

Single Source Justification (Simplified Acquisition)**Section A: General Contract Information**Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity: 30 CONS

Project/Program Name: 532 Wifi Services Recompete

Purchase Request / Local ID Number: F3V5E25057AW05

Estimated Contract Cost (including Options): XXXXXXXXXX**Section B: Description of the Supplies/Services Required**

One (1) year of Internet service for the 532nd Training Readiness Squadron at Vandenberg SFB, CA

Section C: Justification for Soliciting from a Single Source or Brand Name

IAW authority FAR Part 6.302-1(a)(2)(iii)(A), awarding to another source for Internet services would result in substantial duplication of cost to the Government that is not expected to be recovered through competition. Yondoo Broadband LLC is one of only two small businesses that have an active commercial connection to the Demarc at Vandenberg Space Force Base, CA (VSFB). Of those two businesses, only Yondoo currently has network infrastructure in the buildings subject to the requirement. Data from the most recent solicitation of this requirement (FA461023Q0105) indicates that the cost of installing infrastructure for Internet service from other companies not in the Demarc or in the buildings subject to the requirement would incur costs far in excess of the costs of the services provided, which indicates that even if the cost of Internet services was lower, it would take well over five years of service to recoup the costs of installation. Thus, awarding to another source of Internet services other than Yondoo would result in duplication of costs that would not likely be recouped through competition of this one-year requirement.

Section D: Efforts to Obtain Competition

Engaged with VSFB personnel for current companies approved and connected to Demarc at VSFB. Determined which companies currently have infrastructure in the subject buildings.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

To preclude future single-source justifications for this requirement is to conduct thorough market research to identify all potential vendors, including new service providers with an agreement to operate on VSFB. Given the aging of the current IT infrastructure, it is critical to explore vendors with the capability to upgrade or replace outdated systems. Develop a clear Statement of Work (SOW) to ensure any vendor can meet the requirements. Maintain an updated list of pre-qualified vendors and engage with industry through outreach events to foster competition.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
