

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information		
Contracting Activity: 71FTW/CONF		
Project/Program Name UFR: CASS Dryer Repairs /Maintenance		
Purchase Request/Identification Number:		
Estimated Contract Cost (including Options): \$75,025		
Section B: Description of the Supplies/Services Required		
Kaeser Compressors, Inc will be replacing all required filters, parts and providing maintenance and repairs to our CASS Dryer machine. These repairs and maintenance needed are outlined in Quote #87204184 and includes all 5-year service repairs currently needed. This machine is currently operational, but the valves get stuck, and it could cause it to be non-operational if not repaired in a timely manner. If the machine is not repaired in a timely manner and became non-operational, this could result in condensation getting into the T-38 engines upon starting them with the CASS system or not being able to use the system to start T-38 engines at all. The service will include all parts, labor and mileage necessary to repair our CASS Dryer machine.		
Section C: Justification for Soliciting from a Single Source		
Kaeser Compressors, Inc is the manufacturer of our CASS Dryer machine and is the only vendor who produces the parts needed for the machine. As such, they are the only source who can provide the parts needed to perform the maintenance on this machine. No other vendors other than Kaeser Compressors Inc. can maintain and service this equipment because they are not familiar with the equipment and do not have the parts.		
Section D: Efforts to Obtain Competition		
Only Kaeser Compressors, Inc will be able to provide this service as the parts and filters can only be obtained through this company. Requester attempted to find more vendors to complete this task and was unsuccessful in their search to find a company that could provide the parts or that could provide the complete service. There are no other local vendors who provide this service due to Kaeser Compressors being the manufacturer of the machine and the parts used at Vance.		
Section E: Steps to Preclude Future Single Source Awards		
Only Kaeser Compressors, Inc will be able to provide this service as the parts and filters can only be obtained through this company. However, we will continue to monitor the business market to find viable solutions that can meet our requirement. We will continue to use all available resources in an effort to remove barriers for competition when future acquisitions are required.		
Section F: Contracting Officer's Determination		
I have determined, in accordance with <u>FAR13.106-1(b)(1)</u> , that the circumstances of this contract action deem only a single source is reasonably available.
