

**JUSTIFICATION AND APPROVAL FOR OTHER THAN FULL AND OPEN
COMPETITION (OVERSEAS CONTRACTING ACTIVITIES)**

1. I recommend that Embassy Georgetown use other than full and open competition for the acquisition of services to enact urgent repairs to Chancery well. The estimated cost is G \$ 7,000,000.00/USD32,558.14

2. A description of the supplies or services required to meet the agency's needs.

Repairs to water well pump motor, replacement of electrical supply cable and service well. The pump motor is burnt and must be replaced to fit the existing pump which also has to be down sized. The current electrical supply cable is not adequately sized and must be replaced also. The well has never been serviced since it has been put into operation some two years plus

3. An identification of the statutory authority permitting other than full and open competition.

Per FAR Part 6.3, Unusual and Compelling Circumstances, the well has been down for the past three months and is currently in danger of failing completely if not brought back into service as soon as possible.

4. A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the authority cited (for sole source acquisitions; also required for unusual and compelling urgency where more than one offer will not be solicited).

Contractor is currently working on the well and is aware of the conditions and challenges of the well. Also, the well has been down for a few months. To prolong the process will mean that we can lose the productivity of the well or the well altogether due to cave in etc.

5. A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable. The description should include whether a FedBizOpps notice was or will be publicized, as required by FAR 5.2, and if not, which exception under FAR 5.202 applies (e.g., blanket waiver provided in DOSAR 605.202-70).

Exception 5.202 (2) applies, because of the urgency of the situation post cannot afford to wait for the advertising process, we contacted the Guyana Water Inc, the local government office responsible for water and sanitation and this vendor was recommended because he has done works with them in the past.

6. A determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

The pricing provided is in line with previous pricing for similar work. Additionally, because the vendor initiated the project, post will not incur charges related to the existing work that would be incurred through a new vendor.

7. A description of the market survey conducted and the results or a statement of the reasons a market survey was not conducted.

We contacted the Guyana Water Inc, the local government office responsible for water and sanitation for referrals and market costs.

8. Any other facts supporting the use of other than full and open competition.

City water supply is poor in quality and regularity. Further delays to the repair will result collapse and loss of all functionalities of the well.

9. A listing of sources, if any that expressed, in writing, an interest in the acquisition.

There was no other interest in the acquisition.

10. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

Post would like to create a maintenance contract for the well, this will be advertised and offers will be solicited from as many vendors as possible.

CERTIFICATIONS

I certify that this justification is accurate and contains complete data necessary to support the recommendation for other than full and open competition.
