conformance with the requirements of FAR 32.504(g); and
 - (iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page154 of 201
---	--	---

Name of Offeror or Contractor:

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(6) If financing is in the form of progress payments, the progress payment rate in the subcontract is the customary rate used by the contracting agency, depending on whether the subcontractor is or is not a small business concern.

(7) Concerning any proceeds received by the Government for property to which title has vested in the Government under the subcontract terms, the parties agree that the proceeds shall be applied to reducing any unliquidated financing payments by the Government to the Contractor under this contract.

(8) If no unliquidated financing payments to the Contractor remain, but there are unliquidated financing payments that the Contractor has made to any subcontractor, the Contractor shall be subrogated to all the rights the Government obtained through the terms required by this clause to be in any subcontract, as if all such rights had been assigned and transferred to the Contractor.

(9) To facilitate small business participation in subcontracting under this contract, the Contractor shall provide financing payments to small business concerns, in conformity with the standards for customary contract financing payments stated in FAR 32.113. The Contractor shall not consider the need for such financing payments as a handicap or adverse factor in the award of subcontracts.

(k) Limitations on undefinitized contract actions. Notwithstanding any other progress payment provisions in this contract, progress payments may not exceed 80 percent of costs incurred on work accomplished under undefinitized contract actions. A contract action is any action resulting in a contract, as defined in subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes. This limitation shall apply to the costs incurred, as computed in accordance with paragraph (a) of this clause, and shall remain in effect until the contract action is definitized. Costs incurred which are subject to this limitation shall be segregated on Contractor progress payment requests and invoices from those costs eligible for higher progress payment rates. For purposes of progress payment liquidation, as described in paragraph (b) of this clause, progress payments for undefinitized contract actions shall be liquidated at 80 percent of the amount invoiced for work performed under the undefinitized contract action as long as the contract action remains undefinitized. The amount of unliquidated progress payments for undefinitized contract actions shall not exceed 80 percent of the maximum liability of the Government under the undefinitized contract action or such lower limit specified elsewhere in the contract. Separate limits may be specified for separate actions.

(l) Due date. The designated payment office will make progress payments on the -1- day after the designated billing office receives a proper progress payment request. In the event that the Government requires an audit or other review of a specific progress payment request to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the specified due date. Progress payments are considered contract financing and are not subject to the interest penalty provisions of the Prompt Payment Act.

(m) Progress payments under indefinite-delivery contracts. The Contractor shall account for and submit progress payment requests under individual orders as if the order constituted a separate contract, unless otherwise specified in this contract.

(n) The provisions of this clause will not be applicable to individual orders at or below the simplified acquisition threshold, as defined in FAR 2.101 on the date of individual order award.

(End of clause)

I-190

52.243-7

NOTIFICATION OF CHANGES

JAN/2017

(a) Definitions. "Contracting Officer," as used in this clause, does not include any representative of the Contracting Officer.

"Specifically Authorized Representative (SAR)," as used in this clause, means any person the Contracting Officer has so designated by written notice (a copy of which shall be provided to the Contractor) which shall refer to this subparagraph and shall be issued to the designated representative before the SAR exercises such authority.

(b) Notice. The primary purpose of this clause is to obtain prompt reporting of Government conduct that the Contractor considers to constitute a change to this contract. Except for changes identified as such in writing and signed by the Contracting Officer, the Contractor shall notify the Administrative Contracting Officer in writing promptly, within -1- (to be negotiated) calendar days from the date that the Contractor identifies any Government conduct (including actions, inactions, and written or oral communications) that the Contractor regards as a change to the contract terms and conditions. On the basis of the most accurate information available to the Contractor, the notice shall state --

(1) The date, nature, and circumstances of the conduct regarded as a change;

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page155 of 201
----------------------------------	---	-------------------------------------

Name of Offeror or Contractor:

(2) The name, function, and activity of each Government individual and Contractor official or employee involved in or knowledgeable about such conduct;

(3) The identification of any documents and the substance of any oral communication involved in such conduct;

(4) In the instance of alleged acceleration of scheduled performance or delivery, the basis upon which it arose;

(5) The particular elements of contract performance for which the Contractor may seek an equitable adjustment under this clause, including --

(i) What line items have been or may be affected by the alleged change;

(ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;

(iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;

(iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and

(6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.

(c) Continued performance. Following submission of the notice required by paragraph (b) of this clause, the Contractor shall diligently continue performance of this contract to the maximum extent possible in accordance with its terms and conditions as construed by the Contractor, unless the notice reports a direction of the Contracting Officer or a communication from a SAR of the Contracting Officer, in either of which events the Contractor shall continue performance; provided, however, that if the Contractor regards the direction or communication as a change as described in paragraph (b) of this clause, notice shall be given in the manner provided. All directions, communications, interpretations, orders and similar actions of the SAR shall be reduced to writing promptly and copies furnished to the Contractor and to the Contracting Officer. The Contracting Officer shall promptly countermand any action which exceeds the authority of the SAR.

(d) Government response. The Contracting Officer shall promptly, within -2- (to be negotiated) calendar days after receipt of notice, respond to the notice in writing. In responding, the Contracting Officer shall either --

(1) Confirm that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance;

(2) Countermand any communication regarded as a change;

(3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or

(4) In the event the Contractor's notice information is inadequate to make a decision under subparagraphs (d)(1), (2), or (3) of this clause, advise the Contractor what additional information is required, and establish the date by which it should be furnished and the date thereafter by which the Government will respond.

(e) Equitable adjustments.

(1) If the Contracting Officer confirms that Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether changed or not changed by such conduct, an equitable adjustment shall be made --

(i) In the contract price or delivery schedule or both; and

(ii) In such other provisions of the contract as may be affected.

(2) The contract shall be modified in writing accordingly. In the case of drawings, designs or specifications which are defective and for which the Government is responsible, the equitable adjustment shall include the cost and time extension for delay reasonably incurred by the Contractor in attempting to comply with the defective drawings, designs or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for delay resulting from the Contractor's failure to provide notice or to continue performance as provided, respectively, in paragraphs (b) and (c) of this clause.

---------------------------	--	---

Name of Offeror or Contractor:

NOTE: The phrases "contract price" and "cost" wherever they appear in the clause, may be appropriately modified to apply to cost-reimbursement or incentive contracts, or to combinations thereof.

(End of Clause)

I-191 52.247-1 COMMERCIAL BILL OF LADING NOTATIONS FEB/2006

When the Contracting Officer authorizes supplies to be shipped on a commercial bill of lading and the Contractor will be reimbursed these transportation costs as direct allowable costs, the Contractor shall ensure before shipment is made that the commercial shipping documents are annotated with either of the following notations, as appropriate:

(a) If the Government is shown as the consignor or the consignee, the annotation shall be:

Transportation is for the -1- and the actual total transportation charges paid to the carrier(s) by the consignor or consignee are assignable to, and shall be reimbursed by, the Government.

(b) If the Government is not shown as the consignor or the consignee, the annotation shall be:

Transportation is for the -1- and the actual total transportation charges paid to the carrier(s) by the consignor or consignee shall be reimbursed by the Government, pursuant to cost-reimbursement contract No. -2-. This may be confirmed by contacting -3-.

(End of Clause)

I-192 252.225-7027 RESTRICTION ON CONTINGENT FEES FOR FOREIGN MILITARY SALES APR/2003

(a) Except as provided in paragraph (b) of this clause, contingent fees, as defined in the Covenant Against Contingent Fees clause of this contract, are generally an allowable cost, provided the fees are paid to

(1) A bona fide employee of the Contractor; or

(2) A bona fide established commercial or selling agency maintained by the Contractor for the purpose of securing business.

(b) For foreign military sales, unless the contingent fees have been identified and payment approved in writing by the foreign customer before contract award, the following contingent fees are unallowable under this contract:

(1) For sales to the Government(s) of -1-, contingent fees in any amount.

(2) For sales to Governments not listed in paragraph (b)(1) of this clause, contingent fees exceeding \$50,000 per foreign military sale case.

(End of clause)

I-193 252.225-7043 ANTITERRORISM/FORCE PROTECTION POLICY FOR DEFENSE CONTRACTORS OUTSIDE THE UNITED STATES JUN/2015

(a) Definition. United States, as used in this clause, means, the 50 States, the District of Columbia, and outlying areas.

(b) Except as provided in paragraph (c) of this clause, the Contractor and its subcontractors, if performing or traveling outside the United States under this contract, shall

(1) Affiliate with the Overseas Security Advisory Council, if the Contractor or subcontractor is a U.S. entity;

(2) Ensure that Contractor and subcontractor personnel who are U.S. nationals and are in-country on a non-transitory basis, register with the U.S. Embassy, and that Contractor and subcontractor personnel who are third country nationals comply with any security related requirements of the Embassy of their nationality;

Name of Offeror or Contractor:

(3) Provide, to Contractor and subcontractor personnel, antiterrorism/force protection awareness information commensurate with that which the Department of Defense (DoD) provides to its military and civilian personnel and their families, to the extent such information can be made available prior to travel outside the United States; and

(4) Obtain and comply with the most current antiterrorism/force protection guidance for Contractor and subcontractor personnel.

(c) The requirements of this clause do not apply to any subcontractor that is:

- (1) A foreign government;
- (2) A representative of a foreign government; or
- (3) A foreign corporation wholly owned by a foreign government.

(d) Information and guidance pertaining to DoD antiterrorism/force protection can be obtained from -1-.

(End of clause)

I-194 252.225-7047 EXPORTS BY APPROVED COMMUNITY MEMBERS IN PERFORMANCE OF THE CONTRACT JUN/2013
(a) Definitions. As used in this clause--

"Approved Community" means the U.S. Government, U.S. entities that are registered and eligible exporters, and certain government and industry facilities in Australia or the United Kingdom that are approved and listed by the U.S. Government.

"Australia Community member" means an Australian government authority or nongovernmental entity or facility on the Australia Community list accessible at <http://pmddtc.state.gov/treaties/index.html>.

"Defense articles" means articles, services, and related technical data, including software, in tangible or intangible form, listed on the United States Munitions List of the International Traffic in Arms Regulations (ITAR), as modified or amended.

"Defense Trade Cooperation (DTC) Treaty" means--

- (1) The Treaty Between the Government of the United States of America and the government of the United Kingdom of Great Britain and Northern Ireland concerning Defense Trade Cooperation, signed at Washington and London on June 21 and 26, 2007; or
- (2) The Treaty Between the Government of the United States of America and the Government of Australia Concerning Defense Trade Cooperation, signed at Sydney on September 5, 2007].

"Export" means the initial movement of defense articles from the United States Community to the United Kingdom Community and the Australia Community.

"Implementing Arrangement" means--

- (1) The Implementing Arrangement Pursuant to the Treaty between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland Concerning Defense Trade Cooperation, signed on February 14, 2008; or
- (2) The Implementing Arrangement Pursuant to the Treaty between the Government of the United States of America and the Government of Australia Concerning Defense Trade Cooperation, signed on March 14, 2008.

"Qualifying defense articles" means defense articles that are not exempt from the scope of the DTC Treaties as defined in 22 CFR 126.16(g) and 22 CFR 126.17(g).

"Transfer" means the movement of previously exported defense articles within the Approved Community.

"United Kingdom Community member" means a United Kingdom government authority or nongovernmental entity or facility on the United Kingdom Community list accessible at <http://pmddtc.state.gov>.

"United States Community" means--

- (1) Departments and agencies of the U.S. Government, including their personnel, with, as appropriate, security accreditation and a need-to-know; and

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page158 of 201
---	---	---

Name of Offeror or Contractor:

(2) Nongovernmental U.S. entities registered with the Department of State and eligible to export defense articles under U.S. law and regulation, including their employees, with, as appropriate, security accreditation and a need-to-know.

"U.S. DoD Treaty-eligible requirements" means any defense article acquired by the DoD for use in a combined military or counterterrorism operation, cooperative research, development, production or support program, or DoD end use, as described in Article 3 of the U.S.-U.K. DTC Treaty and sections 2 and 3 of the associated Implementing Arrangement; and Article 3 of the U.S.-Australia DTC Treaty and sections 2 and 3 of the associated Implementing Arrangement.

(b) All contract line items in this contract, except any identified in this paragraph, are intended to satisfy U.S. DoD Treaty-eligible requirements. Specific defense articles that are not U.S. DoD Treaty-eligible will be identified as such in those contract line items that are otherwise U.S. DoD Treaty-eligible.

CONTRACT LINE ITEMS NOT INTENDED TO SATISFY U.S. DoD TREATY-ELIGIBLE REQUIREMENTS:

-1-

(c) Subject to the other terms and conditions of this contract that affect the acceptability of foreign sources or foreign end products, components, parts, or materials, Approved Community members are permitted, but not required, to use the DTC Treaties for exports or transfers of qualifying defense articles in performance of the contract.

(d) Any conduct by the Contractor that falls outside the scope of the DTC Treaties, the Implementing Arrangements, and 22 CFR 126.16(g) and 22 CFR 126.17(g) is subject to all applicable ITAR requirements, including any criminal, civil, and administrative penalties or sanctions, as well as all other United States statutory and regulatory requirements outside of ITAR, including, but not limited to, regulations issued by the Bureau of Alcohol, Tobacco, Firearms and Explosives found at 27 CFR parts 447, 478, and 479, which are unaffected by the DTC Treaties.

(e) If the Contractor is an Approved Community member, the Contractor agrees that--

(1) The Contractor shall comply with the requirements of the DTC Treaties, the Implementing Arrangements, the ITAR, and corresponding regulations of the U.S. Government and the government of Australia or the government of the United Kingdom, as applicable; and

(2) Prior to the export or transfer of a qualifying defense article the Contractor--

(i) Shall mark, identify, transmit, store, and handle any defense articles provided for the purpose of responding to such solicitations, as well as any defense articles provided with or developed pursuant to their responses to such solicitations, in accordance with the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the marking and classification requirements described in the applicable regulations;

(ii) Shall comply with the re-transfer or re-export provisions of the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the re-transfer and re-export requirements described in the applicable regulations; and

(iii) Shall acknowledge that any conduct that falls outside or in violation of the DTC Treaties, Implementing Arrangements, and implementing regulations of the applicable government including, but not limited to, unauthorized re-transfer or re-export in violation of the procedures established in the applicable Implementing Arrangement and implementing regulations, remains subject to applicable licensing requirements of the government of Australia, the government of the United Kingdom, and the United States Government, including any criminal, civil, and administrative penalties or sanctions contained therein.

(f) The contractor shall include the substance of this clause, including this paragraph (f), in all subcontracts that may require exports or transfers of qualifying defense articles in connection with deliveries under the contract.

(End of clause)

"Agent" means any individual, including a director, an officer, an employee, or an independent Contractor, authorized to act on behalf of the organization.

"Full cooperation"--

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page159 of 201
----------------------------------	--	-------------------------------------

Name of Offeror or Contractor:

(1) Means disclosure to the Government of the information sufficient for law enforcement to identify the nature and extent of the offense and the individuals responsible for the conduct. It includes providing timely and complete response to Government auditors and investigators' request for documents and access to employees with information;

(2) Does not foreclose any Contractor rights arising in law, the FAR, or the terms of the contract. It does not require--

(i) A Contractor to waive its attorney-client privilege or the protections afforded by the attorney work product doctrine; or

(ii) Any officer, director, owner, or employee of the Contractor, including a sole proprietor, to waive his or her attorney client privilege or Fifth Amendment rights; and

(3) Does not restrict a Contractor from--

(i) Conducting an internal investigation; or

(ii) Defending a proceeding or dispute arising under the contract or related to a potential or disclosed violation.

"Principal" means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

"Subcontract" means any contract entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract.

"Subcontractor" means any supplier, distributor, vendor, or firm that furnished supplies or services to or for a prime contractor or another subcontractor.

"United States," means the 50 States, the District of Columbia, and outlying areas.

(b) Code of business ethics and conduct.

(1) Within 30 days after contract award, unless the Contracting Officer establishes a longer time period, the Contractor shall--

(i) Have a written code of business ethics and conduct; and

(ii) Make a copy of the code available to each employee engaged in performance of the contract.

(2) The Contractor shall--

(i) Exercise due diligence to prevent and detect criminal conduct; and

(ii) Otherwise promote an organizational culture that encourages ethical conduct and a commitment to compliance with the law.

(3)(i) The Contractor shall timely disclose, in writing, to the agency Office of the Inspector General (OIG), with a copy to the Contracting Officer, whenever, in connection with the award, performance, or closeout of this contract or any subcontract thereunder, the Contractor has credible evidence that a principal, employee, agent, or subcontractor of the Contractor has committed--

(A) A violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code; or

(B) A violation of the civil False Claims Act (31 U.S.C. 3729-3733).

(ii) The Government, to the extent permitted by law and regulation, will safeguard and treat information obtained pursuant to the Contractors disclosure as confidential where the information has been marked confidential or proprietary by the company. To the extent permitted by law and regulation, such information will not be released by the Government to the public pursuant to a Freedom of Information Act request, 5 U.S.C. Section 552, without prior notification to the Contractor. The Government may transfer documents provided by the Contractor to any department or agency within the Executive Branch if the information relates to matters within the organizations jurisdiction.

(iii) If the violation relates to an order against a Governmentwide acquisition contract, a multi-agency contract, a multiple-award schedule contract such as the Federal Supply Schedule, or any other procurement instrument intended for use by multiple agencies, the Contractor shall notify the OIG of the ordering agency and the IG of the agency responsible for the basic contract.

(c) Business ethics awareness and compliance program and internal control system. This paragraph (c) does not apply if the Contractor has represented itself as a small business concern pursuant to the award of this contract or if this contract is for the acquisition of

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page160 of 201
----------------------------------	--	-------------------------------------

Name of Offeror or Contractor:

a commercial product or commercial service as defined at FAR 2.101. The Contractor shall establish the following within 90 days after contract award, unless the Contracting Officer establishes a longer time period:

- (1) An ongoing business ethics awareness and compliance program.
- (i) This program shall include reasonable steps to communicate periodically and in a practical manner the Contractors standards and procedures and other aspects of the Contractors business ethics awareness and compliance program and internal control system, by conducting effective training programs and otherwise disseminating information appropriate to an individuals respective roles and responsibilities.
- (ii) The training conducted under this program shall be provided to the Contractors principals and employees, and as appropriate, the Contractors agents and subcontractors.
- (2) An internal control system.
- (i) The Contractors internal control system shall--
- (A) Establish standards and procedures to facilitate timely discovery of improper conduct in connection with Government contracts; and
- (B) Ensure corrective measures are promptly instituted and carried out.
- (ii) At a minimum, the Contractors internal control system shall provide for the following:
- (A) Assignment of responsibility at a sufficiently high level and adequate resources to ensure effectiveness of the business ethics awareness and compliance program and internal control system.
- (B) Reasonable efforts not to include an individual as a principal, whom due diligence would have exposed as having engaged in conduct that is in conflict with the Contractors code of business ethics and conduct.
- (C) Periodic reviews of company business practices, procedures, policies, and internal controls for compliance with the Contractors code of business ethics and conduct and the special requirements of Government contracting, including--
- (1) Monitoring and auditing to detect criminal conduct;
- (2) Periodic evaluation of the effectiveness of the business ethics awareness and compliance program and internal control system, especially if criminal conduct has been detected; and
- (3) Periodic assessment of the risk of criminal conduct, with appropriate steps to design, implement, or modify the business ethics awareness and compliance program and the internal control system as necessary to reduce the risk of criminal conduct identified through this process.
- (D) An internal reporting mechanism, such as a hotline, which allows for anonymity or confidentiality, by which employees may report suspected instances of improper conduct, and instructions that encourage employees to make such reports.
- (E) Disciplinary action for improper conduct or for failing to take reasonable steps to prevent or detect improper conduct.
- (F) Timely disclosure, in writing, to the agency OIG, with a copy to the Contracting Officer, whenever, in connection with the award, performance, or closeout of any Government contract performed by the Contractor or a subcontract thereunder, the Contractor has credible evidence that a principal, employee, agent, or subcontractor of the Contractor has committed a violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 U.S.C. or a violation of the civil False Claims Act (31 U.S.C. 3729-3733).
- (1) If a violation relates to more than one Government contract, the Contractor may make the disclosure to the agency OIG and Contracting Officer responsible for the largest dollar value contract impacted by the violation.
- (2) If the violation relates to an order against a Governmentwide acquisition contract, a multi-agency contract, a multiple-award schedule contract such as the Federal Supply Schedule, or any other procurement instrument intended for use by multiple agencies, the contractor shall notify the OIG of the ordering agency and the IG of the agency responsible for the basic contract, and the respective agencies contracting officers.
- (3) The disclosure requirement for an individual contract continues until at least 3 years after final payment on the contract.
- (4) The Government will safeguard such disclosures in accordance with paragraph (b)(3)(ii) of this clause.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page161 of 201
----------------------------------	---	-------------------------------------

Name of Offeror or Contractor:

(G) Full cooperation with any Government agencies responsible for audits, investigations, or corrective actions.

(d) Subcontracts.

(1) The Contractor shall include the substance of this clause, including this paragraph (d), in subcontracts that exceed the threshold specified in FAR 3.1004(a) on the date of subcontract award and a performance period of more than 120 days.

(2) In altering this clause to identify the appropriate parties, all disclosures of violation of the civil False Claims Act or of Federal criminal law shall be directed to the agency Office of the Inspector General, with a copy to the Contracting Officer.

(End of clause)

I-196 52.204-19 INCORPORATION BY REFERENCE OF REPRESENTATIONS AND CERTIFICATIONS DEC/2014

The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

(End of clause)

I-197 52.204-21 BASIC SAFEGUARDING OF COVERED CONTRACTOR INFORMATION SYSTEMS NOV/2021

(a) Definitions. As used in this clause--

"Covered contractor information system" means an information system that is owned or operated by a contractor that processes, stores, or transmits Federal contract information.

"Federal contract information" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government, but not including information provided by the Government to the public (such as on public Web sites) or simple transactional information, such as necessary to process payments.

"Information" means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

"Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information (44 U.S.C. 3502).

"Safeguarding" means measures or controls that are prescribed to protect information systems.

(b) Safeguarding requirements and procedures.

(1) The Contractor shall apply the following basic safeguarding requirements and procedures to protect covered contractor information systems. Requirements and procedures for basic safeguarding of covered contractor information systems shall include, at a minimum, the following security controls:

(i) Limit information system access to authorized users, processes acting on behalf of authorized users, or devices (including other information systems).

(ii) Limit information system access to the types of transactions and functions that authorized users are permitted to execute.

(iii) Verify and control/limit connections to and use of external information systems.

(iv) Control information posted or processed on publicly accessible information systems.

(v) Identify information system users, processes acting on behalf of users, or devices.

(vi) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational information systems.

(vii) Sanitize or destroy information system media containing Federal Contract Information before disposal or release for reuse.

(viii) Limit physical access to organizational information systems, equipment, and the respective operating environments to authorized individuals.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page162 of 201
----------------------------------	---	------------------------------

Name of Offeror or Contractor:

(ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.

(x) Monitor, control, and protect organizational communications (i.e., information transmitted or received by organizational information systems) at the external boundaries and key internal boundaries of the information systems.

(xi) Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.

(xii) Identify, report, and correct information and information system flaws in a timely manner.

(xiii) Provide protection from malicious code at appropriate locations within organizational information systems.

(xiv) Update malicious code protection mechanisms when new releases are available.

(xv) Perform periodic scans of the information system and real-time scans of files from external sources as files are downloaded, opened, or executed.

(2) Other requirements. This clause does not relieve the Contractor of any other specific safeguarding requirements specified by Federal agencies and departments relating to covered contractor information systems generally or other Federal safeguarding requirements for controlled unclassified information (CUI) as established by Executive Order 13556.

(c) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the acquisition of commercial products or commercial services, other than commercially available off-the-shelf items), in which the subcontractor may have Federal contract information residing in or transiting through its information system.

(End of clause)

I-198 52.204-25 PROHIBITION ON CONTRACTING FOR CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT NOV/2021

(a) Definitions. As used in this clause--

"Backhaul" means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

"Covered foreign country" means The Peoples Republic of China.

"Covered telecommunications equipment or services" means--

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

"Critical technology" means--

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page163 of 201
----------------------------------	---	-------------------------------------

Name of Offeror or Contractor:

proliferation, nuclear nonproliferation, or missile technology; or

- (ii) For reasons relating to regional stability or surreptitious listening;
- (3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);
- (4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);
- (5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or
- (6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

"Interconnection arrangements" means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (e.g., connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

"Reasonable inquiry" means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

"Roaming" means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

"Substantial or essential component" means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) Prohibition. (1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) Exceptions. This clause does not prohibit contractors from providing--

- (1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or
- (2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement. (1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at <https://dibnet.dod.mil> . For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at <https://dibnet.dod.mil> .

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause:

- (i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page164 of 201
--------------------	--	----------------

Name of Offeror or Contractor:

applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

I-199 52.204-27 Prohibition on a ByteDance Covered Application (Jun 2023) JUN/2023
(a) Definitions. As used in this clause

Covered application means the social networking service TikTok or any successor application or service developed or provided by ByteDance Limited or an entity owned by ByteDance Limited.

Information technology, as defined in 40 U.S.C. 11101(6)

(1) Means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency, if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency that requires the use

(i) Of that equipment; or

(ii) Of that equipment to a significant extent in the performance of a service or the furnishing of a product;

(2) Includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources; but

(3) Does not include any equipment acquired by a Federal contractor incidental to a Federal contract.

(b) Prohibition. Section 102 of Division R of the Consolidated Appropriations Act, 2023 (Pub. L. 117-328), the No TikTok on Government Devices Act, and its implementing guidance under Office of Management and Budget (OMB) Memorandum M-23-13, dated February 27, 2023, No TikTok on Government Devices Implementation Guidance, collectively prohibit the presence or use of a covered application on executive agency information technology, including certain equipment used by Federal contractors. The Contractor is prohibited from having or using a covered application on any information technology owned or managed by the Government, or on any information technology used or provided by the Contractor under this contract, including equipment provided by the Contractors employees; however, this prohibition does not apply if the Contracting Officer provides written notification to the Contractor that an exception has been granted in accordance with OMB Memorandum M-23-13.

(c) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

I-200 52.215-11 PRICE REDUCTION FOR DEFECTIVE CERTIFIED COST OR PRICING DATA-- OCT/2021
MODIFICATIONS (DEVIATION 2022-00001)

(a) This clause shall become operative only for any modification to this contract involving a pricing adjustment expected to exceed \$2 million on the date of execution of the modification, except that this clause does not apply to any modification if an exception under Federal Acquisition Regulation (FAR) 15.403-1(b) applies.

(b) If any price, including profit or fee, negotiated in connection with any modification under this clause, or any cost reimbursable under this contract, was increased by any significant amount because--

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page165 of 201
----------------------------------	--	-------------------------------------

Name of Offeror or Contractor:

(1) The Contractor or a subcontractor furnished certified cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data;

(2) A subcontractor or prospective subcontractor furnished the Contractor certified cost or pricing data that were not complete, accurate, and current as certified in the Contractors Certificate of Current Cost or Pricing Data; or

(3) Any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) of this clause.

(c) Any reduction in the contract price under paragraph (b) of this clause due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which--

- (1) The actual subcontract price; or
- (2) The actual cost to the Contractor, if there was no subcontract awarded, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective certified cost or pricing data.

(d)(1) If the Contracting Officer determines under paragraph (b) of this clause that a price or cost reduction should be made, the Contractor agrees not to raise the following matters as a defense:

- (i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the contract would not have been modified even if accurate, complete, and current certified cost or pricing data had been submitted.
- (ii) The Contracting Officer should have known that the certified cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the Contracting Officer.
- (iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under the contract.
- (iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

(2)(i) Except as prohibited by subdivision (d)(2)(ii) of this clause, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a contract price reduction if--

- (A) The Contractor certifies to the Contracting Officer that, to the best of the Contractors knowledge and belief, the Contractor is entitled to the offset in the amount requested; and
- (B) The Contractor proves that the certified cost or pricing data were available before the as of date specified on its Certificate of Current Cost or Pricing Data, and that the data were not submitted before such date.

- (ii) An offset shall not be allowed if--
 - (A) The understated data were known by the Contractor to be understated before the as of date specified on its Certificate of Current Cost or Pricing Data; or
 - (B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the available data had been submitted before the as of date specified on its Certificate of Current Cost or Pricing Data.

(e) If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall pay the United States at the time such overpayment is repaid

- (1) Interest compounded daily, as required by 26 U.S.C. 6622, on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Contractor at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and
- (2) A penalty equal to the amount of the overpayment, if the Contractor or subcontractor knowingly submitted certified cost or pricing data that were incomplete, inaccurate, or noncurrent.

(End of clause)

----------------------------------	---	------------------------------

Name of Offeror or Contractor:

I-201 52.215-19 NOTIFICATION OF OWNERSHIP CHANGES OCT/1997

- (a) The Contractor shall make the following notifications in writing:
- (1) When the Contractor becomes aware that a change in its ownership has occurred, or is certain to occur, that could result in changes in the valuation of its capitalized assets in the accounting records, the Contractor shall notify the Administrative Contracting Officer (ACO) within 30 days.
- (2) The Contractor shall also notify the ACO within 30 days whenever changes to asset valuations or any other cost changes have occurred or are certain to occur as a result of a change in ownership.
- (b) The Contractor shall --
- (1) Maintain current, accurate, and complete inventory records of assets and their costs;
- (2) Provide the ACO or designated representative ready access to the records upon request;
- (3) Ensure that all individual and grouped assets, their capitalized values, accumulated depreciation or amortization, and remaining useful lives are identified accurately before and after each of the Contractors ownership changes; and
- (4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.
- (c) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).
- (End of Clause)

I-202 52.219-4 NOTICE OF PRICE EVALUATION PREFERENCE FOR HUBZONE SMALL BUSINESS CONCERNS (OCT 2022) OCT/2022

- (a) Evaluation preference. (1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except-
- (i) Offers from HUBZone small business concerns that have not waived the evaluation preference; and
- (ii) Otherwise successful offers from small business concerns.
- (2) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor.
- (3) When the two highest rated offerors are a HUBZone small business concern and a large business, and the evaluated offer of the HUBZone small business concern is equal to the evaluated offer of the large business after considering the price evaluation preference, award will be made to the HUBZone small business concern.
- (b) Waiver of evaluation preference. A HUBZone small business concern may elect to waive the evaluation preference, in which case the factor will be added to its offer for evaluation purposes.
- ___ Offeror elects to waive the evaluation preference.
- (c) Joint venture. A HUBZone joint venture agrees that, in the performance of the contract, at least 40 percent of the aggregate work performed by the joint venture shall be completed by the HUBZone small business parties to the joint venture. Work performed by the HUBZone small business parties to the joint venture must be more than administrative functions.
- (End of clause)

I-203 52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REPRESENTATION (JAN 2025) JAN/2025

- (a) Definitions. As used in this clause
- Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 167 of 201 MOD/AMD
Name of Offeror or Contractor:		

Small business concern

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (d) of this clause.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) If the Contractor represented its status as any of the small business concerns identified at 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, for the NAICS code assigned to an order (except that paragraphs (c)(1) through (3) of this clause do not apply to an order issued under a Federal Supply Schedule contract at subpart 8.4)

(1) Set aside exclusively for a small business concern identified at 19.000(a)(3) that is issued under an unrestricted multiple-award contract, unless the order is issued under the reserved portion of an unrestricted multiple-award contract (e.g., an order set aside for a woman-owned small business under a multiple-award contract that is not set-aside, unless the order is issued under the reserved portion of the multiple-award contract);

(2) Issued under a multiple-award contract set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying multiple-award contract (e.g., an order set aside for a HUBZone small business concern under a multiple-award contract that is set aside for small businesses);

(3) Issued under the part of the multiple-award contract that is set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying set-aside part of the multiple-award contract (e.g., an order set aside for a WOSB concern under the part of the multiple-award contract that is partially set aside for small businesses); and

(4) When the Contracting Officer explicitly requires it for an order issued under a multiple-award contract, including for an order issued under a Federal Supply Schedule contract (see 8.405-5(b) and 19.301-2(b)(2)).

(d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards> .

(e) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(f) Except as provided in paragraph (h) of this clause, the Contractor shall make the representation(s) required by paragraph (b) and

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page168 of 201
--	--	--

Name of Offeror or Contractor:

(c) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, or with its offer for an order (see paragraph (c) of this clause), that the data have been validated or updated, and provide the date of the validation or update.

(g) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (f) or (h) of this clause.

(h) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

- (1) The Contractor represents that it __ is, __ is not a small business concern under NAICS Code ____ assigned to contract number ____.
- (2) [Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.] The Contractor represents that it __ is, __ is not, a small disadvantaged business concern as defined in 13 CFR 124.1001.
- (3) [Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.] The Contractor represents that it __ is, __ is not a women-owned small business concern.
- (4) Women-owned small business (WOSB) joint venture eligible under the WOSB Program. The Contractor represents that it __ is, __ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [The Contractor shall enter the name and unique entity identifier of each party to the joint venture: __.]
- (5) Economically disadvantaged women-owned small business (EDWOSB) joint venture. The Contractor represents that it __ is, __ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [The Contractor shall enter the name and unique entity identifier of each party to the joint venture: __ .]
- (6) [Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.] The Contractor represents that it __ is, __ is not a veteran-owned small business concern.
- (7) [Complete only if the Contractor represented itself as a veteran-owned small business concern in paragraph (h)(6) of this clause.] The Contractor represents that it __ is, __ is not a service-disabled veteran-owned small business concern.
- (8) Service-disabled veteran-owned small business (SDVOSB) joint venture eligible under the SDVOSB Program. The Contractor represents that it __ is, __ is not an SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. [The Contractor shall enter the name and unique entity identifier of each party to the joint venture: __.]
- (9) [Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.] The Contractor represents that
- (i) It __ is, __ is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration, and no material changes in ownership and control, principal office, or HUBZone employee percentage have occurred since it was certified in accordance with 13 CFR part 126; and
- (ii) It __ is, __ is not a HUBZone joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (h)(8)(i) of this clause is accurate for each HUBZone small business concern participating in the HUBZone joint venture. [The Contractor shall enter the names of each of the HUBZone small business concerns participating in the HUBZone joint venture: ____.] Each HUBZone small business concern participating in the HUBZone joint venture shall submit a separate signed copy of the HUBZone representation.
- [Contractor to sign and date and insert authorized signer's name and title._____]

(End of clause)

- (1) Israel, and the anticipated value of the acquisition is \$50,000 or more;
- (2) Mexico, and the anticipated value of the acquisition is \$102,280 or more; or

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page169 of 201
Name of Offeror or Contractor:		

(3) Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Japan, Korea, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan, Ukraine, or the United Kingdom and the anticipated value of the acquisition is \$174,000 or more.

(b) Cooperation with Authorities. To enforce the laws prohibiting the manufacture or importation of products mined, produced, or manufactured by forced or indentured child labor, authorized officials may need to conduct investigations to determine whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under this contract. If the solicitation includes the provision 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products, or the equivalent at 52.212-3(i), the Contractor agrees to cooperate fully with authorized officials of the contracting agency, the Department of the Treasury, or the Department of Justice by providing reasonable access to records, documents, persons, or premises upon reasonable request by the authorized officials.

(c) Violations. The Government may impose remedies set forth in paragraph (d) for the following violations:

(1) The Contractor has submitted a false certification regarding knowledge of the use of forced or indentured child labor for listed end products.

(2) The Contractor has failed to cooperate, if required, in accordance with paragraph (b) of this clause, with an investigation of the use of forced or indentured child labor by an Inspector General, Attorney General, or the Secretary of the Treasury.

(3) The Contractor uses forced or indentured child labor in its mining, production, or manufacturing processes.

(4) The Contractor has furnished under the contract end products or components that have been mined, produced, or manufactured wholly or in part by forced or indentured child labor. (The Government will not pursue remedies at paragraph (d)(2) or paragraph (d)(3) of this clause unless sufficient evidence indicates that the Contractor knew of the violation.)

(d) Remedies.

(1) The Contracting Officer may terminate the contract.

(2) The suspending and debarring official may suspend the Contractor in accordance with procedures in FAR subpart 9.4.

(3) The suspending and debarring official may debar the Contractor for a period not to exceed 3 years in accordance with the procedures in FAR subpart 9.4.

(End of clause)

I-205 52.222-35 EQUAL OPPORTUNITY FOR VETERANS JUN/2020
(a) Definitions. As used in this clause--

"Active duty wartime or campaign badge veteran," "Armed Forces service medal veteran," "disabled veteran," "protected veteran," "qualified disabled veteran," and "recently separated veteran" have the meanings given at Federal Acquisition Regulation (FAR) 22.1301.

(b) Equal opportunity clause. The Contractor shall abide by the requirements of the equal opportunity clause at 41 CFR 60-300.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified protected veterans, and requires affirmative action by the Contractor to employ and advance in employment qualified protected veterans.

(c) Subcontracts. The Contractor shall insert the terms of this clause in subcontracts valued at or above the threshold specified in FAR 22.1303(a) on the date of subcontract award, unless exempted by rules, regulations, or orders of the Secretary of Labor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate to identify properly the parties and their undertakings.

(End of clause)

I-206 52.222-36 EQUAL OPPORTUNITY FOR WORKERS WITH DISABILITIES JUN/2020
(a) Equal opportunity clause. The Contractor shall abide by the requirements of the equal opportunity clause at 41 CFR 60-741.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified individuals on the basis of disability, and requires affirmative action by the Contractor to employ and advance in employment qualified individuals with disabilities.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page170 of 201 MOD/AMD
Name of Offeror or Contractor:		

(b) Subcontracts. The Contractor shall include the terms of this clause in every subcontract or purchase order in excess of the threshold specified in Federal Acquisition Regulation (FAR) 22.1408(a) on the date of subcontract award, unless exempted by rules, regulations, or orders of the Secretary, so that such provisions will be binding upon each subcontractor or vendor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate to identify properly the parties and their undertakings.

(End of clause)

I-207 52.223-3 HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA (FEB 2021) FEB/2021

(a) Hazardous material, as used in this clause, includes any material defined as hazardous under the latest version of Federal Standard No. 313 (including revisions adopted during the term of the contract).

(b) The offeror must list any hazardous material, as defined in paragraph (a) of this clause, to be delivered under this contract. The hazardous material shall be properly identified and include any applicable identification number, such as National Stock Number or Special Item Number. This information shall also be included on the Material Safety Data Sheet submitted under this contract.

Material (if none, insert None)	Identification
No. _____	_____
_____	_____
_____	_____

(c) This list must be updated during performance of the contract whenever the Contractor determines that any other material to be delivered under this contract is hazardous.

(d) The apparently successful offeror agrees to submit, for each item as required prior to award, a Material Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous material identified in paragraph (b) of this clause. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(f) Neither the requirements of this clause nor any act or failure to act by the Government shall relieve the Contractor of any responsibility or liability for the safety of Government, Contractor, or subcontractor personnel or property.

(g) Nothing contained in this clause shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

(h) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:

(1) To use, duplicate and disclose any data to which this clause is applicable. The purposes of this right are to --

(i) Apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials;

(ii) Obtain medical treatment for those affected by the material; and

(iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (h)(1) of this clause, in precedence over any other clause of this contract providing for rights in data.

(3) The Government is not precluded from using similar or identical data acquired from other sources.

(End of Clause)

Name of Offeror or Contractor:

I-208 52.223-11 OZONE-DEPLETING SUBSTANCES AND HIGH GLOBAL WARMING POTENTIAL MAY/2024
HYDROFLUOROCARBONS (MAY 2024)

(a) Definitions. As used in this clause--

"Global warming potential" means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon dioxide's global warming potential is defined as 1.0.

"High global warming potential hydrofluorocarbons" means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables of alternatives available at <https://www.epa.gov/snap/> .

"Hydrofluorocarbons" means compounds that only contain hydrogen, fluorine, and carbon.

"Ozone-depleting substance" means any substance the Environmental Protection Agency designates in 40 CFR part 82 as--

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

(b) The Contractor shall label products that contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), (d), and (e) and 40 CFR part 82, subpart E, as follows:

Warning: Contains (or manufactured with, if applicable) *_____, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.

* The Contractor shall insert the name of the substance(s).

(c) The Contractor shall refer to EPA's SNAP program to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables available at <https://www.epa.gov/snap/> .

(End of clause)

I-209 52.234-1 INDUSTRIAL RESOURCES DEVELOPED UNDER DEFENSE PRODUCTION ACT TITLE III SEP/2016

(a) Definitions. Title III industrial resource means materials, services, processes, or manufacturing equipment (including the processes, technologies, and ancillary services for the use of such equipment) established or maintained under the authority of Title III, Defense Production Act (50 U.S.C. App. 2091-2093).

Title III project contractor means a contractor that has received assistance for the development or manufacture of an industrial resource under Title III of Defense Production Act (50 U.S.C. App. 2091-2093).

(b) The Contractor shall refer any request from a Title III project contractor for testing and qualification of a Title III industrial resource to the Contracting Officer.

(c) Upon the direction of the Contracting Officer, the Contractor shall test Title III industrial resources for qualification. The Contractor shall provide the test results to the Defense Production Act Office, Title III Program, located at Wright Patterson Air Force Base, Ohio 45433-7739.

(d) When the Contracting Officer modifies the contract to direct testing pursuant to this clause, the Government will provide the Title III industrial resource to be tested and will make an equitable adjustment in the contract for the costs of testing and qualification of the Title III industrial resource.

(e) The Contractor agrees to insert the substance of this clause, including paragraph (e), in every subcontract issued in performance of this contract.

I-211 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES NOV/2020

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any DoD Federal Acquisition Regulation Supplement (48 CFR Chapter 2) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of Clause)

I-212 252.223-7001 HAZARD WARNING LABELS DEC/1991

(a) Hazardous material, as used in this clause, is defined in the Hazardous Material Identification and Material Safety Data clause of this contract.

(b) The Contractor shall label the item package (unit container) of any hazardous material to be delivered under this contract in accordance with the Hazard Communication Standard (29 CFR 1910.1200 et seq). The Standard requires that the hazard warning label conform to the requirements of the standard unless the material is otherwise subject to the labeling requirements of one of the following statutes:

(1) Federal Insecticide, Fungicide and Rodenticide Act;

(2) Federal Food, Drug and Cosmetics Act;

(3) Consumer Product Safety Act;

(4) Federal Hazardous Substances Act; or

(5) Federal Alcohol Administration Act.

(c) The Offeror shall list which hazardous material listed in the Hazardous Material Identification and Material Safety Data clause of this contract will be labeled in accordance with one of the Acts in paragraphs (b)(1) through (5) of this clause instead of the Hazard Communication Standard. Any hazardous material not listed will be interpreted to mean that a label is required in accordance with the Hazard Communication Standard.

MATERIAL (If None, Insert None.)	ACT
_____	_____
_____	_____
_____	_____

(d) The apparently successful Offeror agrees to submit, before award, a copy of the hazard warning label for all hazardous materials not listed in paragraph (c) of this clause. The Offeror shall submit the label with the Material Safety Data Sheet being furnished under the Hazardous Material Identification and Material Safety Data clause of this contract.

(e) The Contractor shall also comply with MIL-STD-129, Marking for Shipment and Storage (including revisions adopted during the term of this contract).

Name of Offeror or Contractor:

(End of clause)

I-213 252.223-7999 ENSURING ADEQUATE COVID-19 SAFETY PROTOCOLS FOR FEDERAL CONTRACTORS OCT/2021
(DEVIATION 2021-00009)

(a) Definition. As used in this clause--

"United States or its outlying areas" means--

- (1) The fifty States;
- (2) The District of Columbia;
- (3) The commonwealths of Puerto Rico and the Northern Mariana Islands;
- (4) The territories of American Samoa, Guam, and the United States Virgin Islands; and
- (5) The minor outlying islands of Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Islands, Navassa Island, Palmyra Atoll, and Wake Atoll.

(b) Authority. This clause implements Executive Order 14042, Ensuring Adequate COVID Safety Protocols for Federal Contractors, dated September 9, 2021 (published in the Federal Register on September 14, 2021, 86 FR 50985).

(c) Compliance. The Contractor shall comply with all guidance, including guidance conveyed through Frequently Asked Questions, as amended during the performance of this contract, for contractor or subcontractor workplace locations published by the Safer Federal Workforce Task Force (Task Force Guidance) at <https://www.saferfederalworkforce.gov/contractors/>.

(d) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (d), in subcontracts at any tier that exceed the simplified acquisition threshold, as defined in Federal Acquisition Regulation 2.101 on the date of subcontract award, and are for services, including construction, performed in whole or in part within the United States or its outlying areas.

(End of clause)

I-214 252.225-7013 DUTY-FREE ENTRY NOV/2023
(a) Definitions. As used in this clause--

"Component," means any item supplied to the Government as part of an end product or of another component.

"Customs territory of the United States" means the 50 States, the District of Columbia, and Puerto Rico.

"Eligible product" means--

- (1) Designated country end product, as defined in the Trade Agreements (either basic or alternate) clause of this contract;
- (2) Free Trade Agreement country end product, other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, as defined in the Buy American--Free Trade Agreements--Balance of Payments Program (either basic or alternate II) clause of this contract; or
- (3) Free Trade Agreement country end product other than a Bahraini end product, Korean end product, Moroccan end product, Panamanian end product, or Peruvian end product, as defined in the Buy American--Free Trade Agreements--Balance of Payments Program (either alternate IV or alternate V) clause of this contract.

"Qualifying country" and "qualifying country end product" have the meanings given in the Trade Agreements clause, the Buy American and Balance of Payments Program clause, or the Buy AmericanFree Trade AgreementsBalance of Payments Program clause of this contract, basic or alternate.

(b) Except as provided in paragraph (i) of this clause, or unless supplies were imported into the customs territory of the United States before the date of this contract or the applicable subcontract, the price of this contract shall not include any amount for duty on--

----------------------------------	--	-------------------------------------

Name of Offeror or Contractor:

- (1) End items that are eligible products or qualifying country end products;
- (2) Components (including, without limitation, raw materials and intermediate assemblies) produced or made in qualifying countries, that are to be incorporated in U.S.- made end products to be delivered under this contract; or
- (3) Other supplies for which the Contractor estimates that duty will exceed \$300 per shipment into the customs territory of the United States.
- (c) The Contractor shall--
 - (1) Claim duty-free entry only for supplies that the Contractor intends to deliver to the Government under this contract, either as end items or components of end items; and
 - (2) Pay duty on supplies, or any portion thereof, that are diverted to nongovernmental use, other than--
 - (i) Scrap or salvage; or
 - (ii) Competitive sale made, directed, or authorized by the Contracting Officer.
- (d) Except as the Contractor may otherwise agree, the Government will execute duty-free entry certificates and will afford such assistance as appropriate to obtain the duty-free entry of supplies--
 - (1) For which no duty is included in the contract price in accordance with paragraph (b) of this clause; and
 - (2) For which shipping documents bear the notation specified in paragraph (e) of this clause.
- (e) For foreign supplies for which the Government will issue duty-free entry certificates in accordance with this clause, shipping documents submitted to Customs shall--
 - (1) Consign the shipments to the appropriate--
 - (i) Military department in care of the Contractor, including the Contractor's delivery address; or
 - (ii) Military installation; and
 - (2) Include the following information:
 - (i) Prime contract number and, if applicable, delivery order number.
 - (ii) Number of the subcontract for foreign supplies, if applicable.
 - (iii) Identification of the carrier.
 - (iv)(A) For direct shipments to a U.S. military installation, the notation: UNITED STATES GOVERNMENT, DEPARTMENT OF DEFENSE Duty-Free Entry to be claimed pursuant to Section XXII, Chapter 98, Subchapter VIII, Item 9808.00.30 of the Harmonized Tariff Schedule of the United States. Upon arrival of shipment at the appropriate port of entry, District Director of Customs, please release shipment under 19 CFR part 142 and notify Commander, Defense Contract Management Agency (DCMA), St. Louis, MO, ATTN: Duty Free Entry Team, 1222 Spruce Street, Room 9.300, St. Louis, MO 63103-2812, for execution of Customs Form 7501, 7501A, or 7506 and any required duty-free entry certificates.
 - (B) If the shipment will be consigned to other than a military installation, e.g., a domestic contractor's plant, the shipping document notation shall be altered to include the name and address of the contractor, agent, or broker who will notify Commander, DCMA New York, for execution of the duty-free entry certificate. (If the shipment will be consigned to a contractors plant and no duty-free entry certificate is required due to a trade agreement, the Contractor shall claim duty-free entry under the applicable trade agreement and shall comply with the U.S. Customs Service requirements. No notification to Commander, DCMA New York, is required.)
 - (v) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight).
 - (vi) Estimated value in U.S. dollars.
 - (vii) Activity address number of the contract administration office administering the prime contract, e.g., for DCMA Dayton, S3605A.
- (f) Preparation of customs forms.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page175 of 201
----------------------------------	---	-------------------------------------

Name of Offeror or Contractor:

- (1)(i) Except for shipments consigned to a military installation, the Contractor shall--
- (A) Prepare any customs forms required for the entry of foreign supplies into the customs territory of the United States in connection with this contract; and
- (B) Submit the completed customs forms to the District Director of Customs, with a copy to DCMA NY for execution of any required duty-free entry certificates.
- (ii) Shipments consigned directly to a military installation will be released in accordance with sections 10.101 and 10.102 of the U.S. Customs regulations.
- (2) For shipments containing both supplies that are to be accorded duty-free entry and supplies that are not, the Contractor shall identify on the customs forms those items that are eligible for duty-free entry.
- (g) The Contractor shall--
- (1) Prepare (if the Contractor is a foreign supplier), or shall instruct the foreign supplier to prepare, a sufficient number of copies of the bill of lading (or other shipping document) so that at least two of the copies accompanying the shipment will be available for use by the District Director of Customs at the port of entry;
- (2) Consign the shipment as specified in paragraph (e) of this clause; and
- (3) Mark on the exterior of all packages--
- (i) "UNITED STATES GOVERNMENT, DEPARTMENT OF DEFENSE"; and
- (ii) The activity address number of the contract administration office administering the prime contract.
- (h) The Contractor shall notify the Administrative Contracting Officer (ACO) in writing of any purchase of eligible products or qualifying country supplies to be accorded duty-free entry, that are to be imported into the customs territory of the United States for delivery to the Government or for incorporation in end items to be delivered to the Government. The Contractor shall furnish the notice to the ACO immediately upon award to the supplier and shall include in the notice--
- (1) The Contractors name, address, and Commercial and Government Entity (CAGE) code;
- (2) Prime contract number and, if applicable, delivery order number;
- (3) Total dollar value of the prime contract or delivery order;
- (4) Date of the last scheduled delivery under the prime contract or delivery order;
- (5) Foreign supplier's name and address;
- (6) Number of the subcontract for foreign supplies;
- (7) Total dollar value of the subcontract for foreign supplies;
- (8) Date of the last scheduled delivery under the subcontract for foreign supplies;
- (9) List of items purchased;
- (10) An agreement that the Contractor will pay duty on supplies, or any portion thereof, that are diverted to nongovernmental use other than--
- (i) Scrap or salvage; or
- (ii) Competitive sale made, directed, or authorized by the Contracting Officer;
- (11) Country of origin; and
- (12) Scheduled delivery date(s).
- (i) This clause does not apply to purchases of eligible products or qualifying country supplies in connection with this contract if--

Name of Offeror or Contractor:

- (1) The supplies are identical in nature to supplies purchased by the Contractor or any subcontractor in connection with its commercial business; and
- (2) It is not economical or feasible to account for such supplies so as to ensure that the amount of the supplies for which duty-free entry is claimed does not exceed the amount purchased in connection with this contract.
- (j) Subcontracts. The Contractor shall--
- (1) Insert the substance of this clause, including this paragraph (j), in all subcontracts for--
- (i) Qualifying country components; or
- (ii) Nonqualifying country components for which the Contractor estimates that duty will exceed \$200 per unit;
- (2) Require subcontractors to include the number of this contract on all shipping documents submitted to Customs for supplies for which duty-free entry is claimed pursuant to this clause; and
- (3) Include in applicable subcontracts--
- (i) The name and address of the ACO for this contract;
- (ii) The name, address, and activity address number of the contract administration office specified in this contract; and
- (iii) The information required by paragraphs (h)(1), (2), and (3) of this clause.

(End of clause)

I-215 252.225-7021 TRADE AGREEMENTS -BASIC (FEB 2024) FEB/2024

(a) Definitions.As used in this clause

Caribbean Basin country end product

- (1) Means an article that
- (i) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or
- (ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself; and
- (2) Excludes products, other than petroleum and any product derived from petroleum, that are not granted duty-free treatment under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of
- (i) Textiles, apparel articles, footwear, handbags, luggage, flat goods, work gloves, leather wearing apparel, and handloomed, handmade, or folklore articles that are not granted duty-free status in the Harmonized Tariff Schedule of the United States (HTSUS);
- (ii) Tuna, prepared or preserved in any manner in airtight containers; and
- (iii) Watches and watch parts (including cases, bracelets, and straps) of whatever type, including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the HTSUS column 2 rates of duty (HTSUS General Note 3(b)) apply.

Commercially available off-the-shelf (COTS) item

- (1) Means any item of supply (including construction material) that is
- (i) A commercial product (as defined in paragraph (1) of the definition of commercial product in section 2.101 of the Federal Acquisition Regulation);
- (ii) Sold in substantial quantities in the commercial marketplace; and

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page177 of 201
----------------------------------	---	------------------------------

Name of Offeror or Contractor:

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

Component means an article, material, or supply incorporated directly into an end product.

Designated country means

- (1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu (Chinese Taipei)), Ukraine, or the United Kingdom);
- (2) A Free Trade Agreement country (Australia, Bahrain,Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);
- (3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or
- (4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

Designated country end product means a WTO GPA country end product, a Free Trade Agreement country end product, a least developed country end product, or a Caribbean Basin country end product.

End product means those articles, materials, and supplies to be acquired under this contract for public use.

Free Trade Agreement country end product means an article that

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Least developed country end product means an article that

- (1) Is wholly the growth, product, or manufacture of a least developed country; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Nondesignated country end product means any end product that is not a U.S.-made end product or a designated country end product.

Qualifying country means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia

Austria

PIIN/SIIN	MOD/AMD	
Name of Offeror or Contractor:		

Belgium

Canada

Czech Republic

Denmark

Egypt

Estonia

Finland

France

Germany

Greece

Israel

Italy

Japan

Latvia

Lithuania

Luxembourg

Netherlands

Norway

Poland

Portugal

Slovenia

Spain

Sweden

Switzerland

Turkey

United Kingdom of Great Britain and Northern Ireland.

Qualifying country end product means

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(ii) The end product is a COTS item.

United States means the 50 States, the District of Columbia, and outlying areas.

U.S.-made end product means an article that

(1) Is mined, produced, or manufactured in the United States; or

(2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

WTO GPA country end product means an article that

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only U.S.-made, qualifying country, or designated country end products unless

(1) In its offer, the Contractor specified delivery of other nondesignated country end products in the Trade Agreements Certificate provision of the solicitation; and

(2)(i) Offers of U.S.-made, qualifying country, or designated country end products from responsive, responsible offerors are either not received or are insufficient to fill the Governments requirements; or

(ii) A national interest waiver has been granted.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(e) The HTSUS is available at <http://www.usitc.gov/tata/hts/bychapter/index.htm> . The following sections of the HTSUS provide information regarding duty-free status of articles specified in the definition of Caribbean Basic country end product within paragraph (a) of this clause:

(1) General Note 3(c), Products Eligible for Special Tariff Treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries Under the United States Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits Under the United States Caribbean Basin Trade Partnership Act.

(End of clause)

CONTINUATION SHEET	Reference No. of Document Being Continued	Page180 of 201
	W912CH-25-R-0022	
PIIN/SIIN	MOD/AMD	
Name of Offeror or Contractor:		

Bahraini end product means an article that

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Commercially available off-the-shelf (COTS) item

(1) Means any item of supply (including construction material) that is

(i) A commercial product (as defined in paragraph (1) of the definition of commercial product in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

Component means an article, material, or supply incorporated directly into an end product.

Critical component means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

Critical item means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

Domestic end product means

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both

Name of Offeror or Contractor:

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

End product means those articles, materials, and supplies to be acquired under this contract for public use.

Foreign end product means an end product other than a domestic end product.

Free Trade Agreement country means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

Free Trade Agreement country end product means an article that

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 182 of 201 MOD/AMD
Name of Offeror or Contractor:		

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Moroccan end product means an article that

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Panamanian end product means an article that

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Peruvian end product means an article that

(1) Is wholly the growth, product, or manufacture of Peru ; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

United States means the 50 States, the District of Columbia, and outlying areas.

- (b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy AmericanFree Trade AgreementsBalance of Payments Program CertificateBasic provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, or, at the Contractors option, a domestic end product.

Name of Offeror or Contractor:			

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

I-217	252.225-7972	PROHIBITION ON THE PROCUREMENT OF FOREIGN-MADE UNMANNED AIRCRAFT SYSTEMS (DEVIATION 2024-00014)	AUG/2024
-------	--------------	---	----------

(a) Definition. As used in this clause
Covered foreign country means any of the following:
(1) The Peoples Republic of China.
(2) The Russian Federation.
(3) The Islamic Republic of Iran.
(4) The Democratic Peoples Republic of Korea.
(b) Prohibition. In accordance with section 848 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020 and section 817 of the NDAA for FY 2023, the Contractor shall not
(1) Provide or use an unmanned aircraft system (UAS), or any related services or equipment, that
(i) Is manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;
(ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;
(iii) Uses a ground control system or operating software developed in a covered foreign country, or by an entity domiciled in a covered foreign country; or
(iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, a covered foreign country;
(2) Provide or use a system for the detection or identification of a UAS, or any related services or equipment, that is manufactured in a covered foreign country or by an entity domiciled in a covered foreign country; or
(3) On or after October 1, 2024, be an entity that operates equipment, as determined by the Secretary of Defense, from
(i) Da-Jiang Innovations, or any subsidiary or affiliate of Da-Jiang Innovations;
(ii) Any entity that produces or provides unmanned aircraft systems and is included on the Consolidated Screening List maintained by the International Trade Administration of the Department of Commerce (<https://www.trade.gov/consolidated-screening-list>); or
(iii) Any entity that produces or provides unmanned aircraft systems and
(A) Is domiciled in a covered foreign country; or
(B) Is subject to unmitigated foreign ownership, control, or influence by a covered foreign country, as determined by the Secretary of Defense in accordance with the National Industrial Security Program.
(c) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts or other contractual instruments, including subcontracts for the acquisition of commercial products and commercial services.

(End of clause)

(a)(1) The North American Industry Classification System (NAICS) codes and corresponding size standards for this acquisition are as follows; the categories or portions these NAICS codes are assigned to are specified elsewhere in the solicitation:

NAICS Code	Size standard

[Contracting Officer to insert NAICS codes and size standards].

(2) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce, (i.e., nonmanufacturer), is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition

- (i) Is set aside for small business and has a value above the simplified acquisition threshold;
- (ii) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (iii) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b)

(1) If the provision at 52.204-7, System for Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at 52.204-7, System for Award Management, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

___ (i) Paragraph (d) applies.

___ (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c)

(1) The following representations or certifications in SAM are applicable to this solicitation as indicated:

(i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless

(A) The acquisition is to be made under the simplified acquisition procedures in part 13;

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) 52.203-18, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements-Representation. This provision applies to all solicitations.

(iv) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the provision at 52.204-7, System for Award Management.

(v) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that-

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(vi) 52.204-26, Covered Telecommunications Equipment or Services-Representation. This provision applies to all solicitations.

(vii) 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations-Representation.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page190 of 201
Name of Offeror or Contractor:		

(viii) 52.209-5, Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(ix) 52.209-11, Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law. This provision applies to all solicitations.

(x) 52.214-14, Place of Performance-Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.

(xi) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

(xii) 52.219-1, Small Business Program Representations (Basic, Alternates I, and II). This provision applies to solicitations when the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or when the contracting officer has applied part 19 in accordance with 19.000(b)(1)(ii).

(A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.

(B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.

(C) The provision with its Alternate II applies to solicitations that will result in a multiple-award contract with more than one NAICS code assigned.

(xiii) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or when the contracting officer has applied part 19 in accordance with 19.000(b)(1)(ii).

(xiv) [Reserved].

(xv) [Reserved].

(xvi) 52.222-38, Compliance with Veterans Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial products or commercial services.

(xvii) 52.223-1, Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of biobased products in USDA-designated product categories; or include the clause at 52.223-2, Reporting of Biobased Products Under Service and Construction Contracts.

(xviii) 52.223-4, Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA-designated items.

(xix) [Reserved]

(xx) 52.225-2, Buy American Certificate. This provision applies to solicitations containing the clause at 52.225-1.

(xxi) 52.225-4, Buy American-Free Trade Agreements-Israeli Trade Act Certificate. (Basic, Alternates II and III.) This provision applies to solicitations containing the clause at 52.225-3.

(A) If the acquisition value is less than \$50,000, the basic provision applies.

(B) If the acquisition value is \$50,000 or more but is less than \$100,000, the provision with its Alternate II applies.

(C) If the acquisition value is \$100,000 or more but is less than \$102,280, the provision with its Alternate III applies.

(xxii) 52.225-6, Trade Agreements Certificate. This provision applies to solicitations containing the clause at 52.225-5.

(xxiii) 52.225-20, Prohibition on Conducting Restricted Business Operations in Sudan-Certification. This provision applies to all solicitations.

(xxiv) 52.225-25, Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran-Representation and Certifications. This provision applies to all solicitations.

(xxv) 52.226-2, Historically Black College or University and Minority Institution Representation. This provision applies to

Name of Offeror or Contractor:

solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

(2) The following representations or certifications are applicable as indicated by the Contracting Officer:

[Contracting Officer check as appropriate.]

- ___ (i) 52.204-17, Ownership or Control of Offeror.
- ___ (ii) 52.204-20, Predecessor of Offeror.
- ___ (iii) 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products.
- ___ (iv) 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment- Certification.
- ___ (v) 52.222-52, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services-Certification.
- ___ (vi) 52.223-9, with its Alternate I, Estimate of Percentage of Recovered Material Content for EPADesignated Products (Alternate I only).
- ___ (vii) 52.227-6, Royalty Information.
- ___ (A) Basic.
- ___ (B) Alternate I.
- ___ (viii) 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.

(d) The offeror has completed the annual representations and certifications electronically in SAM website accessed through <https://www.sam.gov> . After reviewing the SAM information, the offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below [offeror to insert changes, identifying change by clause number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR Clause # Title Date Change

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on SAM.

(End of provision)

Alternate I (Mar 2023). As prescribed in 4.1202(a) , substitute the following paragraph (a) for paragraph (a) of the basic provision:

(a)(1) The North American Industry Classification System (NAICS) codes and corresponding size standards for this acquisition are as follows; the categories or portions these NAICS codes are assigned to are specified elsewhere in the solicitation:

NAICS Code	Size standard

[Contracting Officer to insert NAICS codes and size standards].

(2) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce, (i.e., nonmanufacturer), is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition

K-12 252.204-7007 ALTERNATE A, ANNUAL REPRESENTATIONS AND CERTIFICATIONS NOV/2023
Substitute the following paragraphs (b), (d), and (e) for paragraphs (b) and (d) of the provision at FAR 52.204-8:

- (b)(1) If the provision at FAR 52.204-7, System for Award Management, is included in this solicitation, paragraph (e) of this provision applies.
- (2) If the provision at FAR 52.204-7, System for Award Management, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (e) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

- ☐ (i) Paragraph (e) applies.
- ☐ (ii) Paragraph (e) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

- (d)(1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:
 - (i) 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation. Applies to all solicitations.
 - (ii) 252.216-7008, Economic Price Adjustment-Wage Rates or Material Prices Controlled by a Foreign Government. Applies to solicitations for fixed-price supply and service contracts when the contract is to be performed wholly or in part in a foreign country, and a foreign government controls wage rates or material prices and may during contract performance impose a mandatory change in wages or prices of materials.
 - (iii) 252.225-7042, Authorization to Perform. Applies to all solicitations when performance will be wholly or in part in a foreign country.
 - (iv) 252.225-7049, Prohibition on Acquisition of Certain Foreign Commercial Satellite Services--Representations. Applies to solicitations for the acquisition of commercial satellite services.
 - (v) 252.225-7050, Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism. Applies to all solicitations expected to result in contracts of \$150,000 or more.
 - (vi) 252.229-7012, Tax Exemptions (Italy)--Representation. Applies to solicitations and contracts when contract performance will be in Italy.
 - (vii) 252.229-7013, Tax Exemptions (Spain)--Representation. Applies to solicitations and contracts when contract performance will be in Spain.
 - (viii) 252.247-7022, Representation of Extent of Transportation by Sea. Applies to all solicitations except those for direct purchase of ocean transportation services or those with an anticipated value at or below the simplified acquisition threshold.

- (2) The following representations or certifications in SAM are applicable to this solicitation as indicated by the Contracting Officer:
 - ☐ (i) 252.209-7002, Disclosure of Ownership or Control by a Foreign Government.
 - ☐ (ii) 252.225-7000, Buy American--Balance of Payments Program Certificate.
 - ☐ (iii) 252.225-7020, Trade Agreements Certificate.

(End of provision)

K-13	52.204-24	REPRESENTATION REGARDING CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT	NOV/2021
------	-----------	---	----------

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services--Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Products and Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in the provision at 52.204-26, Covered Telecommunications Equipment or Services--Representation, or in paragraph (v) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items.

(a) Definitions. As used in this provision--

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 194 of 201
Name of Offeror or Contractor:		

(b) Prohibition. (1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services."

(d) Representations. The Offeror represents that--

(1) It [] will, [] will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that--

It [] does, [] does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) Disclosures. (1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment--

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services--

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 195 of 201 MOD/AMD
Name of Offeror or Contractor:		

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

- (i) For covered equipment--
 - (A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);
 - (B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and
 - (C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.
- (ii) For covered services--
 - (A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or
 - (B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(End of provision)

K-14 52.209-7 INFORMATION REGARDING RESPONSIBILITY MATTERS OCT/2018
(a) Definitions. As used in this provision--

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than \$10,000,000 means--

- (1) The total value of all current, active contracts and grants, including all priced options; and
- (2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

- (b) The offeror [] has [] does not have current active Federal contracts and grants with total value greater than \$10,000,000.
- (c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:
 - (1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:
 - (i) In a criminal proceeding, a conviction.
 - (ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.
 - (iii) In an administrative proceeding, a finding of fault and liability that results in--

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page196 of 201
--------------------	--	----------------

Name of Offeror or Contractor:

- (A) The payment of a monetary fine or penalty of \$5,000 or more; or
- (B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.
- (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.
- (2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.
- (d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via <https://www.sam.gov> .
- (End of provision)

- K-15 52.209-13 VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS--CERTIFICATION NOV/2021
- (a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined at FAR 2.101.
- (b) Certification. [Offeror shall check either (1) or (2).]
- ___ (1) The Offeror certifies that--
- (i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/> ; and
- (ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/> ; or
- ___ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.
- (c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.
- (1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.
- (2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:
- (i) An inability to certify compliance.
- (ii) An inability to conclude compliance.
- (iii) A statement about compliance concerns.

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN	Page 197 of 201 MOD/AMD
---------------------------	--	---

Name of Offeror or Contractor:

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless--

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has--

(i) Waived application under U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C.2593e(b).

(e) Remedies. The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(End of provision)

K-16 52.229-11 TAX ON CERTAIN FOREIGN PROCUREMENTS--NOTICE AND REPRESENTATION JUN/2020
(a) Definitions. As used in this provision--

"Foreign person" means any person other than a United States person.

"Specified Federal procurement payment" means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

"United States person as defined in 26 U.S.C. 7701(a)(30) means--

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if--

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14 . Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page198 of 201
---	--	---

Name of Offeror or Contractor:

the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that--

- (1) It [] is [] is not a foreign person; and
 - (2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that--I am claiming on the IRS Form W-14 [] a full exemption, or [] partial or no exemption [Offeror shall select one] from the excise tax.
- (e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then--
- (1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and
 - (2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.
- (f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.
- (g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions> .

(End of provision)

K-17 252.204-7017 PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES--REPRESENTATION MAY/2021

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

- (a) Definitions. Covered defense telecommunications equipment or services, covered mission, critical technology, and substantial or essential component, as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.
- (b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.
- (c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.
- (d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:
- The Offeror represents that it [] will [] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.
- (e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:
- (1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

Name of Offeror or Contractor:

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

K-18252.225-7020TRADE AGREEMENTS CERTIFICATE--BASICNOV/2014

(a) Definitions. Designated country end product, nondesignated country end product, qualifying country end product, and U.S.-made end product as used in this provision have the meanings given in the Trade Agreements--Basic clause of this solicitation.

(b) Evaluation. The Government

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will consider only offers of end products that are U.S.-made, qualifying country, or designated country end products unless

- (i) There are no offers of such end products;
- (ii) The offers of such end products are insufficient to fulfill the Governments requirements; or
- (iii) A national interest waiver has been granted.

(c) Certification and identification of country of origin.

(1) For all line items subject to the Trade Agreements--Basic clause of this solicitation, the offeror certifies that each end product to be delivered under this contract, except those listed in paragraph (c)(2) of this provision, is a U.S.-made, qualifying country, or designated country end product.

(2) The following supplies are other nondesignated country end products:

(Line Item Number)	(Country of Origin)

(End of provision)

K-19252.225-7035BUY AMERICAN--FREE TRADE AGREEMENTS--BALANCE OF PAYMENTS PROGRAMFEB/2024
CERTIFICATE--BASIC (FEB 2024)

(a) Definitions. Bahraini end product, commercially available off-the-shelf (COTS) item, component, critical component, critical item, domestic end product, Free Trade Agreement country, Free Trade Agreement country end product, foreign end product, Moroccan end product, Panamanian end product, Peruvian end product, qualifying country end product, and United States, as used in this provision, have the meanings given in the 252.225-7036, Buy AmericanFree Trade AgreementsBalance of Payments ProgramBasic clause of this solicitation.

(b) Evaluation. The Government--

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to the Buy AmericanFree Trade AgreementsBalance of Payments ProgramBasic clause of this solicitation, will evaluate offers of qualifying country end products or Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

(c) Certifications and identification of country of origin.

(1) For all line items subject to the Buy AmericanFree Trade AgreementsBalance of Payments ProgramBasic clause of this solicitation, the Offeror certifies that

- (i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product;
- (ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and
- (iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

- (i) The Offeror certifies that the following supplies are qualifying country (except Australian) end products:

(Line Item Number)	(Country of Origin)

- (ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products:

(Line Item Number)	(Country of Origin)

- (iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select no.

Line Item Number f known)	Country of Origin (yes/no)	Exceeds 55% Domestic Content	(I

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: [List as Necessary]

(End of provision)

CONTINUATION SHEET	Reference No. of Document Being Continued W912CH-25-R-0022 PIIN/SIIN MOD/AMD	Page 201 of 201
--------------------	--	-----------------

Name of Offeror or Contractor:

(b) Prohibition. Section 848 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020 (Pub. L. 116-92) and section 817 of the NDAA for FY 2023 (Pub. L. 117-263) prohibit DoD from

(1) Using or procuring an unmanned aircraft system (UAS), or any related services or equipment, that

(i) Is manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;

(ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;

(iii) Uses a ground control system or operating software developed in a covered foreign country, or by an entity domiciled in a covered foreign country; or

(iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, a covered foreign country;

(2) Using or procuring a system for the detection or identification of a UAS, or any related services or equipment, that is manufactured in a covered foreign country or by an entity domiciled in a covered foreign country; or

(3) On or after October 1, 2024, entering into or renewing a contract with an entity that operates, as determined by the Secretary of Defense, equipment from

(i) Da-Jiang Innovations (or any subsidiary or affiliate of Da-Jiang Innovations);

(ii) Any entity that produces or provides unmanned aircraft systems and is included on the Consolidated Screening List maintained by the International Trade Administration of the Department of Commerce (<https://www.trade.gov/consolidated-%20screening-list>); or

(iii) Any entity that produces or provides unmanned aircraft systems and

(A) Is domiciled in a covered foreign country; or

(B) Is subject to unmitigated foreign ownership, control, or influence by a covered foreign country, as determined by the Secretary of Defense in accordance with the National Industrial Security Program.

(c) Representations.

(1) By submission of its offer, the Offeror represents that

(i) It will not provide or use a UAS, as described in paragraph (b)(1) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation; and

(ii) It will not provide or use a system for the detection or identification of a UAS, as described in paragraph (b)(2) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation.

(2) It is not an entity described in paragraph (b)(3) of this provision.

(End of provision)

K-21	252.239-7098	PROHIBITION ON CONTRACTING TO MAINTAIN OR ESTABLISH A COMPUTER NETWORK UNLESS SUCH NETWORK IS DESIGNED TO BLOCK ACCESS TO CERTAIN WEBSITES--REPRESENTATION (DEVIATION 2021-00003)	APR/2021
------	--------------	---	----------

(a) In accordance with section 8116 of Division C of the Consolidated Appropriations Act, 2021 (Pub. L. 116-260), or any other Act that extends to fiscal year 2021 funds the same prohibitions, none of the funds appropriated (or otherwise made available) by this or any other Act for DoD may be used to enter into a contract to maintain or establish a computer network unless such network is designed to block access to pornography websites. This prohibition does not limit the use of funds necessary for any Federal, State, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities, or for any activity necessary for the national defense, including intelligence activities.

(b) Representation. By submission of its offer, the Offeror represents that it is not providing as part of its offer a proposal to maintain or establish a computer network unless such network is designed to block access to pornography websites.
