**Section B: Description of the Supplies/Services Required**

This package is to furnish additional workstations, reconfiguration of existing, and additional storage in the first floor room 163 of Building 20015 (Area B) Wright Patterson AFB, Ohio 45433. The contractor shall provide all labor, electrician, transportation, and tools to deliver and assemble items to Building 20015. This is a return to work maximization of existing new furniture.

Section C: Justification for Soliciting from a Single Source or Brand Name

The current workstations in use are Haworth (Compose) products. Any additional workstations must be compatible with the existing furniture to maintain product consistency and allow for future reconfigurations across all spaces. These products utilize proprietary connectors, and warranty claims must be made through the same manufacturer. Also, Haworth dealers are authorized to bid only within specific regions or territories; For Wright-Patterson Air Force Base, the exclusive authorized dealer is Elements IV, making them the sole source provider for this procurement.

Section D: Efforts to Obtain Competition

A thorough market research study was conducted with other systems furniture manufactures to confirm if they could meet the requirements needed for the existing furniture. The market research showed that due to the proprietary nature of the furniture design, only Haworth could meet the requirements for this effort.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

In the future, when furniture requirements do not require connecting to existing furniture or in near proximity, a market survey will be conducted to determine potential future sources.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
