SECTION 1: IDENTIFICATION OF THE AGENCY AND THE CONTRACTING ACTIVITY

**Department of State
Contracting Activity**

☒ Office of Acquisitions Management

Requiring Activity

A/GA/AMD/DMS

SECTION 2: NATURE AND/OR DESCRIPTION OF THE ACTION BEING APPROVED

A new, unusual and compelling six (6) months, to include two (2) 90-day option periods, contract is being sought for the incumbent contractor Constellis DBA Centerra Group to continue to provide EMS and Fire services in support of hard skills security training to State Department personnel and the foreign affairs community.

The contract for Centerra Group, 19AQMM19D0075, task order 19AQMM19F0709 expires on February 5, 2025. The Government is working to finalize the approvals for posting a solicitation on SAM.gov. A new follow-on contract is required for continuation of emergency support services while security training exercises are conducted at FASTC on Fort Barfoot, VA. However, current contracted emergency EMS/Fire services are needed for six (6) months to include two (2) 90-day option periods, if required, to allow sufficient time for solicitation and award.

The action to be approved is for a bridge contract for six months to the incumbent contractor, Centerra Group, 13530 Dulles Technology Drive, Herndon, VA 20171.

The current contract 19AQMM19D0075 Option Year 4 end date was August 4, 2024. FAR 52.217-8, Option to Extend Services, was exercised for a period of six (6) months for period of performance of August 5, 2024 through February 5, 2025. The complete Period of Performance is as follows:

Base Period: August 5, 2019-August 4, 2020
Option Year One: August 5, 2020-August 4, 2021
Option Year Two: August 5, 2021-August 4, 2022
Option Year Three: August 5, 2022-August 4, 2023
Option Year Four: August 5, 2023-August 4, 2024
Option to Extend Services: August 5, 2024-February 4, 2025

Additional time for emergency EMS and Fire services is being requested as there have been unforeseen delays in finalizing the SOW in November 2024 after the procurement package was submitted in late July 2024. Failure to permit the execution of the bridge award could result in the disruption of current services and cause serious injury to the U. S. Government.
