1. Description of Need

Garrison Dam NFH requires 66-ton of 50/50 mixed alfalfa meal (15% protein) and wheat middlings delivered to the Garrison Dam National Fish Hatchery at Riverdale, ND. Ridley USA Inc is the only feed distributor that provides alfalfa meal with 50% wheat middlings and has the ability to reach the top of our 50 foot bin that stores the alfalfa feed

2. Market Research Conducted

Although other vendors are available that can provide alfalfa feed our requirement is specific and only distributed by one vendor. Our alfalfa meal requires 50% wheat middlings and no other feed distributor makes alfalfa with that concentration of wheat middlings. In addition, Ridley USA Inc is the only distributor that can reach the top of our 50 foot food storage bins.

3. Other Capable Sources

Although other vendors are available that can provide fish food, our requirement for alfalfa meal is specific and only distributed by one vendor. We have been buying alfalfa meal from Ridley USA Inc for many years and no other company can provide 50% wheat middlings and has the ability to unload the alfalfa meal into our 50 ft storage bins.

4. Barriers to Competition

No other sources are available at this time to provide our specific alfalfa diet. In future requests that do not require 50% wheat middlings, the requirement will be competed as full and open. We will continue to monitor the market to ensure Ridley USA Inc remains as the sole distributor prior to purchase request submittal.

5. Contractor's Qualifications

Ridley USA Inc is the sole distributor that can provide and deliver the alfalfa. The alfalfa meal requirements are: 50/50 mix of alfalfa meal (15% Protein) and wheat middling. FAR 6.302-2 (b) (2) Delay in award of a contract would result in serious injury, financial or other, to the Government and catastrophic loss of life of endangered fish. Ridley USA has the ability to reach the top of our 50 foot bin that stores the alfalfa feed during the delivery process
