

STATEMENT OF WORK
Eastern Oklahoma VA Healthcare System
Biomedical Test Equipment

GENERAL

Purpose /Objective: Eastern Oklahoma VA Healthcare System (EOVAHCS) the requirement of the BMET Pack Pro-M supports the VA's mission to enhance biomedical services and operations for Veterans at the Tulsa VAMC. This purchase will improve the efficiency and accuracy of medical equipment repair and maintenance, ensuring better outcomes for Veterans.

Research Design and Methods: This SOW pertains solely to procuring Biomedical Test Equipment. The test equipment will provide Biomedical Equipment Support Specialists to maintain and repair medical equipment to the highest standard resulting in top care for our Veterans. This equipment is designed to be compact and ensure all needed test equipment is within immediate reach of the technician, allowing for streamlined day-to-day operations. The backpack will allow customizable automated testing with detailed electronic reports, exporting the test reports to the medical equipment's database for record-keeping, eliminating human error. This unit allows maximum portability and allows BioMed to perform their duties effectively and efficiently.

The Pronk test equipment is proprietary technology with proprietary software. This equipment is designed to be compact and ensure all needed test equipment is within immediate reach of the technician, allowing for streamlined day to day operations. The backpack will allow customizable automated testing with detailed electronic reports, exporting the test reports to the medical equipment's database for record-keeping, eliminating human error. This unit allows maximum portability and allows BioMed to perform their duties effectively and efficiently.

Responsibilities VA: Provide the necessary infrastructure and access to facilitate the product's initial setup. Verify that the product meets the agreed-upon specifications upon delivery. Ensure proper storage and operational readiness for the product, coordinating the system's integration within the Biomedical department.
