

**PERFORMANCE WORK STATEMENT
FOR REPAIR AND CALIBRATION OF OPTICAL GAGING PRODRUCTS, MODEL
OGP SMARTSCOPE QUEST 600**

1.0 GENERAL. The U.S. Army Test, Measurement and Diagnostic Equipment Activity (USATA) has a requirement to acquire commercial repair and calibration of the following test, measurement and diagnostic equipment manufactured by Optical Gaging Products (OGP).

2.0 CONTRACTOR TASKS.

2.1 A preliminary evaluation, on the Model OGP Smartscope Quest 600, SN: SQ6001210 indicates the unit requires repair and calibration, to include reinstallation and software reconfigurations of the OGP Smartscope Quest 600 after repairs are completed. The contractor shall provide repair, calibration, software updates and reinstallation to the unit per manufacturer's specifications.

2.2 The contractor shall replace defective parts, as required, with original equipment manufacturer parts only. The contractor shall strictly comply with turn-around-time to repair as stated in the contract.

2.3 The contractor shall not provide any repair or other services outside the scope of this contract without authorization from the government Contracting Officer listed at page 1 of the contract. The contractor shall not relocate equipment to contractor's facility outside without authorization from the Contracting Officer.

3.0 GOVERNMENT TASKS.

The U.S. Army TMDE Activity, Redstone Arsenal, AL (Acceptance DODAAC: W80RA6) shall be responsible for receiving, inspection and acceptance in DFAS Wide Area Workflow (WAWF) for the unit.

4.0 PLACE OF PERFORMANCE. Shall take place at the government's facilities respectively located at Rock Island, IL as an on-site maintenance call, as follows:

4.1 U.S. Army TMDE Support Center, Bldg. 131 Gillespie St. Rock Island, IL 61299

5.0 PERIOD OF PERFORMANCE. 60-90 days after receipt of award.

6.0 GOVERNMENT-FURNISHED EQUIPMENT. None.

7.0 QUALITY REQUIREMENTS. Not Applicable.
