DESCRIPTION

NOTICE OF INTENT TO AWARD SOLE SOURCE

I. The Network Contracting Office (NCO) 16, located at Galleria Financial Center, 5075 Westheimer Rd, Ste 750, Houston, TX 77030, intends to solicit and award a Sole Source, Firm-Fixed-Price to one Small Business (SB) source, B2H Consulting Group LLC. Located at 2039 Morgan Ave N, Stillwater, Minnesota 55082-8923. This will be for Overton Brooks VA Medical Center, 510 E. Stoner Ave, Shreveport, LA 71101. B2H Consulting Group LLC is the Original Equipment Manufacturer (OEM) for the government equipment.

Description	Part Number	Quantity
ACIST CVi STANDARD Contrast Dye Injector System	019398	1

II. The North American Industry Classification (NAICS) code for this acquisition is 339112, Surgical and Medical Instrument Manufacturing. The size standard is 1000 employees.

III. This purchase will be made under the authority of 41 U.S.C. § 1901 and is implemented in accordance with Federal Acquisition Regulation (FAR) 13.106-1(b)(2), for restricting competition since only one responsible source is available.

IV. The estimated award date is May 3, 2025.

V. Please note, this is not a request for competitive quotes/proposals and is being posted for informational purposes only. Telephone inquiries will not be accepted. If no responses are received, the Contracting Office will proceed with the sole source negotiation with B2H Consulting Group LLC. Interested contractors shall provide the following information as an attachment to your response:

1. Identify any other companies owned (wholly or in-part) by the owners of this business who provide goods or services under the same or a related NAICS codes. Contractors shall provide their point(s) of contact name, address, telephone number, and email address, and the company's business size, and SAM Unique Entity Identification Number.
2. Is your company a small business, SDBs, HUBZone, or 8A concern? Please provide proof of qualifications. Is your company considered small under the NAICS code: 339112?
3. Do you plan on responding to a solicitation for this requirement with a Joint Venture utilizing multiple owned companies as majority or non-majority owner? Yes ___ No ___ If yes, please identify which companies you are considering a Joint Venture and the ownership of each company.

Special Notice

4. Do you have an existing BPA's, GSA or VA, Federal Supply Schedule contract to procure the product being requested, please include the contract details in your response.
5. Do you (Contractor) manufacture the product itself or a distributor of the items being researched above?
6. Are you an authorized distributor/reseller? Provide evidence from original equipment manufacturer (OEM).
7. Do you (Contractor) supply a product manufactured by another domestic small business, if it is a nonmanufacturer?
8. Do you (Contractor) supply the product of any sized manufacturer if SBA has granted a waiver to the nonmanufacturer rule?
9. Is your (Contractor) Buy American Certificate completed in SAM? Please provide evidence with response.
10. Is your (Contractor) Trade Agreement Certificate completed in SAM? Please provide evidence with response.
11. Information for the product being requested, is it manufactured outside the US-Domestic non-available?
12. Information for the product being requested, is it a foreign manufactured end product under the trade agreement?
13. What is your schedule of delivery after receipt of order for the product?

VI. Interested parties shall identify their interests and capability in response to this notice within Ten calendar days of the publication of this notice. Any response to this notice shall show clear and convincing evidence that competition would be advantageous to the Government.

VII. Questions regarding this notice should be sent to Contracting Specialist Rhonda Gibson no later than March 25, 2025, by 10:00am (CST) at rhond.gibson2@va.gov.

Statement of Work (SOW)
For
Department of Veteran Affairs

ACIST CVi STANDARD Contrast Dye Injector System Brand Name Only

A. GENERAL GUIDANCE

1. Objective: Overton Brooks VA Medical Center System is seeking a contractor to provide the purchase of one (1) ACIST CVi Standard Contrast Dye Injector System w/7-year warranty and preventative maintenance which will be used at The Overton Brooks Veteran Affairs Medical Center in Shreveport Cardiology Department.

2. Scope: The contractor shall provide all resources necessary to accomplish the deliverables described in this statement of work (SOW), except as may otherwise be specified. Contractor shall procure and delivery of one (1) ACIST CVi Standard Contrast Dye Injector System brand name only from B2H Consulting Group. The ACIST | CVi System standardizes cardiovascular angiographic imaging across all procedures, from small injections in the coronaries to large volumes in the ventricles and peripheral vasculature. It's the advanced technology that physicians and staff can rely on for consistency and safety.

3. Background: The AVIST CVi System allows us to regulate contrast flow and thus minimize contrast induced acute kidney injury. Using a power injector when compared to manual injection has been shown to decrease contrast nephropathy by up to 30%. This is an important patient safety benefit as we are using more smaller diameter catheters to image vessels. We need power injection because manual injection does not generate sufficient flow to opacify vessels due to increased resistance. This can adversely affect the quality of our studies and potentially contribute to missed diagnoses. With the new lab we have newer technology which requires power injector synchronized with the lab for special images like bolus chase and 3D reconstruction. Power injection also allows the operator to step away from the field thereby minimizing radiation exposure to the operators thus enhancing workplace safety. Lastly, manual injections can't opacify larger vessels such as aorta and the vena cava. For these reasons we need a power injector with variable flow to be installed in the lab.

4. Period of Performance: The item being request shall be delivered 7-10 business days from date processed. Product may be shipped sooner if available.

This is a onetime purchase; delivery should be completed within 7-10 business days from date of award. Working hours are between 8:00a.m. – 4:30p.m., Monday through Friday. All federal holidays excluded.

The VA follows all Federal holidays that are set by law (USC Title 5 Section 6103).

The Government hereby provides notice and Contractor hereby acknowledges receipt that Government personnel observe the listed days as holidays:

Federal Holidays

New Year's Day	January 1st
Martin Luther King's Birthday	3rd Monday in January
President's Day	3rd Monday in February
Memorial Day	Last Monday in May
Juneteenth	June 19th
Independence Day	July 4th
Labor Day	1st Monday in September
Columbus Day	2nd Monday in October
Veteran's Day	November 11th
Thanksgiving Day	Last Thursday in November
Christmas Day	December 25 th

In addition to the days designated as holidays, the Government observes the following days:

1. Any other day designated by Executive Order.
2. Any other day designated by the President's Proclamation; and

3. Any other day designated by Federal Statute.

5. Place of performance:

Overton Brooks VA Medical Center,

510 E. Stoner Avenue,

Shreveport LA, 71101

POC: Felicia L. Stinson,

Email: felicia.stinson@va.gov

Contractor shall provide on dock delivery. and can be reached via phone at 318-221-8411 ext. 14616.

Attn Warehouse: Overton Brooks VA Medical Center 510 East Stoner, Shreveport LA 71101, 6th floor room 21C (6E21C)

B. General Requirement

Contractor shall provide new purchase ACIST CVi Standard Contrast Dye Injector System for Overton Brooks VA Medical Center 510 East Stoner, Shreveport LA 71101.

a. Salient Characteristics (Shall include but is not limited to the following brand name or equal to ACIST CVi Standard Contrast Dye Injector):

- Variable rate control allows for precise contrast delivery and reduces contrast volumes by 22% over hand manifold¹.
- Multi-use syringe facilitates the use of a single bottle of contrast in up to six patient procedures, which reduces set-up time between cases.
- Air Column Detect (ACD) sensor is designed to aid the user in the detection of air columns in the injection tubing to avoid injecting air and causing an air embolism.
- Manifold is designed to prevent reverse flow by automatically closing when fluid flow stops.
- Pneumatic hand controller enables ergonomic contrast delivery.

- Automatic hemodynamic monitoring capability.
- Hand Controller
- Touch screen monitor
- Built-in air column detection sensor
- Isolated contrast reservoir
- Pressure Transducer backplate and disposable cartridge
- Syringe valve sensor
- Syringe mounting chamber.
- Transportable
- Adjustable arm
- Injector head

B. Technical Requirements:

- Power supply
- 100 to 120 VA
- 50-60 Hz
- Cart Dimensions: Wheelbase footprint 53.3 × 63.5 cm (21 × 25 inches), height 91.4 cm (36 inches)

b. Contractor shall provide Operators Manual and quick reference guides on the equipment.

C. DELIVERY, SET-UP AND INSTALLATION shall be coordinated with The Overton Brooks VA Medical Center. Be aware of site-specific protocols for badging, escorts and hours for delivery.

The Contractor shall remove all related shipping debris and cleanup everything associated with delivery and installation of product of need. Contractor shall remove all packaging from Overton Brooks VA Medical Center. The Contractor shall be responsible for any damage to the building that occurs due to Contractor error or neglect.

The contractor shall coordinate all deliveries, staging areas, installations, and parking arrangements with the Felicia L. Stinson 318-221-8411 ext.14616.

Overton Brooks VA Medical Center does not have the ability to accept drop shipments from manufactures. There shall be no staging and/or storage at the Overton Brooks VA Medical Center warehouse. All products shall be off loaded by awarded vendor and delivered directly to the installation location.

Awarded vendor is responsible for any equipment needed to unload products and/or for transferring product the installation locations.

Contracting Officers within the networking contracting office issuing the contract, only, may issue modifications to the contract and may do so via a bi-laterally executed, written modification in accordance with FAR 52.212-4(c). Distribution shall be made via email; no hard copies shall be distributed.

**D. VHA Supplemental Contract Requirements for Ensuring Adequate COVID-19 Safety
Protocols for Federal Contractors (Amended December 6, 2021)**

1. Contractor employees who work in or travel to VHA locations must comply with the following:

a. Documentation requirements:

1) If fully vaccinated, shall show proof of vaccination.

NOTE: Acceptable proof of vaccination includes a signed record of immunization from a health care provider or pharmacy, a copy of the COVID-19 Vaccination Record Card (CDC Form MLS-319813_r, published on September 3, 2020), or a copy of medical records documenting the vaccination.

2) If unvaccinated and granted a medical or religious exception, shall show negative COVID-19 test results dated within three calendar days prior to desired entry date. Test must be approved by the Food and Drug Administration (FDA) for

emergency use or full approval. This includes tests available by a doctor's order or an FDA approved over-the-counter test.

3) Documentation cited in this section shall be digitally or physically maintained on each contractor employee while in a VA facility and is subject to inspection prior to entry to VA facilities and after entry for spot inspections by Contracting Officer Representatives (CORs) or other hospital personnel.

4) Documentation shall not be collected by the VA; contractors shall, at all times, adhere to and ensure compliance with federal laws designed to protect contractor employee health information and personally identifiable information.

2. Contractor employees are subject to daily screening for COVID-19 and may be denied

entry to VA facilities if they fail to pass screening protocols. As part of the screening process contractors may be asked screening questions found on the COVID-19 Screening Tool. Check regularly for updates.

a. Contractor employees who work away from VA locations, but who will have direct contact with VA patients shall self-screen utilizing the COVID-19 Screening Tool, in advance, each day that they will have direct patient contact and in accordance with their person or persons who coordinate COVID-19 workplace safety efforts at covered contractor workplaces. Contractors shall, at all times, adhere to and ensure compliance with federal laws designed to protect contractor employee health information and personally identifiable information.

3. Contractor must immediately notify their COR or Contracting Officer if contract performance is jeopardized due to contractor employees being denied entry into VA Facilities.

4. For indefinite delivery contracts: Contractor agrees to comply with FAR 52.232-99 and VHA Supplemental Contract Requirements for any task or delivery orders issued prior to this modification when performance has already commenced.

(End of Statement of Work)
