

Statement of Work (SOW)

Statement of Work (SOW)

For

Converting MVSS-R EchoShield Variant to MVSS-R SR-Hawk Variant

DRAFT

1.0 Introduction and Overview

The purpose of this Statement of Work is to have a contractor convert a Mobile Video Surveillance System-Radar (MVSS-R) EchoShield variant to an MVSS-R SR-Hawk variant.

2.0 Background

The Federal Aviation Administration Logistics Center (FAALC) has been designated by U.S. Customs and Border Protection (CBP) as the Servicing Agency and independent government entity with Primary Inventory Control Activity responsibility (with depot-level authority) throughout the life cycle of the CBP's border security programs.

3.0 Scope of Work

Contractor support is needed to purchase and install a SR-Hawk radar (PN: SRC2401E-14), cabling, and mounting hardware. To fit the SRHawk Radar, the Single Access Positioner (SAP) (PN: 113115) will need to be modified and installed on to the truck. After the hardware is installed, the system will need to be tested and calibrated. The Government does not own MVSS-R data rights.

4.0 Objective

Obtain MVSS-R SRHawk truck.

Contractor will:

- Purchase and install SR Hawk Radar and associated cabling.
- Modify and install SAP and associated cabling to fit SR Hawk Radar.
- Purchase and install new radar mounting hardware.
- Calibrate/leveling/testing of system.

5.0 Government Furnished Property

The Government will provide a MVSS-R EchoShield truck.
