

FULLY INSTRUCTOR LED CERTIFIED FIBER INSTALLER COURSE AND EXAM STATEMENT OF WORK

1.1 Scope of Work:

The requirements in this document contain the information necessary to provide the Equipment Repair and Maintenance Branch, M32 with fully instructor led course work that meets Building Industry Consulting Service International BICSI standards. The desired course work should cover fiber optic installer training, optical loss testing, and Certified Fiber Optic Installer exam preparation for up to ten (10) individuals delivered in two (2) performance periods to accommodate student availability. In addition to the course work, M32 requires administration of the Certified Fiber Optic Installer exam from an Electronics Technicians Association (ETA) accredited provider upon the completion of each course.

2.1 Applicable Document:

2.2 Conflicting Document Requirements:

If there are any conflicts between specifications, drawings, or requirements listed herein, the contractor shall notify the Contracting Officer (KO) and the Technical Point of Contact (TPOC), in writing for interpretation, clarification, and resolution.

3.1 Requirements:

Provide on-site instruction and certification including all lab material and exams.

3.2 Services and Parts:

The Contractor shall provide one (1) certified instructor during two (2) separate periods of performance to lead Certified Fiber Installer CFI training lecture for five (5) students each period as well as all lab kits and instruction for all labs to be conducted over four (4) consecutive 8 hour periods. The Contractor will also provide and administer the Certified Fiber Installer, Electronics Technician Association (CFI ETA) exam and provide certificates for five (5) individuals at the completion of each of the afore mentioned periods.

3.2 Acceptance:

The Government shall alert the Contractor to any nonconforming services within one (1) working day of identifying the nonconformity. The Contractor shall respond with their recommended disposition on the services within one (1) working day.

3.2 Shipping:

The Contractor shall be responsible for shipping all required lab equipment and materials.

4.0 Place of Performance:

The (4) day lectures, labs, and training are to take place at Naval Surface Warfare Center Indian Head Division NSWC IHD, 4337 Bailey Rd., Building 268, Indian Head, Maryland, 20640.

4.1 Deliverables and Service:

The Technical Point of Contact and Contracting Officer (KO) for this contract will approve all deliverables and services as specified herein.

4.2 Delivery Schedule:

There will be two (2) Periods of Performance scheduled as follows:

Period of Performance 1:

Start Date: July 21, 2025

End Date: July 24, 2025

Course Sessions: 1

Participants: 5

Location/Format: 4337 Bailey Road Indian Head, MD 20640 Building 268 / In-person

Hours of instruction per day: 8

Period of Performance 2:

Start Date: September 8th, 2025

End Date: September 11th, 2025

Course Sessions: 1

Participants: 5

Location/Format: 4337 Bailey Road Indian Head, MD 20640 Building 268 / In-person

Hours of instruction per day: 8

The Contractor shall notify the Contracting Officer 30 days in advance if the Contractor cannot meet the contracted delivery schedule. Contractor shall notify Technical Point of Contact when lecture dates are scheduled.

4.3 Materials and Service Being Procured:

The Contractor shall be responsible for delivering and performing the following items.

Description of Materials and Service:

Part Number / Product Description / Quantity

1. On-site instruction / Quantity 2

- Provide certified CFI instructor/exam proctor to lead lecture and labs including travel to IHD on site location delivered in two (2) performance periods.

2. Certified Fiber installer Course / Quantity 10

- Provide certified fiber installer training for ten (10) students. Training outline should identify the ten (10) students as fiber installers able to demonstrate a

practical knowledge of fiber optic theory, codes, standards and practices widely accepted in the fiber optic industry. Each course should also include (2) days of hands-on training validating installer skills, including fiber terminations, cable preparations, fusion splicing, optical time domain reflectometer OTDR equipment and optical loss testing.

3. Certified Fiber installer lab kits / Quantity 10

- TL-01B – OSP ARMORED CABLE KIT
- TL-01E - EBUFFER FAN-OUT LAB KIT
- TL-02A - FUSION SPLICING LAB KIT
- TL-03A-04A-05A - MECHANICAL SPLICE CONNECTOR, SPLICE CONNECTOR, PIGTAIL LAB KIT
- LAB MANUAL

4. CFI ETA Exam / Quantity 10

- Exam class and testing for CFI ETA

5. CERTIFICATES / Quantity 10

- ETA FOI-CFI Certificate – FOI Class

6. CERTIFICATES / Quantity 10

- CFI – Completion Certificate TFS

4.4 Delivery & Service Address:

Naval Surface Warfare Center Indian Head Division
4337 Bailey Rd.
Bldg. 268, Rm. 118
Indian Head, MD 20640

4.5 Technical Point of Contact:

William (Bill) Russell
(301) 848-7252
william.j.russell154.civ@us.navy.mil

6.0 Government Furnished Property:

- For purposes of fulfilling the contractual obligation there will be no government property furnished.
