

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 30 CONS/PKB

Project/Program Name: S4S Commercial Internet Service

Purchase Request / Local ID Number: TBD

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

Provide Commercial Internet Services (CIS) for building 7000 and 8401 users at Vandenberg Space Force Base (VSFB).

Section C: Justification for Soliciting from a Single Source or Brand Name

The incumbent, Inyo Networks, Inc. (a small business), currently has its IT infrastructure installed at these facilities. The government will incur a duplication of cost if not restricting competition for this requirement. IAW FAR 6.302-1(iii)(A) "...services may be deemed to be available only from the original source in the case of follow-on contracts for the continued provision of highly specialized services when it is likely that award to any other source would result in - (A) Substantial duplication of cost to the Government that is not expected to be recovered through competition...".

While services in this case may not be 'highly specialized,' the infrastructure can only be installed by vendors who have an Agreement to Operate on Vandenberg SFB. Those vendors were able to provide quotes on the initial award of this contract, and Inyo was awarded the contract. Awarding to another would necessitate paying them installation costs for the same type of equipment that currently exists. The government would receive no additional benefit as the service would be fundamentally the same.

Section D: Efforts to Obtain Competition

It was determined there will be a duplication of costs for a new Internet Service Provider (ISP) to install their IT infrastructure if not awarded to the incumbent.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

To preclude future single-source justifications for this requirement is to conduct thorough market research to identify all potential vendors, including new service providers with an agreement to operate on VSFB. Given the aging of the current IT infrastructure, it is critical to explore vendors with the capability to upgrade or replace outdated systems. Develop a clear Statement of Work (SOW) to ensure any vendor can meet the requirements. Maintain an updated list of pre-qualified vendors and engage with industry through outreach events to foster competition.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
